Section 1: Comparison Chart

Comparison Chart

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 are correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

Screen: Part A - Establish your groups				
Screen Entry	The number entered is outside the expected range of between 309 and 463 when compared with the prior year value. Please correct your data or explain. (Error #7121)	Explanation	Yes	
Reason:	The amount reported for the fall enrollment was 466. The number was adjusted to account for one less student. The fall enrollment report did not issue a warning and the number of first time students is accurate. Additional first time students due to several new programs on campus including the addition of a new athletic program.			
Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 44 and 80 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	Data is from the student's FAFSAs. We are reporting all the cohort students who marked "Living with Parents/Relatives" on the FAFSA.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 39 and 71 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	Data is from the student's FAFSAs. We are reporting all the cohort students who marked "Living with Parents/Relatives" on the FAFSA.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	It appears that our low income students are getting less aid overall to cover costs. As an institution, we have focused institutional aid on the middle income groups, but it looks as though we now need to re-assess our institutional awarding process to better identify the needs of all income levels.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	Based on the data from prior years, this particular income level fluctuates significantly. Looking at the specific data, the awards that make up this group are predominantly institutional aid given for athletics or merit. It is such a small group that any changes would impact the average more than some of the larger groups like the \$0-\$30,000. The awards are also tuition waivers, and the tuition increased \$3 per credit over the prior year.

Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	Students in this income and the \$110,001 and higher income level either bring scholarships with them or receive institutional scholarship. The amount of institutional tuition waived is dependent upon the number of credits and the cost of tuition per credit. It appears that the \$75,000 to \$110,000 students may take less credit hours than those in the higher income range.
