College Affordability and Transparency Lists

Net price amounts calculated in SFA will be used to populate the Department's College Affordability and Transparency lists.

Interactive Edits and Error Messages

SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at 1-877-225-2568 for resolution.

Context Boxes

You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Section 1: Comparison Chart**Comparison Chart**

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 are correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2016.

Student Financial Aid

Southwestern Oregon Community College (210155)

Source	Description	Severity	Resolved	Options
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 5,612 and 8,418 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	I can't quite find the anomaly as to why this year's Group 2 students took out larger private loans than their prior year peers. We are finding it increasingly challenging to get student's to finish the FAFSA for Stafford loans, with the ease in which they can obtain private funding.			
Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 39 and 71 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	The number in Group 3 rose by 22, and it appears the majority were off-campus. It's challenging to confirm off-campus with family versus off-campus not with family, and our housing numbers are accurate.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 38 and 68 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This group appears to be following in line with the trend reported in Group 3's housing arrangements. The increase in students seems to be in non-housing students.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	It appears that, similar to 2013-2014, our low income students are getting less aid overall to cover costs. Continuing cost increases in tuition, fees and student housing contribute to this variance.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	Based on the data from prior years, this particular income level fluctuates significantly. Looking at the specific data, the awards that make up this group are predominantly institutional aid given for athletics or merit. It is such a small group that any changes would impact the average more than some of the larger groups like the \$0-\$30,000. The awards are predominantly tuition waivers, and the tuition increased \$2 per credit over the prior year.

(Error #7317)	Explanation	Yes	
Reason:	It appears that our low income students are getting less aid overall to cover costs. As an institution, we have focused institutional aid on the middle income groups, but it looks as though we now need to re-assess our institutional awarding process to better identify the needs of all income levels.
