FALL TERM, 1986
Sept. 15, 16, 17, 18, Monday-Thursday Orientation, advising and registration
Sept. 22, Monday Day and night classes begin
Oct. 3, Friday Last day to register or add classes without instructor's consent
Oct. 31, Friday Last day to withdraw from classes without responsibility for grades
Nov. 11, Tuesday Veterans' Day holiday
Nov. 27, 28, Thursday, Friday Thanksgiving vacation
Dec. 1, 2, 3, 4, Monday-Thursday Advising for winter term
Dec. 8-12, Monday-Friday Final examinations

WINTER TERM, 1987
Jan. 5, Monday Registration Day
Jan. 6, Tuesday Day classes begin
Jan. 16, Friday Last day to register or add classes without instructor's consent
Feb. 13, Friday Last day to withdraw from classes without responsibility for grades
Feb. 16, Monday Presidents' Day holiday
Mar. 9, 10, 11, 12, Monday-Thursday Advising for spring term
Mar. 11, 12, Wednesday, Thursday Early registration for spring term
Mar. 16-20, Monday-Friday Final Examinations

SPRING TERM, 1987
Mar. 30, Monday Registration Day - Night classes begin
Mar. 31, Tuesday Day classes begin
Apr. 10, Friday Last day to register or add classes without instructor's consent
May 25, Monday Memorial Day holiday
June 8-12, Monday-Friday Final examinations
June 12, Friday Commencement

SUMMER TERM, 1986
June 23, Monday Registration Day - Day and night classes begin
June 26, Thursday Last day to register or add classes without instructor's consent
July 3, Thursday Independence Day holiday
July 22, Tuesday Last day to withdraw from classes without responsibility for grades
Aug. 15, Friday Summer session ends

SUMMER TERM, 1987
June 22, Monday Registration Day - Day and night classes begin
June 25, Thursday Last day to register or add classes without instructor's consent
July 2, Thursday Independence Day holiday
July 21, Tuesday Last day to withdraw from classes without responsibility for grades
Aug. 14, Friday Summer session ends
THE COLLEGE
BRIEF HISTORY

The college district was formed in May, 1961. The 1,997 square mile area includes Coos and Western Douglas counties, with an estimated population of 68,500. The college serves seven high schools in the district.

September 25, 1961, was opening day, with an enrollment of 256 students. The college is still the only post-secondary institution on the southern Oregon coast. Enrollment has grown to nearly 8,000 a year, and more than 50,000 persons have attended classes since the college began. The original faculty has grown from 15 to 60 full-time faculty members, and from 11 to 125 part-time instructors. Cultural and athletic events attract an additional 20,000 men, women, and children to the campus each year.

During the early years of its existence, classes were held in surplus Navy facilities and Coos Bay public schools. An old hotel was the first administration building. The campus is now located on the shores of Empire Lakes. In a natural setting of coastal pine and shrubbery, it is on a 135-acre tract within the city of Coos Bay and adjacent to North Bend.

Construction began in 1963. Buildings have been named for historic post offices: Randolph, Umpqua, Cooseda, Sitka, Delwood, Prosper, Tioga, Empire, Eden, Summer, Sunset, Lampo, and Fairview.

Recent construction on campus has improved the livability of the campus and provided more adequate space for instructional programs. A college-community center, Empire Hall, with a cafeteria, quiet study room, meeting rooms, and a student recreation room, was opened in 1980. Facilities for music, art, home economics, nursing, forestry, welding, machine tools, faculty offices, a learning center, and a 103-seat lecture hall were added in the 1980s. Electronics, physics, word processing, and chemistry are in remodeled laboratories.

During the 25 years of the college's existence, a comprehensive instructional program has evolved. Instruction is divided into four general areas: the two-year academic transfer program which can be applied toward a degree at a four-year institution; one- and two-year vocational programs; adult basic education/high school completion; and adult life enrichment courses.

For the Associate in Arts degree and the first two years of a four-year degree, there are courses in:

- Business
- Computer Science
- Music
- Physical Education
- Art
- Health
- Writing/Literature

- Biological Sciences
- Physical Sciences
- Social Sciences
- Foreign Languages
- Criminal Justice
- Engineering
- Mathematics

For the student preparing for an occupation, there are programs in:

- Apprenticeship Trades
- Data Processing
- Machine Tools
- Forest Technology
- Electronics
- Automotive
- Social Services

- Welding
- Business
- Criminal Justice
- Fire Science
- Emergency Medical Technician
- Nursing

For students who need basic skills and may want to prepare for the GED tests, there are courses in:

- English Vocabulary
- Arithmetic
- Spelling

- Reading
- English as a Second Language

There is an adult high school diploma program for students 18 or older who may complete up to four years of high school by taking SWOCC classes. Both high school and college credit may be earned at the same time.

Adult life enrichment classes are as varied as the interests of the residents in the district. A sample of these offerings includes foreign languages, music, art, physical education, woodworking, welding, sewing, and foods courses.

Classes are also offered in towns throughout the district-Bandon, Coquille, Lakeside, Myrtle Point, Reedsport, and Powers, plus through special arrangement with the Education Service District, Curry County population centers.

The college was accredited by the Northwest Association of Schools and Colleges in 1965, and accreditation was reaffirmed in 1982 for another ten years. Courses are approved by the Oregon State Department of Education.

THE COLLEGE

Southwestern Oregon Community College is an equal opportunity institution. No one because of race, religion, color, sex, national origin, political affiliation, marital status, parental status, handicap or age shall be excluded from participation, denied benefits, or be subjected to discrimination or harassment in any educational or employment activity of the college community.

The provisions set forth in this catalog at the time of publication and at all times thereafter, are not to be regarded as an irrevocable contract between the student and Southwestern Oregon Community College. The college hereby reserves the right to make any necessary changes with respect to any matter discussed herein including but not limited to procedures, policies, calendar, curriculum, equipment available for instruction, course content or emphasis and all costs. All prospective registrants must assume, when registering in any course, that because of failure to attract a sufficient number of students or for any reason judged appropriate by the college administration, courses may be cancelled at any time.

Any interested person can obtain information about the existence and location of services, activities and facilities that are accessible and usable by handicapped persons by contacting the Office of Admissions.

Southwestern Oregon Community College is authorized under federal law to enroll non-immigrant alien students.
Statement of Purposes and Functions

Southwestern Oregon Community College is an educational institution dedicated to the optimum development of individuals. Education is important to human development and growth socially, economically and politically. Learning job skills is important, and just as important is learning to live and work with other people, knowing how to get involved in society’s work, understanding our history, art, science and literature. We believe in education for everyone who may profit from it, and in the dignity of choice of finding your place in society.

College educational programs and services provide learning experiences for a diverse group of students who:

1. Need guidance and counseling to assist them in establishing and achieving educational, occupational, and personal goals.
2. Wish to broaden their general educational and cultural experiences.
3. Wish to pursue occupational education courses for programs which will prepare them for employment.
4. Wish to pursue instruction that will improve their occupational skills and knowledge.
5. Need preparatory or remedial instruction that will allow them to pursue other educational or personal goals.
6. Wish to pursue college parallel (freshman or sophomore level) courses or programs to allow them to transfer to four-year colleges and universities.
7. Wish to participate in programs and activities that will contribute to their general, occupational, or personal growth and development.
8. Wish to utilize the resources of the college to promote the general welfare of the community.

SERVICES FOR THE COMMUNITY

A community college, as the name suggests, is an institution to serve the total community — men and women of all ages and many interests. The Board of Education seeks to encourage citizen participation in the college, and make campus services and facilities readily available to serve public needs.

College facilities are available to local organizations and citizen groups for meetings, workshops, and other events in the public interest.

A speaker’s bureau has been organized to provide lecturers and entertainment for meetings of local organizations and conventions.

The Library, which is housed on the second and third floors of Tioga Hall, is for community and college use alike. The card catalog, reference and book collection of 92,598 volumes are located on the second floor where reference assistance is available. The periodical collection of 475 titles and the Listening/Viewing Center containing 9,976 record albums, cassettes, videotapes, slides, filmstrips, and motion pictures are found on the third floor. Photocopy machines are located on both floors. Through interlibrary loan, it is possible to obtain materials from other libraries upon special request. Students and non-students may use the services listed.

The Audiovisual Center is located on Tioga Hall’s first floor east. It supports the instructional program through scheduling and distributing non-book media and through assisting faculty, administration, and students in media production. Non-students may make use of equipment and media programs by appointment.

THE COLLEGE DISTRICT

The college district is made up of Coos and Western Douglas counties, an area of 1,997 square miles with an estimated population of 68,500. This campus is on a 125-acre site bordering Empire Lakes in Coos Bay, near the city limits of North Bend. The Bay Area urban community includes Coos Bay, North Bend, and several unincorporated communities with a total population of about 40,000.

The region is noted for its mild climate and recreational opportunities. Principal industries include forest products, export shipping, fishing, farming and dairy products, and tourism. Coos Bay is a port of call for ships of many nations and is a major forest products shipping port.

ADULT BASIC EDUCATION

For adults whose education was interrupted before graduation from high school, the college provides classes in such basic skills as reading, writing, English, vocabulary, spelling, and arithmetic. Learning takes place in small groups, or through individual instruction. Tutoring and machine-learning are part of the process. It is not necessary to register at the beginning of a term; work may start at any time. Many students use this training to prepare for the General Education Development (GED) examinations.

GENERAL EDUCATION DEVELOPMENT (GED) TESTS

For adults who have not graduated from high school who would like to earn a Certificate of Equivalency, the Office of Student Services offers GED examinations. The staff will explain requirements for taking the tests and recommend staff members to help prepare the student to take the tests. Counseling is also offered to assist in further educational or career development.
1. **Arts and Lectures** - The Arts and Lectures Committee is made up of students, administrators and faculty, and has the task of utilizing the resources of the college to promote the general welfare of the community. It has met this responsibility by providing free noontime lectures, called the "Contemporary Lecture Series," a series of concerts and plays, and brings guest speakers to the community.

2. **Other educational opportunities** - Southwestern Oregon Community College cooperates with a number of other institutions, which have missions that complement our own. Upper divisions graduate classes are offered on campus by a variety of senior colleges and universities, including but not limited to: Southern Oregon State College, Eastern Oregon State College, Linfield College, and Oregon State University. Information about these classes is available in the Office of Instruction. Activities by senior institutions will vary from quarter to quarter.

3. **Curry County** - Southwestern Oregon Community College, in cooperation with Curry County and the Curry County Educational Services District, provides classes in Curry County. Funding for the classes comes from the State of Oregon and Curry County. Contact the Office of Instruction for the current schedule of classes.

4. **Work Experience/Field Experience** - Students who enroll in supervised work/field experience get practical on-the-job experience while earning credit. Work Experience is available for all programs at Southwestern Oregon Community College.

5. **Gold Card Club** - Residents of the college district who are 62 years or older are eligible for membership in the Gold Card Club and are entitled to the following benefits: (1) enrollment in college classes at half-price tuition on the campus and in Bandon, Coquille, Lakeside, Myrtle Point, Powers and Reedsport. (The discount does not apply to special fees.) (2) free admission to athletic events, plays, concerts, lectures, and cultural events both at the college and in high schools throughout the district. There are no membership dues, meetings or other obligations.

6. **Apprenticeship training** - Courses specifically identified as apprenticeship are open only to registered apprentices. A requirement (under Oregon State Law) is attendance in related classes for 144 hours of each year of the apprenticeship. Classes are offered, as needed, for carpenters, plumbers, millwrights, sheet metal workers, inside wiring electricians, maintenance electricians and power linemen. These classes are operated for the area in cooperation with local apprenticeship committees. Special classes may also be organized and operated for journeymen and other employed workers in the construction industry when the need exists.

7. **Occupational skills upgrading** - SWOCC offers full-term classes, workshops, and seminars in all vocational areas to upgrade needed skills. The college also offers training classes for volunteer firemen, volunteer emergency medical technicians, and reserve policemen. Most of these classes are tuition-free for paid firemen and policemen. Local industry is often prepared to pay either part or all of the tuition for employees. Check with your personnel department and/or supervisor.
HOW TO ENROLL
Southwestern Oregon Community College has an open-door policy. Anyone who is a high school graduate or is at least 18 years of age with the ability to profit from instruction may enroll in classes. In special cases, younger persons may enroll.

1. If you are interested in only an occasional class rather than in pursuing a degree, diploma or certificate program, you can register by mail, phone or at the college during registration periods.

2. If you plan to complete a degree, diploma or certificate program you need to do the following:
   (a) Submit an application for admission, along with a $10 non-refundable application fee.
   (b) Have your high school transcript forwarded to the college.
   (c) If you are transferring from another college, your transcript from that school should also be forwarded to SWOCC.
   *(d) Take the placement tests administered free of charge by SWOCC.*
   *(e) Attend an orientation session for new students.*
   (f) Get an advisor assignment from the Admissions Office. This will be a faculty member knowledgeable in the area of your major, who will advise and assist you in planning your educational program.
   (g) See your advisor and complete a registration form. The advisor must sign this form.
   (h) Follow the registration instructions in the class schedule.

3. Counseling and vocational interest testing are available to help you decide upon the courses, program or major best suited to your needs. For information or an appointment, call the Counseling Center at 888-7441.

4. Tuition is payable each quarter. See the class schedule for particulars. If you need financial assistance, visit the Financial Aid Office, Room 14, Dellwood Hall.

5. Handicapped students can obtain special assistance in registering by identifying themselves to the Admissions Office or to the Counseling Center.

* Students transferring from other colleges are exempt.

**RESIDENCY GUIDELINES**

You may qualify for Oregon residency tuition rates if you are not an international student and if you can document that you meet one of the following conditions:

1. Are 18 or older and have established permanent residency in Oregon at least 180 days prior to registration at the college.

2. Are a minor whose parents or legal guardian are legal residents of Oregon.

3. Are graduated from one of the high schools in Oregon within the past five years.

4. Are an emancipated minor, whose residency is independent of his parents or guardian, who has established permanent residency in Oregon for 90 consecutive days prior to registration in the college.

5. Are a United States military service veteran, or a dependent thereof, who establishes permanent residence in Oregon within one year of separation from the service.

6. Are a United States military serviceman or servicewoman on active duty in Oregon, or a dependent thereof.

7. Are an owner of real property in Oregon or a legally dependent child of a person owning real property in Oregon.

8. Are a foreign exchange student (J-1) visa (i.e., American Field Service student, Rotary International student, etc.) residing with a host family in Oregon.

Students from other countries except as specified above will be considered out of state residents for the duration of their college enrollment.

**TUITION AND FEES**

The college reserves the right to make changes in tuition and fees at any time, but they may not be increased for any term after the date announced for registration. This does not affect the right of the president of the college to levy special charges at any time, should conditions make this necessary.

Payment of tuition and fees entitles all students registered for academic credit to take advantage of services offered by the college, such as use of the library, laboratory equipment, and materials used in courses for which the student is registered, counseling and testing services, copies of the student newspaper, and admission to certain college-sponsored events. No reduction in tuition and fees is made to students who do not use these services.

**TUITION**

| State residents | $19 per credit hour, to a maximum of $200 per term |
| Non residents   | $57 per credit hour, to a maximum of $600 per term |

Students pay reduced tuition if they are enrolled for six or more credit hours and if their permanent (legal) address is in the college district and located:

1. within the Bandon, Coquille, or Reedsport school districts or more than 15 miles from the campus  25% reduction
2. within the Myrtle Point school district or more than 30 miles from the campus  50% reduction
3. within the Powers school district or more than 50 miles from the campus  100% reduction

Students applying for tuition reductions in excess of those allowed for the school district of the permanent address may be required to submit evidence confirming the mileage to the Director of Admissions.

**Gold Card Club members (62 or older and living within the college district) get a 50% reduction on tuition in all reimbursable courses (those numbered 0.500 or higher or those with a letter prefix). However, they pay full tuition for non-reimbursable courses (those numbered 0.000 to 0.499), as well as full special fees for all classes where those are levied.**

**Auditors** - Students taking class for audit participate fully in the activities of the class, but are not required to take tests since no grades are assigned. Tuition costs and fees are the same and regular registration procedures apply.

**Exception** - Tuition charges are $4 per clock hour for the following adult developmental classes:

- Writing Laboratory
- Competency Preparation and Testing
- Work and Life Experience Assessment
TUITION-WAIVED COURSES

If not taken for credit, there is no cost for tuition in:

0.522.7 Band
0.522.8 Choir
0.522.9 Orchestra
0.574 Hospice Care
0.747 English as a Second Language
0.593 Learning Skills Lab
9.380 CPR
  Sign Language
  Adult Basic Education/GED Prep

Courses for public service volunteers not pursuing a diploma or degree program:
9.360 First Responder
9.428 Emergency Medical Technician I
9.431 Emergency Medical Technician II
9.432 Emergency Medical Technician III
9.433 Emergency Services Recertification
9.381 Multimedia First Aid
9.382 Basic First Aid
9.383 First Aid and Emergency Care
  Fire Science Technology/Firefighting Courses
  Criminal Justice/Law Enforcement Courses

Courses for paid police officers and firemen not pursuing a diploma or degree program:
9.360 First Responder
9.433 Emergency Services Recertification

Career development courses for employees and volunteers of government agencies and health fields not pursuing a diploma or degree program:
9.390/.395 Career Development—Law Enforcement/Firefighter Training
9.427 Career Development—Health and Wellness
9.375 Search and Rescue Training

Special Fees

Special fees are assessed for courses and are payable at the time of registration. These fees cover costs of material used or costs of off-campus facilities used for the classes. Other special fees include the following:

  Application fee - $10
  Check irregularity fee - $5 plus $.30 per disbursement
  Credit by Evaluation - 10% of regular tuition for each credit (The charge, when the College Level Examination Program is used, is the actual cost of CLEP to the college.)
  GED testing fee - $20
  Late registration - $5 after the second week of the term
  $10 after the third week of the term
  Malpractice insurance fee - $12 (nursing students only)
  Performance studies fee - $45 (private study of voice or musical instrument; performance fees are not subject to free tuition or Gold Card Club members.)
  Photography darkroom - $25 (per 20 hours of use)
  Reinstatement fee - $10 (if registration is cancelled during the term but the student is allowed to re-enter later, a reinstatement fee is charged.)
  Transcript fee - $3 for official transcript, plus $1 for additional copies furnished simultaneously
  $1 for unofficial transcript

Counseling Center testing fee - variable
Data Processing Center fee - $10 (for each 20 hours of access for non-commercial use)
Graduation fee - $10

Refunds

Students who withdraw from college or drop courses may be entitled to a refund if they file a completed drop form with the Admissions Office. In emergency circumstances, a phone call followed immediately by a signed letter will be accepted for withdrawal of a student from a class or classes.

The amount of refund is calculated from the date the written withdrawal application is received in the Admissions Office. Any money owed to the college will be deducted from the refund.

Refunds for students initiated claims for tuition and fees refunds for classes three weeks or longer in duration are as follows:
- First week of term ........................................... 95%
- Second week of term ....................................... 70%
- Remainder of term .......................................... None

Refund of tuition and fees for classes, seminars, or workshops two (2) or fewer weeks in duration:
- Before the class begins ...................................... 95%
- During the remainder of the class sessions ............ At the discretion of the Director of Admissions, upon receipt of a written request and justification from the student.

The Director of Admissions may adjust a claim for refund if it is determined that the student was delayed in filing for reasons beyond his/her control. The claim must be presented in writing.

Change of Registration

Adding Classes
You may add classes during the first two weeks of the term without the instructor's consent. After that, the instructor's signature is required on the Add form.

Dropping classes or withdrawing from college
1. You may drop classes without responsibility for a grade through Friday of the sixth week in regular full-term courses. For eight-week terms, Tuesday of the fifth week is the cut-off date and a corresponding point for classes of irregular length.

2. After the above times, classes require a grade assignment and the signature of the instructor of the course from which withdrawal is sought. The instructor may use available grading options to evaluate completed work. He or she may assign credit for the portion of course work completed up to (but not to exceed) the credit approved for the course.

3. A student may appeal the assigned credit or grade by petition to the Academic Standards Committee. Petitions and additional information are available from the Office of Admissions.

Change from audit to credit
A student may change enrollment from audit to credit by the drop/add process. After the second week of the term, the instructor's signature is required on the form.

Change from credit to audit
A student may change registration status in a class from credit to audit by the drop/add process through the sixth week of classes (or a comparable point in time during the summer term). After that point in the term, such a change must be done by petition, and the instructor's consent and signature are required. In no event may such a change be made after the last week of classes.
FULL-TIME STUDENT

A student taking 12 or more credits in a regular term is classified as a full-time student. In summer term, students taking 8 or more credits are classified as full-time. (See special requirements for veterans)

CREDITS

The academic year is made up of three quarters of approximately 11 weeks each, plus an accelerated summer term of approximately eight weeks.

The usual student load is 15 or 16 credit hours per quarter. To complete the 93 credits required for an Associate in Arts degree in two years, a student must average 15½ credits per quarter. Credit requirements for the Associate in Science degree may vary, but the average number of credits required is 96, and the average course load is 16 credits per quarter.

To take a course load of more than 18 credits hours, you must petition the Academic Standards Committee. The granting of permission is based upon consideration of previous academic records, outside employment, and other factors. Petition forms are available from the Admissions Office.

Scholastic Status

The Honor Roll includes students who have completed 12 or more credits for the quarter with a grade point average of 3.50 or higher.

The Dean's List includes students who have completed 12 or more credits for the quarter with a grade point average of 3.00 to 3.49.

A student is not eligible for the Honor Roll or Dean's List during any quarter in which he/she gets a failing grade, a Y, or an I in any course.

Academic Notification Policy - Consistent with the purpose of Southwestern Oregon Community College to provide for the optimum development of individuals, an academic notification system has been developed to monitor the academic progress of students.

Full-time students and part-time students pursuing completion of a program are notified of possible lack of academic progress when:

a. The term GPA is less than 2.0.

b. The student receives two or more Ys and/or Fs.

Full-time students and part-time students pursuing completion of a program are placed on probation when:

a. During the second term of enrollment and thereafter, the cumulative GPA falls below 2.0.

b. For two consecutive terms, the student receives two or more Ys and/or Fs.

The student will continue on probation until the cumulative GPA is 2.0 or better, provided that during this time satisfactory academic progress is maintained.

If during any term while on probation a student does not make satisfactory academic progress, that student and the advisor will be notified that the student is suspended. A suspended student may petition the Academic Standards Committee for a hearing. The committee will then decide if the student will be reinstated and the conditions for such reinstatement.

Change of Grade Procedure - A completed supplementary grade report must be submitted by the Instructor, in person, to the Admissions Office. Copies are filed with the Admissions Office, and one copy is sent to the student.

Course Repeat Procedure - Upon written request by the student, the grades for repeated course work will replace all former grades in the same course on the permanent academic record. This applies to A, B, C, D, or F grades for second enrollment; a former grade may not be replaced with a Y, I, W, or X. A student may enroll for audit to refresh his mastery of the course without affecting earlier grades in the same course.

Final Examinations are part of each course. Students are required to take the final test at the scheduled time to complete the course and receive credit.

Credit by Challenge or Advanced Placement may be options for students who wish to obtain credit without formal classwork in subjects in which they have special knowledge. Work or military experience or certain high school classes may earn credit. Contact the Admissions Office for details.

CLEP - The College Level Examination program enables a student to demonstrate knowledge and proficiency and acquire credit in selected academic areas. A listing of the general and subject tests, and information about those that are accepted by the college, are available from the Student Services Office.

Advanced Placement tests taken while in high school may be accepted for college credit. For information, contact the Admissions Office.

Transfer Students - Records of credits earned at other accredited colleges or universities are evaluated as though the credits had been earned at Southwestern Oregon Community College.

Veterans

The Veterans Administration requires information concerning each veteran student's enrollment, date of interruption or termination of training, changes in the number of credit hours, and unsatisfactory progress or conduct.

Attendance - To maintain benefits payments, veteran students must attend classes. It is the responsibility of each registered veteran student to contact the Admissions Office and officially withdraw from the college if the student does not desire to attend classes. The veteran should then notify the Veterans' Services Office which will notify the Veterans Administration. Failure to do so may result in an overpayment to the student which the student must repay.

Change in Credit Load - When a veteran student changes credit load, the Veterans' Services Office should be notified and will in turn notify the Veterans Administration.

Developmental Courses - When a veteran student attempts to enroll in developmental courses for more than two terms, a determination will be made and forwarded to the Veterans Administration that continued enrollment in developmental courses is both useful and necessary. If such a determination is not made, the student will not be certified for continued enrollment in these courses.

Program of Study - All veteran students must have a declared major and may receive payment only for courses which are a part of their program.

Transfer Credits - Veterans who enter as transfer students, or who have completed any college level course work, are required to have all transcripts forwarded to the Admissions Office for evaluation. Failure to have transcripts evaluated will result in termination of benefits to the veteran student at the end of the first term of enrollment.

Hour Requirements - To receive full-time pay, the student must take a minimum of 12 credit hours. For 3/4 time pay, the student must take a minimum of 6 credit hours. During the summer term, students must maintain 12 standard class sessions per week for full time, 9 standard class sessions per week for 3/4 time, and 6 standard class sessions per week for half-time.

Satisfactory Progress - A veteran student must maintain an overall 2.0 grade point average. A veteran student will be notified of possible lack of academic progress. If in any one term more than one "no credit" grade is given, veteran students must complete an "I" within one year. A veteran student will be placed on academic probation when during the second term of enrollment and thereafter, the cumulative GPA falls below 2.0 or the student receives 2 or more Ys and/or Fs for two consecutive terms. A veteran student can continue on probation for only two consecutive terms, after which time unsatisfactory progress will be reported to the Veterans Administration and benefits terminated. The school will maintain records available to both the veteran and the Veterans Administration which show the final grade for each subject attempted.

Course Numbers

College parallel courses are numbered to conform with courses offered at other institutions of the State System of Higher Education. Transferable courses are those beginning with an alphabetical prefix (e.g. 101 Chemistry or CH104 General Chemistry are examples.) Numbers on these courses signify the following:

50-99 - High school level subjects. Some of these may be acceptable as credit toward an Associate degree or a Baccalaureate degree.

100-199 - Freshman level college courses, which are applicable to an Associate degree or Baccalaureate degree.

200-299 - Sophomore level college courses, which are applicable to an Associate or a Baccalaureate degree.

Number prefixes indicate Vocational/General Education courses (such as 1.111 Communications or 4.150 Welding 1) and may be applied to an Associate in Science degree at other colleges. In some cases, up to 24 vocational education credits may be transferred to four-year institutions.

0.000 to 0.999 are Adult Education courses.

108 Credit Limitation - Some institutions of the State System of Higher Education in Oregon usually accept no more than 108 credits in transfer from a community college. Students contemplating taking more than 108 credits before transfer should seek advice from the major department of the transferring institution.
STUDENT SERVICES
STAFF
Jan Sapper, Director of Student Development
John Hunter, Counselor
Cheryl Johnson, Counselor
Stephen J. Erickson, Counselor
Shirley Gilchels, Financial Aids Advisor
Jean von Schweinitz, Director of Records
Rosemary Rector, Veterans’ Advisor
Jeff Mencay, Coordinator of Student Activities

The program of student services at Southwestern Oregon Community College supports, encourages and facilitates the educational development of each student. A professional staff offers advising, counseling, testing, financial aid and a variety of services. Offices are located in Empire Hall and Dellwood Hall.

ADVISING
Advising is considered one of the most important guidance functions in the instructor-student relationship. Full-time students for regular terms (12 credit hours or more; 8 credit hours or more for summer term) and part-time students working for a degree or certificate, are assigned to a faculty member for advising. Although this is not required for the part-time student, consultation with an advisor is encouraged.

COUNSELING AND TESTING
The Counseling Center, located on the second floor of Empire Hall, offers counseling and appropriate testing services to students and prospective students. Professional counseling is available in areas of education, career, health, and personal concerns.

Counselors work with students in their self-explorations to help them clarify their chief interests and to discover their potential for various careers. They also assist the student in identifying and resolving possible situational or personal difficulties for a more effective educational experience.

Counselors work closely with faculty advisors and the instructional divisions of the college. Students may be referred by any faculty member or may make their own appointments on a “drop-in” basis.

The Counseling Center maintains a library of educational and career information. Catalogs from many educational institutions are available for reference.

STUDENT HOUSING
The college does not provide campus housing for students. Responsibility for securing adequate living arrangements rests with the student and/or parents.

VETERANS
All Southwestern Oregon Community College Associate in Arts and Associate in Science degree programs are approved by the Veterans Administration Office. Veterans must maintain a two-point grade average and complete the number of credits for which they were enrolled and paid. To obtain more information or establish eligibility for educational benefits, contact the Admissions Office.

INTERNATIONAL STUDENT ADVISING
The college is authorized to enroll eligible non-immigrant international students. The Office of Admissions, in cooperation with the International Student Advisor, determines eligibility. These decisions are related to the student’s proficiency in the English language, as well as academic achievement. Special assistance in English is available. The advisor is available to assist with academic, career or personal problems related to adjustment to college life in the United States.

Scores of the “Test of English as a Foreign Language” (TOEFL) or an acceptable substitute are used as the basis for determining language proficiency. Foreign students considering registration should also be aware of the fact that there is no campus housing available.

SERVICES FOR THE HANDICAPPED
It is recognized that some persons have special needs. Those who have been identified as having learning difficulties, or those who are physically handicapped, are encouraged to contact the Counseling Center to gain information about counseling, advising, testing, support services, instructional opportunities and special equipment and/or materials that might be of help to them.

JOB PLACEMENT
Students who are prepared to enter the job market are assisted in locating positions. Information about part-time off-campus jobs, full-time employment and summer jobs is available from the work experience coordinator.
FINANCIAL AID

Financial aid programs at the college include student employment, grants, scholarships and loans. The college Board of Education provides district funds for aid, and additional funds are provided by state and federal student assistance programs. The Financial Aid Office is located in Delwood Hall, room 14.

DISTRICT FUNDS SCHOLARSHIPS

The college Board of Education has authorized tuition scholarships for two graduating seniors from each high school in the community college district: Bandon, Coquille, Marshfield, Myrtle Point, North Bend, Powers and Reedsport. The Merit Scholarship is awarded on the basis of scholastic ability, academic achievement and general citizenship, while need is also considered for the District Scholarships.

Fourteen tuition scholarships are awarded to returning Southwestern Oregon Community College students. These scholarships will be awarded on the basis of scholastic ability, academic achievement and general citizenship. Financial need may be considered.

Scholarship recipients must be enrolled at Southwestern Oregon Community College as full-time students (12 or more credits). Applications are available from high school counselors or the Financial Aid Office. Students must apply each year for renewal.

GENERAL SCHOLARSHIPS AND GRANTS

Various organizations and individuals contribute money to provide tuition scholarships for students who have financial need. Application forms are available from high school principals and counselors and the Financial Aid Office at the college.

MUSIC SCHOLARSHIPS

Some music majors are offered $45 scholarships to pay the extra tuition fee required each term for private music instruction. These scholarships are awarded on the basis of ability, interest and need. To qualify, students must maintain a B average in their private music study and participate in a college performance group such as choir, band or orchestra.

EMPLOYMENT

A few on-campus jobs are available to students through funds provided by the college Board of Education. Application forms may be obtained from the Financial Aid Office.

EMERGENCY LOANS AND DEFERRED PAYMENT

The Scholarship and Loan Committee administers funds providing short-term (approximately 90 day) loans to eligible part-time and full-time students for the purpose of paying tuition, fees, books and other educational expenses. Loans must be repaid. Students must be able to demonstrate the ability to repay the loan and all loans must be assigned. Application forms are available from the Financial Aid Office.

Students enrolling for two or more credits may defer payment by paying one-third of the charges and processing fee at the time of registration, and the balance in two equal payments during the term. The maximum amount that can be deferred is two-thirds of the full-time, resident tuition. Application for deferred payment must be made at the time of registration. Students registering after the first week of classes may not defer tuition payment.

All loans and deferred tuition payments must be repaid by the end of the term in which they are obtained. If a payment becomes 30 days delinquent, it may be turned over for collection unless satisfactory arrangement for repayment is made. Repayment will include a $10 processing fee. Loans which are not paid by the last day of the term will be charged a 3% delinquency fee and interest of 7% per annum on the unpaid balance from the date of delinquency until paid in full. Students with outstanding debts will not be allowed to register for the following term.

CONTRIBUTIONS

Organizations and individuals are invited to make contributions to Southwestern Oregon Community College Foundation to provide scholarships, grants, or loan funds for students attending the college. The foundation is a registered non-profit organization.

Memorial Loan Funds established by contributors include:

- Abraham Lipton Memorial
- Barbara Simpson Memorial
- Beuchemin-Swanse Memorial
- Caren Cavanaugh Memorial
- Dora Burr Memorial
- Edna L. Morgan Memorial
- Floyd Griffey Memorial
- George F. Burr Memorial
- Hazel Hanna Loan Fund
- Jeannette McCowan Memorial
- Joe Kronsteter Memorial
- Kathleen Francis Memorial
- Johnson Kate Memorial
- Laura Morgan Memorial
- Lillian Farley Memorial
- Linda Koones Memorial
- Mary Ethel Taft Memorial
- Maurice Romig Memorial
- Robert Croft Memorial
- Rodney Hichenlooper Memorial
- Russell Goodsell Memorial
- T. E. Dibble Memorial
- Wendell Van Loan Memorial
- Young-Hansa Memorial

FEDERAL AND STATE FUNDS

Southwestern Oregon Community College is a participating institution in the following federal and state assistance programs:

Federal Programs
- College Work-Study (CWS)
- Guaranteed Student Loans (GSL) and PLUS Loans
- National Direct Student Loans (NDSL)
- Pell Grants
- Supplemental Educational Opportunities Grants (SEOG)
State Programs

State Cash Awards
State Need Grants (SNG)

Eligibility for these programs is based on need, which is established through completion of the Financial Aid Form (FAF), as defined by federal and state guidelines. This form is available from high school counselors and the Financial Aid Office at the college. Early application is advised, because some funds may become limited. To qualify, students must be enrolled at least half-time (6 credits) taking courses toward fulfilling the requirements of a degree or certificate and making satisfactory progress.

Students who have attended a postsecondary institution over 10 terms or have earned 108 credits which apply directly toward their major are not eligible for financial aid at Southwestern Oregon Community College. A student may change his or her major once. Eligible students must also be U.S. citizens or eligible non-citizens and may not be in default on a National Direct Student Loan, Guaranteed Student Loan or PLUS loan, nor owe a refund on a Pell Grant or Supplemental Educational Opportunity Grant at Southwestern Oregon Community College.

All men who are at least 18 years old and were born after Dec. 31, 1959, and not currently a member of the U.S. Armed Forces, must register with the Selective Service in order to be eligible to receive Federal Funds.

Follow these steps to apply for financial aid:
1. Complete the Financial Aid Form (FAF) accurately.
2. Mail it with fee to:
   College Scholarship Service
   P. O. Box 1907
   Berkeley, CA 94701
   An additional fee is not required for processing the application for the Pell Grant. Other aid programs do require application fees. If you are applying only for the Pell Grant you should use the free “Application for Federal Student Aid.”
3. Allow 3-4 weeks for processing the FAF and 6-8 weeks for the Pell Grant.
4. Your Pell Grant Student Aid Report (SAR) will come directly to you. Submit this report to the Financial Aid Office immediately.
5. Entering freshmen must take a placement test. This requirement may be waived for students who are transferring from other colleges. All transfer students must submit a transcript of their grades and a Financial Aid Record (transcript) from each school they have previously attended since leaving high school.

PELL GRANT

The Pell Grant is an entitlement program that provides grants to eligible undergraduates. Grants are funds that do not require repayment. Application may be made by filing a Financial Aid Form through the College Scholarship Service when applying for other aid programs, or by using an Application for Federal Student Aid when applying for the Pell Grant only. Either form is available from the Financial Aid Office and high school counselors. Awards are based on education costs at each eligible post-secondary education institution. Awards will be reduced proportionately for students attending less than full-time (12 credits). Pell Grants may be received for the period of time required to complete the first undergraduate course of study being pursued by the student. Pell Grants may be transferred to other eligible institutions. Students must reapply each year.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)

The Supplemental Educational Opportunity Grant is an aid program that is designed to assist undergraduate students whose need is indicated by the analysis of the completed Financial Aid Forms. These grants do not have to be paid back and may range from $200 to $2,000 depending on the student's need, college policies, the availability of funds, and the amount of other aid the student is receiving. Eligibility for a SEOG must be established each year and may be received for the period of time required for completion of the first undergraduate bachelor's degree.

COLLEGE WORK-STUDY (CWS)

The Work-Study program provides part-time employment for students who have established eligibility to work up to 15 hours per week during the school term and a maximum of 40 hours per week during vacation periods. Eligibility is based on need, the availability of funds, and the amount of aid the student receives from other sources. Students are compensated monthly for work performed at the current federal minimum hourly wage.
NATIONAL DIRECT STUDENT LOAN (NDSL)

The National Direct Student Loan is a program of borrowing established for students with financial need. The amount the student may borrow each year will vary with the individual's needs, the loan funds available, and the amount of other aid the student is receiving. The total borrowing limits are:

a. $3,000 if you are enrolled in a vocational program, or if you have completed less than 4 years of a program leading to a bachelor's degree.

b. $6,000 if you are an undergraduate student who has already completed 2 years of study toward a bachelor's degree and has achieved third-year status (this total includes any amount you borrowed under NDSL for your first 2 years of study).

c. $12,000 for graduate or professional study (this total includes any amount you borrowed under NDSL for your undergraduate study).

The student has an obligation to repay the loan, with interest charges on the unpaid balance over a 10-year period, beginning six months after graduation or after leaving school for other reasons. Minimum quarterly payment is $30. Contact the Financial Aid Office for further details regarding payment policies, cancellation and deferment benefits.

GUARANTEED STUDENT LOAN

The Guaranteed Student Loan is a low-interest loan established for residents of Oregon through eligible lenders (such as a bank, loan association or credit union) of the student's choice. These loans are insured by the state and reinsured by the federal government. A student cannot borrow more than the cost of education at Southwestern Oregon Community College, less any other financial aid the student receives. Depending on family income, the student may have to demonstrate need and the amount of that need may limit the amount of the loan. An undergraduate student may borrow up to $2,500 a year. The total GSL debt you can have outstanding as an undergraduate is $12,500. Graduate students can borrow up to $5,000 a year. The total loan for graduate or professional study is $25,000 including any loans made at the undergraduate level. Repayment begins 6 months after the student ceases to be at least a half-time student.

A student obtains the application form from the Financial Aid Office and takes it to the lending institution after the college certifies: (a) the applicant is accepted or enrolled as a full-time student in good standing (b) the applicant's estimated educational expenses are reasonable, and (c) the amount and types of financial aid and income the student received from other sources.

OREGON PLUS LOANS

Under the Oregon PLUS loan program a dependent undergraduate student's parent may borrow a maximum of $3,000 per year to a total of $15,000 for each dependent child who is enrolled at least half-time in an eligible post-secondary institution.

Independent undergraduates may borrow up to $2,500 per year. However, the PLUS Loan combined with any GSL, the independent undergraduate may also have, cannot exceed the yearly and total GSL undergraduate limits of $2,500 and $25,000. The interest rate is 12%. Repayment begins within 60 days of the date of the loan. Applications are available from the Financial Aid Office.

STATE NEED GRANTS (SNG)

The Oregon State Scholarship Commission provides State Need Grants to Oregon residents who are full-time students with financial need. These grants are transferable to other colleges and universities in Oregon. Application is made by completing a Financial Aid Form and requesting that a copy be sent to the State Scholarship Commission. The student must apply annually to be considered for renewal of the grant.

STATE CASH AWARD

Cash awards are awarded by the State Scholarship Commission to outstanding high school seniors in need of financial assistance. These awards are renewable until graduation, as long as financial need exists and satisfactory academic progress is continued. The awards are transferable to other colleges and universities in Oregon. Students must apply annually to be considered for renewal. Interested students should contact their high school counselors.

TALENT GRANTS AND TALENT AWARDS

Each year the Scholarship and Loan Committee administers the Talent Grant and the Talent Award Programs in approved areas of talent and study. Talent Grants are offered to students with outstanding talent who participate outside the classroom in extracurricular and cocurricular activities. These include such activities as student newspaper, the literary magazine, student leadership and athletic. Talent awards will be offered to students in approved disciplines. These include such disciplines as art, music, speech, machine tool, math and English. Application forms are available from the Financial Aid Office.
STUDENT ACTIVITIES
ASSOCIATED STUDENT GOVERNMENT

The Associated Students of Southwestern Oregon Community College (AS-SWOCC) is a recognized platform for student governance and the development of leadership. The student organization is directed by an Executive Council and a Senate. The Executive Council, comprised of the president, vice-president and treasurer, is elected by the student body in the middle of spring term. The four senior senators in charge of promotions, programs, research and inter-club council are elected at the same time. Four junior senators are elected in the early part of fall term.

AS-SWOCC represents the student body on the following campus committees: Faculty Senate, Scholarships and Loans, Academic Standards, Arts and Lectures, Student Affairs and other miscellaneous committees. AS-SWOCC manages a video game room and an in-house radio station, KSWC. AS-SWOCC is governed by a constitution and bylaws. The Director of Student Activities is the advisor for the group, which has offices on the second floor of Empire Hall.

STUDENT CLUBS

The following clubs and organizations, currently active on campus, are typical of the interests of SWOCC students:

- Billiards
- Campus Christian Fellowship
- Folk Dance
- Forestry
- Home Economics
- Iota Tau Kappa
- Laker Leaders (rally and pep club)
- Nursing Club
- Outdoor
- Phi Beta Lambda
- Phi Theta Kappa
- Ski Club
- KUSA Cycling Club
- VICA
- Weightlifters

Students are encouraged to initiate new organizations and to seek active staff involvement. More information can be obtained from AS-SWOCC's senior senator dealing with the inter-club council, or from the Office of Student Activities. Campus clubs are governed, in part, by the AS-SWOCC constitution, and by their own constitutions.

PUBLICATIONS

Student publications include a campus newspaper, the "Southwester", which is published every two weeks, and a literary magazine, "The Beacon", which is published twice a year.

The "Southwester" is a student-managed paper featuring local college news, national campus news, syndicated features, editorials and paid advertising. Editorial content is strictly of student origin and opinion and in no way reflects college board policy. "The Beacon" is a showcase for original poetry, stories, photographs, and art work.

The "Southwester" is advised by the Director of Student Activities and "The Beacon" is advised by English Department faculty.

INTERCOLLEGIATE ATHLETICS

Southwestern Oregon Community College offers Inter-collegiate athletics programs for women and men. Fall term features women's volleyball and co-ed cross country. Winter term features basketball for men and women as well as wrestling. Spring term brings co-ed track and field.

Teams compete in a league with the other Oregon community colleges, and in addition, schedule competition with community colleges and smaller four-year colleges from Washington, Idaho, and Northern California. Schedules are organized to minimize loss of class time.

Over this years, the athletic program has developed a strong following in the community and on campus. SWOCC has won team championships several times in basketball, volleyball and wrestling and developed numerous All-Star selections: All-Americans, and state, regional, and national record holders in the college's sports program.

SWOCC student athletes are called the "Lakers", the college mascot is the raccoon, and the school and uniform colors are red and blue.

INTRAMURAL PROGRAMS

SWOCC intramural programs offer organized sports competition and recreational activities in a balanced program of team games, individual sports and co-recreational activities. Some of the scheduled activities are: flag football, volleyball, basketball, game room competition, soccer, badminton and fun runs. Anyone wishing information on the intramural program may contact the Intramural Coordinator in Prosper Hall.

FOOD SERVICES

A cafeteria, vending machines and a large change machine are operated in Empire Hall, ground floor. The vending machines are available from 7 a.m. to 10 p.m. weekdays. The cafeteria is open during the day Monday through Friday and evenings excluding Friday. A daily lunch special is served and meal tickets may be purchased.

CARPOOING

A sign-up board is located on the second floor of Empire Hall. Those wishing to share rides may register and take down names and phone numbers of other students travelling to and from the same area. Information on the system may also be obtained by calling the Office of the Coordinator of Student Activities at 888-2525, extension 335.

OTHER SERVICES

In addition to the above activities, the Office of Student Activities offers other student services. These include voter registration, candidate falls, issues forums, a monthly calendar in Empire Hall, graduation assistance, dances, community posting, classified posting, coordination of students with community events, the annual awards convocation for students outstanding in academic or community work, gameroom management, food service liaison, liaison between students and the administration, a student handbook and the community recreation program.

The Office of Student Activities also maintains a car pool board in upper Empire Hall. Those wishing to share rides may register and also take names and phone numbers of other students travelling to and from the same area.

STUDENT CONDUCT AND APPEALS

The college assumes that its students will conduct themselves according to acceptable standards and will abide by policies and procedures established for all students. Students who are unwilling to comply with these regulations may be suspended or expelled. A student who is accorded disciplinary action may appeal by use of the grievance procedure. Students may receive assistance with the appeal process from the Dean of Student Services or the Director of Admissions and Records.
ASSOCIATE IN ARTS DEGREE

The Associate in Arts degree is nationally recognized and may be transferred to four-year colleges and universities and applied toward a baccalaureate degree. The requirements are designed to give the student a broad-based liberal arts and sciences background, as well as specific general education preparation for the student's chosen major at the baccalaureate level.

The college awards Associate in Arts degrees in four areas: General Liberal Arts and Sciences, Business Administration, Criminal Justice Administration and Social Work.

General Requirements:
1. Not less than 93 credits of college parallel courses approved by the Oregon Board of Education for transfer credit. (Students may transfer up to 108 community college credits to four-year Oregon state system institutions.)
2. Grade point average minimum of 2.0 (C average).
3. English Composition, 9 credits (WR121, 122, 123, or 227).
5. Physical Education, 3 credits, PE 185 (with three additional credits, if desired, as electives; or student may take an authorized Wellness and Physical Assessment courses as designated by the college. No more than 3 credits of Physical Activities classes (PE 185) may be used in meeting the 93 credit requirements or counted in the student’s final GPA for the AA Degree. Courses must be in different activities or levels (i.e. beginning, intermediate, advanced).)
6. One-year sequence in each of the following three groups: Literature, Science or Mathematics, and Social Sciences, plus a fourth sequence chosen from one of these three groups or from “Additional Fourth Sequence Options” (See “Approved Sequences” below).
7. If the fourth sequence is taken in one of the social sciences, it must be in a different discipline.
8. At least one of the sequences must be numbered in the 200 series.
9. Mathematics Requirement - This requirement may be met by taking MIH50 Intermediate Algebra I, 4 credits, or its equivalent. May also be fulfilled by passing a MTH 50 equivalence examination.
10. A student must have completed 24 credits and have attended Southwestern Oregon Community College two terms (including the final term) before the Associate in Arts degree is awarded.

BUSINESS ADMINISTRATION

This two-year program is generally transferable to four-year programs in Business Administration at senior institutions of the Oregon State System of Higher Education. Students should be able to complete requirements for the baccalaureate degree with two additional years of course work at those institutions. (Consult your faculty advisor for more detailed information on requirements for specific four-year institutions). If a student meets the requirements for the first two years of any accredited four-year institution that has a degree in Business Administration, the student may petition for adjustments in the Southwestern Oregon Community College Associate of Arts in Business Administration.

FRESHMAN YEAR

W121, W122, W123 English Composition 3 3 3

*Note: Major in this program must make a grade of "C" or better in all courses.

*BA101 recommended before taking CS130F.

*With 101 or above not to include MTH101, 192, 193.
ASSOCIATE IN SCIENCE DEGREE

The Associate in Science degree is a nationally-recognized degree offered by many technical schools and colleges. It is approved by the Oregon Board of Education. General requirements include:
1. Minimum of 90 credits of specified courses (see individual curriculum for listing).
2. Grade point average minimum of 2.00 (C average).
3. Completion of required courses listed in specific curricula. This must include 18 credits of approved general education subjects.
4. Attendance at the college for at least two terms (including the last term) before the degree is awarded and completion of 24 credits at the college.

The following majors are available:
- Banking and Finance
- Business, General
- Business Management
- Accounting Option
- Marketing Option
- Office Management Option
- Data Processing
- Electronics Service
- Electronics Technology
- Fire Science Technology
- Industrial Mechanics
- Automotive Option
- Machine Tool Practice Option
- Welding Option
- Industrial Technology (Apprenticeship trades)
- Medical Office Assistant
- Nursing
- Secretarial Technology
- Supervisory Training

In some cases, the Associate in Science degree may be transferable to a college or university which has a four-year degree program in that particular technical area. For more information, consult your advisor or the Admissions Office.

SUGGESTED ELECTIVES

BA212, BA213
Principles of Accounting I, II, III or 2765, 2768 Accounting II and III
EC201, EC202
Principles of Economics
PSY211, PSY203
General Psychology
BA131
Intro to Business Data Processing
2522
Business Math II

Plus - Any full term classes listed in the AIB student catalog under "Functional Banking" or "Banking Support".

TOTAL REQUIRED: 36

GENERAL BUSINESS

This is a two-year program designed for the student who wants a flexible program of study in the Business Technology area or wishes to combine a basic business background with a related occupational interest.

Option I: Associate of Science in General Business

To earn an Associate of Science in General Business under this option the student must fulfill the following requirements:
1. Complete the first year of any two-year business management or secretarial program.
2. Complete 9 credits of composition (W121, 122, 123, or 227) and 9 credits of social science/humanities.
3. Thirty additional business credits.
4. General electives in courses numbered 100 or above, or any lower division collegiate courses.
5. A total of 93 credits is required.

Option II: Associate of Science in General Business - Interdisciplinary

To earn an Associate of Science in General Business under this option the student must fulfill the following requirements:
1. Complete the first year of any two-year business management or secretarial program.
2. Complete 9 credits of composition (W121, 122, 123, or 227) and 9 credits of social science/humanities.
3. Thirty credits in another discipline or program with prior approval from the division chairperson responsible for that program or discipline and the business division chairperson.
4. General electives in courses numbered 100 or above, or any lower division collegiate courses.
5. A total of 93 credits is required.
BUSINESS MANAGEMENT

Students Interested in Business Management may choose from three areas of specialization: Accounting, Office Management, and Marketing.

ACCOUNTING OPTION

This option prepares students for entry into the accounting field as bookkeepers, accounting clerks or junior accountants performing routine calculating, posting, and typing duties: checking items on reports; summarizing and posting data in designated books; and preparing a variety of other duties such as preparing invoices or monthly statements, preparing payrolls, verifying bank accounts, and making periodic reports of business activities.

OFFICE MANAGEMENT OPTION

This option prepares students for entry-level positions in offices. Under the direction of management, the student may learn the total operations and become involved in formulating department policies, coordinating activities and directing personnel to attain operational goals. The Associate in Science degree is awarded upon completion of the program.

BUSINESS DATA PROCESSING

This program prepares the student for entry-level employment in the data processing field, which may lead to supervision and management positions.

COMMERCIAL FISHING TECHNOLOGY

This program is designed to provide entry level skills/knowledge required of a crewman employed on a commercial fishing vessel. Successful completion of the first year entitles the student to a certificate and placement assistance. An Associate in Science degree will be awarded upon successful completion of the entire two-year program.
ELECTRONICS SERVICE

This program prepares students for jobs in electrical and electronic maintenance, equipment operation, manufacturing, construction, communications, and research. Students can also enter the consumer repair industry in television, radio, electrical appliances, and in electronic and communications equipment.

FOREST TECHNOLOGY

This program provides training in technical forestry in preparation for careers in government, industrial forestry, private woodland management, forest contracting, outdoor recreation, and other related fields. Students are prepared for entry-level positions as forest technicians, scaler trainees and recreation technicians. The faculty is active in finding employment for students during the summer and for permanent employment.

Volunteers who received tuition-vaunted credit for any of these courses must pay the tuition if they desire credit toward the degree.
INDUSTRIAL MECHANICS PROGRAMS

This program prepares students for entry-level jobs in the automotive and metal working fields. Typical jobs are service station attendants, auto mechanics, machinists, and welders with opportunities for apprenticeship in the related trades.

Students planning to continue in Industrial Technology (Apprenticeable Trades) or transfer to OSU or OIT should discuss additional requirements with an advisor.

AUTOMOTIVE

FIRST YEAR

3.300' Suspension and Brakes 4 4

3.3240, 3.3241  Applied Math/Algebra or 4.320, 4.3202 Basic Math/Elem. Algebra Utilig 3 4
4.300, 4.304  Practical Physics 4 4
4.152  Welding II 3
4.156  Welding VIII 3

SECOND YEAR

4.165', 4.165', 4.167'  Welding Lab A, B, C 3 3 3
4.154', 4.155', 4.157'  Electrical I, II, III 3 3 3
4.155'  Maintenance/R litter Welding 3
4.165'  Social Sciences 3 3 3
3 3 3
16 16 17

TOTAL: 99 Credits

*NOTE: MAJORS IN THIS PROGRAM MUST MAKE A GRADE OF "C" OR BETTER IN ALL COURSES DESIGNATED WITH AN ASTERISK (*). WORK EXPERIENCE MAY BE SUBSTITUTED AS APPLICABLE TO COURSE OBJECTIVES.

ALL STUDENTS MUST PROVIDE A BASIC SET OF HAND TOOLS IN THIS PROGRAM.

Suggested elective: 9.158 Advanced Maintenance/Ritter Welding

INDUSTRIAL TECHNOLOGY

APPRENTICEABLE TRADES

This program establishes credit for trade and industrial experience toward an associate degree. Approximately one-half of the credits required for the degree are earned through achievement of journeyman status; the remainder of the credits are earned through community college apprentice related training courses, first aid courses, and 18 credits of general education courses. Composition of the degree program is as follows:

1.111, 1.112, 1.113 Communications .... 9 Credits
9 Units Social Science .......... 9 Credits
9.1x Apprentice Related Training ............. 27-36 Credits
(Number of credits of 9.1x depends upon occupation)
First Aid ............ 1-3 Credits
Journeyman Status .... 45 Credits
TOTAL ........... 91-102 Credits

APPRENTICESHIP TRAINING

Apprentice related instruction courses are offered by the college as needed. Apprenticeship training periods vary from three to six years according to the individual occupation. Each course provides related classroom instruction for apprentices registered under the Oregon Law and Plan of Apprenticeship. Classroom instruction is related to on-the-job training experience outlined in apprenticeship standards.

24
MEDICAL OFFICE ASSISTANT

The first year of this curriculum prepares students to perform initial clerical duties in hospitals, medical clinics, and other medical facilities. The second year will add additional skills in medical office procedures, management, and clinical skills with an emphasis in the role of the medical office assistant on the medical care delivery team. This curriculum may require some prep courses (i.e., Typing Skill Building, Basic College Writing, High School Algebra or equivalent).

TOTAL 33 Credits for Diploma

TOTAL 100-111 Credits for A.S. Degree

NOTE: ALL MAJORS IN THIS PROGRAM MUST MAINTAIN A GRADE OF "C" OR BETTER IN ALL COURSES.

Students pursuing the diploma program will take Work Experience spring term, two-year students will take Social Science/Humanities/Science to fulfill college requirements of 15 credits of General Education courses and take Work Experience during the summer.

High School Chemistry or CH100 Fundamentals of Chemistry with a grade of "C" or better are required before taking BI121, BI122, BI123, BA126 or equivalent is required before taking CH100 Fundamentals of Chemistry.

CH100 & II or Instructor consent are prerequisites to OA200.

NURSING CAREER LADDER PROGRAM

Three levels of attainment are possible to students in the Career Ladder Nursing program, which is accredited by the Oregon State Board of Nursing. Program includes class instruction and clinical experience under the supervision of a college instructor.

The first quarter of study covers training for employment as a nurses' aide. The first four quarters of study can lead to a practical nurse diploma and eligibility to take the State Board of Nursing examinations for licensed practical nurses. Successful completion of the two-year program qualifies the student for the Associate in Science degree and eligibility to take the State Board of Nursing examinations for registered nurse.

HHow to Apply

To be eligible for admission in the fall, a student's file must be complete by April 30. Requirements for admission to both first and second year include:

1. A completed application for admission to the program/collage.
2. A high school diploma or its equivalent (GED certificate is acceptable).
3. Completion of one year of high school chemistry or its equivalent with a C grade or higher within the past five years.
4. Completion of high school algebra or the equivalent.
5. A copy of high school grade transcript or transcripts from other colleges attended submitted to the Office of Admission.

6. Completion of placement tests with minimum standard scores on the basic skills test as follows:
   - reading .......... 55
   - mathematics test C ........ 50

7. An advising appointment with a nursing faculty member must be made before April 30.

Cumulative GPA of 2.5 from most recent educational experience will be required.

The placement test may be retaken six months after the previous testing session.

Names of applicants who have met the prerequisites of the program by April 30 for the next fall are placed in a candidate pool. A random selection is made to select accepted applicants and alternates from the established pools in the following order with residency status being determined as of April 30:

1. Names will be drawn first from the in-state pool until the openings have been selected or the pool is exhausted.
2. Names will be drawn from the out-of-state/in-state pool from areas with no nursing program until the openings have been filled and five alternates have been selected or the pool exhausted.
3. Names will be drawn from the out-of-state/in-state with a nursing program pool.
4. Names will be drawn from the out-of-state pool.

Alternates will be admitted in the order in which their names were drawn. A letter of acceptance or nonacceptance will be sent to the applicant following the selection, which will be made within the first two weeks of May.

Applicants are required to:
1. Make a deposit of $25 by July 1. This amount is not refundable, but applies to tuition upon registration.
2. Have a physical examination before July 1

and file the results with the Office of Admissions. This should indicate a level of good health sufficient to provide nursing care.

ADVANCED PLACEMENT

Transfer students from other nursing programs will be evaluated on an individual basis. Any nursing course taken longer than five years ago may have to be challenged for credit. Admission is based on space available in any quarter the student is eligible to enter.

CURRICULUM

ASSOCIATE DEGREE NURSING PROGRAM

State Board Test Pool Examinations for licensure as a practical nurse may be taken upon completion of the first four quarters.

Graduates are eligible to write the State Board Test Pool Examinations for licensure as a registered nurse upon completion of six quarters.

ASSOCIATE DEGREE NURSING PROGRAM

State Board Test Pool Examinations for licensure as a practical nurse may be taken upon completion of the first four quarters.

Graduates are eligible to write the State Board Test Pool Examinations for licensure as a registered nurse upon completion of six quarters.

TOTAL 30 Credits

Anatomy & Physiology is a prerequisite to Nursing Science & Practice I and all subsequent nursing courses. Microbiology is a prerequisite to Nursing Science & Practice II and all subsequent nursing courses. All science courses must be passed with a "C" grade or better within the past five years. Each nursing course must be passed with a "C" grade or better.

A student continuing from fall year may elect to take only the Nursing Science & Practice II course in the fall and upon successful completion be eligible to take Practical Nursing Boards in April. The student will not be able to continue in the nursing program.

CH130 (B Psychological General Psychology) is a prerequisite to NSG202.

Must be a college level transfer course. Prerequisites do not apply.
SECRETARIAL TECHNOLOGY
(GENERAL SECRETARY)
This program prepares the student with skills and abilities to perform the clerical orstenographic tasks demanded in an office and to assume secretarial responsibilities of an interpretive and decision-making nature.

First Year
- English Composition (3)
- Legal Writing (3)
- Personal shorthand (3)
- Prenotection Skills (3)
- Business Calculations (2)
- Office Procedures (3)
- Secretarial Skills (3)
- Introduction to Digital Computers (3)
- Basic Math (3)
- Introduction to Business (3)
- Word Processing & Spreadsheet (2)
- Total: 29.5 Credits

Second Year
- Accounting I, II, or III (3)
- Business Law (3)
- Business English (3)
- Business Office Management (2)
- Microcomputer Software: Word Processing & Spreadsheet (2)
- Total: 27 Credits

Total: 56.5 Credits

NOTE: MAJORS IN THIS PROGRAM MUST MAKE A GRADE OF "C" OR BETTER IN ALL COURSES.

SUPervisory training
The curriculum is designed to train those already employed and others seeking employment in the skills of supervision.

First Year
- Elements of Supervision (3)
- Human Relations (3)
- Communicating Effectively at Work (3)
- Employee Development (3)
- Communications of W121, 122 English Comp (3)
- Field Experience I (3)
- Field Experience II (3)
- Total: 18 Credits

Second Year
- Social Science/Science electives (3)
- Total: 18 Credits

TOTAL: 56 Credits

NOTE: MAJORS IN THIS PROGRAM MUST MAKE A GRADE OF "C" OR BETTER IN ALL COURSES.

DIPLOMA PROGRAMS

Diploma programs are those that are at least one academic year and less than two academic years in length.

BOOKKEEPING-Clerical

A one-year program designed to prepare for entry level bookkeeping and clerical positions.

One Year
- C Basic Math (3)
- Business English (3)
- Office Procedure (3)
- Accounting I, II, III (6)
- Microcomputer Software: Word Processing, keyboarding (2)
- Total: 18 Credits

NOTE: MAJORS IN THE PROGRAM MUST MAKE A GRADE OF "C" OR BETTER IN ALL COURSES.

EMERGENCY MEDICAL TECHNOLOGY

This is a three-quarter program consisting of course work in prehospital care of the sick and injured, including immediate care and transportation of victims. Classroom instruction and clinical practice in basic and advanced skills will be provided. Students will be able to certify at each level by passing state written and practical examinations. EMT courses are conducted in the evenings. EMT III will be offered every other year as the need exists.

One Year
- CPR (3)
- EMT I (4)
- EMT II (4)
- EMT III (4)
- Basic Math (3)
- Field Experience (2)
- Total: 16 Credits

NOTE: All students wishing to enroll in EMT II, 258 or 259 must make an appointment with the Director of Health Occupations prior to registering.

*Chemistry is a prerequisite to Anatomy & Physiology sequence.

Total: 52 Credits

NONTRANSFERABLE: 20 credits cannot be used for this diploma.
LAW ENFORCEMENT

This one-year program provides the student with essential elements necessary for immediate employment through participation in Criminal Justice courses and other courses as listed.

TOTAL: 32-34 Credits

NURSING ASSISTANT

This program prepares students to work as nursing assistants in nursing homes or convalescent care centers. It consists of 120 hours of intensive instruction, both classroom and in agencies. A second 120-hour course prepares students as geriatric nursing assistants with emphasis on how to modify care based on disease processes. Instruction occurs both in the classroom and in agencies. A 60-hour Home Health Aide course prepares students to care for seniors in their homes under the auspices of a home health care agency.

Entry to this program is limited. Contact the Admissions Office for application procedures.

GERIATRIC NURSING ASSISTANT

HOME HEALTH CARE

These programs prepare students to work as nursing assistants in nursing homes or convalescent care centers. They include 120 hours of intensive instruction in both classroom and agencies. A second 120-hour course prepares students in Geriatric Nursing Assistants with emphasis on how to modify care based on disease processes. Instruction occurs both in the classroom and in agencies.

REAL ESTATE

The courses required for taking the state real estate salesperson examination (see below) are regularly offered on an independent study basis. The other courses listed will be offered as needed. A certificate of completion will be awarded after completion of the required course work.

**LAW ENFORCEMENT**

**LEGAL SECRETARY**

**STENO-CLERICAL**

A one-year program designed to prepare students for entry positions as clerkenophonographers. Students are trained to type and transcribe dictation. A diploma is awarded when the course requirements are met.

**FIREFIGHTER TRAINING**

The Fire Fighter Training Certificate Program is an aid to increase, improve and professionalize training available to fire service personnel. The program is designed for volunteer firemen to better acquaint them with all phases of fire fighting. Completion of the program will lead to a certificate.

**ENFORCEMENT PROGRAM**

**LEGAL SECRETARY**

**STENO-CLERICAL**

**FIREFIGHTER I PROGRAM**

**NURSING ASSISTANT**

**HOME HEALTH CARE**

**GERIATRIC NURSING ASSISTANT**

**REAL ESTATE**

**CERTIFICATE PROGRAMS**

Certificate programs are less than one academic year in length and are specific to a particular occupational area.
COURSE DESCRIPTIONS
## COURSE DESCRIPTIONS

Many of the courses described in this catalog are offered on an irregular basis. Check with an advisor about courses not listed in the class schedule. If there is sufficient demand, a course may be offered more frequently.

AGRICULTURE
0.624 Mushroom Identification 1 Credit
(25 Hrs/Total)
Identification of local wild mushrooms, their basic characteristics and location. Positive identification of edible and nonedible species, preparation for food and methods of preserving stressed.
0.624.1 Wild Edible Plants 4 Credit
(1 Lec/1 Lab Hr/Wk, 2-Field trips 4 Hrs/Exc)
A course with emphasis on identifying successfully, and general ways of preparing rather than specific recipes, a variety of wild edible plants and foods. Ways of preserving the foods will also be covered.
0.624.4 Herbs: Foraging and Medicinal Use .5 Credit
(12.5 Hrs/Total)
This course is an introduction to herbalism with a focus on locally available herbs, which can be used medicinally. Topics covered will include identification, collection, storage, use, and toxicity. Preparation of a tincture, a saline, a syrup and an oil will be done in class. There will be at least one field trip for identification and collecting.
0.811 Spring Gardening .25 Credit
(6 Hrs/Total)
This course surveys gardening techniques for the local area. Includes garden planning, plant nutrition and fertilizers. Plant varieties and cultural techniques, irrigation, pest control and using organic materials around the home will be included.

APPRENTICESHIP
9.187 Industrial Electrical Apprentice 3 Credits
(2 Lec, 2 Lab Hr/Wk)
This course is designed with the use of National Standard as a guide so that students participating in the Manufacturing Electrical Apprenticeship will at the completion of these classes, be able to take the necessary state test for their electrical license.
9.188 Inside Electrician Related Training 9 Credits/Year
(144 Lec/Lab Hr/Year for 4 Years)
A study of electrical principles, laws, codes and theories, appropriate for Union Inside Electrical Apprentices. Prerequisites: The student must be a state registered electrical apprentice.

9.190 Plumber Apprenticeship 9 Credits
(3 Lec, 2 Lab Hrs/Wk)
This course, the first year of a four year program, is an introduction to the plumbing trade: safety, definitions, materials and alterations, general regulations, drainage systems and laws that govern these systems, blueprint reading and sketching. Prerequisites: Certified plumbing apprentice.

ANTHROPOLOGY
ANTH 101/102/103 General Anthropology 3 Credits/Term
(3 Lec Hrs/Wk)
ANTH 101: Introduces man as a living organism and his position in the animal kingdom; biological and human evolution and heredity, principles, and mechanisms. Introduces human races and variation in man. ANTH 102: Prehistoric archaeology; techniques of field work and dating; spatial and temporal distribution of cultures of the world. ANTH 103: Covers the development, structure, and organization of culture; the relationships between language, culture, and personality; the diversity of forms of cultural behavior, and the mechanisms of cultural change.

ANTH 207/208/209 Cultural Anthropology 3 Credits/Term
(3 Lec Hrs/Wk)
This course gives background in fundamentals of the field of anthropology, with emphasis on cultural anthropology. It is both descriptive of particular cultures, and comparative, dealing with institutions on a cross-cultural basis. There is an attempt to interpret cultural phenomena with reference to their universality and how they function with reference to the individual human being: parallels are constantly drawn to modern American society.

ANTH 231 Native North American Culture: Pacific Northwest 3 Credits
(3 Lec Hrs/Wk, 2-day fieldtrip)
This course examines the Indian cultures of the North Pacific Coast from Northern California to Southern Alaska. It combines classroom lecture, films and fieldtrips in order to provide a view of the prehistory (archeology) of the coastal area, a description of the Indian cultures at the time of European contact, and acquaintance with present day Indian tribes and social issues.

ANTH 198/298 Independent Study in Anthropology 1-3 Credits
(Lec/Lab Hrs TBA)
This course offers topics of study in anthropology with individual research or field study.

ART
ART 101 Introduction to Visual Arts 3 Credits
(2 Lec, 4 Lab Hrs/Wk)
For the person with little or no art experience, one not usually an art major. Includes slides, films, field trips, lectures, demonstrations, experimentation with elementary aspects of drawing, printmaking, painting, ceramics and sculpture.
Basic Design 3 Credits/Term
(2 Lec, 2 Lab Hrs/Wk)
Study of design through the introduction and creative use of the principles and elements of art. Employs exercises and projects developed to motivate individual research and exploration. Course work is presented in a manner designed to enable the student to gain an awareness of the nature and character of materials through investigation and experimentation in a variety of media. Prerequisites: Must be taken in sequence or have instructor's consent.

Beginning Calligraphy 2 Credits/Term
(3 Lab Hrs/Wk)
A study of specific free-hand letterform and its history, composition, layout, and matting suitable for exhibition. The letterform will be different each term.

Beginning Drawing 1-2 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
This course is an instruction in the student's development of skills in observation and fundamentals of the drawing experience as the key to individual goals in drawing. Emphasis will be on the use of a variety of media. This course is open to non-majors.

Beginning Ceramics 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Involves active participation of individual student in art experiences designed as an introduction to materials, methods, and techniques of pottery design and structure. Primary considerations of form together with experimentation and familiarization in hand construction, throwing, glazing, and firing.

Advanced Ceramics 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
A studio-laboratory course involving the active participation of the individual student in art experiences designed as an introduction to the materials, methods and techniques of pottery design and structure. Primary considerations of form together with experimentation and familiarization in hand construction, throwing, glazing and firing. Emphasis is placed on the creative, problem-solving approach through exercises and problems in ceramic design.

Advanced Calligraphy 3 Credits/Term
(3 Lab Hrs/Wk)
A study of specific free-hand letterform and its history, composition, layout, and matting suitable for exhibition. The letterform will be different each term.

Advanced Drawing 1-2 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
This course is an instruction in the student's development of skills in observation and fundamentals of the drawing experience as the key to individual goals in drawing. Emphasis will be on the use of a variety of media. This course is open to non-majors.

Beginning Printmaking 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Basic techniques and methods in three printmaking processes: relief, stencil (silkscreen), and simple intaglio. Instruction in design suitability, materials, equipment and general characteristics of each process.

Beginning Painting 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Instruction for beginning students in the use of oil and acrylic pigments. Emphasis is placed on fundamentals: color theory, methods of application, media characteristics and basic visual organization. Open to non-majors.
ART281/282/283 Advanced Painting 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Instruction in the use of oil color, acrylic, watercolor, or other media. Registration permitted any term, but it is desirable that the work be started in the fall. Emphasis will be given to individual needs and interests in painting. Open to non-majors.

ART184/185/186 Beginning Watercolor 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
This course involves the active participation of each student in painting experiences aimed at developing visual and manipulative skills. The study of watercolor techniques is emphasized, with special attention given to the particular characteristics of the medium. May be substituted for a third term of ART131/132/133 Drawing to meet lower division major requirements. Open to non-majors. Prerequisites: ART281/282/283, Painting ART231/232/233 Drawing or instructor's consent.

ART284/285/286 Advanced Watercolor 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Advanced instruction in watercolor techniques, color selection, visual compositions, and media characteristics, emphasis on landscape themes. Prerequisites: ART184/185/186 Beginning Watercolor, or instructor's consent.

ART194/192/193 Beginning Sculpture 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
A studio introduction to the language of forms and elements of sculpture. The investigation of materials is stressed through compositional exercises In clay, plaster, wood, and stone. Familiarization, experimentation, and expression in volumes and mass. Primary considerations of media, methods and techniques in sculpture. Open to non-majors.

ART294/292/293 Advanced Sculpture 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
Second year sculpture course explores intermediate three-dimensional shapes and forms with an emphasis on the casting process and materials.

ART198/198 Independent Study 1-3 Credits/Term
(36-72 Hrs/Total)
Individual studies designed for art majors on a reading and conference basis with instructor's approval only. Provides research and advanced involvement areas not covered in basic course curriculums.

ART199 Papermaking 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
Deals with the history, make-up, preparation, making, and subsequent projects of hand made papers.

ART199 Arts Professionalism Workshop 1 Credit
(14 Lec, Hrs Total)
This course is designed to introduce skills needed to survive as a professional artist in the highly competitive arts field. The intensive two-day workshop will familiarize the student with pragmatic "nuts and bolts" information.

ART199 Sculptural/Functional Ceramics Workshop 1 Credit
(12 Lec, 2 Lab Hrs Total)
This intensive two-day weekend workshop will focus on assisting the development of each individual participant's unique approach to creating sculpture or pottery in clay. Areas to be investigated include: manipulation of form and imagery in narrative or abstract works, the choice of scale and its impact, attitudes towards various degrees of craftsmanship, appropriate choice of clay and/or glazes, etc. Sculptural approaches to functional ware, and vice versa, will also be examined.

ART211/212/213 Survey of the Visual Arts 3 Credits/Term
(3 Lec Hrs/Wk)
A general introduction to the visual arts, designed to develop within the student an insight and comprehension of the actual work of art. A concrete study of historical and contemporary works of art are investigated through the consideration of motives, media and methods. Art as it influences daily living, and art to live with, become themes for the course. The manual processes involved and the expression of experiences deeply felt become another motif. The cultivation of understanding and the intelligent enjoyment of the visual arts in all of their diversity. Open to non-majors. May be used as fourth sequence in AA Degree.

ART221 Graphic Design; Illustration 3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
This course teaches the application of numerous basic illustration techniques and methods to the field of graphic design today. Students will be introduced to and instructed in the use of a wide variety of tools and processes. Illustration themes required currently in the contemporary art market by graphic artists, designers, layout specialists, commercial and advertising artists are emphasized.

ART280 Art Field Experience 1-3 Credits/Term
(3-9 Hrs/Wk - includes seminar)
Practical, on-site experience in art education, graphics or art related areas under the joint supervision of an advisor and the sponsoring professional. Nine credits maximum.

0.511 Introduction to Art 1 Credit
(36 Hrs/Total)
This course is designed to acquaint the student with the mediums, methods and techniques necessary for a basic knowledge of painting.

0.512 Drawing I 1 Credit
(36 Hrs/Total)
This course in beginning drawing serves as an Introduction to the various approaches to drawing. The investigation of a variety of media, methods, and techniques is employed to enable the student to gain a basic knowledge of drawing as possible.

0.512.2 Drawing II 1 Credit
(36 Hrs/Total)
The second in the sequence of drawing courses aims to develop within the student a basic knowledge and insight within the area of figure analysis and introductory anatomy. Prerequisites: Drawing I (0.512.1)

0.513.3 Drawing III 1 Credit
(36 Hrs/Total)
This, the last course of the three term sequence, is designed to develop within the individual an awareness and knowledge of landscape drawing and composition. Prerequisites: Drawing I, II (0.512.1, 0.512.2)

0.512.4 Basic Calligraphy 1 Credit/term
(36 Hrs/Total)
Involves art of freehand pen and brush written forms. Each term will consist of concentrated study of construction and history of one lettering style and calligraphic design.

0.512.8 Life Drawing 1 Credit
(36 Hrs/Total)
This course is designed to present fundamentals of life figure drawing through introduction of a variety of approaches, methods, and media techniques.

0.513.1 Oil Painting I 1-2 Credits
(36-72 Hrs/Total)
This course is designed to acquaint study with the medium of oil paint and methods and techniques necessary for establishing a basic knowledge of oil painting.

0.513.2 Oil Painting II 1-2 Credits
(36-72 Hrs/Total)
This course continues the investigation of problems in painting related to color, methods, techniques and composition. Prerequisites: Oil Paint I (0.513.1).

0.513.3 Oil Painting III 1-2 Credits
(36-72 Hrs/Total)
This course is designed to further investigation and introduce mural design and composition together with landscape painting. Prerequisites: Oil Paint I, II (0.513.1, 0.513.2).

0.513.6 Experimental Painting 1 Credit
(36 Hrs/Total)
This course is designed to expose the student to mediums and the basic relationship of color, line and composition.

0.514.1 Watercolor Painting I 1 Credit
(36 Hrs/Total)
Designed as an investigation of medium and approaches possible with transparent watercolor.
0.514.2 Watercolor Painting II 1 Credit
(36 Hrs/Total)
This course continues the investigation of medium through the use of creative exercises and investigative method of problem solving. Prerequisite: Watercolor Painting I (0.514.1).

0.514.3 Watercolor Painting III 1 Credit
(36 Hrs/Total)
This course is designed to develop within the individual a keen awareness of particular qualities of this medium as compared to other media of paint. Prerequisite: Watercolor Painting II (0.514.2).

0.515.1 Ceramics I 1 Credit
(36 Hrs/Total)
An introduction to and investigation of clay and its plastic properties.

0.515.2 Ceramics II 1 Credit
(36 Hrs/Total)
This course introduces the throwing process and its creative possibilities for the potter. Prerequisites: Ceramics I (0.515.1) or instructor's consent.

0.515.3 Ceramics III 1 Credit
(36 Hrs/Total)
The development of individual and traditional historic pottery as a background for research. Prerequisites: Ceramics I, II (0.515.1, 0.515.2) or instructor's consent.

0.516.1 Elementary Sculpture I 1 Credit
(36 Hrs/Total)
Developed to give the student experiences and exposure in sculpture - its form, media, tools, and techniques and to explore abstract and concrete concepts.

0.516.2 Elementary Sculpture II 1 Credit
(36 Hrs/Total)
Emphasizes the problems and approaches of carving or subtractive method of sculpturing. Prerequisite: Elementary Sculpture I (0.516.1).

0.516.3 Elementary Sculpture III 1 Credit
(36 Hrs/Total)
This course introduces more advanced, creative design in sculpture as well as offering the opportunity for experiments in new media and methods. Prerequisites: Elementary Sculpture I, II (0.516.1, 0.516.2).

0.516.7 Glass Working (Stained Glass) 1 Credit
(36 Hrs/Total)
The basic techniques of stained glass construction, types and colors; use of glass and color in leaded and foiled glass panels and three-dimensional glass works; repair and restoration will be learned.

0.516.9 Papemaking 1 Credit
(36 Hrs Total)
Deals with the history, make-up, preparation, making and subsequent projects of hand made papers.

0.517.1 Printmaking 1 Credit
(36 Hrs/Total)
Relief processes in fine art of printmaking including: rubbings, embossing, linoleum cuts, wood cuts, wood engraving, collographs and color painting.

0.516.5 Woodcarving 1 Credit
(36 Hrs/Total)
Introduces the student to skills in tool sharpening and care, working with grain, cutting wood to stated lines; choosing wood, pattern, style and techniques of finishing.

ASTRONOMY

GS121 Descriptive Astronomy 3 Credits
(3 Lec Hrs/Wk)
Descriptive treatment of solar system, stars, stellar evolution, galaxies, and cosmology. Emphasized will be results of current space missions. New discoveries that few years in stellar astronomy will be discussed. Fulfills one term of Physical Science Survey requirement.

GS136 Project Universe 3 Credits
(30 Lec Hrs Total)
The purpose of this course is to develop a basic knowledge of introductory astronomy.

GS198/298 Independent Studies 1-3 Credits
(1-9 Lec Hrs/Wk)
This course is designed to provide students opportunities for studies of special interest.

0.638.3 Telescope Construction 4 Credit
(30 Hrs/Total)
A practical course during which the student will construct a telescope and learn to use it. Includes mirror grinding, polishing, testing, computing, parabola, magnification, eyepieces, finderscopes, diagonal mirror, tube assembly, mounting, celestial photography, cleaning. Sufficient physics theory needed for construction will be taught.

BANKING

9.767 Asset/Liability Management 3 Credits
(15 Lec Hrs/Wk)
A course designed to help bank officers focus on the total bank financial structure, to learn current asset/liability management methods, and understand key interest rate spread relationships.

9.768 Principles of Banking 3 Credits
(3 Lec Hrs/Wk)
This course is part of a structured curriculum designed to prepare students for employment in banks and other financial institutions as well as to upgrade those already in the banking profession.

9.769 Fundamentals of Financial Statements 3 Credits
(3 Lec Hrs/Wk)
This course reviews basic accounting principles, introduces concepts of the various financial statements and explains the basic methods of financial analysis. Prerequisites: BA211 Principles of Accounting I or 2.766 Accounting I, or Instructor's consent.

9.770 Bank Management 3 Credits
(3 Lec Hrs/Wk)
This course is designed to aid in developing managerial ability through an increased understanding of the problems confronting senior management. It is intended to provide the student with an overall perspective of the duties and responsibilities of upper management. The course is concerned more with management principles and their application than with the technical tools used to put management decisions into operation. Prerequisites: Satisfactory completion of 9.768 Principles of Banking. 9.799 Inside Commercial Banking or consent of instructor.

33
9.771 Law and Bank Transactions 3 Credits
(3 Lec Hrs/Wk)
An introduction to basic American law, presenting the rules of law
which underlie banking. Topics include jurisprudence, the court
system and civil procedures, contracts, quasi-contracts, property
torts and crimes, agencies, partnerships, corporations, sales of
personal property, commercial paper, bank deposits and
collections, documents of title, and secured transactions and
consumer protection, including regulations, compliance, and

9.772 Teller Training 1.5 Credits
(15 Lec Hrs Total)
The course is designed to provide bank trainees with basic skills
required for the job and increase teller effectiveness and
productivity.

9.773 Money and Banking 3 Credits
(3 Lec Hrs/Wk)
This course is designed primarily to promote the appreciation and
comprehension of the functions of money and banks in a modern
economy particularly in the United States. The course includes the
subjects of bank management and bank operations only as they
affect monetary and credit conditions.

9.775 Supervision and Personnel Administration 3 Credits
(3 Lec Hrs/Wk)
This course is a study of the many aspects of responsibilities involved
with the handling of personnel: including supervision, human
relations, training, discipline, appraisal, salary administration, cost
control, equal employment opportunity, productivity and
affirmative action programs.

9.776 Marketing for Bankers I 1.5 Credits
(15 Lec Hrs Total)
This course provides an overview of essential marketing skills for
bankers. The course includes public relations, communications,
advertising, opinion research, and officer calling programs.

9.780 Trust Functions and Services 3 Credits
(3 Lec Hrs/Wk)
This course is a study and discussion of trust department services
offered by various banking agencies. Wills, property rights, estates,
trusts, guardianships, corporate trusts and agencies are studied,
analyzed, and discussed in relationship to laws and practices of
general and local jurisdiction and application. Prerequisites: Past or
concurrent enrollment in 9.768 Principles of Banking, or 9.789 Inside
Commercial Banking, or Instructor's consent.

9.781 Installment Credit 3 Credits
(3 Lec Hrs/Wk)
This course is an introduction to installment credit that places
emphasis on the methods commonly used by banks. Concentration will be
placed on: (1) the bank's objective in granting credit, (2) the functions of a bank's credit
department, (3) credit administration, (4) financing techniques, (5) collection
procedures.

9.782 Federal Reserve System 3 Credits
(3 Lec Hrs/Wk)
This course reviews the background and history of the Federal
Reserve System since its inception in 1913. Emphasis is placed on
policy decision in monetary, fiscal, and international areas.
Prerequisites: 9.768 Principles of Banking, 9.789 Inside Commercial
Banking, or instructor's consent.

9.783 Credit Administration 3 Credits
(3 Lec Hrs/Wk)
This course reviews credit policies of credit institutions. Method of
credit investigation and analysis, credit techniques, specific credit
problems, and regular and unusual types of loans are discussed and
presented. Prerequisites: Satisfactory completion of 9.768
Principles of Banking, 9.789 Inside Commercial Banking or
instructor's consent.

9.784 Writing for Results 3 Credits
(3 Lec Hrs/Wk)
This course describes the various kinds of bank letters and reports
between the bank and its customers as well as between banks.
Prerequisites: WR121 English Composition or Instructor's consent.

9.785 Bank Cards 3 Credits
(3 Lec Hrs/Wk)
This course presents an overview of the bank card industry; also
discusses the evolution of credit cards into electronic funds transfer,
legal developments affecting credit cards and the regulatory
environment in which banks operate their card business.

9.786 Bank Investments 3 Credits
(3 Lec Hrs/Wk)
This course will investigate investment functions, including risk,
liquidity, yield, U.S. Treasury and federal issues, government
securities, general obligations, revenue bonds, money market
investments and securities markets. Prerequisites: 9.768 Principles of
Banking or 9.789 Inside Commercial Banking or Instructor's consent.

9.787 Branch Management 3 Credits
(3 Lec Hrs/Wk)
This course will provide the student with a practical and conceptual
 grounding in bank management. This course examines the issues that
bank managers deal with on a daily basis, including staffing,
organizational planning and management controls.

9.788 Introduction to Commercial Lending 3 Credits
(3 Lec Hrs/Wk)
This course is an introductory overview of the commercial lending
function, including types of commercial loans, the loan decision
process, cash analysis, portfolio management and the regulatory
and legal environment.

9.789 Inside Commercial Banking 3 Credits
(3 Lec Hrs/Wk)
This course is designed to discuss contemporary issues, topics and
problems in commercial banking. Prerequisite: 9.768 Principles of
Banking.

9.790 Marketing for Bankers II 1.5 Credits
(7.5 Lec Hrs & 7.5 Lab Hrs Total)
This course is a case study and marketing project course. The course
allows bank employees to gain hands-on experience in public
relations and marketing. Prerequisites: 9.778 Marketing for Bankers I
or Instructor's consent.

9.791 Selling Bank Services 3 Credits
(3 Lec Hrs/Wk)
This course is a program specifically designed to teach customer-
contact people sales techniques.

9.792 Safe Deposit 1.5 Credits
(15 Lec Hrs Total)
This course covers the rules and procedures of safe deposits, good
customer relations and the interpersonal relationship of the two.

9.795 Loan Officer Development 3 Credits
(3 Lec Hrs/Wk)
This course is designed to teach practical non-technical
commercial lending skills needed by a loan officer in a bank.

9.796 Negotiable Instruments and the Payment Mechanism 3 Credits
(3 Lec Hrs/Wk)
This course is designed to add knowledge of legal principles and
reasoning for people interested in banking.
BIOLOGY

B101/102/103 General Biology 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
Biological principles applied to both plants and animals.

B121/122 Anatomy and Physiology I, II 4 Credits
(3 Lec 3 Lab Hrs/Wk)
Study of microorganisms, their control and occurrence in everyday life. Pathogenic microbes and infections, and host resistance will be major consideration. Will learn some elementary microbiological techniques. Prerequisite: high school chemistry or equivalent.

B198/298 Independent Study in Biology 1-3 Credits

0.621 Field Studies in Biology-Ornithology (Birds) 1-2 Credits
(10 Lec, 15 Field)
A field course involving the study of field identification, behavior, migration and nesting of local birds.

0.627 Marine Biology 1.5-2 Credits
(16/36 Hrs/Total)
Study of near-shore oceanic environments and the plants and animals that live there.

BOTANY

BOT198/298 Independent Study in Botany To Be Arranged

BOT201/202/203 General Botany 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
Covers structure, physiology and genetics of seed plants; how plant get food, grow, differentiate and reproduce. Survey of plant kingdom includes identification of native plants, use of keys and morphology. Prerequisites: instructor's consent or background in biological sciences.

6.449 Forest Botany 4 Credits
(3 Lec, 3 Lab Hrs/Wk)
Study of some basic principles of plant science as related to forestry.

0.624 Mushroom Identification 1 Credit
(25 Hrs Total)
Identification of local wild mushrooms, their basic characteristics and location. Positive identification of edible and non-edible species, preparation for food, and methods of preserving will be stressed.

0.624.1 Wild Edible Plants 1 Credit
(1 Lec, 1 Lab Hrs/Wk + 2 Fieldtrips)
A course with emphasis on identifying species successfully and general ways of preparing, rather than specific recipes, a variety of wild edible plants and foods. Ways of preserving the foods also will be covered.

BUSINESS ADMINISTRATION

BA104 Introduction to Business 4 Credits
(4 Lec Hrs/Wk)
Develops an awareness of nature of business in the capital system. Introduces field of ownership, organization, personnel, financing, marketing, management, production, insurance, foreign trade, and government regulations.

BA198/298 Independent Study in Business Administration 1-3 Credits

BA206 Management Fundamentals 3 Credits
(3 Lec Hrs/Wk)
This course explores what managers do and the techniques they use to improve their performance. In addition to the basic fundamentals of management, this course focuses on skills involving communication, decision-making, motivation, leadership styles, resolving conflict, and managing towards productivity.
BA223 Principles of Marketing  
(3 Lec Hrs/Wk)  
General survey of the nature, significance, and scope of marketing. Emphasis upon the customers (marketing analysis and strategy); business marketing decisions in promotion, distribution, pricing and control of marketing programs.

BA226 Business Law I  
(3 Lec Hrs/Wk)  
Involves relationship of business law to our business and economic structure. Particular attention is paid to legal rights, social forces and government and business relations to society. Contracts are covered in detail.

BA227 Business Law II  
(3 Lec Hrs/Wk)  
Deals specifically with personal property and bailments, law of sales, commercial paper, and legal relationship involved in agency and employment contracts.

BA229 Family Finance and Money Management  
(3 Lec Hrs/Wk)  
A practical course in decision making concerning management of financial resources, understanding financial management in marketplace, income taxes, financial institutions, home owning and renting, insurance, investing, retirement, and estate planning.

BA232 Business Statistics I  
(3 Lec Hrs/Wk)  
Modern business decision theory using statistics as a tool for business decision making. Primary emphasis on statistical description and elements of probability. Extensive coverage of sampling theory, tests of significance, and means by which data processing can be used in making statistical study. Prerequisites: one term college algebra or good high school background in math.

BA235 Business Statistics II  
(3 Lec Hrs/Wk)  
This course builds upon a basic understanding of statistical description and inference learned in Business Statistics I. Students will be introduced to chi-square and nonparametric hypothesis testing; analysis of variance, regression and correlation analysis; time series and forecasting; Index numbers and decision theory. Prerequisites: Business Statistics I (BA232) or equivalent.

BA236 Sales  
(3 Lec Hrs/Wk)  
This course involves the role of sales as an integral part of the total marketing function. The application of selling to behavioral science will be included with special emphasis on sales psychology, sales techniques and the fundamental principles of sales communications.

BA239 Advertising  
(3 Lec Hrs/Wk)  
This course is a detailed examination of the purpose, preparation, placement, and analysis of the various types of advertisements within each of the media such as television, radio and the newspaper. The relative merits of several media are then explored. This course involves practice in the planning and analysis of complete advertising campaigns and their coordination with other marketing strategies.

BA242 Introduction to Investments/Stocks & Bonds  
(3 Lec Hrs/Wk)  
This course is an introduction to American securities markets including exchanges, over-the-counter markets, bond markets, options markets, and the money market. Investment strategies, margin purchases, short selling, and efficient market theory will also be introduced. Reading financial news and corporation reports will also be covered.

BA249 Retailing  
(3 Lec Hrs/Wk)  
A study of retail strategy, structure and management. This course stresses the role of the supervisor in the daily operation of retail work.

BA280 Field Experience  
(3-24 Hrs/Wk)  
A work setting that provides students with an opportunity to test knowledge learned in the classroom. Prerequisites: Instructor's consent matching the needs of students with instruction offered.

2280 Cooperative Work Experience  
(4-40 Lab Hrs/Wk)  
This course involves on-the-job experience gained in coordinator-approved business situations that closely parallel students' field of study. The student works under supervisor and coordinator. Seminar will be arranged by supervisor. Prerequisite: Instructor's consent.

9200 Small Business Management I  
(128 Hrs/Term)  
This course assists business operators in achieving their professional and family goals through improved management, organization, and operation of their businesses. Prerequisites: Currently operating a business and Instructor's consent.

9201 Small Business Management II  
(128 Hrs/Term)  
This course is designed to prepare business owners to analyze their records for management information and make a general interpretation of the analysis. Prerequisites: 9.200 Small Business Management I and/or Instructor's consent.
9.204 Small Business Operations 3 Credits
(3 Lec Hrs/Wk)
This course relates many factors to actual small business planning and operation. Includes budgets, use of records, governmental requirements, insurance, and financing.

0.830 Introduction to Investments/Stocks & Bonds 5-3 Credits
(3 Lec Hrs/Wk)
An introduction to American securities markets including exchanges, over-the-counter markets, bond markets, options markets, and the money market. Investment strategies, margin purchases, short selling, and efficient market theory will also be introduced. Reading financial news and corporation reports will also be covered.

0.841 Family Finance and Resource 5-1 Credit
(15-36 Hrs/Total)
A study of new ideas for family money management, including use of credit, income tax procedures, teaching children how to manage money, and study of consumer buying ability. Attitudes, values, and decision-making ability will be emphasized.

CHEMISTRY

CH100/101 Elementary Chemistry I, II 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
Develops understanding of fundamentals of chemistry. Emphasis on chemistry for life sciences and allied health professions. Includes atomic structure, chemical bonding, stoichiometry, gases, solutions, acid-base theory, equilibrium, and organic chemistry. Does not prepare students for chemistry at sophomore level. Prerequisites: high school math or concurrent enrollment in Basic Mathematics (4.200).

CH104/105/106 General Chemistry 5 Credits/Term
(4 Lec, 3 Lab Hrs/Wk)
An introductory course in general, inorganic chemistry. Provides introduction to concepts of atomic structure and the effect on the behavior of matter, the laws of chemical change, and the manipulation of scientific quantities. Prerequisites: high school algebra or concurrent enrollment in Elementary Algebra I (4.202).

CH130 Elementary Physiological Chemistry 4 Credits
(3 Lec, 3 Lab Hrs/Wk)
Selected topics in inorganic, organic, biochemical, and physiological chemistry related to human organism. Prerequisites: high school chemistry or equivalent.

CH198/298 Independent Study in Chemistry To Be Arranged

CH201/202/203 General Chemistry 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
An introductory course covering the basic principles of chemistry including qualitative analysis. Qualitative analysis will be carried on in the laboratory.

CH226/227/228 Elements of Organic Chemistry 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
Chemistry of carbon compounds, cover both mechanisms and reactions of aromatic and aliphatic compounds, with emphasis on structural theory and special properties. Prerequisites: General Chemistry (CH106) or General Chemistry (CH203).

CH234 Quantitative Analysis 5 Credits
(3 Lec, 6 Lab Hrs/Wk)
Principles of gravimetric analysis, spectrophotometric analysis, and volumetric analysis. Designed for preclinical, premedical, and medical technology students. Prerequisites: General Chemistry (CH105) or General Chemistry (CH203).

COMMUNICATIONS

1.111 Communications 3 Credits
(3 Lec Hrs/Wk)
This course stresses the importance of communication activities. Primary emphasis will be placed on writing correctly, clearly and concisely.

1.112 Communications 3 Credits
(3 Lec Hrs/Wk)
This course emphasizes the importance of communications activities. Primary emphasis will be placed on writing skills. Prerequisites: Communications (1.111) recommended but not required.

1.113 Communications 3 Credits
(3 Lec Hrs/Wk)
This course emphasizes the importance of communications activities. Primary emphasis will be placed on reading skills. Prerequisites: Communications (1.111, 1.112).
Also see LITERATURE, COMPOSITION, AND DEVELOPMENTAL EDUCATION.
COMPOSITION

WR90 Paragraph Fundamentals 3 Credits (3 Lec Hrs/Wk)
The course is designed to help students write clear, correct paragraphs in Standard English. A final goal is to have students organize paragraphs in an essay. Prerequisites: 0.525, placement test score or instructor's consent.

WR121/122/123 English Composition 3 Credits/term (3 Lec Hrs/WK)
This course will teach the fundamentals of English composition through development and frequent exercise of writing abilities. Special attention will be given to correctness in the fundamentals of usage, to the organization of papers and to the clear and logical expression of ideas. Prerequisites: Satisfactory placement in entrance examinations. The course is sequential.

WR198/298 Independent Study In Writing To Be Arranged

WR214 Business English 3 Credits (3 Lec Hrs/Wk)
Study of practice in modern business communication, especially written communication. Prerequisites: English Composition (WR121) or Paragraph Fundamentals (WR90).

WR222 Advanced Composition 3 Credits (3 Lec Hrs/WK)
This advanced course explores approaches to writing that are beyond the scope of traditional composition offerings. The emphasis is on sophisticated or experimental methods and WR227 Report Writing 3 Credits (3 Lec Hrs/Wk)
Study of practice in research and writing for technical and specialized disciplines. Emphasis on information gathering, problem solving, organization, and mechanics of reports including articles, abstracts, memoranda, and correspondence. Will write reports in chosen discipline. WR227 may substitute for WR123. Prerequisites: WR121, WR90 or instructor's consent.

WR241/242/243 Introduction to Imaginative Writing 3 Credits/term (3 Lec Hrs/WK)
Develops skills in writing prose, fiction, poetry, and plays. Work is discussed in class along with nond-lec student work in order to demonstrate and develop techniques of imaginative writing. Course may be taken in any order.

abundant student writing. Prerequisites: WR121, WR122 and WR123 sequence or equivalent.

WR299 Writing Fiction Workshop 1-2 Credits (20 Lec Hrs/Wk)
This course is designed to encourage writers to use a variety of fictional elements such as voice, tone, point of view, setting, dreams, and dialogue. Students' work will be read aloud and critiqued by class members and the instructor.

0.525 Sentence Fundamentals 5 Credits (5 Hrs/Wk)
The student learns skills in writing well-formed sentences, in organizing paragraphs, and in using correct spelling, punctuation and grammar. The course cannot be taken for credit toward an Associate degree.

0.525/1.0.5252 Spelling Improvement I, II 3 Credits/term (3 Lec Hrs/WK)
This course offers study of the commonly misspelled words, spelling rules, and practice in editing of written work. The course enables students to spell words correctly from dictation and to analyze and correct their own work.

0.543 Creative Writing (winter) 4 Credit (36 Hrs Total)
This course concentrates on creative writing techniques, particularly poetic techniques such as imagery, rhythm, poetic meaning, and structure. Poems are written and critiqued. Forms of fiction may also be written by some students who have instructor's consent.

0.546 Creative Writing (fall) 1 Credit (36 Hrs Total)
This course concentrates on fiction writing techniques such as characterization, dialogue, scenes and structure. Short stories are written and critiqued.

0.552 Creative Writing (spring) 1 Credit (36 Hrs Total)
This course concentrates on a combination of fiction and poetry writing techniques. Other forms such as prose, poem or nature writing may also be discussed. May experiment with a variety of these forms when writing for class critique.

CRIMINAL JUSTICE ADMINISTRATION

CJ100 Survey of Criminal Justice 3 Credits (3 Lec Hrs/WK)
A contemporary view of the criminal justice system and its processes. Individual consideration will be given these specific areas: the judiciary, law enforcement, corrections and juvenile systems.

CJ101/SOC244 Criminology 3 Credits (3 Lec Hrs/WK)
This course will provide a broad viewpoint of criminal behavior and the justice system. A consideration of human behavior and crime, the impact of early theoretical approaches to current, theoretical and practical treatment of crime and criminals.

CJ103 Introduction to Family Law 3 Credits (3 Lec Hrs/WK)
Under the direction of an attorney, the student will have an opportunity to prepare initial documents, pleadings associated with the action, findings of fact, conclusion of law and custody, legitimacy, adoption, change of name, guardianship, support, and separation agreements.

CJ107/207 Criminal Justice Workshops 1 Credit (10 Hrs/Total)
A study of the current criminal justice problems and methods of alleviating them.

CJ110 Introduction to Law Enforcement 3 Credits (3 Lec Hrs/WK)
An introduction to law enforcement. Specific identification of police responsibilities in job performance and to the community as public servants. Identification of area responsibilities to include: field operations, patrol procedures, community relations, police organization and functional duties.
CJ111 Concepts of Enforcement Services 4 Credits
(4 Lec Hrs/Wk)
This course is designed to provide students with a familiarization of police field operations and services.

CJ115 Legal and Fundamental Aspects of Lethal Weapons and Laboratory 4 Credits
(3 Lec, 2 Lab Hrs/Wk)
A study of the moral, legal and ethical aspects of the use of lethal weapons as applied to society's need for protection. Laboratory will consist of actual use of lethal weapons.

CJ120 Judicial Process 3 Credits
(3 Lec Hrs/Wk)
Intended to provide the student with a thorough understanding of our justice system from the time of arrest through sentencing of a criminal offender. This approach includes present legal rules of procedure.

CJ122 Oregon Law 3 Credits
(3 Lec Hrs/Wk)
The elements, purpose and functions of criminal, traffic and juvenile laws for the state of Oregon.

CJ130 Introduction to Corrections 3 Credits
(3 Lec Hrs/Wk)
A study of contemporary correctional institutions and detention facilities, organization and personnel program and activities, inmate society and trends, and career orientation.

CJ131/Soc220 Introduction to Penology 3 Credits
(3 Lec Hrs/Wk)
A basic introduction and overview of imprisonment as a correctional tool. The study of treatment and basic procedures for receiving and discharging.

CJ132 Introduction to Parole and Probation 3 Credits
(3 Lec Hrs/Wk)
An introductory approach that includes: the historical development of probation and parole in England and the United States; 20th century development and current trends; and future possibilities in probation and parole.

CJ198/298 Independent Study in Criminal Justice Administration
To Be Arranged

CJ200 Police and Public Policy 3 Credits
(3 Lec Hrs/Wk)
Contemporary study of the American police. Emphasis on the study of the factors involved in policy making, nature of decisions, and political consequences for these various policies.

CJ201/Soc221 Juvenile Delinquency 3 Credits
(3 Lec Hrs/Wk)
Study of deviant behavior and current criminological theories with emphasis on criminal justice applications, crime prevention, and phenomena of crime as it relates to juveniles.

CJ210 Criminal Investigation 3 Credits
(3 Lec Hrs/Wk)
A study of basic principles and theories of investigative routines. The course focuses upon the primary skills used in all justice agency investigations, both criminal and civil. Specific attention is given to: interviewing, crime scenes, handling and preparation of evidence, witnesses, surveillance, technical resources and case preparation.

CJ212 Introduction to Criminal Law 3 Credits
(3 Lec Hrs/Wk)
An in-depth study of the substantive laws commonly encountered by the municipal, county, or state police, investigators or other criminal justice employees. The scope of the course includes misdemeanor and felony violations of the criminal statutes.

CJ215 Criminal Justice Administration 3 Credits
(3 Lec Hrs/Wk)
Attempts to exhibit the need for management skills in police work. A functional approach will be utilized in development of administration concepts: planning, organization, staffing, directing, and controlling.

CJ220 Criminal Law 3 Credits
(3 Lec Hrs/Wk)
Historical development, philosophy of law, and constitutional provisions: definitions, and classification of crime and their application to the system of administration of justice; legal research, study of case law, methodology, and concepts of law as a social force.

CJ222 Procedural Law 3 Credits
(3 Lec Hrs/Wk)
Theory and practice of the criminal justice system from arrest to release, including: due process, right of counsel, arrest, search and seizure, wiretapping, and electronic eavesdropping, confession and lineups. Case method.

CJ225 Correctional Law 3 Credits
(3 Lec Hrs/Wk)
Explores several historical and current cases involving inmates' crimes and/or malpractice with inmates. Prisoners' rights as well as correctional staff rights are examined, along with emerging trends resulting from recent court cases.

CJ226/PS252 Constitutional Law 3 Credits
(3 Lec Hrs/Wk)
A study of basic principles of the U.S. Constitution with emphasis on leading Supreme Court cases and the Bill of Rights.

CJ243/Soc243 Narcotics and Dangerous Drugs 3 Credits
(3 Lec Hrs/Wk)
This course is designed to present facts, attitudes, opinions and perspectives (medical, social, legal) necessary to understand what psychoactive drugs do, how they do it, who uses them and why.

CJ280 Field Experience (3-9 Hrs/Wk)
Supervised field experience in one of the agencies of criminal justice. An in-service study may pursue a research project instead of work in the field. Includes a seminar for discussion of problems and experience gained.

CJ299 Beginning Forensic Photography 3 Credits
(28 Lec, 2 Lab Hrs/Total)
To improve the quality and efficiency of the individual investigator in evidence photography. To utilize the broadest spectrum of photographic knowledge and further the science of forensic photography.

CJ299 Advanced Forensic Photography 3 Credits
(3 Lec Hrs/Wk)
To provide qualified specialists in forensic photography at the individual departmental level. To increase the spectrum of evidence photography expertise. Prerequisite: Completion of CJ299 Beginning Forensic Photography with "B" grade.

PUBLIC SERVICE COURSES — POLICE

9.370 Basic Law Enforcement I 3 Credits
(3 Lec Hrs/Wk)
An introduction to criminal justice and the judicial system, the U.S. Constitution, civil/legal liabilities, Oregon Criminal Code elements, and motor vehicle laws.

9.371 Basic Law Enforcement II 3 Credits
(3 Lec Hrs/Wk)
This course is a continuation of Basic Law Enforcement I. It will cover law of search and seizure, law of evidence, testimony in court and investigative techniques, and motor vehicle laws.

9.372 Basic Law Enforcement III 3 Credits
(3 Lec Hrs/Wk)
This course is a study of patrol techniques, safe vehicle operation, vehicle stop skills and safe firearm skills.

9.374 Dispatcher Training 3 Credits
(3 Lec Hrs/Wk)
Dispatcher training course for both fire and police dispatchers and those with the desire to learn the job. Course will consist of a variety of subjects ranging from telephone skills to civil liability of a dispatcher. Those succeeding will receive Fire Standards Accreditation Board certification.

9.375 Search and Rescue Training 3 Credits
(2 Lec, 2 Lab Hrs/Wk)
Instruction designed to provide all the training and skills needed to meet state search and rescue certification standards.

<tr>
<td>CS133F/6.903F</td>
<td>Introduction to Programming/FORTRAN</td>
<td>3</td>
<td>Basic principles of numerical computation as developed in the study of FORTRAN. Programming FORTRAN on the mainframe and microcomputers. Prerequisite: 4.202 Elementary Algebra.</td>
</tr>
<tr>
<td>CS133P/6.903P</td>
<td>Introduction to Programming/PASCAL</td>
<td>3</td>
<td>This is a course in programming microcomputers using the UCSD PASCAL programming language utilizing software compilers for TRS-80 and FRANKLIN environments. Prerequisites: CS133B Introduction to Programming/BASIC.</td>
</tr>
<tr>
<td>CS221/6.901</td>
<td>Introduction to Digital Computers</td>
<td>3</td>
<td>An introduction to the theory and operation of digital computers including basic theory and concepts, input and output, storage devices, central processing units, programming systems, operating systems and procedures, and an introduction to a problem-oriented language.</td>
</tr>
</tbody>
</table>
6.908 Special Problems in Data Processing 3 Credits
(1 Lec, 3 Lab Hrs/Wk)

The purpose of this course is to provide students with individual project experience. The instructor, acting as a supervisor, provides a general framework in terms of a requirement or basic system design, and the student, acting as a member of a data processing staff, implements and checks the assignment with systems, programs, and documentation.

The particular projects can be from any area of data processing. However, the choice of project should be a function of the needs of the particular student. In some cases, it may be desirable to allow the student to participate in the selection of the project. Effort should be made to provide problems which demand integration of all his training and experience, and some research beyond that. Prerequisites: Instructor's consent.

6.909 Electronic Computer Operations 4 Credits
(2 Lec, 4 Lab Hrs/Wk)

Basic concepts and procedures, computer operations peripheral devices, operating systems, terminals, timesharing, operational management, data lease management, operations projects. Prerequisites: Introduction to Digital Computer (CS221, 6.901) or instructor's consent.

6.911 Computer Applications 4 Credits
(2 Lec, 4 Lab Hrs/Wk)

The applications of electronic computers to the solution of data processing in such areas as inventory control, sales, analysis, payroll, production scheduling, banking, insurance, utilities, government, and manufacturing. Prerequisites: Instructor's consent.

9.005 Computer Applications Variable
(6 Lec, 12 Lab Hrs Total or any equivalent combination)

An introduction to computer applications in a particular occupational area. The seminar is designed to introduce the participant to the computer concepts and methods that are necessary prerequisites to using the computer in a particular field with no training or experience with computers.

0.615.1 Introduction to Microcomputers .5 Credit
(Variable based on credit:
.5 credit: 1 Lec, 2 Lab Hrs for 5 Wks.
1 Credit: 1 Lec, 2 Lab Hrs/Wk)

An introduction to use and operation of microcomputers, including components, terminology, applications, and some BASIC computer language.

0.616.2 Introduction to Microcomputers (Programming) .5 Credit
(15 Hours Total)

This course is an introduction to BASIC programming (terminology, concepts, and programming techniques). Prerequisites: Introduction course or some micro knowledge.

DEVELOPMENTAL EDUCATION

Eng91/92/93 English for Foreign Students 3 Credits/Term
(6 Lec-Lab Hrs/Wk)

Develops vocabulary building, reading, writing, speaking and comprehension of spoken discourse.

RDG90 Effective Reading Strategies 3 Credits
(3 Lec Hrs/Wk)

This course is designed to give equal and significant emphasis to literary and technical reading. It will teach a number of reading skills using a variety of written material on the seventh and tenth grade reading levels.

RDG101/102/103 Developmental Reading 1-3 Credits
(1-3 Lec Hrs/Wk)

A systematic approach for improving reading efficiency for those with seventh grade reading level or above. From the results of formal reading tests taken at the beginning of the term, an individually prescribed assignment sheet is assigned each student. Multilevel materials are used to improve basic skills, vocabulary, spelling, comprehension and speed. Open enrollment and variable credit. Prerequisites: Seventh grade reading level with good speed and comprehension.

WR90 Paragraph Fundamentals 3 Credits
(3 Lec Hrs/Wk)

The course is designed to help students write clear, correct paragraphs in Standard English. A final goal is to have students organize paragraphs in an essay.

0.525 Sentence Fundamentals 5 Credits
(5 Lec Hrs/Wk)

The student learns basic skills in writing well-formed sentences, and organizing paragraphs, and in using correct spelling, punctuation and grammar. The course cannot be taken for credit toward an associate degree.

0.525.1/0.525.2 Spelling Improvement I, II 3 Credits/Term
(36 Hours Total)

This course offers study of commonly misspelled words, spelling rules, and practice in editing written work. It enables students to spell words correctly from dictation and to analyze and correct their own work. The second term of course offers continued study of spelling rules and their application. Students in 0.525.2 complete 'Spelling Demons' and move through 'Programmed Spelling and Vocabulary: Words in Context', by George Farnstein.

0.528.3/4 Beginning & Intermediate American Sign Language (ASL or American)
1 Credit
(20 Hrs Total)

An introduction to American sign language, deaf idioms, body language, facial expressions, manual alphabet, finger spelling, numbers and counting.

0.528.3/4/5 Beginning, Intermediate & Advanced Sign Language (Signed English) 4 Credit
(1 Lec, 1 Lab Hrs/Wk)

This course is designed for the mature reader who is serious about improving his/her reading speed. The course includes step-by-step instruction to modify reading habits and adapt special techniques (S-pattern, re-call, speculations) that will significantly increase the rate of effective reading. High speed reading is the objective and comprehension is developed during the process.

0.529.1 Speed Reading 1 Credit
(20 Hrs Total)

This course is designed for the drop-in or referred writing student needing: (1) individual advising about his writing; (2) individual instruction in writing skills from basic to advanced levels. The course is designed to assist the student to develop writing skills for use in college classes, English and other subjects, and to assist the student to develop writing skills for use in non-academic settings. The student will have access to individual and small group tutorial in a broad range of writing skills. Instructors and individualized instructional materials will help the student deal with skill problems associated with course requirements and other needs.

0.746 Adult Basic Education 0 Credit
(Variable)

An open-entry, open-exit course designed to provide an opportunity for students with skills below ninth grade level to develop their ability in reading, writing, grammar, vocabulary, spelling, expression and math. Students receive individualized instruction with tutorial assistance and small group learning.
0.746 High School Equivalency Preparation (GED) 0 Credits
(Variable)
A study of the basic skills in written communication, mathematics, vocabulary, and reading comprehension in the subject areas. Emphasis will be placed on acquiring those skills necessary to pass the five General Educational Development tests.

0.747 English as a Second Language 0 Credits
(Variable)
A course for students whose first language is other than English. The audio-lingual approach of teaching English will be emphasized rather than instruction about the language.

0.760 Mathematics Laboratory 0 Credits
(Variable)
Includes all levels of math ranging from basic arithmetic to calculus. Individualized programmed materials enable students to work at their own speeds and levels.

0.765.1/2/3 Reading Skills 1-3 Credits
(1.3 Lec Hrs/Wk)
A systematic approach for correcting reading difficulties and improving reading efficiency through individual instruction for those with a reading skill below the twelfth grade level. From the results of informal reading tests taken at the beginning of the term, an individually prescribed assignment sheet is given each student. Multilevel materials are used to improve basic skills, vocabulary, spelling, comprehension and speed. Open enrollment and variable credit.

0.768 Study Skills 1-2 Credits
(1-2 Lec Hrs/Wk)
This course will offer study in the following areas: time management, cognitive mapping, note taking, vocabulary, studying textbooks, outlining, underlining, listening, handling stress, improving memory, and studying for and taking exams.
(ALSO SEE ENGLISH COMPOSITION)

0.768 Technical Learning Skills 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
How to succeed in a college setting, especially in the Industrial Mechanics Program. Reading technical texts and job skills requirements will be studied.

DO-IT-YOURSELF COURSES

0.636.1 Amateur Radio Theory and Code I 1 Credit
(36 Hrs/Total)
Covers basic electrical and electronic theory, radio circuit components, practical radio circuitry and operation, Federal Communication Commission (FCC) amateur regulations, and International Morse code.

0.638.3 Telescope Construction 1 Credit
(30 Hrs/Total)
A practical course during which the student will construct a telescope and learn to use it. Includes mirror grinding, polishing, testing, computing, parabola, magnification, eyepieces, fingerscopes, diagonal mirror, tube assembly, mounting, celestial photography, cleaning. Sufficient physics theory needed for construction will be taught.

0.763.1 General Metals 1 Credit
(1 Lec, 2 Lab Hrs/Wk)
An introduction course for those interested in investigating the field of metal working. Course includes basic Gas and Arc welding and cutting, bending, foundry processes and sheet metal.

0.775 Auto Maintenance .5-1.5 Credits
(15-36 Hrs/Total)
Designed for the student who knows nothing or very little about operation of the automobile. Emphasis will be put on identification and operation of components, systems, and preventative maintenance. Seasonal service and emergency roadside repairs are also covered.

0.776 Automotive Survival for Women I .5-1.5 Credits
(45 Hrs/Total)
Course content includes theory and hands-on orientation to the various automotive systems, diagnosis, maintenance and repair procedures, use of tools, how to intelligently relate to repair technicians, how to purchase and sell a car, how to research information. Provides instructional time to meet the needs and desires of the majority of students, based upon their abilities.

0.778 Basic Bicycle Repair 1 Credit
(36 Hrs/Total)
Bicycle care, maintenance, and basic repair with common tools.

0.798 Drafting Home Design & Remodeling 1 Credit
(36 Hrs/Total)
Includes the use of basic drafting tools, designing and drawing of a residential addition and remodeling project and blueprinting the results.

0.802 Beginning Woodshop 1 Credit
(36 Hrs/Total)
Instruction in the basic operation of tools and equipment and safety techniques. The student will work on individual projects under the direction of the instructor. Instruction will also be given in basic cabinet and/or furniture construction.

0.850.1 Solar Energy Basics 1 Credit
(1 Lec, 2 Lab Hrs/Wk)
Will provide information on solar energy uses for residential dwellings. Will provide construction and installation instruction to participants.

0.854.2 Restoring and Refinishing Furniture 1 Credit
(1 Lec, 2 Lab Hrs/Wk)
Repairing and restoring antiques and other furniture. Stripping off the old finish, staining and refinishing furniture.

0.862 Landscape Architecture 1 Credit
(36 Hrs/Total)
Introduction to residential landscape architecture: site planning and landscape design principles; natural and adopted ornamental plant materials; emphasis on practical application and solution of student problems. Prerequisite: drafting/graphic skills are helpful.
DRAFTING
4.101 Drafting 2 Credits
(4 Lec, 3 Lab Hrs/Wk)
This is a fundamental course in drafting designed to give the student a basic understanding of drawing techniques. Emphasis is placed on the use of drafting instruments, orthographic projection, layout, and ASA approved lettering technique. Drawing techniques involve geometric construction, selection of views, sectional and auxiliary views, and standard dimensioning practices.
4.110 Blueprint Reading and Sketching I 2 Credits
(4 Lec, 3 Lab Hrs/Wk)
Introduction to blueprint reading and sketching.
4.112 Blueprint Reading II for Building Trades, Welding, and Machine Tool Practices 2 Credits
(4 Lab Hrs/Wk)
Refinement of skills of print reading and sketching in these areas.
9.603 Computer Assisted Drafting 3 Credits
(36 Lec, 24 Lab Hrs/Term)
Introduction to the use of computers for the preparation of architectural and engineering drawings.

DRIVER TRAINING
0.600 Defensive Driving 1 Credit
(10 Hrs/Total)
This course is designed to acquaint students with techniques of defensive driving, to include how various types of motor vehicle accidents occur, and some recommended methods of prevention. Prerequisite: Instructor's consent.
0.601 Driving Instruction 3 Credits
(3 Lec, 1/2 Lab Hr/Week Term)
Designed to provide adults with the knowledge necessary to operate an automobile safely and efficiently. The class will meet minimum state requirements of 30 hours classroom instruction and 6 hours B/W, and will include Oregon Motor Vehicles Laws, defensive driving and financial responsibilities involved. Prerequisite: Oregon learners driving permit.

ECONOMICS
EC198/298 Independent Study In Economics  To Be Arranged
EC204/202/203 Principles of Economics 3 Credits/Term
(3 Lec Hrs/Wk)
Introduction to economic theory, policy, and institutions.

EDUCATION
ED207 Tutoring Principles and Practices 3 Credits
(15 Lec, 25 Lab Hrs/Total)
Provides a structure in which education majors, prospective tutors and aides gain proficiency in teaching basic reading and math skills. The field experience in an elementary or secondary classroom provides an opportunity to apply and acquire knowledge and skills. Principles of tutoring and methods in teaching are developed.
ED209 Practicum In Tutoring 1-3 Credits
(36-108 Lab Hrs/Total)
Provides supervised tutoring/teaching experience in the elementary or secondary classroom. In addition to direct participation as a tutor in a one-to-one and/or small group situation, the student will write learning objectives, consider philosophies of discipline and practice observational techniques.
ED280 Field Experience in Education 1-3 Credits
(3-9 Hrs/Week)
This course provides students with an opportunity to gain tutoring or teaching experience while applying methods and techniques.
9.025 Instructor Training 1-3 Credits
(5-36 Lec Hrs/Total)
Designed to provide the part-time teacher with basic skills to become a competent instructor.

ELECTRONICS
6.300 Electronic Theory and Lab 3 Credits
(1 Lec/6 Lab Hrs/Wk)
Project course for special interests of students. Actual content is to be arranged with instructor prior to enrollment. Typical course work includes troubleshooting of consumer electronics equipment or special project design and construction. Prerequisite: Instructor's consent.
6.311 D.C. Electronic Concepts 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
Deals with electronic components and the basic parameters used in D.C. circuits: voltage, current, and resistance. Students also gain experience in the use of test equipment such as voltmeters, digital multimeters, electronic multimeters, and vacuum tube voltmeters. Prerequisites: 4.202 Math or equivalent.
6.312 A.C. Electronic Concepts 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
This course deals with electronic components and the basic parameters used in AC circuits—sine wave generation, frequency, capacitance, inductance, and frequency response. Prerequisites: 6.311 D.C. Electronic Concepts or instructor's consent.
6.313 Basics to Electronic Systems I 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
This course deals with semiconductor devices: bipolar junction transistor, field effect transistor, and diodes as well as basic amplifier circuits. Prerequisites: 6.312 A.C. Electronic Concepts or instructor's consent.
6.314 Basics to Electronic Systems II 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
This course deals with the application of semiconductor devices in basic electronic circuits, such as regulators, audio amplifiers, operational amplifiers, and oscillators. Prerequisites: 6.313 Basics to Electronic Systems I or instructor's consent.
6.315 Digital Logic Fundamentals 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
This course deals with the internal circuitry, data sheets, and possible application of digital ICs such as gates, clocks, shift registers, D/A converters, and flip-flops. Prerequisites: 6.314 Basics to Electronic Systems II or Instructor's consent.

6.316 Microprocessor Architecture 8 Credits
(4 Lec, 12 Lab Hrs/Wk)
This course develops the fundamental principles of digital microprocessors. Topics covered include number systems and binary coding, internal structure, instruction cycles and formats, addressing modes, memories, input-output transfers, programmable interfaces, and converters. Laboratory projects/exercises will be accomplished, which develop the operational theory of the microprocessor and interface the microprocessor with various I/O devices. Prerequisites: 6.305 Digital Logic Fundamentals or 6.315 Digital Logic Fundamentals, or Instructor's consent.

6.280 Cooperative Work Experience 4-5 Credits
(4-20 Hrs/Wk)
Maximum credits toward degree is five credits. Prerequisite: consent of coordinator.

9.638 Electronic Communications Systems 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
All phases of electronics specifically related to communications including basic philosophies, processes and circuit configurations are covered in this course. Topics include fundamental principles of communication systems, theory, and generation of analog modulation systems, transmission systems, microwave systems, pulse-type systems and TV systems.

ENGINEERING - GENERAL

GE101/102/103 Engineering Orientation 2 Credits/Term
(2 Lec Hrs/Wk)
GE101 is an introduction to the nature of engineering and the processes involved in the design and optimization by engineers of devices used by mankind. The opportunities and types of employment in various fields of engineering are discussed. The computer is introduced and used in the solution of engineering problems. Computer languages currently used in GE101 & 2 are FORTRAN and BASIC. Boolean Algebra is also introduced and used in the design of switching circuits in GE102. GE103 includes the use of Vectors in three-space as an additional engineering tool. A brief introduction to the PASCAL (computer) language is also accomplished. The content of all three courses is kept flexible and can change considerably from year to year. Prerequisite: Math 101 previously or concurrently.

GE198/298 Independent Study in General Engineering To Be Arranged

FIRE SCIENCE TECHNOLOGY

5.237 Fire Investigation 3 Credits
(3 Lec Hrs/Wk)
Study of burning characteristics of flammable and combustible materials; interpret clues, burn patterns leading to to the origin; identify ignition indications, sources of ignition and materials ignited; and how to preserve fire scene evidence.

5.250 Firefighting Skills I 3 Credits
(3 Lec Hrs/Wk)
Develops skills in using small tools and minor equipment: practice in forcible entry; the use of breathing apparatus; salvage, overhaul, and safety practices.

5.251 Firefighting Skills II 3 Credits
(3 Lec Hrs/Wk)
Practice of individual and team skills used in fireground operation including hose and ladder evolutions, salvage, overhaul, rescue, fire attack, and other activities requiring team and individual effort. Prerequisites: 5.250 Firefighting Skills I or instructor's consent.

5.253 Fire Apparatus and Equipment 3 Credits
(3 Lec Hrs/Wk)
Familiarization with fire apparatus; principles of application; care and preventive maintenance; safe operating practices, emergency and non-emergency; National Standards concerning fire apparatus, construction, and design.

5.254 Introduction to Fire Protection 3 Credits
(3 Lec Hrs/Wk)
Development of fire services, safety, and security movements, the role of fire services, protection and safety personnel, and ancillary organizations.

5.257 Fire Service Hydraulics 3 Credits
(2 Lec Hrs/Wk)
Review of basic mathematics, hydraulic laws and formulas as applied to the fire service. Application of formulas and mental calculations to hydraulic problems, the study of fireground water supply problems, and Underwriter's requirements for pumps and accessories. Prerequisites: 4.200 Basic Math or Instructor's consent.

5.258 Fire Company Organization, Station Assignment 3 Credits
(3 Lec Hrs/Wk)
Study of fire company organization and operation, company responsibilities in station, recordkeeping, station communications and watch, housekeeping and house privileges, tours and public relations, company organization for response to alarms, and company morals.

5.260 Hazardous Materials I 3 Credits
(3 Lec Hrs/Wk)
Develops basic understanding of hazardous materials, including flammable liquids, liquified gases, cryogenics, oxidizing agents and numerous other materials. Designed to provide basic guidelines in proper handling and emergency actions.

5.261 Hazardous Materials II 3 Credits
(3 Lec Hrs/Wk)
Study of electrical, exotic metal and space-age fuel fires: the effect of the atomic age on the fire service; handling of radio-active materials involved in fire; the use of monitoring equipment; and personnel safety practices. Prerequisites: 5.260 Hazardous Materials I or Instructor's consent.

5.262 Fundamentals of Fire Prevention 3 Credits
(3 Lec Hrs/Wk)
Fundamentals of fire inspections including standards, techniques of evaluation of hazards as to degree of the hazard and practical recommendations. Student will write reports, which includes maps and sketches of each building inspected. They will conduct on-site inspections of buildings to locate hazards and to recommend safe practices and improvements.

5.253 Fire Pump Construction and Operation 3 Credits
(3 Lec Hrs/Wk)
Designed for pump operators and firefighters. Provides basic understanding in fire pump hydraulics and measurement, including velocity of flow, friction loss, engine and nozzle pressure, discharge, steam range, drafting water, pumping from hydrants, and relaying by hose or tank. Prerequisites: 5.257 Fire Service Hydraulics or Instructor's consent.

5.264 Building Construction for Fire Protection 3 Credits
(3 Lec Hrs/Wk)
Classification of buildings, structural features affecting fire spread, effect of fire on structural strength, fire stops and ratings of materials, fire retards, Sanborn maps.

5.268 Fire Service Rescue Practices 2 Credits
(15 Lec, 15 Lab Hrs/Total)
Trains fire company personnel to render emergency service in life saving and rescue work. The study of the development and organization of a rescue service, practices and procedures. Prerequisites: Approval of instructor and a course in American Red Cross Advanced First Aid or equivalent.

5.271 Introduction to Fire Behavior 5-100 2 Credits
(24 Lec Hrs/Total)
The course is designed to provide identification of factors that affect the start and spread of wildfire, how basic suppression methods apply to breaking the fire triangle, and situations that are potentially hazardous to life and property.

<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.272</td>
<td>Fixed Systems and Extinguishers</td>
<td>3</td>
<td>A study of portable extinguisher equipment, fire alarm and detection systems, sprinkler systems and standpipes, protection systems for special hazards, explosion release, ventilation systems, inert atmospheres, and static bonding.</td>
</tr>
<tr>
<td>5.273</td>
<td>Tractor Use/Tractor Boss S-213</td>
<td>2</td>
<td>This course is designed to provide student with the tactics, organization, safety, and management of tractor use in the field.</td>
</tr>
<tr>
<td>5.274</td>
<td>Firefighting Tactics and Strategy</td>
<td>3</td>
<td>A demonstration response and size-up, fire ground tactics, analysis, and postmortem, prefire survey and planning, combined operations, mutual aid, disaster planning problems in unusual fire operations.</td>
</tr>
<tr>
<td>5.276</td>
<td>Basic Wildland Fire Management S-130</td>
<td>3</td>
<td>This course is designed to provide the student with basic fire suppression methods related to forest fires.</td>
</tr>
<tr>
<td>5.277</td>
<td>Portable Pumps and Water Use S-241</td>
<td>1.5</td>
<td>This course is designed to cover all aspects of portable pump operations, water use, and pumper operations.</td>
</tr>
<tr>
<td>5.279</td>
<td>Power Saws S-212</td>
<td>1.5</td>
<td>This course is designed to provide the student with the knowledge of detailed operation of power saws, safety and maintenance.</td>
</tr>
<tr>
<td>5.280</td>
<td>Cooperative Work Experience</td>
<td>1-3</td>
<td>Maximum of 9 credits applicable to degree, instructor's consent.</td>
</tr>
<tr>
<td>5.281</td>
<td>Ground Tanker/Tanker Boss S-214</td>
<td>2</td>
<td>This course is designed to provide students with the basic knowledge in assignment of tanker crews, tactics and shift planning. Students will receive instruction in administration, safety, maintenance and related operations.</td>
</tr>
<tr>
<td>5.282</td>
<td>Fire Codes and Related Ordinances</td>
<td>3</td>
<td>A study of fire codes, building exit, flammable liquid, and other codes as related to fire prevention. Designed primarily for students interested in jobs as fire service inspectors. Prerequisites: Introduction to Fire Protection (5.254) or instructor's consent.</td>
</tr>
<tr>
<td>5.283</td>
<td>Firing Methods and Equipment Firing Boss S-215</td>
<td>2</td>
<td>This course is designed to instruct those people that are responsible for burn out on a fire line and those responsible for prescribed burning.</td>
</tr>
<tr>
<td>5.284</td>
<td>Crew Boss S-230</td>
<td>2</td>
<td>This course is designed to provide students with the knowledge which will allow advancement in job placement. It will cover fire line duties, fire organization, authority and responsibility as it relates to the position of crew boss.</td>
</tr>
<tr>
<td>5.285</td>
<td>Basic Air Operations S-270</td>
<td>2</td>
<td>This course is designed to provide personnel who are exposed directly or indirectly to aircraft with knowledge in organizational safety, tactics and logistics.</td>
</tr>
<tr>
<td>5.286</td>
<td>Legal Aspects of Fire Protection</td>
<td>3</td>
<td>The history and background of laws relating to fire service; tort liability of municipalities; municipal employees, and members of the fire service; clarification of legal terminology; civil service laws and requirements; pensions, mutual aid, and fire prevention codes.</td>
</tr>
</tbody>
</table>
5.292 Organizing for Fire Suppression S-320 2 Credits
(2 Lec Hrs/Wk)
This course is designed to train suppression personnel in management practices and activities of a fire at the initial attack level.

5.294 Maps and Records Officer S-341 2 Credits
(2 Lec Hrs/Wk)
This course is designed to train an individual as a maps and records officer. Course content includes planning, organizing and preparing materials required for an efficient and effective maps and records section on major fires.

5.296 Intermediate Air Operations S-370 2 Credits
(2 Lec Hrs/Wk)
This course presents the planning phase and the coordinating phase as necessary considerations to develop safe and effective air operation plans for Class I and II project fires.

5.297 Fire Behavior S-390 3 Credits
(3 Lec Hrs/Wk)
This course is designed to meet the training needs in fire behavior knowledge up through Class II fires, shoulder positions. Course content includes rate of fire spread, fire line intensity, flame length and fire behavior calculations.

PUBLIC SERVICE COURSES — FIRE

9.301 Firefighter I-A 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
Develops understanding in fire department organization as it pertains to industrial firefighters. Proper attitude of responsibility of station care and maintenance, and basic skills for team work in use of tools and their utilization under firefighting conditions.

9.302 Firefighter I-B 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
Designed to train students in use of portable fire extinguishers, in methods of overhaul and salvage, in principles of fire control in natural cover crops, in forcible entry tactics, and ventilation and rescue procedures.

9.303 Firefighter I-C 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
Develops responsible attitudes toward fire apparatus and safe, skillful handling of fire equipment; an understanding of fundamental characteristics of flammable liquids, LPG, and the methods of extinguishment; an awareness of value of good fire planning and systematic procedures of fire planning.

9.304 Firefighter I-D 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
Review fire control tactics and apply principles to specific types of buildings and hazards. Includes air crash and rescue, mills, factories, large structure fires, and motor vehicle fires.

9.305 Firefighter I-E 1.5 Credits
(1 Lec, 2 Lab Hrs/Wk)
Study forcible entry, fire ventilation practices, rescue, protective breathing practices, and related procedures.

9.307 Rural Firefighting Strategy & Tactics 1 Credit
(12 Lec Hrs Total)
To provide information and knowledge to enable the rural firefighters to evaluate fire potential and resources to handle such a fire emergency.

9.311 Fire Tactics by Simulator .75 Credit
(5 Lec, 10 Lab Hrs Total)
Familiarizes student with use and operation of fire simulator as training tool. Improves suppression tactics and ability to function in actual fire conditions. Exposes student to stress conditions that will condition each to perform critical assignments under emergency situations.

9.313 Interagency Helicopter Training 1.5 Credits
(18 Lec Hrs Total)
The Interagency Helicopter class is designed to standardize the basic training of individuals in helicopter operations.

9.326 Apparatus Operator I 1.5 Credits
(10 Lec, 20 Lab Hrs Total)
Designed to provide auxiliary and regular fire service personnel with basic operation of fire apparatus and related equipment.

9.327 Apparatus Operator II 1.5 Credits
(10 Lec, 20 Lab Hrs Total)
Provides student with advanced training in fire apparatus and pump operation. Will receive basic knowledge in water hydraulics and methods of water movement related to fire service. Prerequisites: 9.326 Apparatus Operator I.

9.328 Apparatus Operator III 2 Credits
(15 Lec, 15 Lab Hrs Total)
Designed to acquaint fire fighters with basic operation and limitations of aerial trucks, water tower, and related apparatus. Prerequisites: 9.327 Apparatus Operator II.

9.329 Live Burn Exercise (Flammable Liquids) 25-50 Credits
(6-16 Lab Hrs Total)
This course is designed to provide firefighters with the opportunity to apply techniques of fire suppression in flammable liquid fires and aircraft fires/accident operations.

9.337 Introduction to Wildland Fire Suppression 1 Credit
(12 Lec Hrs Total)
This course is designed to meet specific measurable objectives as they relate to forest fire control and suppression.

9.338 Sector Boss (S-330) 3 Credits
(3 Lec Hrs/Wk)
Designed to identify specific sector boss responsibilities and show their relationship to successful and economical fire management.

9.395 Career Development - Fire 0-3 Credits
(1-90 Hrs Total)
A study and practical application of current fire suppression and management operations.

FOREIGN LANGUAGES
FR101/102/103 First-Year French 4 Credits/term
(4 Lec Hrs/Wk)
Introduction to French that stresses reading and speaking along with exercises in elementary composition and grammar. Prerequisite: Must be taken in sequence.

FR198/298 Independent Study in French To Be Arranged

FR201/202/203 Second-Year French 4 Credits/term
(4 Lec Hrs/Wk)
Study of selections from representative authors; review of grammar; considerable attention to oral use of the language. Prerequisites: RL103 or two years high school French or equivalent for RL201; RL201 or equivalent for RL202; and RL202 or equivalent for RL203.

SPAN101/102/103 First Year Spanish 4 Credits/term
(4 Lec Hrs/Wk)
Introduction to Spanish that stresses reading and speaking along with exercises in elementary composition and grammar.
SPAN201/202/203 Second Year Spanish  4 Credits/Term
(4 Lec Hrs/Wk)
A continuation of First Year Spanish that stresses reading and speaking along with exercises in advanced composition and grammar.
0.557.5/0.557.6/0.557.7 Conversational French I, II, III  1 Credit/Term
(1 Lec, 2 Lab Hrs/Wk)
An introduction to practical French words and sentences.
0.558.1/0.558.2/0.558.3 Conversational German I, II, III  1 Credit/Term
(30-36 Hrs/Total)
Develops conversational German vocabulary as well as necessary basic grammar.
0.560.1 Conversational Japanese I  1 Credit
(35 Hrs/Total)
Develops 500-word vocabulary including phrases and simple sentences. Emphasis will be on pronunciation.
0.560.2 Conversational Japanese II  1 Credit
(36 Hrs/Total)
Develops increased speaking and reading vocabulary to approximately 900 words. Emphasis will be on pronunciation and conversational flow of sentences and everyday phrases. Prerequisites: 0.560.1 or Instructor's consent.
0.560.3 Conversational Japanese III  1 Credit
(36 Hrs/Total)
Develops increased speaking and reading vocabulary to approximately 1400 words. Emphasis will be on pronunciation and conversational flow of sentences and everyday phrases. Prerequisites: 0.560.1 and 0.560.2 Conversational Japanese I, II, or instructor's consent.
0.561.1/0.561.2/0.561.3 Conversational Norwegian I, II, III  1 Credit/Term
(36 Hrs/Total)
Introduction to conversational Norwegian. Provides opportunities for practical conversation on everyday topics, current events, and cultural materials.
0.562.1 Conversational Spanish I  1 Credit
(35 Hrs/Total)
Develops conversational Spanish vocabulary including necessary grammar.
0.562.2/0.562.3 Conversational Spanish II, III  1 Credit/Term
(36 Hrs/Total)
Develops skill in use of Spanish language and understanding of fundamental conversational Spanish vocabulary including necessary grammar. Prerequisites: Conversational Spanish I (0.562.1) or Instructor's consent.

FOREST TECHNOLOGY
F111 General Forestry  3 Credits
(3 Lec Hrs/Wk)
The development of forestry in the United States is reviewed with reference to its European heritage. The course will also explore the history of forest management and multiple use concepts. Exposure to various forestry organizations, both public and private, and basic forestry tools and terms will be covered.
F198 Independent Studies-Forestry  1-3 Credits
(3-9 Lec Hrs/Wk)
This course is designed so a student will have an opportunity to conduct independent research in an area of his particular interest. The project will be agreed upon prior to course registration. The student will have a choice of working on an ongoing project for the Forest Service, BLM, Coos County, or private industry. Prerequisites: Instructor's consent.
F254 Tree and shrub Identification  4 Credits
(3 Lec, 4 Lab Hrs/Wk)
Characteristics, classification, and identification of woody plants of Oregon. Principal timber trees of the United States and many introduced species will also be covered.

FW251 Principles of Wildlife Conservation  3 Credits
(3 Lec Hrs/Wk)
This course will give the student firsthand knowledge and a laboratory experience related to some of Oregon's fish, wildlife, and forest resources with an emphasis on the relationships between water quality, fish and forest practices. The latest studies will be presented and analyzed in relation to physical and economic feasibility.
6.280 Cooperative Work Experience  1-5 Credits
Maximum of 5 credits toward a degree. Prerequisite: Instructor's consent.
6.404 Elementary Forest Surveying  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
An elementary course in the basic fundamentals of plane surveying as well as the use of various surveying instruments. The theory of field measurements, bearings, angles and azimuths is emphasized.
6.405 Advanced Forest Surveying  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
The application and use of more precise engineering instruments will be developed. Engineering procedures used in property subdivision and road surveying will be covered. Prerequisites: Elementary Forest Surveying (6.404).
6.406 Forest Engineering  4 Credits
(3 Lec, 4 Lab Hrs/Wk)
The study of forest engineering procedures with particular emphasis on road design and location. Prerequisites: 6.404, 6.405, or Instructor's consent.
6.407/6.408 Forest Mensuration I/II  3 Credits/Term
(2 Lec, 4 Lab Hrs/Wk)
This course is designed to teach the student the basic skills and principles of forest measurements. This course will include cruising, scaling, volume measurements, log and tree grading, and the use of various measurement tools and techniques. The laboratory will consist of application of classroom principles in the field to measure actual forest stands. (Prerequisite: F111)
6.409 Forest Protection  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
Describes the destructive agents in the forest including disease, insects, animals, and fire. Emphasis will be placed on the identification of insect and disease organisms and control measures. Fire will be discussed as it relates to prevention, suppression and suppression. Laboratory periods will examine these agents and various control procedures.
6.410 Forest Products Manufacturing  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
This course covers the basic forms of products derived from timber resources and how they relate to the economy. Emphasis is on the type of products obtained and their relative importance to our economic system.
6.411 Logging Operations  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
This course will study basic logging methods, cost and techniques used in the Pacific Northwest. All types of logging operations will be visited during the laboratory period.
6.414 Forest Contracts (Mapping)  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
This course deals with the basic forms of forest contracts and their functional administration. It will also cover forest mapping as it relates to forest contracts.
6.416 Aerial Photography  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
This course provides the student with basic knowledge of using aerial photographs in forestry as well as an update on the latest techniques used in remote sensing.
6.417 Silviculture  3 Credits
(2 Lec, 4 Lab Hrs/Wk)
An introductory course to describe and observe the biological influences on a forest stand. The principles involve the nature of forest trees and stands, their growth, reproduction, environment: composition, nutrition and various responses. Prerequisites: General Forestry (F111) or Instructor's consent.
0.624.5 Plant Identification 2 Credits
(1 Lec, 4 Lab Hrs/Wk)
This course will study characteristics, classification, and identification of trees, shrubs, and wildflowers of Oregon. Principal timber trees of the United States and many introduced species will also be covered.

0.629 Oregon's Fish and Wildlife 1 Credit
(1 Lec, 2 Lab Hrs/Wk)
Familiarizes student with fish and wildlife resources of Oregon. Including history of wildlife and discussions of wildlife management practices.

GEOLOGY AND EARTH SCIENCES

G142 Geology of the Pacific Northwest 3 Credits
(3 Lec Hrs/Wk)
Since there is no prerequisite, the nature of the course is twofold: it begins with studies of basic earth materials, fundamental geologic principles and processes, geologic time, and the nature of the interior and surficial features of the earth. It continues with a systematic study of the geologic history of the Pacific Northwest, encompassing the sequence of geologic events for different regions, including stratigraphic relations, structural framework, and the origin and development of landforms. Field trips to areas of geologic interest are included.

G145 Regional Field Geology 1-2 Credits
(6 Lec, 24-27 Lab Hrs Total)
A field study of significant geologic features of a selected region. The heart of the course consists of a field trip to the region. The trip is designed to illustrate various geologic aspects and special features unique to the selected region, and includes studies of the age and origin, geologic setting, stratigraphy and structure, topography, and significant events through geologic time. These observations are correlated with contemporaneous geologic events of special significance elsewhere. The course will begin with an on-campus meeting prior to the field trip, and all students will be expected to become familiar with the geologic section for the selected region. Students registering for one credit will be expected to submit a report of their field studies, and will also be expected to demonstrate a knowledge of the geologic section for the region. Students registering for two credits will, in addition to the work listed above, be expected to initiate a rigorous study of the geologic literature pertaining to the region prior to the trip, and on return to campus, will continue with a detailed study of selected features seen on the trip. The results of these studies will also be submitted in a report.

G146 Field Geology of Southwest Oregon 3 Credits
(6 Lec, 24-27 Lab Hrs/Wk)
A field study of significant geological features of Southwest Oregon. The course consists of a sequence of field trips arranged to illustrate various geologic aspects of the Coos Bay area, the Coast Range, Klamath Mountain province, and the Cascades. In addition to special features unique to each area, each trip will include studies of the geologic setting, age and origin, stratigraphy and structure, topography, and a summary of significant historical events. The course will conclude with an on-campus meeting to summarize the geology of Southwest Oregon.

G147 The Natural Environment of Coos Bay 3 Credits
(2 Lec, 2 Lab Hrs/Wk)
A totally integrated study of the natural environment of the Coos Bay region, and man's relationship to this environment. Introductory topics include major geographical aspects and significant historical events of the region. Successive regions fall into four major areas of study: history, the estuary, the modern environments, and the ancient environments. The physical, chemical, biological, geological, social, and economic aspects of these topics are integrated into a variety of field lecture and laboratory investigations. Field investigations and lectures are conducted during the normal time period scheduled for the course. These are supplemented during the following week by laboratory studies of data and samples collected. In addition to lectures related to scientific studies, experts familiar with various aspects of the local environment and the local economy are also invited to speak.
G160 Volcanology 3 Credits
A systematic study of volcanic processes and volcanic phenomena, including the nature and origin of magmas, volcanic materials, lava flows, volcanic cones, craters and calderas, volcanic eruptions, and geothermal features such as geysers and hot springs. Volcanic features of the Pacific Northwest and the relationship of volcanic activity to society will be emphasized.

G198/298 Independent Study in Geology 1-6 Credits
The course is designed to introduce the student to geographic research methods. A research project will be required.

G201/202 Physical Geology 4 Credits/term
(3 Lec, 3 Lab Hrs/WK)
A systematic study of fundamental geologic principles and the natural processes acting within and upon the earth, basic earth materials, the origin of the earth and its oceans, the nature of the interior and surface features of the earth, geologic time, natural resources and the interrelationships of man and his natural environment. Laboratory exercises include studies of minerals, rocks, topographical maps and geologic maps, as well as field trips to areas of geologic interest.

G203 Historical Geology 4 Credits
(3 Lec, 3 Lab Hrs/WK)
A study of the methods and principles of historical geology, the nature of geologic change and geologic time, the progression of plant and animal life through time, and the value and significance of fossils and plants and animals. The course also includes a study of the sequence of tectonic changes, stratigraphic relations, paleogeographic environments and major changes, and the implications of these and present changes for the future environment. Laboratory exercises and field trips are included. Prerequisites: Geology sequences (G201/2.3, or Instructor's consent).

G210 Minerals and Rocks 4 Credits
(4 Lec Hrs/WK)
A systematic study of the nature, origin and use of minerals and rocks and their identification. Specific topics for the section on minerals include: crystallography, mineral chemistry, physical properties, mineral descriptions and identification. Specific topics for the section on rocks include: rock-forming processes, rock composition and textures, rock structures, and the classification, description, and identification of rocks. The course concludes with a study of some important ore deposits, the use of earth materials, and the significance of minerals and rocks in human affairs.

G218 Prehistoric Life 3 Credits
(3 Lec Hrs/WK)
A systematic study of the nature of prehistoric life, including fossilization, classification, evolutionary mechanisms and patterns, adaptation and functional morphology, paleoecology, and stratigraphic significance. Major groups of fossils to be studied in detail include trace fossils, vertebrate fossils, plant fossils and vertebrate fossils. The identification of significant vertebrate fossil genera will be emphasized. The course will also include discussions of methods used in the study of fossils, fossil collecting, and studies of exceptional fauna.

G221 General Geology 3 Credits
(3 Lec Hrs/WK)
An elective course on basic geologic principles and processes, rocks and minerals, internal and surficial features of the earth, and geologic time.

G245 Geomorphology: Scenic Geology of the United States 3 Credits
(3 Lec Hrs/WK)
A systematic study of the fundamental processes involved in the origin and evolution of landforms, including glacial processes and landforms, climatic morphogenesis, volcanic processes, and landforms, tectonic processes, and structural control of landforms. The course also includes concurrent studies of the various geologic provinces of the United States and the landscape features unique to each, emphasizing the National Parks and Monuments. The course concludes with a summary of the interrelationship of man and the natural landscape.

G299 Geological Hazards and Natural Catastrophes 3 Credits
(3 Lec Hrs/WK)
A study of geological hazards and natural catastrophes, including earthquakes, tsunamis, landslides, ground subsidence and collapse, avalanches, floods, storms, coastal erosion, and volcanic eruptions. The course will emphasize the causes and effects, including detailed studies of the scientific aspects, as well as the social and economic impact, of each type of hazard. The possibilities for prediction, mitigation and control will be examined, together with pertinent case histories. The course will also include an evaluation of hazard risk potential for the state of Oregon.

G3107 Oceanography 4 Credits
(3 Lec, 3 Lab Hrs/WK)
A systematic study of the basic chemical, physical, geologic, and biological aspects of the oceans including the origin of the ocean basins and sea water. The significance of the interrelationships of man and the ocean is emphasized. Laboratory and field investigations of properties of sea water and oceanic pressures are also included.

G3110/0.620.1 Earth, Sea and Sky 1-3 Credits
(3 Lec Hrs/WK)
A study of earth sciences. Format: One hour of televised lecture (PBS) per week supplemented by independent study, question/answer worksheets, and access to instructor/resource person who also provides supplementary materials and evaluates student's performance.

G3276 Uses and Resources of the Oceans 3 Credits
(3 Lec Hrs/WK)
A study of the vital significance of the world's oceans to society, and our contemporary role in the utilization of the marine environment. Specific topics include history, civilization and the oceans; food and mineral resources; water and energy resources; pollution and waste disposal; coastal processes and coastal activities; ocean law and management: technology and instrumentation; navigation and positioning and miscellaneous uses. Local marine-related activities and problems will be emphasized.

G3278 Oceanography 3 Credits
(3 Lec Hrs/WK)
A study of oceanography, emphasizing the sequence of geologic events for different regions, including stratigraphic relations, structural framework, and the origin and development of landforms. Field trips to areas of geologic interest are included.

G3280 Geology of the Local Area 5-3 Credits
(15-36 Hrs/Total)
A study of significant geological features of local areas (special areas and topics TBA).
HEALTH AND FIRST AID

HE198/298 Independent Study in Health  To Be Arranged

HE250 Personal Health  3 Credits
(3 Lec Hrs/Wk)
Study of personal health issues with emphasis on wellness, behavior, substance use and abuse, physical fitness, consumer health issues and current health concerns, sexuality, mental health, stress management, and nutrition awareness. This course is required for the Associate in Arts degree.

HE252 Standard First Aid  3 Credits
(3 Lec Hrs/Wk)
This course follows the Red Cross Standard First Aid and Personal Safety Guide Requirements. The additional course hours are spent in practical application of content areas. The class is designed to prepare the student with first aid knowledge and skills necessary for the immediate and temporary care of the sick and/or injured until qualified medical help assumes responsibility. Red Cross First Aid certification is given upon completion of course requirements. Certificate is current for three years.

HE262 CPR Instructor Training  1 Credit
(5 Lec, 5 Lab Hrs/Total)
Heart Association approved course to train instructors in standards of Cardiopulmonary Resuscitation and the choking victim. Current CPR card required.

HE299 Advanced Cardiac Life Support (ACLS)  2 Credits
(17 Lec, 8 Lab Hrs/Total)
This three-day course is designed for continuing education of critical care nurses, EMTs and IVs in the evaluation and treatment of cardiac problems. Prerequisites: RN, EMT III or IV, MD.

9.380 Cardiopulmonary Resuscitation  0.5 Credit
(5 Lec, 5 Lab Hrs/Total)
A course developed to teach skills and background of application of C.P.R. in cardiac arrest, clearing an airway obstruction of a choking victim, and recognizing the foreseen situations. Red Cross and/or American Heart Association certification.

9.381 Multimedia First Aid  0.5 Credit
(5 Lec, 5 Lab Hrs/Total)
- A course designed for the business, industries and organizations who need First Aid training, yet have little time to release employees or who can devote only a short time to the course. Multimedia system meets the standards required of OSHA (OSHA) yet exceeds CPR (Cardiopulmonary Resuscitation) requirements.

9.382 Basic First Aid  1 Credit
(10 Lec, 10 Lab Hrs/Total)
This course is designed to prepare the general public with first aid knowledge and skills necessary to care for most emergency accidents or illnesses. Upon completion of course requirements the student will be issued a standard First Aid and Personal Safety card from the American Red Cross good for three years. The student must repeat the course to renew the card after three years.

9.383 First Aid and Emergency Care  3 Credits
(25 Lec, 25 Lab Hrs/Total)
This course is designed for those working in the police and fire departments and in emergency first aid care, who need more extensive emergency first aid training than they received in standard first aid and personal safety courses. This course has the same content of skills and knowledge as the standard first aid course with the addition of extensive knowledge and practical skills in dealing with the following: water accidents, exposure to radiation, emergency childbirth, emergency rescue and transfer and extrication - removal from automobiles. Upon completion of course requirements the student will receive an Advanced First Aid and Emergency Care card issued for three years. The student must repeat the course after three years to receive a new card.

HEALTH OCCUPATIONS

EMERGENCY MEDICAL SERVICES

HE257/9.428 Emergency Medical Technician  8 Credits
(73 Lec, 65 Lab Hrs/Total)
This course is designed to prepare individuals for State Certification as an Emergency Medical Technician, Level I, as required by ORS 485.500. Emergency Medical Technician as defined by this state statute means, "a person who attends any illness, injured or disabled person in connection with his transportation by ambulance. Police officers, firemen, other personnel serving in a dual capacity, one of which meets the definition of "Emergency Medical Technician" are Emergency Medical Technicians within the meaning of this law." Prerequisites: for HE257 concurrent enrollment in Field Experience (HE280), and Medical Terminology I (9.723) is required. 9.428, 9.431, 9.432 are for EMT volunteers/reserves with fire departments and ambulance services and 9.423 may not be used towards a diploma.

HE258/9.431 Emergency Medical Technician II  5 Credits
(48 Lec, 16 Lab Hrs/Total)
A course designed to train the EMT II and prepare the student for taking the Oregon state written exam for certification. It consists of education and training in Intravenous therapy, oxygen administration systems, patient assessment and respiratory conditions requiring emergency interventions. Prerequisites: Current graduate of EMT I approved course or certification and recency of practice as an Emergency Medical Technician I.

HE259/9.432 Emergency Medical Technician III  16 Credits
(103.5 Lec, 144 Lab Hrs/Total)
Covers assessment of the patient, pharmacology, anatomy and physiology, I.V. therapy, respiratory and cardiac pathophysiology, and medical emergencies. Graduate is eligible to take written and practical exam for EMT III certification. Prerequisites: current Oregon certification as EMT II or eligibility for same: one year experience as EMT II or consent of Director of Health Occupations. 9.432 (same as HE259) is for volunteers/reserves with Fire, Police, Ambulance, etc., not pursuing a degree.

HE260/9.360 First Responder Course  3 Credits
(28 Lec, 12 Lab Hrs/Term)
Training program in emergency medical care for first responders to traffic accidents, including all procedures required for providing basic care to accident victims and removing them from vehicles if necessary.

HE262 CPR Instructor Training  1 Credit
(5 Lec, 5 Lab Hrs/Total)
Heart Association approved course to train instructors in standards of Cardiopulmonary Resuscitation and the choking victim. Current CPR card required.

HE280 EMT Field Experience  1-2 Credits
(3-6 Hrs/Wk)
A course designed to give students increased opportunities to utilize EMT skills learned in the classroom. Prerequisites: must be enrolled or have completed transferable EMT I, II or III class and be certified at each level.

9.433 Emergency Services Recertification Course  1.25 Credits
(10-20 Lec, 5-10 Lab Hrs/Total)
Developed as part of career structure for emergency medical technicians (EMTs) and first responders. Designed to assure maintenance of uniform high level of training and skill among emergency service personnel who have successfully completed the basic training program. First Responders need 16 hours every 24 months (CPR - 6 hours, shock - 6 hours, and MAST - 4 hours). EMT I needs 20 hours every 24 months (CPR - 6 hours, shock - 6 hours, and MAST - 4 hours, 10 hours). Prerequisites: EMT or First Responder Certification.
HE268 Pharmacology 3 Credits
(3 Lec Hrs/Wk)
Designed to equip the professional and/or paraprofessional legally qualified, to administer medications with a competent level of knowledge of the drugs currently being used and/or abused, with emphasis on drug implications, side effects and client teaching, both over-the-counter and prescribed. Prerequisites: R.M., LPN, EMT II, III, or IV, Certified Medication Aids, Second Year Medical Assistant, Nursing or EMT students, or instructor's consent.

HE299 Advanced Cardiac Life Support (ACLS) 2 Credits
(17 Lec, 8 Lab Hrs/Wk)
A three-day course designed for continuing education of critical care physicians, nurses, and EMT III's and IV's in the evaluation and treatment of cardiac problems. Prerequisites: RN, EMT III & IV, MD.

NUR101 Fundamentals of Nursing 6 Credits
(5 Lec, 9 Lab Hrs/Wk)
This is the first quarter of a four quarter practical nursing program leading to a certificate and eligibility to take the state board examination for licensure and/or a six quarter associate degree program leading to eligibility to take state board examination for registered nurse licensure. This course deals with beginning concepts in the area of fundamentals of nursing. After a period of orientation, skills are learned and the student is taught how to adjust them for all age groups. Major concepts in communications, mental health, body mechanics, alignment, asepsis, nutrition, fluids, pharmacology, growth and development and maternal health are introduced. After practice sessions in the laboratory on campus the student performs skills and applies concepts in the care of patients in the hospital or long term care setting (Orientation Module plus Levels I through IVA.) Prerequisite: Admission to SWOCC nursing program.

NUR102 Nursing Science and Practice I 8 Credits
(5 Lec, 9 Lab Hrs/Wk)
Continuation of building upon skills and concepts learned and introduction of new skills and concepts. Concepts relate to crisis, mobility, homeostasis, elimination and oxygenation. Care of the patient of any age in pain, with hearing and/or visual problems, with cleft lip and palate, with skin problems, with neurotic disturbances, with diabetes and with respiratory problems is taught. Communications, emphasis on the needs of the aged are integrated. Observation is expanded to include total assessment, nursing diagnosis, expected outcomes, and rationales. Student continues to apply knowledge and skills in the hospital setting. Prerequisite: Admission to SWOCC nursing program.

NUR103 Nursing Science and Practice II 10 Credits
(5 Lec, 15 Lab Hrs/WK)
Covers maternity nursing and care of patients of all ages undergoing surgery, cardiac, gastrointestinal, and fluid and electrolyte problems. Evaluation as part of nursing process is introduced. Pharmacology, nutrition and communications are integrated throughout the course. Students spend time in a hospital setting, applying skills and concepts learned. (VIII/IX/X). Prerequisite: Completion of NSG101 and a C grade or better of consent of the Director of Health Occupations, and completion of Anatomy and Physiology (B1121 and 122) with a grade of C or better within the past 5 years.

NUR121/131/141/151/161 Nursing Skills 2 Credits/Each
(6 Lab Hrs/Each)
This course is taken in conjunction with first five quarters of the nursing program. Covers skills to be used in the hospital.

NUR150 Nursing Study Skills 2 Credits
(24 Lec Hrs/WK)
The course is designed to introduce students to the nursing program and its requirements and to teach these students the use of study skills in conjunction with those requirements.

NSG201 Nursing Science and Practice III 10 Credits
(5 Lec, 15 Lab Hrs/WK)
Covers alterations in physiological and psychological functioning with needed nursing interventions in relation to orthopedics, urinary, cancer, blood dyscrasias and neurological problems. Stresses nursing process in care of patients with these disorders. The student will also study acute psychiatric disorders, including psychoses, substance abuse and suicide. I.V. therapy is taught as far as maintenance, medications and blood administration. Students will study the practical nurse's transition from student to graduate working after graduation, legal/ethical aspects of LPN practice, and giving medications to groups of patients. Prerequisites: Completion of first year of the program or admission into second year via advanced placement as an LPN.

NUR202 Nursing Science and Practice IV 10 Credits
(5 Lec, 15 Lab Hrs/WK)
Covers complications of all aspects of pregnancy, including acute neonatal care, and acute gyn problems. Care of the patient in E.R., airway insertion and physical assessment of the heart and lungs are stressed. Other major units covered are endurance/fetal and common acute pediatric health problems. Prerequisites: Completion of NSG101, Nursing Science and Practice III. Chemistry 130 (Physiological Chemistry) with a grade of C or better.

NSG203 Nursing Science and Practice V 10 Credits
(5 Lec, 15 Lab Hrs/WK)
Covers care of the patient in CCU-ICU acute neurological problems, neck/chest surgery patients, communicable diseases, eye and ear disorders as well as R.N. roles, management of multiple patient assignments, organization of health care facilities, responsibilities of R.N. ethically, professionally and legally. All required lab hours are spent in last four weeks of quarter (40) hours per week including weekends. Prerequisites: Completion of Nursing Science and Practice IV with a grade of C or better.

9.404 Home Health Aide 3 Credits
(60 Hrs/Total)
This course builds upon previously learned nursing skills and prepares the student to assist people to care for themselves in their own homes as outlined by the Health Division for certification. Prerequisites: Current Oregon Certification as a Nursing Assistant.

9.405 Geriatric Nursing Assistant 4 Credits
(40 Lec, 80 Lab Hrs/Total)
This course is designed to provide knowledge of physical and emotional needs of the elderly geared toward paraprofessionals (nursing assistants, home health aids and homemakers) responsible for administering care to geriatric clients in long-term care facilities and/or homes. Prerequisites: Current Oregon certification as a nursing assistant or consent of instructor.

9.416 Intravenous Therapy for Health Professionals 3 Credits
(2 Lec, 3 Lab Hrs/WK)
This course provides students with skills, knowledge and attitudes to perform venipuncture, maintain and discontinue intravenous solutions, medications, and blood components. Prerequisites: Currently licensed LPN, RN, of certified EMT II or III, or instructor's consent.

9.427 Career Development Seminars: 0-3 Credits
Health and Wellness - General (1-90 Lec and/or Lab Hrs/Total)
Inservice training program and seminars designed to study current issues and problems within health and wellness areas and methods of alleviating them.

5.460 Basic Nursing Assistant 4 Credits
(40 Lec, 80 Lab Hrs/Total)
This prepares a basic nursing assistant eligible for certification as outlines by the Oregon State Board of Nursing. The person is prepared to care for clients in stable environments, i.e., nursing homes, long-term care and intermediate care facilities.

0.916.1 Therapeutic Activities for the Institutionalized Aged 3 Credits
(3 Lec Hrs/WK)
This course is designed to meet the needs of the directors and leaders of activities in long term care facilities. Emphasis is given to the planning and implementation of balanced programs providing adequate and meaningful documentation of assessments, goals, and plans; stimulation of interest in, utilization of, and effective coordination with volunteers and the total health care team.
0.574 Hospice Care: Emotional Support for the Terminally Ill  
4 Credit  
(15-36 Hrs/WK)  
This course is intended for persons who are interested in becoming volunteers to provide psychological, sociological and physiological support for individuals diagnosed with a life threatening or terminal illness, plus their families. Various issues on the dying process, death and bereavement, pain and symptom control, delivery of medical care, family dynamics, philosophical and ethical questions will be covered.

HISTORY  
HST101/102/103 History of Western Civilization  
3 Credits/Term  
(3 Lec Hrs/WK)  
Introduces student to Western world's knowledge, culture, and traditions. Traces rise of civilization in Near East to emergence of medieval European culture and rise of European nation states through eighteenth century. Follows course of western civilization from nineteenth century to present.  
HST149 Introduction to East Asian History  
3 Credits  
(3 Lec Hrs/WK)  
A historical overview from prehistoric times to the present of the eastern part of Asia inhabited by Mongoloid man, and dominated by a civilization in ancient China. Emphasizes histories of China, Japan, Korea and Vietnam.  
HST198/298 Independent Study in History  
To Be Arranged  
HST192 China in the 20th Century  
3 Credits  
(3 Lec Hrs/WK)  
Introduces history of the background and development of the People's Republic of China from 1949 to the present.  
HST201/202/203 U.S. History  
3 Credits  
(3 Lec Hrs/WK)  
This is a survey course in the history of the United States. The course introduces students to major social, economic, political and cultural developments.  
HST210 Futurism  
3 Credits  
(3 Lec Hrs/WK)  
A course designed to inform the student of projected trends in the world today, and their significance. The student will explore the literature on the subject and be given an opportunity to make a forecast.  
HST238/239/240 Oregon History  
3 Credits/Term  
(3 Lec Hrs/WK)  
An introduction to the geography, history, economics and social life of Oregon. The development of Oregon's South Coast will be studied in relation to the rest of the state.  
HST272 Local History: Southwestern Oregon  
3 Credits  
(3 Lec Hrs/WK)  
The course will introduce students to the history of Southwestern Oregon from its early settlement to the present. It will focus primarily on the history of Coos and Curry counties, although the relation of the South Coast to Jackson, Josephine and Douglas counties, especially during the years of early settlement, will also be considered. Students will learn basic methods of research in local history and be introduced to bibliographical sources on the history of the region. Students will undertake individual research projects or programs of reading. Older residents of the local area will be asked to participate in the course as guest speakers and/or historical informants. Students will be encouraged to participate in the collection of oral interviews, historical photographs, and other materials suitable for historical records preservation by the college. Coos-Curry Historical Museum, or state historical societies or libraries.

1.123/1.124/1.125 The Pacific Northwest  
3 Credits/Term  
(3 Lec Hrs/WK)  
Introduction to geography, history, and cultural life of the Pacific Northwest region from early explorations to present day. Region includes present day Oregon, Washington, Idaho, and for historical purposes, western Montana and Wyoming. Historic growth of Oregon's South Coast will be related to history of Pacific Northwest region.

0.678.2 Prehistory of the Southern Oregon Coast  
1 Credit  
(3 Hrs/WK)  
Survey of coastal prehistory, tracing man's entry into Northwest, migration to the Oregon Coast, adaptation from an upland to a marine environment, and development of culture as described by early explorers, historians, and ethnographers. Covers approximately eight thousand years of development with emphasis on late prehistoric period.

0.678.3 Tracing Your Family Tree (Genealogy)  
1 Credit  
(3 Hrs/WK)  
Provides step-by-step guide to beginning genealogy, emphasizing place of each generation within the framework of religious, social, economic and political events of the day. Use of original records and of microfilm sources through the L.D.S. branch library will be covered.

HOME ECONOMICS  
The majority of courses listed below are offered on a rotating basis. A few specialized courses are provided only when specific community need has been indicated. Check with Home Economics advisor.

HEc101 Orientation to Home Economics  
1 Credit  
(1 Lec, 1 Lab Hr/WK)  
An orientation course for Home Economics majors and non-majors interested in developing a greater understanding of Home Economics as a profession. The course explores the philosophy, contributions, trends, and interdisciplinary nature of the field as well as the services to families, employment opportunities, training required, and new developments in related career fields.

HEc198/298 Independent Studies in Home Economics  
To Be Arranged

HEc280 Field Experience - Home Economics - General  
1-3 Credits  
(Includes Seminar)  
Nine credits maximum. Prerequisite: Instructor's consent.

9.906 A Professional Image  
1-2 Credits  
(1 Lec, 2 Lab Hr/WK)  
Designed to help students pursuing careers plan wardrobes for work, coordinate color to present a positive professional image, with emphasis on improving personal appearance.

9.915 Unplug the Christmas Machine  
0 Credit  
(3 Hrs Total)  
A short workshop designed to help participants evaluate holiday priorities, gain skills in managing goal attainment, evaluate and manage stress effectively and utilize resources. The dual career participants will operate more effectively in the work force when stress is controlled.

9.943 Home and Family Management  
0.5-1.0 Credit  
(1 Lec, 3 Lab Hrs/WK Max.)  
Emphasis on the effective decision making methods necessary to function adequately with newly assumed occupational roles that are in addition to the regular home-family responsibilities. Includes ways to cope constructively during periods of expanded stress. Relates various learning from the implementation of economical management of the home considering the resources of time, talent, energy, and money. Looks at course from social worker's point of view.
9.944 Balancing Work and Family 0.0-2.0 Credits
(1-24 lecture hours total)
The course addresses the many complex issues which arise in dual worker and single parent families in contemporary society. It is designed to help each participant develop strategies for managing the stress which accompanies the dual roles and to implement sound strategies for management approaches for accomplishing the myriad tasks and responsibilities involved in maintaining a family and home while working outside the home or in a home-based business.

9.945 Family Finance and Resource Management 0.5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
A study of new ideas for family money management, including use of credit, income tax procedures, teaching children how to manage money, and study of consumer buying ability. Attitudes, values, and decision-making ability will be emphasized.

9.946 Skills for Success 0.5 Credit
(15 lab hours total)
Designed to focus on the skills and knowledge needed to make the transition from homemaker to the dual roles involved when also working outside the home. Addresses goal setting, self-esteem, management of the home, family and personal resources including time and energy, human relations, personal development and strategies for gaining employment. Time management exercises, discussion, role playing, group projects, and other classroom activities included.

0.840 Consumer Education 0.5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
A series designed to aid homemakers in their role as consumers. Each session, a part of a complete program, will present a selected topic relating to areas such as clothing and textiles, foods and nutrition, home management, or family living.

0.853 Home Management 0.5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
A course in general home management for students with special needs. Covers management of time, energy, money, and other family resources. Explores decision-making process and includes specific techniques for increasing management skill in areas of clothing, food, housing, and family health. Cost-cutting techniques are emphasized in each area.

Clothing, Textiles & Fashion

CT140 Beginning Clothing Construction 2 Credits
(1 Lec, 3 Lab Hrs/Wk)
Demonstrates use of the sewing machine and applies techniques of dressmaking to the construction of simple garments.

CT191 Careers In Fashion, Textiles & Interior Design 2 Credits
Opportunities in fashion design, fashion merchandising, apparel production and interior design.

CT198/298 Independent Studies In Clothing, Textiles & Fashion To Be Arranged

CT120 Clothing Construction 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
Study of the principles of selection, construction, and fitting. Clothing construction as a creative expression is also recognized.

CT121 Clothing & Culture 3 Credits
(3 Lec Hrs/Wk)
Includes study of artistic, economic, and psychological factors affecting the selection of clothing. Designed for students in fashion merchandising, apparel design, home economics, and related areas.

CT232 Applied Home Furnishings 2 Credits
(1 Lec, 3 Lab Hrs/Wk)
Methods for making draperies, pillows, home accessories, and other furnishings: painting and finishes.

CT1250 Textiles 3 Credits
(3 Lec Hrs/Wk)
A study of textiles and fabrics, their origin, manufacture and use. Chemical and physical aspects including testing methods will be covered.

CT1270 Fundamentals of Fashion 3 Credits
(3 Lec Hrs/Wk)
Develops an understanding of fashion movement and dissemination, past and present fashion cycles, the influence of environment on fashion trade publications.

CT1280 Field Experience - Clothing, Textiles & Fashion 1-3 Credits
(Includes Seminar)
Nine credits maximum. Prerequisites: Instructor's consent.

7.150 Sewing for Profit 2 Credits
(1 Lec, 2 Lab Hrs/Wk)
Designed for the individual interested in sewing for others for a profit. Alteration techniques, special construction techniques as well as the business aspects, including recordkeeping, advertising, customer relations, business regulations, and establishment of prices are included. Prerequisites: 9.910 Basic Sewing, 9.911 Intermediate Sewing, or instructor's consent.

9.900 Clothing and Textile Seminars 1-3 Credits
(1-30 Lec & Lab Hrs/Wk)
A series of seminars aimed at improving competency and updating knowledge and skills in the clothing and textiles area.

9.910 Basic Sewing 5.20 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Designed for men and women who wish to learn basic techniques of sewing and want to improve and learn new methods. Covers fabric selection, pattern alterations, selection and use of equipment, pressing techniques, as well as basic techniques of clothing construction needed to enter more advanced classes.

9.911 Intermediate Sewing 5.1-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Designed for those interested in developing skill in using new types of fabric in the construction of quality clothing. Emphasizes pattern and fabric coordination, pattern alteration, and techniques for cutting, stitching, and pressing the new types of fabrics. Prerequisites: 9.910 Basic Sewing or instructor's consent.

9.912 Pattern Alterations & Fitting 5.2-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Covers techniques for making basic dress from percale for use as a fitting shell. Drafting basic pattern to use as model for making perfectly fitted clothes and creating original designs.

9.913 Tailoring: Blazers & Jackets 5.2-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Beginning and advanced tailoring techniques applied to men's and women's clothing, methods for coats, suits, and jackets. Includes the use of fusible and traditional interfacing, bound buttonholes, shoulder shaping, linings, pockets, and other details found in tailored styles. Prerequisites: 9.910 Basic Sewing or instructor's consent.

9.914 Sewing Men's Clothing 5.2-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Emphasizes tailoring techniques used in constructing men's clothing. Men's sport coats, slacks, and casual jackets may be constructed. Prerequisites: 9.910 Basic Sewing or instructor's consent.

9.920 Clothing Selection & Coordination 5.2-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
This course includes selection of becoming and appropriate colors, lines, and fabrics. Coordination of wardrobe and selection of accessories will be included.

9.921/9.924 Pattern Drafting I, II 5.2-0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Designed for individuals interested in learning flat pattern drafting techniques which will be useful in altering commercial patterns, drafting new patterns and restyling patterns and apparel terms. Prerequisites: 9.925 Beginning Sewing or Instructor's consent.
9.925 Textile Studies .5-2.0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Understanding the many textile products, their design, dyeing methods, production, weaving and knitting characteristics. Theory and application.

9.927 Understanding Today’s Fabrics .5-1.0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Identifying and using fabrics. Weaving, felting, and dyeing. For anyone interested in textiles or involved in production or sale of textile products.

9.930 Interior Decorating .5-2.0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
The fundamentals of home decorating, including the use of design, color, texture, space, and form. The selection and use of floor coverings, window treatments, wall finishes, furniture, lighting and accessories will be covered.

0.925 Beginning Sewing .5-1.0 Credits
(1 Lec, 3 Lab Hrs/Wk Max.)
Introduces basic sewing procedures such as pattern selection and adjustment, fabric selection, cutting, marking, and operation of a sewing machine. Features demonstrations of easy methods for sewing sleeves, collars, facings, hems, darts and zippers.

0.927 Sewing with Knits .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Includes the selection, use, and care of knit fabrics; special construction techniques for garments made from knit fabrics such as T-shirts, knit tops, skirts, and dresses; includes use of iron-on interfacing, fusibles, and other techniques for use with knits. Prerequisites: basic knowledge of simple sewing and use of machine.

0.928 Children’s Clothing .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Emphasizes application of basic sewing methods in construction of clothing for children; dresses, sportswear, sleepwear, and outerwear will be constructed. Pattern adjustment, trims, applique, and finishing techniques will be demonstrated.

0.943 Sportswear Construction .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Methods for sewing shirt style apparel for men and women will be demonstrated. Unit on pattern alteration and fitting of pants for women will be featured. Prerequisites: 9.910 Basic Sewing.

0.970 Sewing Unlimited .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Features clothing construction methods used in sewing current styles. Special techniques for new fabrics and speed methods using new fusibles and adhesives. There will be some sewing in class.

0.971 Sewing Something From Nothing .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Demonstrates how to remake and remodel clothing, and using remnants to create new garments and other household articles. Includes combining fabrics and patterns for original garments, quilts.

0.972 Sewing for the Home .5-1.0 Credit
(1 Lec, 3 Lab Hrs/Wk Max.)
Techniques of sewing and fusing applied to window treatments, pillows, slipcovers, and table covers for the home.

Human Development & Family Studies

HDFS198/298 Independent Studies - Human Development & Family Studies To Be Arranged

HDFS222 Marriage Preparation .2 Credits
(2 Lec Hrs/WK)
Open to men and women. Marriage, nature, and motives; marriage readiness. Courtship period, factors in mate selection.
7.172 Creative Activities for Children I  2 Credits
   (2 Lec Hrs/Wk)
Provides overview of creative activities for young children in arts, crafts, games and music.  Description of and experimentation with a variety of materials will be included.

7.173 Creative Activities for Children II  2 Credits
   (1 Lec, 2 Lab Hrs/Wk)
An introduction to a variety of media to use with young children.  Basic instruction in the use of tools for creating play equipment with young children.  Emphasis is placed on ways to use creative activities to stimulate learning experiences for children.  Prerequisite: 7.172 Creative Activities for Children I.

7.174 Directed Participation I  2 Credits
   (1 Lec, 3 Lab Hrs/Wk)
A course designed to provide students an opportunity to observe an experienced preschool teacher working with a group of children and to gain practical experience working with children under the teacher's supervision.

7.175 Directed Participation II  2 Credits
   (1 Lec, 3 Lab Hrs/Wk)
Provides supervised experience in working with young children in group situation in day care centers, nursery schools, and kindergartens.  Prerequisite: 7.174 Directed Participation I.

7.177 Health and Safety  2 Credits
   (2 Lec Hrs/Wk)
Emphasizes necessary safety procedures for childcare facilities and routine health practices to be observed in work with groups of young children.

7.178 Child Nutrition and Health  2 Credits
   (2 Lec Hrs/Wk)
Explores basic nutritional needs and sources for meeting these requirements for normally developing children, including prenatal nutritional influences.  Nourishment in relationship to other areas of development, behaviors, diseases and health problems will be studied.

7.179 Operation of Child Care Centers  2 Credits
   (1 Lec, 2 Lab Hrs/Wk)
A study of the operation of day care centers, nursery schools and kindergartens.  Program planning, organizational structure, budgeting, personnel, interviewing, operational codes and licensing will be covered.  Emphasis will be on information needed for future job opportunities with preschool children.

7.280 Work Experience - Human Development & Family Studies  1-3 Credits
   (Includes Seminar)
Nine credits maximum.  Prerequisite: Instructor's consent.

9.941 Exploring Family Relations  5-1.0 Credits
   (5-10 Lec, 5-30 Lab Hrs Total)
Covers interpersonal relationships within the family.  Emphasis will be on practical methods for the development of positive interaction between family members.  Methods for dealing with common family problems such as parent-child relations, family responsibilities, parental roles, communication, and handling times of stress will be explored.  Provides information geared towards persons working with family units (i.e. social workers).

9.942 Parenting Seminar (System Training for Effective Parenting)  1 Credit
   (20 Hrs Total)
A course to help parents deal with the everyday difficulties of raising children in a rapidly changing world.

0.881 the Changing Role of Today's Parents  25-1.0 Credits
   (10-36 Hrs Total)
Understanding parent-child relationships and developing effective communications with children and adolescents.

Foods & Nutrition

FN225 Nutrition  4 Credits
   (4 Lec Hrs/Wk)
Study of nutrition and the newer scientific investigations of optimal diet and health; present daily nutritional problems for home economics majors, nursing students, physical education majors, and food service majors.

FN498/298 Independent Studies - Foods & Nutrition  To Be Arranged

FN280 Field Experience - Foods & Nutrition  1-3 Credits
   (Includes Seminar)
Nine credits maximum.  Prerequisite: Instructor's consent.

0.870 Food for Your Family  5.1-1.0 Credit
   (15-36 Hrs/Total)
Covers creative meal preparations for the modern family with lessons on effective food buying, meal planning, time-saving food preparation, special diet needs and some specialty and holiday cookery.

0.873 Home Canning and Food Preservation  5.1-1.0 Credit
   (15-36 Hrs/Total)
Presents a variety of food preservation methods: canning, freezing, drying, pickling, jams, jellies, and curing meats.

0.874 Portable Appliance Cooking  5.1-1.0 Credit
   (15-36 Hrs/Total)
Designed for homemakers interested in learning techniques of preparing foods in microwave ovens, woks, convection ovens, slow cookers, and standard ovens.  Stresses selection of ingredients for basic foods as well as gourmet recipes.

0.875 Baking with Yeast  5.1-1.0 Credit
   (15-36 Hrs/Total)
Presents various methods of making yeast breads, emphasizing variety in basic doughs and special pastries leavened with yeast.

7.138 Practical Nutrition  2 Credits
   (2 Lec Hrs/Wk)
This course is designed for students enrolled in practical nursing, food service, and child care programs and others interested in a study of basic nutrition.  Covers functions of food and its relation to health and wellness, various nutrients, bodily requirements, and processes involved in utilization of food.

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7.178</td>
<td>Child Nutrition &amp; Health</td>
<td>2</td>
<td>Explores basic nutritional needs and sources for meeting these requirements for normally developing children, including prenatal nutritional influences. Nourishment in relationship to other areas of development, behaviors, diseases and health problems will be studied.</td>
</tr>
<tr>
<td>7.280</td>
<td>Work Experience - Foods &amp; Nutrition</td>
<td>1-3</td>
<td>(Includes Seminar) Nine credits maximum. Prerequisite: Instructor's consent.</td>
</tr>
<tr>
<td>9.969</td>
<td>Orientation to Food Services</td>
<td>3</td>
<td>Designed to train students in food service supervision, sub-professional dietary work, and general food service. Explores requirements of various food service jobs, covers organization of food service departments, functions of food service department and administrative, therapeutic and educational aspects of the department. Management of the food service department, including menu planning, food purchasing, production, sanitation, personnel and equipment, are included on survey basis as preparation for more advanced courses in food service.</td>
</tr>
<tr>
<td>9.970</td>
<td>Food Preparation I</td>
<td>3</td>
<td>(3 Lec Hrs/Wk) Includes principles of food preparation with emphasis on scientific aspects of cookery. Demonstrations and experiments presented to illustrate effects of such factors as type of ingredients used in recipes and variations in proportions of ingredients, techniques, and will emphasize critical steps in preparation of basic food products. Serves as background for quantity foods courses and will emphasize scientific aspects of food preparation for individuals employed in quantity food service in hospitals, schools, nursing homes, restaurants and cafeterias.</td>
</tr>
<tr>
<td>9.971</td>
<td>Food Preparation II</td>
<td>3</td>
<td>(3 Lec Hrs/Wk) Develops ability to plan correct food preparation techniques and equipment used for each dish. Basic understanding of food preparation principles, time management. Prerequisites: 9.769 Orientation to Food Services and 9.970 Food Preparation I, or instructor's consent.</td>
</tr>
<tr>
<td>9.974</td>
<td>Nutrition</td>
<td>1-1.0</td>
<td>(1 Lec, 3 Lab Hrs/Wk Max.) An overview of nutrition with emphasis on food choices for nutritive values and how to recognize food fads, harmful diets and quackery in nutritional writings and lectures. Can serve as supplemental training for persons employed in jobs related to food industry or related to dietary needs.</td>
</tr>
<tr>
<td>9.975</td>
<td>Diet Therapy</td>
<td>2</td>
<td>(3 Lec Hrs/Wk) Designed to give institution food service workers and others background and understanding in planning, preparing, and serving therapeutic diets.</td>
</tr>
<tr>
<td>9.976</td>
<td>Food Service Workshops</td>
<td>0-3</td>
<td>(1-30 Hrs Total) Designed to provide food service employees with an opportunity to obtain current information in areas of nutrition, management, safety, and food preparation. Provides opportunity to learn new techniques, current standards, and share useful information in developing and conducting effective food service programs. Prerequisite: experience in the food service field.</td>
</tr>
<tr>
<td>9.977</td>
<td>Food &amp; Nutrition Workshops</td>
<td>0-2</td>
<td>(1-2 Lec, 3-6 Lab Hrs/Wk Max.) Seminars aimed at improving the knowledge, skills, and competencies of individuals employed in or related to occupations of food and nutrition businesses or industries.</td>
</tr>
</tbody>
</table>
9.978 Food for Special Diets 5-1.0 Credit
(1 Lec, 1-3 Lab Hrs/Wk Max.)
Emphasis on cooking creatively for persons who have special dietary restrictions. Recipe modification, menu planning, sources of information, new recipes, food substitutions in recipes, and nutrition information are included. Designed for dieticians and institutional workers and home care providers.

0.624 Mushroom Identification 1 Credit
(25 Hrs Total)
Identification of local wild mushrooms, their basic characteristics and locations. Positive identification of edible and nonedible species, preparation for food, and methods of preserving will be stressed.

0.624.1 Wild Edible Plants 1 Credit
(1 Lec, 1 Lab Hrs/Wk + 2 Field trips)
A course with emphasis on identifying species successfully and general ways of preparing, rather than specific recipes, a variety of wild edible plants and foods. Ways of preserving the foods also will be covered.

INDUSTRIAL MECHANICS

Automotive
Students must provide their own hand tools for all automotive courses. A list of required tools is available from instructor.

0.775 Auto Maintenance 5-1.5 Credits
(15-36 Hrs Total)
Designed for the student who knows nothing or very little about the operation of an automobile. Emphasis will be on identification and operation of components, systems, and preventative maintenance. Seasonal service and emergency roadside repairs will also be covered.

0.776 Automotive Survival for Women 5-1.5 Credits
(15 Hrs Total)
This course includes theory and hands-on orientation to various automotive systems, diagnosis, maintenance and repair procedures, use of tools, how to intelligently relate to repair technicians, how to purchase and sell a car, how to research information. This course also provides instructional time to meet the needs and desires of the majority of students based upon ability.

3.280 Cooperative Work Experience 1-6 Credits
(4-24 Hrs/Wk)
Instructor's consent only.

3.300 Brakes and Suspension Systems 4 Credits
(2 Lec, 8 Lab Hrs/Wk)
Designed to prepare students for all phases of automotive and light truck brake systems, service and diagnosis. The basic operation, diagnosis and service of suspension systems is also covered. The course stresses proper use of tools of the trade including special tools and equipment, individual and shop safety practices, use of reference materials, development of proper work habits and repair techniques.

In laboratory, students perform complete disassembly, inspection, and reassembly of brake system components and suspension systems. Using accepted trade practices and equipment, students perform brake drum. rotor turning and grinding operations, brake system overhaul, and suspension system component replacement. Prerequisites: 3.304 Internal Combustion Engines I or instructor's consent.

3.304 Internal Combustion Engines I 4 Credits
(2 Lec, 8 Lab Hrs/Wk)
Basic automotive class first in a sequence. Stress the proper use of tools of the trade, including special tools and equipment, individual and shop safety practices. Use of reference materials, work habits and repair techniques. Complete operation, construction and theory of internal combustion engines applicable to current use is covered. In the lab students will do complete disassembly inspection and reassembly of engines. Prerequisite: Student must provide a basic set of hand tools.

3.306 Internal Combustion Engines II 4 Credits
(2 Lec, 8 Lab Hrs/Wk)
ICE II is designed to provide students with skills and knowledge necessary to diagnose and repair internal combustion engines consistent with current trade practices. Complete engine overhaul and machining operations including all phases of head work, cylinder block boring, sleeving and honing, connecting rod and piston precision honing and other basic practices. Operation and theory of Ignition, fuel and emission control systems will be covered as well as the use of various types of testing equipment. Prerequisites: ICE I, 3.304 or Instructor's consent. Student must provide basic set of hand tools.

3.307 Internal Combustion Engines III 2 Credits
(6 Lab Hrs/Wk)
Designed to provide additional experience in engine overhaul and rebuilding techniques, and diagnosis of engine problems and repair. Prerequisites: 3.306 Internal Combustion Engines II or instructor's consent.

3.308 Electrical I 4 Credits
(34 Lec, 51 Lab Hrs/Wk)
This course covers fundamentals of electricity, theory of operation, servicing of automobile batteries, starting motors, ignition systems (conventional), DC charging systems and automobile lighting systems. Prerequisites: Practical Physics (4.304) or instructor's consent.

3.310 Gasoline Fuel Systems 3 Credits
(30 Lec, 30 Lab Hrs/Total)
This course is designed to provide students with a basic working knowledge of automotive gasoline fuel systems including storage, pumps and distribution. Carburetion and fuel injection theory, fundamentals of operation, diagnosis, repair, and adjustment will be covered. Prerequisites: Internal Combustion Engines I, 3.304 or instructor's consent. Student must provide basic hand tools.

3.312 Diesel Fuel Systems 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
This course is designed to provide students with a fundamental working knowledge of the diesel fuel systems found on passenger cars and light trucks. Fuel nozzles and injection pumps found on both foreign and domestic vehicles will be covered. Basic service and repair that can be completed without a flow bench will be stressed. Prerequisites: Gasoline Fuel Systems (3.310) or Instructor's consent.

3.316 Power Trains 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
This course covers fundamentals of automotive manual transmission and power trains, including construction, operation and servicing of friction type clutch assemblies, three-speed, four-speed, and overdrive transmissions; drive lines and universal joints; differential, and front-wheel drive transaxes. Prerequisites: Fifth term standing or Instructor's consent.

3.318 Automotive Steering Controls 3 Credits
(30 Lec, 30 Lab Hrs/Total)
This course is designed to provide students with the basic working knowledge of suspension systems and the skills necessary to perform front-end alignments and the related repair and service involved. The course covers vehicle control and handling problems, wheel balance, wheel alignment factors, and manual and power steering. Wheel balance and alignment equipment will be used. Students will be exposed to foreign and domestic vehicles and light trucks. Prerequisites: 3.300 Suspension and Brakes Systems or Instructor's consent.

3.322 Automotive Electrical Systems II 3 Credits
(20 Lec, 30 Lab Hrs/Total)
This course covers alternating current charging systems, standard type and electronic controlled: electronic controlled ignition systems; and electronic controlled modules. Prerequisites: Electrical I (3.308) or Instructor's consent.

3.324 Diagnostic Procedures and Emission Controls 3 Credits
(20 Lec, 30 Lab Hrs/Total)
This course covers development of a systematic approach to engine tune-up and servicing exhaust emission controls. Prerequisites: Electrical I (3.308), Electrical II (3.222), Gasoline Fuel Systems (3.310).

</tbody>
</table>
Gasoline fuel injection will provide mechanics with a general working knowledge of all current production systems. Troubleshooting and diagnosis will be covered. Prerequisites: must be employed as a mechanic or have substantial mechanical background.

9.125 Diesel Engines: Operation & Maintenance I
.75 Credit
(15 Hrs Total)
Designed for the owner/operator to provide a basic understanding of the operation of a diesel engine and to promote the development of a maintenance routine.

9.126 Diesel Engines: Operation & Maintenance II
.75 Credit
(15 Hrs Total)
Designed for the owner/operator to provide a basic understanding of the operation of a diesel engine and to promote the development of a maintenance routine. Students will learn to troubleshoot and diagnose engine problems. Repair procedures that can be completed in-frame will be stressed.

Machine Tool Practice

4.158 Machine Tool Practices
2 Credits
(1 Lec, 3 Lab Hrs/Wk)
Designed to give industrial mechanics students additional experience in metals fabrication with machine tools. Prerequisites: Machine Tool Practice I (4.170) or instructor's consent.

4.160 Metals Application Treatment and Testing
3 Credits
(2 Lec, 3 Lab Hrs/Wk)
Practical guide to heat treating and testing of standard steels and alloys, including some theory in physical metallurgy. Prerequisites: 2nd year standing or instructor's consent.
4.177 Machine Tool Practices VIII 3 Credits
(9 Lec Hrs/Wk)
Includes milling machines, grinding practices, gear cutting, hardening and tempering of steel, and gauge and fixture work. Prerequisites: 2nd year standing in Machine Tool Practices or instructor's consent.

4.178 Machine Tool Practices IX 3 Credits
(9 Lec Hrs/Wk)
Emphasizes operation of machine tools as applied to machine and manufacturing of simple blanking, piercing, and forming dies; also second operation work for production shops. Prerequisites: 2nd year standing or Instructor's consent.

4.181 Machine Tool Practice XII 3 Credits
(2 Lec, 3 Lab Hrs/Wk)
Computer Aided Manufacturing (CAM) and Computer Numerical Control (CNC). The second course in the series beginning with the Basic in Numerical Control. Prerequisites: 4.173 Basic Numerical Control.

4.280 Cooperative Work Experience 1-6 Credits
(4-24 Lab Hrs/Wk)
Gain on-the-job experience in coordinator-approved shop situations that closely parallel with field of study. Work under supervisor and coordinator. Seminar arranged by supervisor. Prerequisites: Instructor's consent.

3.536/3.537/3.538/3.539 Small Engine Repair I, II, III, IV 3 Credits/Term
(1 Lec, 4 Lab Hrs/Wk each)
Includes 2-cycle and 4-cycle engine theory, practice on assembly and disassembly, repair, and applications such as motorcycles, lawn mowers and chain saws.

9.054 Small Engines V 3 Credits
(1 Lec, 4 Lab Hrs/Wk)
Gives experience in marine accessories and drive units. Includes repair techniques and operational information on controls, lower unit, gear case, and major components of a marine engine. Prerequisites: Small Engine Repair I, II, III (3.536, 3.537, 3.538).

9.055 Small Engine Repair VI 3 Credits
(1 Lec, 4 Lab Hrs/Wk)
Gives service training and operational information of industrial application of various small engines. Includes training on the drive units in particular. Prerequisites: Small Engine Repair I, II, III (3.536, 3.537, 3.538).

Welding
0.763.1 General Metals 1 Credit
(1 Lec, 2 Lab Hrs/Wk)
An introduction course for those interested in investigating the field of metal working. Course includes basic arc and gas welding, bending, foundry processes and sheetmetal.

4.150 Welding I 3 Credits
(1 Lec, 4 Lab Hrs/Wk)
Introduction to oxyacetylene welding. Will cover theory and history of welding, safety, operations of oxyacetylene equipment on light gauge metal in flat and horizontal positions with introduction to oxyacetylene burning.

4.151 Welding II 3 Credits
(1 Lec, 4 Lab Hrs/Wk)
Introduction to oxyacetylene welding in overhead and vertical positions (with light gauge plates). Continued development in welding and burning techniques emphasizing safety, efficiency of operations on various sizes and types of material. Introduction to welding on some of the exotic metals. Development of an understanding of welding metallurgy. Prerequisites: Welding I (4.150), or instructor's consent.

4.152 Welding III 3 Credits
(1 Lec, 4 Lab Hrs/Wk)
Introduction to oxyacetylene welding of pipe and tubing and the development of pipe templates for various pipe joints. Prerequisites: Welding I and II (4.150, 4.151) or instructor's consent.

4.153 Welding IV 3 Credits
(1 Lec, 4 Lab Hrs/WK)
Introduction to pipe arc welding stressing techniques, methods, and safety. Prerequisites: Welding I, II, III (4.150, 4.151, 4.152) or instructor's consent.

4.154 Welding V 3 Credits
(1 Lec, 4 Lab Hrs/WK)
Beginning arc welding covering safely and power supplies, arc metallurgy, rod selection, and techniques for flat and horizontal positions. Prerequisites: Welding I, II, III, IV (4.150, 4.151, 4.152, 4.153) or Instructor's consent.

4.155 Welding VI 3 Credits
(1 Lec, 4 Lab Hrs/WK)
Advanced arc welding covering overhead and vertical positions with introduction of specialty rods. Safety and welding quality is stressed. Prerequisites: Welding I, II, III, IV, V (4.150, 4.151, 4.152, 4.153, 4.154) or Instructor's consent.

4.156 Welding VII 3 Credits
(1 Lec, 4 Lab Hrs/WK)
Introduction to TIG welding of mild steel, aluminum and stainless steel. Prerequisites: Welding I, II, III, IV, V, VI (4.150, 4.151, 4.152, 4.153, 4.154, 4.155) or Instructor's consent.

4.157 Welding VIII 3 Credits
(1 Lec, 4 Lab Hrs/WK)
Introduction to MIG welding with emphasis on various types of wire and cover gases and their application to modern practices. Prerequisites: concurrent enrollment in Welding V, VI, VII or consent of instructor.

4.159 Maintenance/Filter Welding 5 Credits
(2 Lec, 9 Lab Hrs/WK)
Introduction to maintenance and fitting procedures needed for safe occupations skills in welding trades. Prerequisites: 2nd year welding majors.

4.165/4.166/4.167 Welding Lab A, B, C 3 Credits/Term
(9 Lab Hrs/WK)
Emphasis on development of welding skills, job shop techniques, and related welding areas. Prerequisites: Enrollment in one of the welding classes and consent of instructor.

4.280 Work Experience 1-6 Credits
(4-24 Lab Hrs/WK)
Gain on-the-job experience in coordinator approved shop situations that closely parallel with field of study. Work under supervisor and coordinator. Seminar arranged by supervisor. Prerequisites: Instructor's consent.

9.150 Welding I 2 Credits
(1 Lec, 3 Lab Hrs/WK)
Introduction to welding, covering theory, practices, safety, and operation of oxyacetylene equipment on light gauge materials and the history of welding and forming metals.
9.151 Welding II 2 Credits
Introduction to acetylene welding. Covers theory, practice, and safe operations of welding equipment on various types of materials, positions, and welds in heavy plate. Prerequisites: Welding I (9.150) or instructor's consent.

9.152 Welding II 2 Credits
Introduction to acetylene pipe welding and cutting. Prerequisites: Welding I and II (9.150, 9.151) or instructor's consent.

9.153 Welding IV 2 Credits
Introduction to acetylene, heavy plate, and pipe welding, testing of welds and reasons for testing. Prerequisites: Completion of or concurrent enrollment in Welding II and III.

9.154 Electrical I 4 Credits
Covers elementary principles of electricity as applied to welding.

9.155 Electrical II 3 Credits
Covers principles of electricity as applied to welding. Prerequisites: Electrical I (9.154) and welding majors.

9.158 Advanced Maintenance/Fitter Welding 5 Credits
Emphasizes safety, job techniques, safe material handling, and setup. Prerequisites: Completion of Maintenance Fitter Welding (4.159).

9.161 Welding V 2 Credits
Introduction to arc welding in flat and horizontal positions. Prerequisites: Welding I, II, III, IV (9.150, 9.151, 9.152, 9.153) or instructor's consent.

9.162 Welding VI 2 Credits

9.163 Welding VII 2 Credits
Introduction to pipe arc welding using safe techniques and practices. Prerequisites: completion of or concurrent enrollment in Welding I, II, III (9.150, 9.151, 9.152).

9.164 Welding VIII 2 Credits

9.165 Welding IX 2 Credits
Introduction to MIG safe welding procedures and practices. Prerequisites: Concurrent enrollment in Welding V, VI, VII (9.150, 9.151, 9.152).

9.220 Welding Skills Lab 4 Credits
Emphasis will be on upgrading of welding skills related to job needs and requirements. Prerequisites: Instructor's consent and previous welding experience.

9.225 Welding Workshop: Arc & Acetylene (30 Lab Hrs/Total) 0-3 Credits
Will provide experienced welders with practice in basic welding techniques. Prerequisites: Student must be an experienced welder.

Refrigeration

9.070 Refrigeration Servicing I 3 Credits
(3 Lec Hrs/Wk)
Covers the principles of refrigeration systems: job placement, fundamentals, history of refrigeration, compression systems, refrigerants, flow controls.

9.071 Refrigeration Servicing II 3 Credits
(3 Lec Hrs/Wk)
Covers the principles of evaporators, compressors, condensers, and flow equipment.

9.072 Refrigeration Servicing III 3 Credits
(2 Lab, 4 Lec Hrs/Wk)
This course provides practical and theoretical laboratory experience in refrigeration servicing. It includes rebuilding and replacing of flow controls, compressors, flow equipment and brazing. Prerequisites: Refrigeration Servicing I or concurrent enrollment.

JOURNALISM

J198/298 Independent Study in Journalism To Be Arranged

J280 Field Experience (Includes seminar) Variable
Combined work and study projects in fields of writing, reporting, editing, public relations and other mass media-related activities. Nine credits maximum. Prerequisites: Instructor's consent.

LITERATURE AND LANGUAGE

ENG101/102/103 Survey of English Literature 3 Credits/Term
(3 Lec Hrs/Wk)
Develops broad view of literature of English-speaking peoples, beginning with the Middle Ages and continuing to the eighteenth century. Study focuses on the works of the major poets, novelists, short story writers, essayists, and biographers. Spring quarter required. Includes English, American, and European literature.
ENG107/108/109 World Literature 3 Credits/ Term
(3 Lec Hrs/Wk)
This course is designed to introduce the student to the literary works of the western world. Students are encouraged to take Western Civilization concurrently.

ENG198/298 Independent Study in Literature To Be Arranged

ENG201/202/203 Shakespeare 3 Credits/ Term
(3 Lec Hrs/Wk)
This course is an introduction to Shakespeare's dramatic literature with an emphasis on the timelessness of his ideas and themes, the formal demands of drama and the development of the artist. The selection of the plays will follow the chronology of the cannon. The plays will also be grouped together to enhance discussion of formal and generic concepts: i.e., comedy, tragedy, and history. Recurrent themes will be discussed and analyzed with reference to their timelessness and in relation to the culture from and for which Shakespeare wrote.

ENG222 Images of Women in Literature 3 Credits
(3 Lec Hrs/Wk)
This course is designed to introduce both men and women to literature from a specific perspective: the social, economic and psychological position of women.

ENG253/254/255 Survey of American Literature 3 Credits/ Term
(3 Lec Hrs/Wk)
Helps student investigate what is “American” in selections of native literature. Encourages student, through reading and intensive discussion, to answer questions such as: Do works share common themes, techniques, characters, and mythical foundations? Should have prior experience in reading and discussing literature. May choose to take concurrently with History of the United States. Sequence order recommended but not required.

ENG260 Introduction to Women Writers 3 Credits
(3 Lec Hrs/Wk)
This course is designed to introduce both men and women to selected women writers, their literary styles and perspectives and the conditions affecting their work.

ENG273 Language and People 3 Credits
(3 Lec Hrs/Wk)
A wide range of language that introduces the student to a variety of language related topics, which will be studied in terms of the student's developing sense of himself/herself as a language user. Topics include the origin and acquisition of language, non-human languages, the invention of writing, the formal systems of languages, the relationship between language and thought, the varied uses of language and contemporary language issues.

ENG299 Special Topics in Literature 3 Credits
(3 Lec Hrs/Wk)
Designed to allow in-depth exploration of theme, problem or mode in literature for students who have a special interest in the issue. Each time the course is offered, it will be subitled to identify the special subject of study.

0.531 Literature of Contemporary Concerns 2-3 Credits
(24-36 Hrs/Total)
This course is offered for those with a special interest in contemporary themes, problems and personalities, and who wish to study these as they are reflected and represented in literature. The course may utilize all genres, stressing contemporary literature, but not being confined to it. Other periods of literature may be used to trace historical development and to provide larger contexts.

0.532 Literature of Oregon 2 Credits
(24 Hrs/Total)
A survey of literature written by or about Oregonians, or set in Oregon. This course will familiarize the students with the neglected regional literature of his/her own state, and with the kinds of literary activity that have been predominant in the state.

0.534 Appreciation of Literature 1-3 Credits
(15-36 Hrs/Total)
Surveys literature to stimulate and increase enjoyment and understanding through studying a variety of literary works and writing periods.

0.536 Shakespeare: Ashland 1-3 Credits
(15-36 Hrs/Total)
Detailed examination of Shakespeare plays being produced at Ashland with emphasis on understanding and appreciating Elizabethan culture. Students have the option of attending the plays in Ashland as a group.

MARINE NAVIGATION

9.615 Marine Navigation-Piloting 3 Credits
(3 Lec Hrs/Wk)
This course is designed to give the recipient a basic understanding of the principles involved in navigation as well as a working knowledge of navigation techniques. The course consists of an element of studies on weather, dead reckoning, piloting, electronic navigation and the utilization of these concepts as a means of navigation. It involves the use of various navigational instruments to obtain lines of position and the use of required publications necessary to interpret these lines of position to navigational fixes. An amount of rules of the road, radio communications and distress signals will be covered, as well as a distant look at celestial navigation.

9.616 Marine Celestial Navigation 3 Credits
(3 Lec Hrs/Wk)
This course is designed to give the recipient a basic understanding of the principles involved in celestial navigation, as well as a working knowledge of celestial navigational techniques. Course enables recipient to meet licensing requirements set forth by the U.S. Coast Guard to prepare operators of ocean-going vessels (more than 200 miles offshore) and for examinations in celestial navigation. The course consists of a study of celestial sightings, time, and the utilization of these concepts as a means of navigation. It involves the use of various instruments to obtain lines of position, and the use of required publications necessary to reduce these lines of position to navigational fixes.

MATHEMATICS

MTH50 Intermediate Algebra I 4 Credits
(4 Lec Hrs/Wk)
Acquaints student with logical system as it appears in theoretical science, in general, or in particular mathematics. Is coherent: whole of algebra is being developed from basic assumptions. Sufficient experience with elementary functions is gained by student who intends to take more advanced work in mathematics or needs experience in general courses in the sciences. Prerequisites: Elementary Algebra I (4.202), Elementary Algebra II (4.203) or equivalent.

MTH60 Practical Trigonometry 4 Credits
(4 Lec Hrs/Wk)
Introductions to plane trigonometry emphasizing practical applications. Prerequisites: Intermediate Algebra II (MTH102) or instructor's consent.

MTH75 Elementary Plane Geometry 3 Credits
(3 Lec Hrs/Wk)
An introduction to mathematical logic as well as fundamental concepts of Euclidean geometry. Prerequisites: Elementary Algebra (4.202).

MTH100 Intermediate Algebra II 4 Credits
(4 Lec Hrs/Wk)
This course enriches the concepts presented earlier, presents more advanced aspects of notations introduced, serves as terminal course in algebra for students preparing for non-scientific studies, and as foundation for those preparing for advanced college mathematics. Prerequisites: Intermediate Algebra I (MTH50), 1 year high school algebra or instructor's consent.
MTH101 College Algebra  
(4 Lec Hrs/Wk) 
4 Credits  
The course covers sets, algebraic logic, inequalities, absolute value, functions ordered pairs, linear and quadratic equations, exponential and logarithmic functions, and other topics depending on time available. Demands mastery of algebraic tools covered earlier. Prerequisites: Intermediate Algebra II (MTH100) and 2 years high school algebra or instructor's consent.

MTH102 Trigonometry  
(4 Lec Hrs/Wk) 
4 Credits  
The course covers trigonometry to include circular functions, inverse functions, applications and angles. The level demands competence in algebraic operations covered in Math 101. Prerequisites: MTH101 College Algebra.

MTH191/192/193 Mathematics for Elementary Teachers  
3 Credits/Term  
A foundation course in arithmetic for elementary teachers. Topics include set theory, logic, systems of numeration, and basic operations with subsets of the real numbers. Other subjects include are measurement and right triangle trigonometry. This course is a prerequisite for majors in elementary education at Oregon State University.

MTH198/298 Independent Study In Math  To Be Arranged  
(3 Lec Hrs/Wk)  
4 Credits/Term  
Differentiation and integration: applications to rates, area volumes. Applications in mechanics; plane analytic geometry, elementary transcendental functions, Techniques of Integration, vectors, solid analytic geometry, Partial differentiation, multiple integration, Infinite series, Standard sequences for students in science and engineering. Prerequisites: MTH102 Trigonometry or Instructor's consent.

0.760 Mathematics: Math Lab  0 Credit  
Individualized instruction on all levels of math from basic arithmetic to calculus. Student works at own speed and level.

2.250 Business Mathematics  
(3 Lec Hrs/Wk) 
3 Credits  
Review of basic arithmetic, including increase in speed and accuracy in the four fundamentals of whole numbers, fractions, decimals and percentage. Business problem solving through algebraic formulas.

2.252 Business Mathematics II  
(3 Lec Hrs/Wk) 
3 Credits  
A study of interest, discount, negotiable instruments, and payroll mathematics individually. Covered are business mathematics in management decisions. Includes cash and trade discounts, determining profit and loss, depreciation and taxes. Prerequisites: Business Mathematics (2.250) or equivalent.

3.240 Applied Math for Industrial Mechanics  
4 Credits  
(4 Lec Hrs/Wk)  
Students will learn basic arithmetic operations with an emphasis on applications.

3.241 Applied Algebra & Geometry for Industrial Mechanics  
4 Credits  
(4 Lec Hrs/Wk)  
This course includes basic geometric concepts, graphing in a rectangular system, basic algebraic concepts and their applications. Prerequisites: Applied Math for Industrial Mechanics (3.240).

3.242 Applied Trigonometry for Industrial Mechanics  
4 Credits  
(4 Lec Hrs/Wk)  
A numerical approach to Trigonometry with an emphasis on applications. basic definitions of sine, cosine, and tangent ratios. Prerequisites: Instructor's consent.

4.200 Basic Mathematics  
(4 Lec Hrs/Wk) 
4 Credits  
A course designed for students whose knowledge of basic arithmetic is deficient. The purpose of this course is to prepare students for successful completion of his/her science sequence or any other program requiring knowledge of basic mathematics.

4.202 Elementary Algebra I  
(4 Lec Hrs/Wk)  
4 Credits  
Stresses the transition from arithmetic to algebra for students with little or no previous experience in algebra. Includes concepts of numbers, integers and rational numbers, their generalization and simple algebraic procedures. Includes applications in other fields such as metals and automotive mechanics. Prerequisites: Basic Mathematics (4.200) or instructor's consent.

MUSIC

MuP105/205 Jazz Ensemble (Jazz Band)  
1-3 Credits/Term  
(1-2 Lec, 1-3 Lab Hrs/Wk)  
The jazz ensemble offers musicians an outlet for their talents and a means to improve their techniques and skills, music reading, notation and terminology, and improvisation as it applies to the jazz idiom.

MuP121/221 Symphonic Choir (Community Choir)  
1.3 Credits/Term  
(1-2 Lec, 1-3 Lab Hrs/Wk)  
This vocal ensemble offers singers an outlet for their talents and a chance to improve. Attention will be given to voice placement and usage, music reading, terminology, and major choral literature of all styles and periods.

MuP123/223 Opera Workshop: Community Opera  
0-3 Credits/Term  
(2 Lec, 8 Lab Hrs/Wk)  
This is a performance course which rehearses and executes the performance of an opera by an accomplished composer. Prerequisites: Vocal training and musicianship. These will be evaluated by audition.

MuP115/225 Vocal Jazz Ensemble (Southwesters)  
2 Credits/Term  
(4 Lab Hrs/Wk)  
Performance of popular vocal arrangements. Emphasis is placed on precision, sensitivity and musicianship. Prerequisites: audition and instructor’s approval.

MuP142/242 Chamber Orchestra  
1-3 Credits/Term  
(1-2 Lec, 1-3 Lab Hrs/Wk)  
The chamber orchestra offers musicians an outlet for their talents and a means to improve their musicianship and instrumental techniques and skills.
Private lessons are given on a one-to-one basis in the areas of piano, guitar and other instruments when requested by the student and when an instructor is available. Student may be asked to audition for the instructor. Student may also be asked to perform in recitals or in college ensembles.

MUS101/102/103 Music Fundamentals 1-3 Credits/Term
This course introduces the principles and foundations of music.

MUS111/112/113 Music Theory I 4 Credits/Term
(4 Lec, 1 Lab Hr/Wk)
Examines the elements, structures and patterns of music. Analyzes the styles of major composers and develops aural and keyboard skills.

MUS131/132/133 Class Piano 1-2 Credits/Term
(1-2 Lec, 1 Lab Hr/Wk)
Offers theory and practice in piano and keyboard techniques.

MUS134/135/136 Voice Class 1 Credit/Term
(1 Lec, 1 Lab Hr/Wk)
Class instruction in basic voice techniques.

MUS137/138/139 Class Guitar 1-2 Credits/Term
(1-2 Lec, 1 Lab Hr/Wk)
Introduces basic guitar techniques.

MUS198/298 Independent Study In Music 3 Credits/Term
To Be Arranged

MUS201/202/203 Introduction to Music & Its Literature 3 Credits/Term
(3 Lec Hrs/Wk)
Develops an understanding and intelligent enjoyment of music through a study of its elements, forms and historical styles.

MUS211/212/213 Music Theory II 4 Credits/Term
(4 Lec, 1 Lab Hrs/Wk)
Continuation of Music Theory I. Examines the structure and elements of music through analysis of the styles of major composers. Prerequisite: Music Theory I (MUS111/112/113).

MUS261/262/263 Music History I, II, III 3 Credits/Term
(3 Lec Hrs/Wk)
Basic stylistic concepts of the ancient to baroque periods. From baroque to classical. From romantic to contemporary periods.

0.522.7 Jazz Ensemble (Jazz Band) 0 Credits
(1-2 Lec, 1 Lab Hrs/Wk)
The jazz ensemble offers musicians an outlet for their talents and a means to improve their techniques and skills, music reading, notation and terminology, and improvisation as it applies to the jazz idiom.

0.522.8 Community Choir (Symphonic Choir) 0 Credits
(1-2 Lec, 1 Lab Hrs/Wk)
This vocal ensemble offers to singers an outlet for their talents and a chance to improve. Attention will be given to voice placement and usage, music reading, terminology, and major choral literature of all styles and periods.

0.522.9 String Ensemble (Beginning) 0.4 Credit
(2 Lab Hrs/Wk)
An introduction to string ensemble playing for elementary level players (violin, viola, cello, bass).
ART260 Photography Workshop 1-3 Credits
(Variable Hrs)
A special course for people who have some knowledge of photographic techniques and desire specialized knowledge in zone technique, printing, photography. Includes field trips to architectural and geological sites, nature trips. Prerequisite: Instructor’s consent.

0.519.1/0.519.2 Basic Photography I, II .5-2 Credits/Term
(15-36 Hrs/Total Each)
Introduction to basic principles of photography. May include instruction in camera use, including lenses and their applications; process of developing and processing negatives; darkroom procedures; printing and enlarging techniques, which include special applications (e.g. dodging, toning, etc.). Includes analysis of different types of film and developing procedures. Present basic components of composition, etc., which lead to advanced courses in photography.

9.255 Color Developing and Printing 2 Credits
(1 Lec. 2 Lab Hrs/Week)
An introductory course for photographers who already have proficiency in black and white materials. The course will help a person understand color processes to the degree that he/she can process and print color film. This course is designed to assist both the serious amateur and the commercial photographer. Prerequisite: Proficiency in black and white processing and printing.

PHYSICAL EDUCATION

Five credits of physical education courses are required for an Associate In Arts degree. Physical Education and Health majors must begin course work in the professional activities (PE195 or PE295).

PE131 Introduction to Health & Physical Education 3 Credits
(3 Lec Hrs/Wk)
Professional orientation, basic philosophy and objectives, professional opportunities and qualifications. Course is taught fall term each year.

PE185 Physical Education 1 Credit
(3 Lab Hrs/Wk)
Classes are designed to provide student with an activity that will provide physical and emotional well-being. Each course provides knowledge and skill building, which enables the student to develop and/or pursue lifetime physical activity. Class meets three hours a week. Some courses have prerequisites or require the instructor's consent. Special arrangements may be made for restricted or corrective work.

Aerobic Circuit Trng. Aerobic Dance
Aerobic Exercise Badminton
Basketball Bowling
Creative Dance I, II Creative Exercise
Cycling Flag Football
Folk Dance Golf

Gymnastics Health Backs Jazz Aerobics
Jogging Lifesaving Personal Defense I, II
Physical Conditioning Racketball
Swimming Tumbling

Swimming Tennis Track & Field
Tumbling Water Safety Instruction
Weight Training Wrestling

Volleyball

PE195/295 Professional Activities 1-2 Credits
(3-6 Lab Hrs/Wk)
Designed to provide Physical Education majors with opportunities to learn and develop teaching techniques and gain basic skills in the activity. The following sequence is offered every other year:

Fall term: Field Sports and Track & Field
Winter term: Basketball, Badminton, Fundamentals of Movement and Volleyball
Spring term: Gymnastics, Conditioning and Tennis
PE198/208 Independent Study in Physical Education

To Be Arranged

PE280 Field Experience

1-3 Credits

(Includes seminar with teaching strategy)

Nine credits maximum. Prerequisite: instructor's consent. Students have the opportunity to experience working with K-12 students in a physical activity setting.

0.510 1/2, 0.510 2 Classical Ballet I, II

1 Credit/Term

(36 Hrs Total)

Fundamental exercises, movements, and techniques necessary to discipline the body for expression in all forms of ballet. Prerequisites: Ballet I (0.510 1) or instructor's consent for 0.510 2.

0.580 Physical Conditioning - Women

5-1 Credit

(15-36 Hrs Total)

Designed for women interested in figure control, trimming and toning activity and knowledge. (i.e., Slimming, Jazz Aerobics, Jazz Dance Exercise, Self-Defense, Swimmenatics, Therapeutic Swimming.)

0.581 Physical Conditioning - Men

5-1 Credit

(15-36 Hrs Total)

Designed for men interested in conditioning the body through various physical activities. (i.e., Physical Conditioning, Weight Training.)

0.582 Physical Conditioning - Coed

5-1 Credit

(15-36 Hrs Total)

A class designed to develop one's physical fitness through a specific sport, dance, or activity. (i.e., Racquetball, Bowling, Square Dance, Gymnastics for Adults. Round Dance, Kayaking, Physical Fitness: Exercise & Sports, Tennis, Golf, and Yoga for relaxation.)

0.916 Fitness & Exercise

5-1 Credit

(15-36 Hrs Total)

Mobility exercises for the older person to keep fit, agile and flexible.

PHYSICS

PHY198/208 Independent Study in Physics

To Be Arranged

PHY204/202/203 General Physics

4 Credits/Term

(4 Lec Hrs/Wk)

Intended for nonscience majors and life sciences majors and related areas. Concepts in mechanics, thermodynamics, sound, electricity and magnetism, light, relativity, quantum physics, atomic and nuclear physics are developed from fundamental approach. Prerequisites: MTH101/102 equivalent, or instructor's consent.

PHY204/205/206 Physics Laboratory

1 Credit/Term

(2 Lab Hrs/Wk)

This course gives the student laboratory and research experience on projects selected from classical mechanics, wave motion, sound, thermodynamics, electricity and magnetism, light, relativity, quantum mechanics, and nuclear physics.

PSY207/208/209 Engineering Physics

4 Credits/Term

(4 Lec Hrs/Wk)

This is a first year college physics course for students majoring in engineering or the physical sciences (i.e., physics, chemistry). Classical mechanics, wave motion, sound, thermodynamics, electricity and magnetism, light, relativity, quantum mechanics, and nuclear physics are covered. Calculus and vector algebra are used in the development of the theories and models of these physical phenomena. Prerequisites: Previous or concurrent enrollment in an introductory course in calculus or consent of the instructor.

4.300 Practical Physics (Mechanics)

4 Credits

(3 Lec, 3 Lab Hrs/Wk)

This is an introductory course in non-calculus physics intended for vocational students. It deals with the mechanical properties of matter as they relate to motion, force, momentum, energy and power. The application to machines and their processes is emphasized. Theory is developed through lecture/discussions and practical applications stressed in lab experiences.

4.304 Practical Physics (Electrical)

4 Credits

(3 Lec, 3 Lab Hrs/Wk)

This is an introductory course in non-calculus physics intended for vocational students. It deals with the electrical properties of matter and the concepts of electricity and magnetism as they relate to electrical devices and machines. Theory is developed through lecture discussions and applications stressed in laboratory experience.

POLITICAL SCIENCE

PSY198/209 Independent Studies In Political Science

To Be Arranged

PSY201/202/203 American Government

3 Credits/ Term

(3 Lec Hrs/Wk)

Survey of principles of the American constitutional system; political process and organization of national government, foreign policy and national security, and state and local government.

PSY205 International Relations

3 Credits

(3 Lec Hrs/Wk)

Introduction to making American foreign policy. Shows causes of International conflict and degree to which conflicts might be predictable and manageable for an individual nation.

PSY252/CJ226 Constitutional Law

3 Credits

(3 Lec Hrs/Wk)

A study of basic principles of the U.S. Constitution with emphasis on leading Supreme Court cases and the Bill of Rights.

PSYCHOLOGY

PSY111 Personality and Development

3 Credits

(3 Lec Hrs/Wk)

Introductory course in personality and development. Emphasis is on aiding student toward self-understanding and personal development. Stresses theories of personality, interpersonal relations, interpersonal communications, and small group interactions.

PSY115 Career Workshops

1 Credit

(10-13 Lec Hrs/Total)

Workshops include discussions of present and future job opportunities, labor market changes, how to effectively communicate at the workplace, and job search strategies focusing on how to market yourself to potential employers.

PSY135 Single Again: Aftermath of Divorce

1 Credit

(3 Lab Hrs/Wk)

This is a course designed to assist the recently divorced to work through the psychological and physical realities that are a part of that phenomenon. The students will be provided instruction and experiences that will give them some historical perspective on marriage dissolution, enable them to realistically assess their position, and direct them toward constructive planning for their future.

PSY140 Plan Your Career

3 Credits

(3 Lec Hrs/Wk)

Provides opportunity to explore ability, interest, aptitude, and personality factors involved in setting personal life goals and making educational and career decisions.

PSY201/202/203 General Psychology

3 Credits/ Term

(3 Lec Hrs/Wk)

Introductory survey of human behavior. Includes such areas as physiological factors, perception, learning, motivation, developmental factors, personality, social interactions and influences, and effective and ineffective functioning. May be taken out of sequence.

PSY235 Human Development I

3 Credits

(3 Lec Hrs/Wk)

Discusses theoretical perspectives, social, physiological and psychological forces that impact on the stages of development from conception to puberty.

PSY236 Human Development II

3 Credits

(3 Lec Hrs/Wk)

Introduces human development through theoretical perspectives, social, physiological and psychological forces that impact on the stages of development from adolescence to old age.

**Not available in the marketplace today.**
OA124 Typing Skill Building 3 Credits
(2 Lec, 3 Lab Hrs/WK)
A course designed to develop speed and accuracy beyond the beginning level with a review of simple production work including letters, tables, and manuscripts. Prerequisites: OA121 Typing I (Beginning) or the ability to touch type.

OA200 Introduction to Word Processing 3 Credits
(2 Lec, 3 Lab Hrs/WK)
Emphasizes word processing techniques and use of features available on modern text-editing equipment. Prerequisites: CS110A&B Microcomputer Software: Word Processing/Spreadsheet; OA122 Typing II, or equivalent; or consent of instructor.

OA201 Word Processing - IBM-PC 2 Credits
(5 Lec, 35 Lab Hrs Total)
An introductory course in the use of text-editing equipment, the student gaining a basic knowledge of most of the operational features of this equipment. Prerequisites: CS110 Microcomputer Software: Word Processing/Spreadsheet; OA200 Introduction to Word Processing; good language skills; or instructor's consent.

OA202 Word Processing - IBM-DW 2 Credits
(5 Lec, 35 Lab Hrs Total)
A course for people who already have a basic knowledge of the operation of the IBM Displaywriter and who want to continue training on this text-editor to gain proficiency in operating it, either for entry into the field or for a current job situation. Prerequisites: completion of OA201 Word Processing or demonstrated equivalent ability on the IBM Displaywriter.

OA211 Applied Shorthand 3 Credits
(2 Lec, 3 Lab Hrs/WK)
Designed to train students for stenographic work on a production basis. Prerequisites: OA122 Typing II, or equivalent; OA214 Personal Shorthand Skill Building or Instructor's consent.

OA214 Personal Shorthand Skill Building 3 Credits
(2 Lec, 3 Lab Hrs/WK)
Includes theory and brief form mastery, dictation, and transcription of more advanced methods of abbreviation; additional skill development in reading and writing of notes; review of grammar, spelling and punctuation. Prerequisite: OA114 Personal Shorthand.

OA220 Electronic Calculators 2 Credits
(1 Lec, 3 Lab Hrs/WK)
The student will learn the ten-key system for machine operation and use of electronic, desk-top style calculators in the four fundamentals of mathematics. Four operations are used to solve applied business problems with speed and accuracy. Prerequisites: 4200 Basic Mathematics, 2250 Business Math or equivalent, or instructor's consent.

OA225 Machine Transcription 3 Credits
(2 Lec, 3 Lab Hrs/WK)
Students will learn to operate transcribing machines to produce mailable copy from dictated material. Prerequisites: minimum typing speed 40 wpm, 2591 Pretranscription Skills, or instructor's consent.

OA240 Filing/Records Management & Office Systems 3 Credits
(2 Lec, 3 Lab Hrs/WK)
A comprehensive study of filing systems, equipment, and criteria by which records are created, classified, stored, and retrieved. The course covers effective communication transmittal systems with particular emphasis on mail handling and telephone systems.

2.280 Cooperative Work Experience 1-8 Credits
(4-40 Lab Hrs/WK)
Students gain on-the-job experience in a coordinator approved business situation that closely parallels with field of study. Students work under supervisor and coordinator. Seminar arranged by supervisor. Prerequisite: Instructor's consent.

2.583 Human Relations in Business 3 Credits
(3 Lec, 1 Lab Hrs/WK)
This is a study of personal relations within the office, including values, goal planning and communication. Emphasis on importance of personal behavior, adjustments in office situations, and development of dissable work climate.

2.591 Pretranscription Skills 3 Credits
(2 Lec, 3 Lab Hrs/WK)
This course is designed to prepare students for the field of shorthand and machine transcription. It includes a thorough study of punctuation, capitalization, grammar and spelling as applied to transcribing and editing commonly used documents found in the business office. Students will edit rough-draft material, and type it in mailable form. Prerequisites: a minimum score of 45 on the sentences section of the college placement test, typing 35 wpm, or instructor's consent.

2.592/2.596 Office Simulation I, II 6 Credits/TERM
(1 Lec, 9 Lab Hrs/WK)
Designed to provide situations in which business students can practice business skills they have acquired and develop work habits, character traits, and attitudes accepted in the business world.

9.709 Beginning Keyboarding for Microcomputers 1 Credit
(6 Lec, 20 Lab Hrs/Total)
Designed for those wishing to develop skills in inputting alphabetic, numeric, and symbol information on a microcomputer keyboard using a touch system. Covers an understanding of the basic vocabulary and concepts used in keyboarding operations for inputting and retrieving information.

9.723 Medical Terminology I 3 Credits
(3 Lec Hrs/WK)
Introduction to medical terminology including medical prefixes, suffixes, word stems, and combining forms. Study of each system is categorized into additional prefixes and suffixes, diagnostic, symptomatic, and operative terminology.

9.724 Medical Secretary I 3 Credits
(3 Lec Hrs/WK)
Introduction to the medical office: telephone management, appointment book, recognizing medical emergencies, art of handling patient's problems in medical ethics, legal responsibility, patient's financial records, basic medical records, collections and insurance forms. Prerequisite: Interest in the medical field.

9.725 Medical Insurance, Credit & Collections 3 Credits
(3 Lec Hrs/WK)
Medical insurance terminology, familiarity with types of insurance programs, i.e., Blue Cross and Blue Shield, OPs, Adult and Family
Services, Medicare, Medicaid, specialty policies - cancer, ICU, accident. Insurance claim processing, insurance grievances, assignment and coordination of benefits. Credit and collections to include federal and Oregon credit laws, credit application, basic billing cycles. This course is mainly designed for upgrading of already employed medical office workers, retaining of other clerical workers and students enrolled in the Medical Office Assistant program.

9.726 Medical Terminology II  
(3 Lec Hrs/WK)  
3 Credits  
A continuation of Medical Terminology I with greater attention paid to anatomical detail, primarily in essentials of human anatomy and physiology - a more intensified coverage of anatomy, structures, glands and organs. It covers all systems introduced in Medical Terminology I and will include intensified spelling of terms pertinent to each system. Prerequisite: Interest in medical field.

9.727 Medical Transcription I  
(2 Lec, 3 Lab Hrs/WK)  
3 Credits  
This course introduces students to simpler forms of medical transcription with dictation by instructor from hospital dictation. Utilization of terminology with emphasis on accuracy. Prerequisites: OA225 Machine Transcription or instructor's consent.

9.728 Medical Terminology III  
(3 Lec Hrs/WK)  
3 Credits  
Attention will be paid to anatomical detail, primarily in essentials of human anatomy and physiology with more intensified coverage of anatomy, structures, glands, and organs. It covers all systems introduced in Medical Terminology I & II and will include intensified spelling of terms pertinent to each system. Lectures will be given by physicians of the community or given body systems.

9.729 Medical Transcription II  
(2 Lec, 3 Lab Hrs/WK)  
3 Credits  
Specialized/complex medical dictation for transcribing by actual physicians for development of transcription skills. Prerequisites: 9.727 Medical Transcription I or instructor's consent.

9.730 Medical Secretary I  
(3 Lec Hrs/WK)  
3 Credits  
This course is a continuation of medical office management with medical terminology being expanded into the practical application as applied to medical records. The exploration of different facets of medical reporting and analysis will also be achieved. Prerequisites: 9.724 Medical Secretary I not required prior to Medical Secretary II.

9.731 Clinical Procedures I  
(2 Lec, 2 Lab Hrs/WK)  
3 Credits  
This course is to provide clinical orientation, initial instruction, and basic skills for a medical/clerical assistant. Prerequisites: 9.723 Medical Terminology I or instructor's consent.

9.732 Clinical Procedures II  
(2 Lec, 2 Lab Hrs/WK)  
3 Credits  
This course will provide in-depth simulation of clinical experience in procedures practiced by office nurses. This will prepare the medical office assistant to substitute for the physician's nurse, without major changes in office routine, for the safety, security and comfort of patient, physician and her/himself. Prerequisites: 9.731 Clinical Procedures I or instructor's consent.

9.733 Clinical Procedures III  
(2 Lec, 2 Lab Hrs/WK)  
3 Credits  
This course provides theoretical knowledge, skills and practical experience which enables the student to attain and maintain safe, intelligent, quality patient care under supervision of licensed personnel. Emphasis on medical and surgical asepsis, in preparation for office surgery, is stressed. Primarily for students already employed in the health care field. Prerequisites: 9.731 Clinical Procedures I, 9.732 Clinical Procedures II, or instructor's consent.

9.735 Legal Secretarial Procedures I  
(3 Lec Hrs/WK)  
3 Credits  
Covers background and basic operation of a law office including ethics, responsibilities and duties of a legal secretary and career opportunities in the field of law. Structure of the court system is covered along with basic form preparation in personal injury litigation. Prerequisites: OA121 or equivalent. May be taken out of sequence.

9.736 Legal Secretarial Procedures II  
(3 Lec Hrs/WK)  
3 Credits  
This course will provide basic knowledge of the preparation of pleadings in criminal law, family law, and probate. Prerequisites: OA121 or equivalent.

9.737 Legal Secretarial Procedures III  
(3 Lec Hrs/WK)  
3 Credits  
This course covers preparation of basic court documents in bankruptcy, real property document preparation, and administrative agencies (i.e., Workers' Comp. and Social Security). Prerequisites: OA122 or equivalent.

9.752 Word Processing III (Advanced)  
(5 Lec, 35 Lab Hrs Total)  
2 Credits  
A course for people who can operate the IBM Displaywriter well enough to produce a variety of basic business documents and who want to continue training in specialized features of the text-editor, either for entry into the field or for a current job situation. Prerequisites: OA201, OA202 or demonstrated equivalent ability on the IBM Displaywriter.

SOCIAL WORK

SW107/207 Social Work Workshop  
(Up to 30 Lec/Lab Hrs/WK)  
1-3 Credits/Term  
A study of current issues and problems within the Social Work field(s) with consideration of areas and methods for social work students seeking information on special topics, backgrounds, and practices utilized within the field of human services.

SW198/298 Independent Study In Social Work  
To Be Arranged  
This course will provide a brief social historical development of the helping services within the framework of western civilization. This approach provides the perspective that enables the student to understand the historical shift of social values that encourage movement from punishment to treatment. This course content will provide the student with an understanding of the cultural-historical roots that produce the present societal ambivalence towards social services. Professionals within the community will present basic concepts, techniques, and information concerning their respective professional occupations.

SW201 The Field of Social Welfare  
(30 Lec Hrs/Total)  
3 Credits  
The course utilizes readings, lectures, audiovisual aids, guest experts and participatory exercises to teach and demonstrate the helping process. Prerequisite: The Field of Social Welfare (SW201) recommended but not required.

SW202 Introduction to Social Work Practice  
(30 Lec Hrs/Total)  
3 Credits  
The course utilizes readings, lectures, audiovisual aids, guest experts and participatory exercises to teach and demonstrate the helping process. Prerequisite: The Field of Social Welfare (SW201) recommended but not required.

SW203 Introduction to Interviewing  
(3 Lec Hrs/WK)  
3 Credits  
The interviewing course emphasizes the nature of helping relationship as basic to the interviewing situation. Techniques of interacting in a helpful manner are taught within the context of this relationship. The basic text, which describes the philosophy as well as the techniques emphasized in the course, is supplemented by the use of videotapes which also stress the same points. Prerequisites: SW201 and SW202 are recommended but not required.

SW280 Field Experience  
(3 Lec Hrs/WK)  
3 Credits  
A supervised field work experience in one of the local human service agencies. In-service students may pursue their own research projects in lieu of field experience. Regular contact with the coordinator and written, specific program requirements will be required outlining the experiences gained during the work experience.
SW299 Intro to Residential Youth Care 3 Credits (3 Lec Hrs/Wk) Provides introductory training for child care workers, foster parents, and others interested in working in residential child care facilities. The course deals with developmental planning, needs, separation, the cottage, discipline, the group and the job setting.

SOCIOLOGY

SOC198/298 Independent Studies in Sociology To Be Arranged

SOC204/205/206 General Sociology 3 Credits/Each (3 Lec Hrs/Wk) A course sequence to acquaint the student with the discipline of sociology and its basic findings. 204: the field of sociology, society and culture, the socialization process, social groups and social stratification. 205: an examination of basic social institutions such as the family, religion and education, plus selected topics. 206: an examination of major social problems in contemporary society.

SOC210 Marriage and the Family 3 Credits (3 Lec Hrs/Wk) A study of intimate relationships, courtship, marriage and family patterns. The course focuses on how people cope with love, sexuality, children, conflict, divorce, blended families and death of family members.

SOC212 Social Control 3 Credits (3 Lec Hrs/Wk) Describes and analyzes social controls in relation to the family, the environment, education, health care, social services and the criminal justice system.

SOC220/CJ131 Introduction to Penology 3 Credits (3 Lec Hrs/Wk) A basic introduction and overview of imprisonment as a correctional tool. The study of treatment and basic procedures for receiving and discharging.

SOC221 Juvenile Delinquency 3 Credits (3 Lec Hrs/Wk) Study of delinquent behavior and current criminological theories, with emphasis on criminal justice applications, crime prevention and phenomena of crime as it relates to juveniles.

SOC223 Sociology of Aging 3 Credits (3 Lec Hrs/Wk) Introduces the sociological and cultural aspects of gerontology in contemporary American society.

SOC243 Narcotics and Dangerous Drugs 3 Credits (3 Lec Hrs/Wk) This course is designed to present facts, attitudes, opinion and perspectives (medical, social, legal) necessary to understand what psychoactive drugs do, how they do it, who uses them and why.

SOC244 Criminology 3 Credits (3 Lec Hrs/Wk) To provide a broad viewpoint of criminal behavior and the justice system. A consideration of human behavior and crime, the impact of early theoretical approaches to current, theoretical and practical treatment of crime and criminals.

SPEECH

HUM100 Introduction to Humanities 3 Credits (3 Lec Hrs/Wk) Discusses human culture and ideas expressed through the social sciences and the visual and performing arts.

SP100 Basic Speech Communications 3 Credits (3 Lec Hrs/Wk) Applies general communication behavior and techniques including interpersonal, intra-personal and group communication. Develops self-awareness, self-confidence, listening and feedback, verbal and non-verbal dynamics and conflict reduction.

SP111 Fundamentals of Speech 3 Credits (3 Lec Hrs/Wk) Provides opportunities to prepare and present original speeches with emphasis on content, organization, student adjustment, delivery and language.

SP112 Fundamentals of Speech 3 Credits (3 Lec Hrs/Wk) Analyzes communication methods designed to change attitudes or actions. Aims at speaker effectiveness and critical thinking. Prerequisites: Score of 45 or above on verbal placement tests, college level speech course or instructor's consent.

SP113 Fundamentals of Speech 3 Credits (3 Lec Hrs/Wk) Provides communication techniques and oral skills to effectively participate in a group or public discussion. Discusses problem-solving, analysis, reasoning, evidence, and group leadership. Prior completion of college or high school speech course recommended.

SP114 Interpersonal Communications 3 Credits (3 Lec Hrs/Wk) Introduces informal speech communication in face-to-face and small group situations. Covers self-awareness, nonverbal communication, emotional listening and assertiveness. Prerequisites: Concurrent enrollment in SP100, SP111, SP112, and SP113.

SP198/298 Independent Study in Speech To Be Arranged

SP199 Speech Workshop 1 Credit (1 Lec Hrs/Wk) Students will be given help in outlining, delivery skills and critiquing their work and the work of others.

SP229 Oral Interpretation 3 Credits (3 Lec Hrs/Wk) Interpretation is designed to help the student improve and enjoy reading aloud from prose, poetry and drama. It serves to aid in communication of intellectual and emotional values and to enhance one's appreciation of literature.

SP270 Projects in Public Speaking 3 Credits (3 Lec Hrs/Wk) This course offers students the opportunity to think seriously about problems facing adults and to participate in such fundamentally democratic activities as debate, forum, symposium, and panel discussion. The course is designed to develop confidence, qualities for leadership, and the art of conversation as an aid to business and social success plus enjoying the company of others. Particular emphasis is placed on recognizing problems, exploring solutions and projecting one's ideas clearly through effective public speaking.

SUPERVISING TRAINING

SPD111 Communicating Effectively at Work 3 Credits (3 Lec Hrs/Wk) Concentration will be on supervisory communications in the workplace, the importance of good reading skills, the development of active listening skills, the writing of reports, letters, and inter/intra-office memos. Speaking, including both prepared and off-the-cuff presentation, non-verbal communications, and the difference between formal and informal communications.

SPD113 Human Relations for Supervisors 3 Credits (3 Lec Hrs/Wk) Practical application of basic psychology in building better employer-employee relationships by studying human relations techniques.

SPD204 Labor-Management Relations 3 Credits (3 Lec Hrs/Wk) The course traces the development of unionism in the United States and reviews in detail the requirements of labor legislation as it affects both supervisors and employees. Students are involved in an intensive role-playing situation involving contract negotiations.
SDP 208 Personnel Administration 3 Credits
(3 Lec Hrs/Wk)
The course studies the aspects of responsibilities involved with the handling of personnel including general supervisory practices, recruitment, selection, interviewing, performance appraisal, motivation techniques, training, and equal employment opportunity and affirmative action programs.

SDP 299 Supervision Seminars 1-3 Credits
(1 Seminar Session/Wk)
These seminars will concentrate on various subject concerning supervisory problems. Different speakers will address such topics as The Problem Employee, Safety in the Workplace, Time Management, Interviewing Applicants, Career Counseling, etc.

9.500 Elements of Supervision 3 Credits
(3 Lec Hrs/Wk)
The total responsibility of the supervisor is covered, including self-development, communication, getting along with boss, employee development, human relations, discipline, the giving of orders and directions, organization, planning, quality control, and grievances.

9.504 Employee Development 3 Credits
(3 Lec Hrs/Wk)
The supervisor's responsibility for developing employees through training is addressed. Developing training objectives is stressed along with on-the-job training project development. Presentation techniques are discussed. A matrix method of analyzing training needs is presented so that supervisors can assure that training given meets valid needs.

9.513 Performance Appraisal 3 Credits
(3 Lec Hrs/Wk)
This course concentrates solely on the performance appraisal process. Subjects covered will include a study of the various types of appraisals, the matter of being subjective or objective, the development of performance standards, the laws and rules governing the process, the development of their appraisal, and the appraisal interview.

WRITING — see Composition

ZOOLOGY

Z 201/202/203 General Zoology 4 Credits/Term
(3 Lec, 3 Lab Hrs/Wk)
Study of anatomy, physiology, reproduction, genetics, classification, phylogeny and evolution in animals. Prerequisite: College freshman standing with at least one year of high school biology.
FULL-TIME FACULTY

JOHN C. ANDERSON, Professor of Technical Vocational Education
B.S.E.E. In Engineering, 1950, Oregon State University
M.A. In Mathematics, 1971, University of Oregon

PHILLIP M. ANDERSON, Associate Professor of English
B.A. In English Literature, 1964, San Francisco State University
M.A. In English Literature, 1966, San Francisco State University

JOSEPH BABCOCK, Associate Professor of Industrial Mechanics
Approved Vocational Instructor

ROBERT BARBER, Professor and President of the College
A.B. In Economics, 1966, Cornell University
M.A. In Education and Special Education, 1973, State University of New York at Albany
Ph.D. In Educational Administration, 1980, University of Connecticut

ROGER BARBER, Associate Professor of Industrial Mechanics
A.S. in Industrial Technology, 1977, Southwestern Oregon Community College
Approved Vocational Instructor

ROBERT P. BOWER, Associate Professor of English
B.A. In English, 1969, Lycoming College
M.A. In English, 1971, Western Illinois University

CLYDE BRADLEY, Visiting Instructor of Industrial Mechanics
Approved Vocational Instructor

DONALD E. BURDG, Associate Professor of Mathematics
B.S. In Mathematics, 1951, Colorado State College
M.A. In Mathematics, 1952, Colorado State College
M.S. In Mathematics, 1966, Oregon State University

EDWARD M. CHILDA, Associate Professor of Speech and Drama
B.A. In Drama, 1962, San Jose State College
M.F.A. In Theatre Direction, 1969, University of Oregon

JOANNE E. COOPER, Associate Professor of Developmental Reading
B.A. In Education, 1967, Oregon State University
M.A. In Speech Pathology and Audiology, 1969, University of Oregon
M.A. In Curriculum and Instruction, 1981, University of Oregon

ROBERT L. COOPER, Associate Professor of Forest Technology
B.S. In Forestry, 1966, Oregon State University
M.S. In Forest Management, 1971, University of Washington

BARBARA A. DAVIE, Associate Professor and Director of Health Occupations
B.S. In Nursing, 1966, California State University
M.S. In Maternal Child Health and Education, 1969, University of California

BARBARA DODRILL, Associate Professor of Business
B.S. In Business Education, 1970, Southern Oregon College
M.S. In Business Education, 1971, Oregon State University

NATHAN DOUTHIT, Professor of History
A.B. In History, 1960, Harvard University
M.A. In History, 1965, University of California
Ph.D. In History, 1972, University of California

STEPHEN J. ERICKSON, Associate Professor of Psychology and Counseling
M.S. In Psychology/Community College Teaching, 1972, Eastern Washington University

LAWRENCE FENLIS, Associate Professor and Director of Public Service, B.S. In History, Psychology, and Criminal Justice, 1972, Portland State University
M.S. In Criminal Justice, 1974, Florida State University
Ph.D. In Higher Education Administration, 1981, University of Oregon

DOUGLAS GILLET, Associate Professor of Special Education
B.S. In Business Education, 1957, Eastern Illinois University
M.Ed. In Business Education, 1967, Oregon State University

PHILIP GOETHSCHALCQ, Professor of Industrial Mechanics
Approved Vocational Instructor

RICHARD GROSSMAN, Associate Professor of Business
B.S.B.A. In Hotel and Restaurant Management, 1955, Denver University
M.S. In Business Administration, 1969, San Jose State University

MIKE HODGES, Assistant Professor of Health and Physical Education
B.S. In Physical Education and Health Education, 1963, University of Oregon
M.S. In Physical Education and Health Education, 1973, University of Oregon

CHARLES O. HOWAR, Professor of Physical Science
B.A. In Chemistry, 1956, Whitman College
Ph.D. In Inorganic and Nuclear Chemistry, 1962, University of Washington

HUGH M. HOUY, Professor of History
A.B. In Social Science, 1951, California State University
M.A. In History, 1953, California State University
Ph.D. In History, 1966, University of Oregon

THOMAS HUMPHREY, Professor of English and Literature
B.S. In English, 1959, University of Oregon
M.S. In Interdisciplinary Studies. History and English, 1961, University of Oregon
M.S. In English, 1970, University of Oregon

JOHN G. HUNTER, Associate Professor of Psychology, Counseling
B.S. In Education and General Science, 1964, Oregon State University
M.Ed. In Education and Counseling Psychology, 1963, University of Oregon

KENNETH HAROLD JENSEN, Visiting Assistant Professor of Industrial Mechanics
Approved Vocational Instructor

CHERYL ANN JOHNSON, Counseling
B.A. In Sociology, 1980, Humboldt State University
M.A. In Psychology, 1984, Humboldt State University

KIRK D. JONES, Associate Professor, Librarian
B.A. In History, 1969, University of Washington
M.L. In Library Science, 1970, University of Washington

WILLIAM L. KELLY, Assistant Professor of Physics and Electronics
B.S. In Physics/Electronics, 1971, California State University
M.S. In Physics/Electronics, 1974, University of California

BEVERLY K. LEMOINE, Associate Professor of Health and Physical Education
Coordinator of Physical Education and Health
B.S. In Physical Education, 1958, Oregon State University
M.Ed. In Health Education, 1965, Oregon State University

BONNIE L. KOREVA, Associate Professor, Director of Special Instructional Programs
B.S. In Elementary Education, 1960, Maryhurst College
M.Ed. In Curriculum and Instruction, 1969, University of Oregon

BILL LEMOINE, Associate Professor of Forest Technology
B.S. In Forest Management, 1964, University of Massachusetts
M.S. In Forest Management, 1967, University of Minnesota
Lanny R. Leslie, Associate Professor of Business and Forest Technology
B.S. in Forest Management, 1967, Utah State University
M.Ed. in Vocational Education, 1975, Oregon State University

Patricia A. Lilenthal, Assistant Professor of Nursing Education
B.S. in Nursing, 1980, Southern Oregon State College
M.S. in Nursing, 1983, University of Portland

Ronald R. Lilenthal, Professor of Science
B.S. in General Science, 1958, University of Oregon
M.S. in Organic Chemistry, 1961, Oregon State University
Ph.D. in Chemistry, 1971, Louisiana State University

James Love, Associate Professor, Administrative Assistant
B.A. in Business, 1961, San Francisco State College
M.A. in Business, 1967, San Francisco State College

Doralee M. McCarthy, Associate Professor of Nursing Education
B.S. in Nursing Education, 1961, University of California
M.S. in Nursing Education, 1981, University of Portland

Dorina A. McCarthy, Associate Professor, Director of the Learning Resource Center
B.A. in English, 1955, West Texas State University
M.L. in Librarianship, 1967, University of Washington

Margaret R. McGuire, Coordinator of Adult Basic Education, rank of Associate Professor
B.A. in Social Administration, 1956, University of Manchester, England
M.S. in Curriculum and Instruction, 1977, University of Oregon

William McGuire, Associate Professor of Computer Science
B.A. in Physics and Mathematics, 1959, Portland State University
M.A. in Mathematics and Physics, 1962, University of Oregon

Jeff Menday, Assistant Professor of Physical Education and Health
B.S. in Sociology, Society and Justice, 1974, University of Washington
M.A. in Recreational Sports/Sparks Management, 1979, University of Washington

Robert A. Miller, C.M.A., Associate Professor of Business
B.A. in Business Administration, 1957, Barry University
M.A. in Public Administration, 1964, University of Minnesota

Janice Newlander, Assistant Professor of Home Economics
B.S. in Home Economics, 1959, Concordia College

Jean Noland, Visiting Associate Professor of English
B.A. in English, 1965, Kansas State University
M.A. in Comparative Literature, 1968, University of Oregon

John Noland, Associate Professor of English
B.A. in English, 1966, Kansas State University
M.A. in Creative Writing, 1968, University of Oregon

Angela I. Quinn, Assistant Professor of Nursing Education
B.S. in Nursing, 1980, Southern Oregon State College
M.S. in Nursing, 1983, University of Portland

Clara J. Radcliffe, Associate Professor of English
B.A. in English Literature/History, 1958, Wayne State University
M.A. in English Literature/History, 1959, University of Michigan
Ph.D. in English Literature, 1974, State University of New York

Christian C. Rosman, Associate Professor of Music
B.A. in Philosophy, 1966, Seattle University
M.D. in Education, 1970, Western Oregon University
M.M. in Music, 1978, Eastern Washington University

John Rulison, Professor, Dean of Instructional Services
B.A. in History, 1953, University of Portland
M.A. in History, 1957, University of Washington
Ph.D. in Higher Education, 1967, University of Washington

Jon G. Sapper, Assistant Professor of Counseling and Advising Manager
B.A. in Business, 1975, Humboldt State University
M.A. in Psychology, 1977, Humboldt State University

Darrell Saxton, Assistant Professor of Fire Science, Coordinator of Fire Science Technology
A.S. in Fire Science Technology, 1981, Southwestern Oregon Community College
Approved Vocational Instructor

Melanie Lou Schwartz, Artist in Residence
B.A. in Fine Arts, 1972, University of Nebraska
M.A. in Art, 1973, University of Iowa
M.F.A. in Fine Arts, 1974, University of Iowa

Robert C. Shepard, Assistant Professor of English
B.A. in English, 1972, University of Oregon
M.A. in English, 1971, University of Oregon

James M. Shumake, Associate Professor of Biological Sciences
B.S. in Biology and Chemistry, 1964, Florida State University
M.S. in Zoology, 1966, Oregon State University

John Speasl, Assistant Professor of Physical Education and Health
B.S. in Health and Physical Education, 1972, Southern Oregon College
M.S. in Secondary Education, 1973, Southern Oregon College

Venera Stender, Associate Professor of Home Economics
B.S. in Home Economics, 1955, University of Idaho
M.S. in Home Economics, 1959, Oregon State University

Donald E. Stensland, Associate Professor of Geology
B.A. in Sociology and History, 1953, Augustana College
M.S. in Geology, 1959, Oregon State University

Donald Strahan, Coordinator of Community Education
B.A. in Psychology, 1969, Humboldt State University
M.S. in Education, Curriculum and Instruction, 1978, University of Oregon

Suzanne Street, Director of Data Processing
A.S. in Data Processing, 1974, Southwest Missouri Community College
Approved Vocational Instructor

Ronald D. Stubbs, Associate Professor of Anthropology and Sociology
B.A. in Anthropology, 1965, University of Montana
M.A. in Anthropology, 1966, University of Montana

Andrew F. Torchio, Associate Professor of Mathematics
B.S. in Mathematics, 1958, University of Oregon
M.S. in Mathematics, 1966, Oregon State University

Carol Vernon, Associate Professor of Art
B.S. in Ceramics and Secondary Art Education, 1967, Portland State University
M.A. in Design, 1972, University of California

Jean von Schweinitz, Associate Professor, Director of Admissions and Records
B.A. in Psychology, 1967, Austin College
M.A. in Education (Student Services), 1969, Austin College

Terry D. Weaver, Professor, Media Specialist
B.A. in Religion, Chemistry, Mathematics, 1968, Greenside College
M.S.Ed. in AV Communication, 1965, Indiana University
Ed.D. in AV Communication, 1971, Indiana University

Thomas Wedeman, Associate Professor of Industrial Technology
B.S. in Trade and Industrial Education, 1976, Oregon State University

President Emeritus (Retired)
Jock E. Brookings

Professors Emeritus (Retired)
Carroll K. Avril, Associate Professor Emeritus, Electronics
Sam E. Cumpston, Professor Emeritus, Mathematics, Physics, Computer Science
J. Robert Dibble, Associate Professor Emeritus, Psychology, Counseling
Ben J. Faiver, Professor Emeritus, Biology, Zoology
HeLEN Ferguson, Associate Professor Emeritus, Business
Howard A. Hall, Professor Emeritus, Fine Arts
Raymond Kelley, Professor Emeritus, Physics and Mathematics
William D. Kraus, Associate Professor Emeritus, Mathematics
Bernell Meacham, Associate Professor Emeritus, English and Journalism
Donald R. Moffitt, Associate Professor Emeritus, Business
Philip Ryan, Professor Emeritus, Business, Computer Science
William W. Sharp, Associate Professor Emeritus, Business

Vernon C. Sorenson, Associate Professor Emeritus, Languages
J. H. Swearingen, Professor Emeritus, English
Citizens of the district are represented in all aspects of the college operation by the Board of Education, seven men and women from the towns and cities of the district who are elected by the people. The Board, assisted by three ex-officio board members representing the students, faculty, and staff, determines the policy to be administered by the college president. In budget preparation, the Board is assisted by a seven-member Budget Committee. The committee is appointed by the Board.

**Board of Education**
- Donna Brown, Coos Bay
- Marcela Dailey, Reedsport
- Mark Hamlin, North Bend
- Kay Helkkila, Coquille
- Keeli Kirkpatrick, Bandon
- Jon Littlefield, Coos Bay
- Dr. Sheldon Meyer, Coos Bay

**Budget Committee**
- LeVerne Brodie, Myrtle Point
- Urvah Carlson, Coquille
- Leonard Far, Coos Bay
- Ed Landucci, Bandon
- Debbie Larsen, North Bend
- Chuck Relgard, Coos Bay
- Bob Sund, Reedsport

**ADMINISTRATIVE OFFICERS AND STAFF**

**Office of the President**
- James Love, Administrative Assistant
- Suzanne Street, Director of Data Processing
- Leslie Barrett, Executive Secretary

**Office of Business Affairs**
- Harvey Clrm, Business Manager
- Charles Bliss, Finance Director/Assistant Business Manager
- Sharlene Lillebo, Bookstore Manager
- Don Neuharth, Superintendent of Buildings and Grounds

**Office of Instructional Services**
- John Rullison, Dean of Instructional Services
- Bonnie Korelva, Director of Community Services
- Dortha McCarthy, Director of the Learning Resource Center
- Donald Strahan, Coordinator of Community Education
- Marlis Haughton, Assistant to the Dean of Instructional Services
- Pat Alvey, Instructional Materials Technician

**Office of Student Services**
- Jon Sapper, Director of Student Development
- Jean von Schwelnitz, Director of Records
- Shirley Gitchell, Financial Aids Advisor
- Jeff Menday, Student Activities Advisor
