

# Instructional Council 2011-12

## Membership List and Representation Descriptions

Name	Title	Representing	Department
Christina Alexander	Associate Professor, Anthropology/Sociology	Faculty Senate	Social Sciences
Phillip Anderson	Vice President of Instruction	President's Executive Team	Office of Instruction
Smita Avasthi	Electronic Resources Librarian	Faculty Senate	Library Services
Kris Crusoe	Associate Dean of Learning	Instructional Administration	Allied Health/PE/Athletic Training/Emergency Services/Nursing/Math/Science/Engineering
Tim Dailey	Student Support Services /ADA Coordinator	Instructional Administration	Student Support Services
Elsie Floyd	Associate Student Government President	Students	Student Government
Kat Flores	Executive Director of Integrated Technology Services	President's Executive Team	Integrated Technology Services
Shawn Hanlin	Executive Director of Oregon Coast Culinary Institute	Instructional Administration	Business and Technology
Karen Helland	Director of Community & Workforce Development	Instructional Administration	Community Education/Workforce Development
Nathan Helland	High School Relations Coordinator	Management/Administration	Professional Technical Education/Preparation Coordination
Margallee James	Career Pathways & Perkins Coordinator	Management/Administration	Career Pathways/Perkins
Shawn Liggett	Supervisor of Student First Stop	Management/Administration	Enrollment Management
Karen Matson	Instructional Designer/Student Support	Instructional Administration	E-Learning
Bonnie Maxwell	Director Corrections Education	Management/Administration	Transitional Education
Sharon Miller	Professor, Developmental Education	Faculty Senate	Transitional Education
Thomas Nicholls	Executive Director Enrollment Management	President's Executive Team	Enrollment Management
Pat Parker	Transitional Education Director	Instructional Administration	Transitional Education
Laurie Potts	Childhood Education Director	Instructional Administration	Family Center
Janet Pretti	Dean of Curry County	President's Executive Team	Curry Campus
Paul Reynolds	Director Fire Science Program	Instructional Administration	Allied Health/HPE
Diana Schab	Associate Dean of Learning	Instructional Administration	Business/Technology/Humanities/Social Science/CTE
Patty Scott	President	President's Office/Executive Team	Board of Education
Beverly Segner	Professor, Counselor	Faculty Senate	Student Support Services
Billie Shannon	Visiting Associate Professor, Mathematics	Faculty Senate	Science/Math/Engineering
Avena Singh	Director of Financial Aid	Management/Administration	Enrollment Management
Arlene Soto	Small Business Development Center Director	Management/Administration	Small Business Development Center
Lori Teribery	Curriculum Technician	Instructional Support	Office of Instruction
Mike Turner	Professor, Music	Faculty Senate	Humanities
Susan Walker	Director of Nursing	Instructional Administration	Nursing
Bill Yates	Professor, Computer Information Systems	Faculty Senate	Business and Technology

## Information Literacy: A Guide for Faculty

### Information Literacy: The Basics

Information literacy refers to a set of skills used to find, evaluate, select and use information. An information literate student is familiar with the various kinds of resources, can select appropriate resources when faced with questions, understands how to search those resources effectively, and can document the information that s/he found. Information literate students display competency when it comes to finding and using information, and they have an understanding of the fundamental principles of research.

### Information Literacy Proficiencies

The Association of College and Research Libraries (ACRL) articulated [information literacy proficiencies](#), and the Information Literacy Advisory Group of Oregon (ILAGO) adapted these proficiencies for lower-division academic work. [Eight \(8\) proficiencies](#) [PDF] articulated by ILAGO reflect statewide standards for basic and intermediate levels of information competence.

### Information Literacy Learning Outcomes at SOCC

To prepare students at SOCC, librarians have developed a set of learning outcomes to measure whether students have the skills needed to conduct independent research. The following learning outcomes represent a basic level of competence that students should have upon graduating from SOCC and moving to upper-division coursework. A lower-division information literate student should be able to perform the following:

- Choose appropriate information resources to search for relevant information
- Implement a variety of search strategies to find information effectively and efficiently
- Evaluate information resources
- Document research by using an appropriate bibliographic style

[Home](#) | [About](#) | [Academics](#) | [Admissions](#) | [Athletics](#) | [Campus Services](#) | [Distance Learning](#)

Faculty are encouraged to incorporate these learning outcomes into their syllabi to ensure that students have information competence. Because research is a key component of academic work, it is appropriate for information literacy assignments to be integral in a wide range of disciplines in the arts and sciences. Recent decisions to include information literacy as a [requirement for the AAOT degree](#) should also encourage faculty to include assignments that call upon students to develop information competence. Students who have met the four learning outcomes articulated above should be prepared for upper-division coursework where they are often called upon to perform independent research.

### Information Literacy Assignments

Because lower-division classes generally do not call for in-depth research and because the 10 week term makes it difficult for students to embark on long projects, faculty and librarians at SOCC have developed ideas for assignments that include information literacy components. These ideas for assignments were developed by faculty on the Learning Resources Committee. Faculty are encouraged to draw upon these ideas, adapt the assignments to fit their courses, and contribute any assignments they feel could further information competence.

[Compare and Contrast Popular and Scholarly Journals](#) (131 KB)

## *Core Theme: Innovation and Sustainability – Planning Exhibit*

---

***Innovation and Sustainability*** has been an integral part of the College planning process for many years. An environmental scan in the 1990s showed three major shifts that would negatively affect the College's enrollment and fiscal state: (1) a decreasing district K-12 population, resulting in decreased enrollments; (2) the implementation of Oregon Ballot Measure 5, restricting property tax revenues; and (3) a fundamental change in state funding of community colleges, connecting funding predominately to FTE. At that time, the Board approved the goal of proactively seeking methods to increase the institution's financial independence. Over the years, Southwestern has sought to sustain programs and services by augmenting typical fiscal resources through innovative resource development endeavors. The goal of innovative and entrepreneurial initiatives is to be self-supporting and eventually generate excess revenue to be used as needed by the general fund. The five operations deemed to be in the self-support category include: bookstore, dining services, Oregon Coast Culinary Institute, student housing, and tenant services. Additionally, Southwestern has sought and secured grants, increased the Foundation presence, and built a new Curry Campus. Innovation and sustainability endeavors are also evident when planning for program offerings and the services provided to students and the community which contribute to the fiscal stability of the College.

The core theme relating to ***Innovation and Sustainability*** encompasses the infrastructure and operations required for mission fulfillment to support lifelong learning. The description statement for this core theme is:

*Innovation and Sustainability embodies prudent and enduring resource stewardship, augmented by innovative resource development endeavors, to sustain a strong fiscal, human, physical, and technological infrastructure for a supportive learning, living, and working environment.*

This core theme has two objectives:

- IS1. Long-term sustainability and growth*
- IS2. Strong infrastructure of employees, technologies, and facilities*

This core theme has three associated strategic plan goals:

- Goal 5: Create the vision and structure for long-term College sustainability and growth.*
- Goal 6: Support College growth through planning, budgeting, and assessment.*
- Goal 7: Allocate resources to support continuous improvement for a strong infrastructure of employees, technologies, and facilities.*

This core theme has seven annual priorities (APs) established by the Board in July 2011 for the academic years 2011-12 and 2012-13:

- 5.1: Guide initiatives and activities to achieve Mission fulfillment within a culture of evidence based decision making and continuous improvement.*
- 5.2: Review, refine, develop, and implement appropriate policies and procedures to ensure the sustainability of the College.*
- 6.1: Provide effective fiscal management through responsible financial resource stewardship, ethical leadership, and responsive College -wide support.*

- 6.2: Pursue and maintain endeavors to develop revenue streams to support financial independence.*
- 7.1: Provide and maintain a safe working, learning, and living environment.*
- 7.2: Ensure effective College -wide operational and technological support for staff and students.*
- 7.3: Assess College -wide staffing needs to create priorities for the delivery of quality educational services and programs.*

This core theme currently has 15 planned accomplishments (PAs). These are established each year by the individual units and the reporting units and are aligned with the APs and the strategic plan goals. For academic year 2011-12, these are:

- 5.1A: Institutional Effectiveness and Continual Improvement process.*
- 5.1B: Meet accreditation benchmarks.*
- 5.2A: Complete Board Policies and Administrative Policies & Procedures revamping.*
- 5.2B: Develop operational manuals.*
- 6.1A: Development of College Council functions - planning, budgeting, The Master Plan*
- 6.1B: Work toward the space integration of science, technologies and allied health and the planning and financing of appropriate facilities.*
- 6.1C: Explore additional resource opportunities for the College.*
- 6.2A: Consider additional endeavors / upgrades to current.*
- 6.2B: Explore financing opportunities through grants, industry alliances, and enterprise functions.*
- 7.1A: Expand procedure and systems to enhance and assist Emergency Management including updating the crisis management plan.*
- 7.1B: Increasing security measures and training.*
- 7.2A: Offer and support employee training and credentialing.*
- 7.2B: Reorganize instructional units so that the various components and functions fit together in a logical, manageable and sustainable manner.*
- 7.2C: Explore activities and programs to enhance employee engagement.*
- 7.3A: Review organizational structure to achieve Mission fulfillment.*

The following is a narrative of the Innovation and Sustainability Core Theme broken out by standards 3.B.1 and 3.B.2 of how we plan, deliver, and monitor our degrees, programs, courses, services, and delivery systems to address the core theme and objectives in order to meet our annual priorities and strategic plan goals. Each section illustrates the alignment of core themes and objectives with strategic plan goals and the associated 2011-12 annual priorities and planned accomplishments. Within each section, specific planning initiatives are discussed to illustrate how planning is consistent with the comprehensive planning process and is aligned with core themes and objectives in conjunction with the strategic plan, annual priorities, and planned accomplishments.

Each planning initiative is directly followed by a table that maps the initiative to the core theme objectives and the success indicators along with program and services outcomes at the institutional, reporting unit, and unit levels as appropriate. The initiative is also mapped to the associated strategic plan goal, annual priority, and planned accomplishments for 2011-12. **Prior year annual priorities and prior year planned accomplishments** are also identified when appropriate. The following table is an example of a mapped initiative for the core theme access as illustrated in the exhibit for standard 3.B.1 (contribute to objectives):

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 15 – General fund fiscal responsibility SI 16 – Enterprise fiscal responsibility SI 19 – Provide access to facilities and technology	Annual Priorities: 5.1, 6.1, 6.2, 7.1, 7.2, and 7.3 Planned Accomplishments: 6.1B, 6.1C, and 6.2B

The following table is an example of a mapped initiative for the core theme access as illustrated in the exhibit for standard 3.B.2 and illustrated in standard 4.B.1 (aligned with and contributes to program outcomes and services outcomes):

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
<b>Reporting Unit Goals:</b> <i>Enrollment Management:</i> Increase FTE and enrollments; <i>Administrative Services:</i> Fiscally responsible sustainable programs <b>Unit Outcomes:</b> <i>Athletics:</i> Increase student-athlete opportunities and access to educational opportunities <i>Student Life:</i> Support diversity initiatives	Annual Priorities: 5.1, 6.1, 6.2, 7.1, 7.2, and 7.3 Planned Accomplishments: 6.1B, 6.1C, and 6.2B  Prior Year Annual Priorities: Increase FTE by 3%

### **3.B.1**

*Planning for each Core Theme is consistent with the institution’s comprehensive plan and guides the selection of programs and services to ensure they are aligned with and contribute to accomplishment of the core theme’s objectives.*

The overarching goal of the core theme innovation and sustainability can be summed up in the saying, “meeting the needs of the present generation without compromising the ability of future generations to meet *their* needs.” The fiscal innovation that Southwestern has undertaken is the development of self-support operations to sustain enrollments and thus, programs and services. The self-support operations are paying for their own debt service on their buildings; when the debt is retired, the revenues will become available to the College as an additional revenue source for future generations. Innovation is also present in the instructional program offerings and in the services provided to students. The use of the term “sustainability” includes sustaining the finances, employees, technologies, and facilities that all support the instructional needs that in turn support student learning and achievement, student access, and community engagement—the other core themes.

### **Academic Planning**

Program planning for degrees and certificates are based on emerging labor needs and on traditional two-year transfer opportunities. The focus to increase enrollments of traditional students to fill the gap created by the loss of in-district graduates and a static population has led to long-term stability of Southwestern through steady growth of credit students and the associated FTE. Concentrated efforts have been made to plan for sustainable programs—accounting, allied health, pharmacy technician, nursing, manufacturing (welding), and small business management/entrepreneurship—all of which are in high demand or meet projected labor trends for the next six year. Online course offerings continue to grow at a faster rate than the overall increases to enrollments and FTE with enrollments of 4943 in 2010-11 and FTE of 424,

representing more than a 216% increase in FTE over 2005-06. Students are able to complete five different degrees and three different certificates by taking online courses. The growth experienced over the last few years also required careful planning to ascertain what services must be provided to support the increased number of students: housing services, dining services, ASG/student activities, additional staff, and online support services. Planning for future labor needs and targeting traditional student enrollment and alternative delivery modalities support and contribute to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 1 – Increase FTE SI 2 – Increase Enrollments SI 17 – Long-term financial stability SI 23 – Strategic Plan	Annual Priorities: 5.1, 6.1, 6.2, 7.2, and 7.3 Planned Accomplishments: 6.1C and 6.2A

A focus on creating innovative learning opportunities has led to several grants to support program development and educational programs, including state-of-the-art equipment and technology. The CBJT grant has allowed Southwestern to retrofit a former storage area in Fairview Hall, creating an additional 2,000 square feet of lab space. The additional space allowed for the installation of 16 state of the art, energy efficient welding stations, a CNC cutting table, and 16 energy efficient inverter technology industrial welding machines to ensure students are provided relevant training on contemporary and industry grade equipment. All classrooms identified from the faculty planning meetings and surveys, paid for by the Title III grant received in 2006, have been updated with technology to support instructional delivery. The grant was implemented over five years from the prioritized list of needs with all classrooms upgraded to current projectors and technology including new all-in-one computers and SMART boards. Faculty and staff identified technology was needed and in what classrooms. Acquisition of grant funds to implement innovative initiatives supports and contributes to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 19 – Provide access to facilities and technology SI 20 – Deferred maintenance	Annual Priorities: 5.1, 6.1, 6.2, and 7.1 Planned Accomplishments: 6.1C, 6.2A, and 6.2B

### **Administrative Planning**

Providing a safe and hospitable working, learning, and living environment is essential to support the mission and goals. The campus security, facilities, human resources, and student housing departments, along with the Emergency Management Taskforce and Safety Committee, focus on implementing measures to achieve this goal. For example, using campus-wide input, the facilities department maintains a list of combined safety issues and deferred maintenance items. This list is also used in budget building to address some of the most pressing issues. Human resources provide ongoing training designed specifically for supervisors and additional trainings for all staff that emphasize the importance of a hospitable working environment. The CORE members develop the in-service trainings that are required of all staff, including safety trainings, supervisor trainings, staff development opportunities, and institution-wide trainings on assessment and accreditation issues. Continued staff development and training opportunities provide staff with the information and resources to complete assessments and the program review process as well as understand their contribution to the accreditation process and mission fulfillment. These activities support and contribute to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5 and 7</b>
SI 20 – Deferred maintenance SI 21 – Campus safety SI 23 – Strategic Plan	Annual Priorities: 5.2, 7.1, and 7.2 Planned Accomplishments: 5.2A, 7.1A, 7.1B, and 7.2A

## Facilities Planning

With the goal to increase enrollments and create a revenue stream, extensive research and analysis was conducted in the mid 1990's on the feasibility of student housing and the student segments to be targeted. The Board approved the three-prong strategy to increase enrollment by building student housing for out-of-district students, enlarging the athletic sports program, and aggressively recruiting athletes and traditional students in order to meet student housing capacity. Southwestern has continued this initiative with concentrated recruiting plans to increase enrollments and meet housing capacity during the four phases of development; the current capacity is 396 students. Student housing debt service is paid by student housing revenue; when the student housing debt service is retired, the revenue will become available for college-wide use. Student housing is an excellent of how innovation and sustainability activities support and contribute to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 1 – Increase FTE SI 2 – Increase Enrollments SI 17 – Long-term financial stability SI 23 – Strategic Plan	Annual Priorities: 5.1, 6.1, 6.2, and 7.2 Planned Accomplishments: 6.1C, 6.2A, and 6.2B

The Oregon Coast Culinary Institute (OCCI) is another project developed to increase enrollment as an enterprise endeavor. Initially students had access to a one-year Certificate in Culinary Arts and courses were held in a leased building off-campus. As the program grew, research into the feasibility of building a new state of the art facility on-campus was undertaken and a new building was completed in 2005 with the capacity for 120 students through day and evening offerings. The current program offerings are Associate of Applied Science in Culinary Arts and Associate of Applied Science in Baking and Pastry, both accredited by the American Culinary Federation (ACF). Enrollments have grown since the first courses offered in 2001 and reached capacity in 2009-10 with 202 students enrolled in six cohorts, and with externships totaling 316 FTE. The program costs are all inclusive with a set rate that is less than traditional culinary schools such as Western Culinary Institute and Culinary Institute of America. Cost effective specialized programs that operate as self-support programs support and contribute to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 1 – Increase FTE SI 2 – Increase Enrollments SI 17 – Long-term financial stability SI 23 – Strategic Plan	Annual Priorities: 5.1, 6.1, and 7.2 Planned Accomplishments: 6.1C, 6.2A, and 6.2B

Since 1995, the Brookings campus programs, services, and course offerings have been provided in ill-equipped, undersized, and outdated facilities that are not ADA compliant. Planning for the construction of the new building was a long-term goal and the opening of the 26,785 square foot building in January 2012 provides the space and equipment needed for 21<sup>st</sup> Century learning. All classroom and meeting rooms are equipped with the latest technology and provide opportunities for interactive learning between campuses and online. The inclusion of a community room as another venue for constituents to meet was a high priority and was partially funded through grant funds. The building was designed with the future growth of learning opportunities in mind and to be included in the academic master plan. Such long-range planning for student needs supports and contributes to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 15 – General fund fiscal responsibility SI 16 – Enterprise fiscal responsibility SI 19 – Provide access to facilities and technology SI 23 – Strategic Plan	Annual Priorities: 5.1, 6.1, 6.2, 7.1, 7.2, and 7.3 Planned Accomplishments: 6.1B, 6.1C, and 6.2B

### 3.B.2

*Planning for Core Theme programs and services guides the selection of contributing components of those programs and services to ensure they are aligned with and contribute to achievement of the goals or intended outcomes of the respective programs and services.*

Southwestern acknowledges that a solid instructional program is supported by a strong infrastructure of technology, physical resources, fiscal resources, and human resources. As units/departments complete their 3-year full program review following the institutional process, they are encouraged to take a multi-functional view of their operations, including services provided, access to their services, customer service, policies and procedures, staffing, professional development, adequate resources, and an environmental scan. Outcomes identified by each unit/department and the associated assessments result in a list of possible activities (planned accomplishments) for the unit to pursue in meeting their goals that map to the core themes and mission.

### Academic Planning

Because of limited enrollments, many allied health programs are difficult to fund, develop, and sustain at rural community colleges. Several initiatives have been piloted with the support of grant funding for the eight rural Oregon community colleges to collaborate in offering shared programs. Discussions on strategies to sustain such programs after the grant periods have begun on the state level. The CHIA group has drafted a consortium arrangement to establish a model for offering shared-fee-based allied health programs that delineates parameters for fee, FTE, and responsibility distribution among participating schools. Southwestern supports this draft arrangement as a step toward offering a formal structure for rural school to expand their offerings through collaboration. Grant funded initiatives and consortium opportunities support and contribute to:

<b>Core Theme Objectives: IS1 and IS2</b>	<b>Strategic Plan Goals: 5, 6, and 7</b>
SI 1 – Increase FTE SI 2 – Increase enrollments SI 15 – General Fund fiscal responsibility <b>Reporting Unit Goals:</b> <i>Enrollment Management:</i> Increase FTE and enrollments; <i>Administrative Services:</i> Fiscally responsible sustainable programs <b>Unit Outcomes:</b> <i>Admissions:</i> Increase access to learning opportunities <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population	Annual Priorities: 5.1, 6.1, 6.2, and 7.2 Planned Accomplishments: 5.1A, 6.1C, 6.2A and 6.2B

## Administrative Planning

Having had success increasing the enrollment with a strong athletic sports program, Southwestern continues to maintain the sports associated with that program. The sports program is overseen by the athletic director and continues to recruit students with assistance from the executive director of enrollment management and the coaches to build enrollments and fill student housing. This group continually seeks new recruiting opportunities. In the spring of 2011, after a very successful season of women's wrestling as a club sport, a full analysis was completed to answer the question, "*Could women's wrestling be successful as a varsity sport?*" This question was posed during the budget building process as a solution to declining in-district enrollments and other considerations. After analysis, the sport of women's wrestling was added to begin in fall 2011. The additional students will increase housing occupancy, enrollments, and FTE. Increased athletic activities support and contribute to:

Core Theme Objectives: IS1 and IS2	Strategic Plan Goals: 5, 6, and 7
SI 1 – Increase FTE SI 2 – Increase enrollments SI 15 – General Fund fiscal responsibility SI 23 – Strategic Plan <b>Reporting Unit Goals:</b> <i>Enrollment Management:</i> Increase FTE and enrollments; <i>Administrative Services:</i> Fiscally responsible sustainable programs <b>Unit Outcomes:</b> <i>Athletics:</i> Increase student-athlete opportunities and access to educational opportunities <i>Student Life:</i> Support diversity initiatives <i>Financial Aid:</i> Increase access to financial assistance	Annual Priorities: 5.1, 6.1, 6.2, and 7.3 Planned Accomplishments: 5.1A, 6.1C, and 6.2A

The human resources (HR) department performed an environmental scan of the unit and determined the activities to be set as unit planned accomplishments for the next three years. Decisions were made with consideration of mission fulfillment, feasibility, costs, timing requirements, workload, and urgency. Assisting the revamping of Board policies, the department reviewed/wrote Board policies related to HR and is now working with the college's labor attorney to review/rewrite the administrative policies and procedures for HR. Recognizing the need to resume supervisor training, HR has set a schedule of training workshops for the next two years; the order of trainings was determined by the relative urgency of issues that have emerged on campus. Plans for new employee orientation are being discussed with the actual work scheduled for next year. Additionally, a goal to increase efficiency through use of technology resulted in the implementation of an online staff recruiting process, more web accessible materials, and document imaging. All of these planned accomplishments will build a stronger infrastructure of employees and operations. Such infrastructure supports and contributes to:

Core Theme Objectives: IS1 and IS2	Strategic Plan Goals: 5, 6, and 7
SI 9 – Employee Satisfaction <b>Reporting Unit Goals:</b> <i>Enrollment Management:</i> Increase FTE and enrollments;	Annual Priorities: 5.1, 5.2, 6.1, 7.1, and 7.2 Planned Accomplishments: 5.1A, 5.2A, 5.2B, 6.1C, 6.2A, 7.2A, and 7.2C

Core Theme Objectives: IS1 and IS2	Strategic Plan Goals: 5, 6, and 7
<i>Administrative Services:</i> Compliance with legal requirements; maintain college policies and procedures <b>Unit Outcomes:</b> <i>Human Resources:</i> Quality hiring and orientation	

## Technology Planning

The Integrated Technology Governance Committee conducts regular meetings and solicits input from all campus departments. Submissions are evaluated for mission fulfillment, feasibility, costs, and sustainability; that evaluation guides the prioritization of proposed projects. Updates and progress reports provide feedback about project success to committee participants. As the result of one of those projects, the services provided by ITS labs and computer classrooms were better supported by the installation of 100 new computers in 2010-2011 and the upgrade to Microsoft Office 2010 in 2011-2012, two initiatives supporting the unit outcomes to provide quality instructional computing labs. Further, the unit outcomes for the institutional research department included reporting institutional effectiveness. TracDat was purchased in 2008-2009 to facilitate the program review and planning processes in support of institutional effectiveness reporting. Providing more electronic training for students and staff is one area identified for improvement in the ITS survey of 2009-2010. Atomic Learning was implemented to provide online and on-demand access to training, workshops, and self-guided learning. Innovative equipment solutions and training supports and contributes to:

Core Theme Objectives: IS1 and IS2	Strategic Plan Goals: 5, 6, and 7
SI 1 – Increase FTE SI 2 – Increase enrollments SI 15 – General Fund fiscal responsibility SI 23 – Strategic Plans <b>Reporting Unit Goals:</b> <i>ITS:</i> Maintain the College's technology infrastructure and services to meet the needs of students, staff and outside agency expectations and requirements; Develop and implement ways to use technology in order to build a clean and sustainable environment. <i>Administrative Service:</i> Fiscally responsible sustainable programs; <b>Unit Outcomes:</b> <i>ITS:</i> Provide current and reliable technology to allow Faculty and Staff to better serve Students. Provide reliable access to services for Students, Faculty and Staff. <i>ITS Labs and Classrooms:</i> Provide quality Instructional Computing Labs	Annual Priorities: 5.1, 6.1, 6.2, and 7.3 Planned Accomplishments: 5.1A, 6.1C, and 6.2A

*Southwestern Leads and Inspires Lifelong Learning!*

## Southwestern Oregon Community College

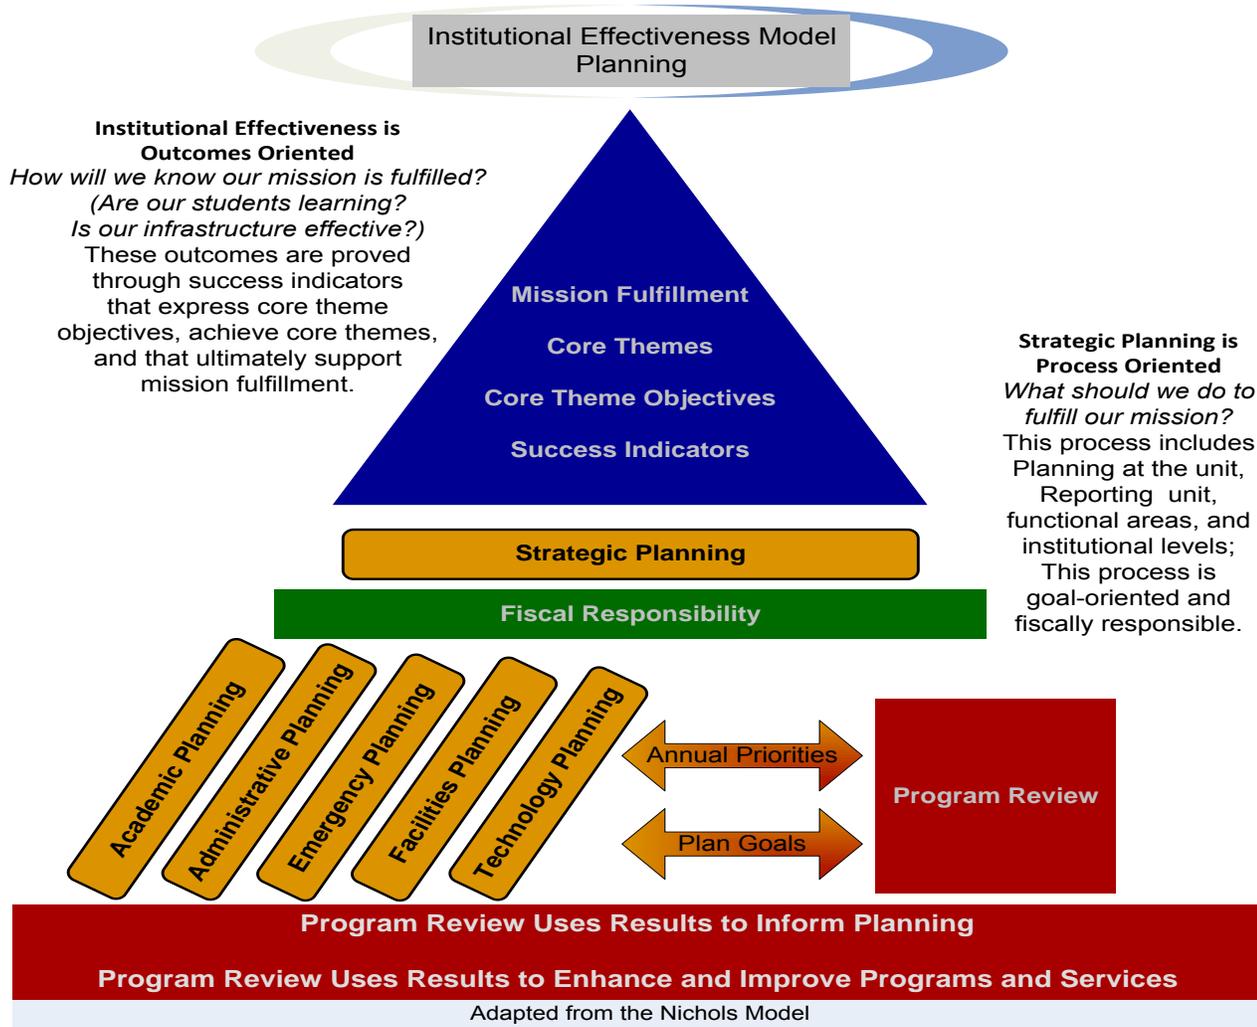

Southwestern is committed to a practice of evaluating and assessing its effectiveness. The College’s Institutional Effectiveness process is an ongoing, integrated, institution-wide practice of planning and assessment that uses continuous improvement and that provides evidence that the College is effectively achieving its mission. The planning and program review assessment processes support institutional effectiveness through the development of a strategic plan and its supporting goals. Strategic plan goals are derived from program reviews that are conducted across campus and from subsidiary planning processes that occur at the unit, reporting unit, functional areas, and institutional levels of the College. Planning and goal setting provide the basis for the administration to allocate resources, adapt to changes in the environment, and coordinate activities—ultimately leading to fulfillment of the college mission.

*Southwestern Leads and Inspires Lifelong Learning!*

## Southwestern Oregon Community College

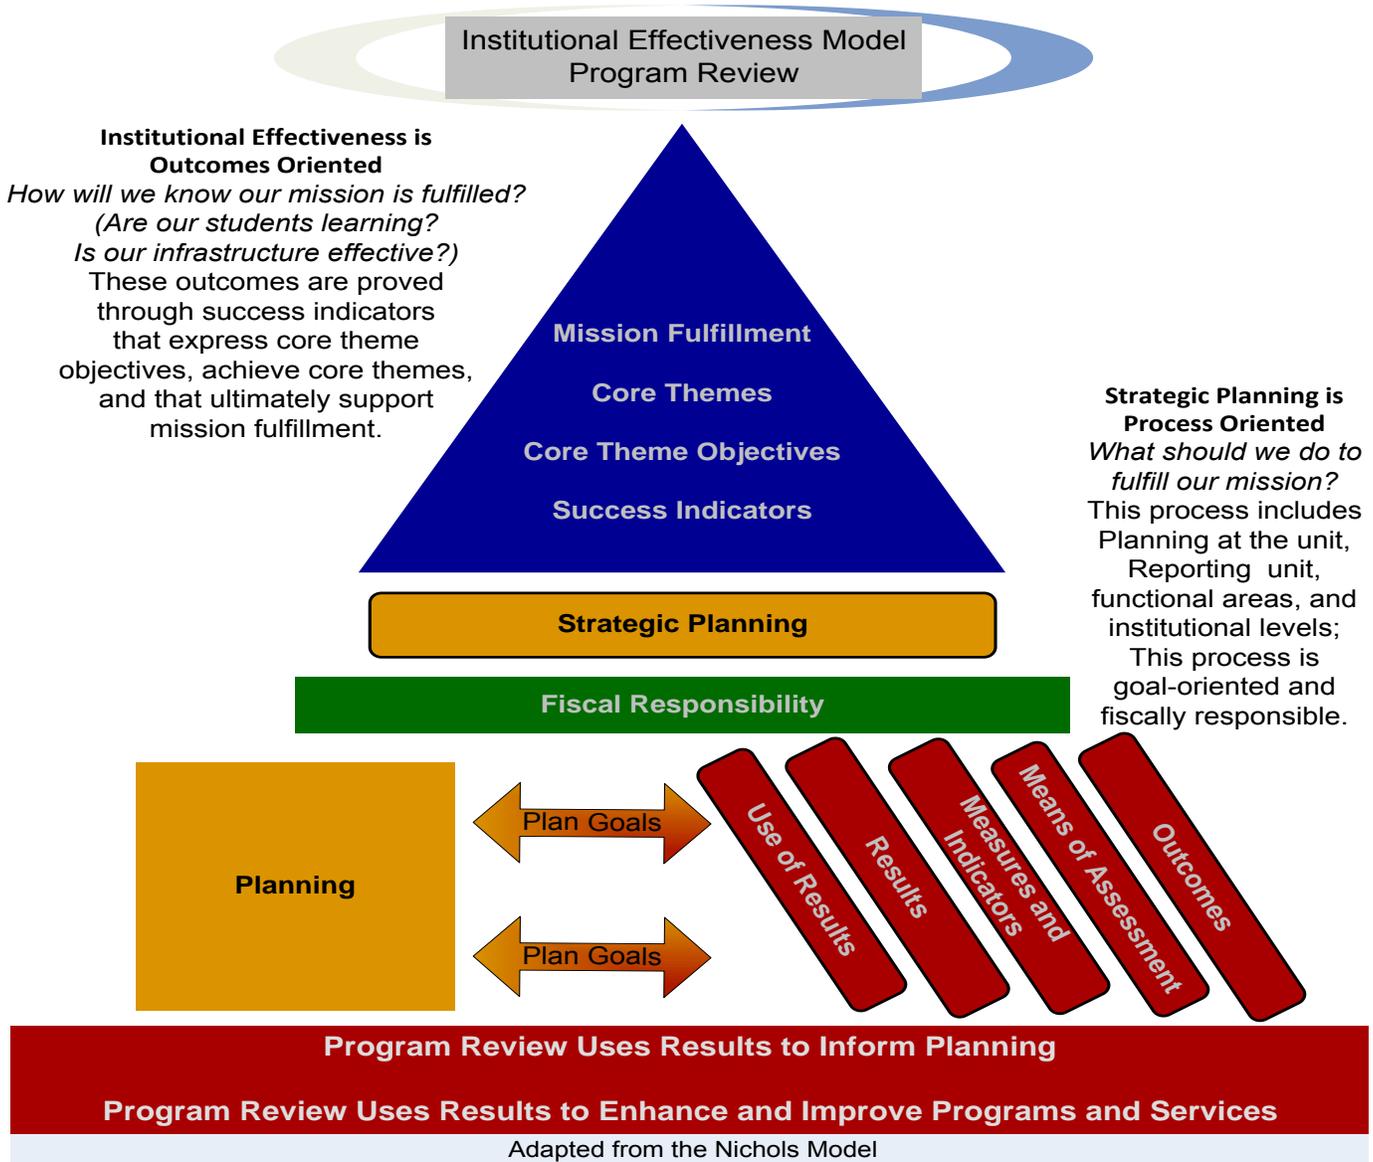

Planning is the collaborative process by which the College develops long-term strategic plan goals, annual priorities, and planned accomplishments supported by unit plans and other operational plans. The strategic plan goals are designed to serve the College for at least a seven-year period, which is synchronized with the accreditation review cycle. The planning process is conducted in collaboration among management, faculty, and classified staff to formulate a plan to achieve institutional goals with the available resources and is one mechanism leading to Mission fulfillment. Other planning processes include the Master Facility Plan, the Academic Plan, administrative planning, the Technology Plan, and the Emergency Preparedness plan. Each of the plans is developed through a similar process and is led by a campus representative appointed by the Executive Team. Planning begins with the annual Board of Education Retreat held in July of each year. The Board of Education meets to identify annual Board Goals and to review the Southwestern Strategic Plan. The Board Goals and Activities, along with the annual priorities identified in the strategic plan, are communicated to the campus during the September Board of Education meeting. Unit and/or department planning, along with reporting unit planning, occurs primarily during the fall term to support institutional budget development and allocation of resources. This process directs the development of annual planned accomplishments from all units and/or departments as a result of the various meetings held during the year's program review process. Planned accomplishments are identified from annual planning meetings and from the program review and assessment process that reports and uses the results and planned accomplishments. Requests for budget funds or reallocation of resources are tied to the planned accomplishments and the use of results that were previously identified in the planning and assessment processes. The budget process directs the allocation of funds as prioritized in order to support and implement continuous improvement efforts and fulfill the Mission.

*Southwestern Leads and Inspires Lifelong Learning!*

## Southwestern Oregon Community College

Assessment activities are ongoing, using required processes for the review of annual data. During the comprehensive program review process, critical data is collected and analyzed to evaluate how well outcomes are met. Assessment activities consist of four parts:

- 1) A comprehensive review of the unit outcomes;
- 2) The synthesis and analysis of the results of each outcome along with accompanying annual data results;
- 3) Review of the internal and external trends that impact the unit; and
- 4) The use of results for each outcome.

The comprehensive program review includes quantitative and qualitative data analysis as well as an examination of operational policies and procedures. Program review occurs every three years and the end product is a report compilation of three years' of data. The report illustrates the level achieved by outcome and the effectiveness of the unit/department (program, degree, certificate, or administrative/educational support service provided to students) based on the synthesis and analysis of data considering internal and external trends. The use of results identified from the assessment activities lead to planned improvements, changes, and any other modifications to programs and/or services as identified during the review process.

**Southwestern Oregon Community College**

**Institutional Effectiveness, Planning and Assessment Handbook**

**Developed by the Institutional Effectiveness and Assessment Taskforce  
June 2010**

-

The charge of the taskforce was to develop the processes and guidelines designed to demonstrate the effectiveness of programs and services at Southwestern Oregon Community College as determined on October 20, 2009

**Purpose:** The purpose of the taskforce is to:

1. Develop the processes designed to demonstrate the effectiveness of programs and services;
2. Develop the guidelines and framework for assessment of programs and services;
3. Propose institutional standards of achievement for programs and services;
4. Serve as a resource for faculty and staff in determining assessment methods and tools;
5. Propose how general student learning outcomes are assessed and how the use of those results will be used across programs and disciplines to improve the overall student learning experience;
6. Enhance communication and encourage the sharing of information, ideas, and solutions among committee members and departments at Southwestern to promote innovation, continuous improvement, assessment activities and research;
7. Collaborate with the Administration of Southwestern and the Faculty Senate Assessment, Planning & Budget Committee to establish and maintain effective communication channels among the team and staff at Southwestern as one component of Accreditation;
8. Contribute to the improvement of processes to provide faculty and staff with the resources necessary to support teaching and learning.

**Activities:** The team will pursue its purposes by undertaking appropriate activities chosen by the membership and recommended by the Administration. Activities specifically included are:

1. Regular meetings for the sharing of information among team members in order to find solutions, establish procedures, and maintain quality activities associated with assessment, research, continuous improvement, innovation and institutional effectiveness.
2. Create and use sub-committees to carry out specific implementations and special projects as needed by the team.
3. Establish and maintain shared resources for mutual support among faculty and staff at Southwestern.
4. Identify emerging trends and establish best practices in the areas of assessment, research, continuous improvement, and innovation.
5. Create an Institutional Effectiveness and Assessment Draft Handbook recommending the processes and guidelines to the Planning Council.

Taskforce met from October 23, 2009 to June 7, 2010.

Oversight committee will meet the first Tuesday of every month beginning November 1, 2010.

## **Institutional Effectiveness and Assessment Taskforce**

## Introduction

Increasing demands for accountability has been one of the defining characteristics of postsecondary education in the 1990s. Whether at the federal level (Student Right-to-Know Act), state level (Oregon State Board of Education “Measure What You Treasure” for the community colleges), or locally (planning and budgeting, accreditation), assessing institutional effectiveness and educational offerings is an ongoing challenge.

This document serves as Southwestern Oregon Community College’s (Southwestern) continuing efforts in this area. The Institutional Effectiveness and Assessment Task Force, co-chaired by Institutional Researcher, Robin Bunnell, and Southwestern Writing Instructor, Joy Parker, developed the guidelines through a year-long process which included faculty, classified staff, and management members. The taskforce became the Institutional Effectiveness and Assessment Oversight Committee at the beginning of the academic year 2010-11.

It is intended that this document serve as The Southwestern Institutional Effectiveness, Planning and Assessment Handbook.

### **The Handbook is divided into the following sections:**

1. [Introduction](#): History, Purpose and Overview
2. [Institutional Effectiveness](#): Planning, Assessment, and Budgeting
3. [Planning](#)
4. [Assessment](#)
5. [Budgeting](#)
6. [Appendices](#)

*Sections of the handbook are electronically linked and keywords are linked to the glossary to easily jump to definitions and sections within the handbook. The links appear as a different color and are underlined.*

## Section I:

### Introduction: History, Purpose and Overview

#### History

Now, more than at any other time in the history of community colleges exists a need for accountability. In order to meet and exceed calls for local, regional, state and national accountability fully developed institutional planning and effectiveness processes are required. Inextricable ties between planning, effectiveness, and resource allocation guide College leaders through good times and times of financial difficulty. Strong planning process and demonstration of institutional effectiveness contribute to an institution's ability to maintain public trust, compliance with regional accreditation standards, and its own definition of mission fulfillment. Southwestern has taken the steps necessary to develop planning and effectiveness processes which build a culture of evidence and the confidence necessary to fulfill its mission.

Southwestern is accredited by the Northwest Commission on Colleges and Universities ([NWCCU](http://www.nwccu.org)), nationally recognized by the U.S. Department of Education and the Council for Higher Education (CHEA) as a regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington. The NWCCU website states:

“Regional accreditation is a process of recognizing educational institutions for performance, integrity, and quality that entitles them to the confidence of the educational community and the public ([http://www.nwccu.org/](http://www.nwccu.org) Accreditation Overview). “Regional accreditation of postsecondary institutions is a voluntary, non-governmental, self-regulatory process of quality assurance and institutional improvement. It recognizes higher education institutions for performance, integrity, and quality to merit the confidence of the educational community and the public. Accreditation or preaccreditation by a postsecondary regional accrediting agency qualifies institutions and enrolled students for access to federal funds to support teaching, research, and student financial aid” (<http://www.nwccu.org/>).

The accreditation process occurs on a seven year cycle with visits in years 3, 5 and 7. The benefits of accreditation include:

- Financial Aid Opportunities – Federal (and often state) financial aid is only available to students who enroll at a college, university, or other institution of higher learning that has been accredited by the appropriate regional or special accrediting body.
- Workplace Success – Some employers prefer or require degrees/training from accredited institutions.
- Transfer of credit to other accredited institutions - student transfer between accredited colleges and universities throughout the nation is possible because of the reciprocal agreements between the six regional accrediting agencies.
- Quality Assurance - Regional accreditation assures the public, including parents, students and the business community, that the institution adheres to standards that are based on peer evaluation, regular self-evaluation and reports, and assessment of institutional effectiveness.

Southwestern also has received specialized accreditation or program approval recognition for Culinary Arts and Baking and Pastry- ACF, Early Childhood Education Program and Degree, EMT Basic, Intermediate and Paramedic, Nursing Program, and the Transitional Education program.

Southwestern has developed a vision, a clearly defined mission, core themes, and core values that are intended to guide the college through the planning, assessment, and budgeting processes. All efforts to assess our effectiveness must be based on these founding principles.

### Vision

Southwestern Leads and Inspires Lifelong Learning

### Mission

Southwestern Oregon Community College serves the educational and cultural needs of our students and communities by providing access to quality education in a professional and engaging environment which supports innovation, sustainability and lifelong enrichment. Learning experiences are characterized by excellent teaching, support for student achievement and the enhancement of social and economic opportunities.

### Core Themes

According to NWCCU, the accrediting body for community colleges:

*A core theme is a manifestation of a fundamental aspect of institutional mission with overarching objectives that guide planning for contributing programs and services, development of capacity, application of resources to accomplish those objectives, and assessment of achievements of those objectives. Collectively, the core themes represent the institution's interpretation of its mission and translation of that interpretation into practice.*

(<http://www.nwccu.org/Standards%20Review/Pages/RevisedStandards.htm>)

It is expected by NWCCU that Southwestern:

identifies core themes that individually manifest essential elements of its mission and collectively encompass its mission. . . . establishes objectives for each of its core themes and identifies meaningful, assessable, and verifiable indicators of achievement that form the basis for evaluating accomplishment of the objectives of its core themes. (NWCCU, *Standard 1.b.1, 1.b.2*, 2010)

Southwestern developed the institutional core themes in response to the new accreditation standards adopted by NWCCU in January 2010. The core themes were identified during the academic year 2009-10 through a collaborative process that included faculty, staff and management. Four core themes ([Appendix A](#)) emerged from the appreciative inquiry process which began during the fall 2009 in-service sessions and during the resulting follow-up sessions.

- 1) **Access**  
Access is the pathway to learning opportunities for students and the community through support services and diverse delivery methods.
- 2) **Learning and Achievement**  
Student learning and student achievement are at the core of the College mission and given the highest priority by emphasizing quality teaching; quality learning; quality course and program design; retention; persistence; completion; graduation and/or transfer.
- 3) **Innovation and Sustainability**  
Innovation and sustainability are interwoven to both seize opportunities for resource development and maintain continuous improvement for a strong infrastructure of employees, technologies, and facilities.
- 4) **Community Engagement**  
Community engagement is the means to build strong partnerships and provides opportunities for the community to participate in diverse activities and events.

## [Core Values](#)

The core values of an organization are those values we hold which form the foundation on which we perform work and conduct ourselves. In an ever-changing world, core values are constant. Core values are not descriptions of the work we do or the strategies we employ to accomplish our mission. The values underlie our work, how interact with each other, and which strategies we employ to fulfill our mission. The core values are the basic elements of how we go about our work. They are the practices we use every day in everything we do.

***Community*** – Build collegiality by providing a welcoming and supportive atmosphere with respect for diversity.

***Learning*** – Filter every decision, activity, and function through the lens of learning.

***Innovation*** – Empower creative, progressive thinking that results in a sustainable, positive change.

***Professionalism*** – Present ourselves with honesty and integrity working together to achieve our goals.

***Stewardship*** – Sustainably manage our environment and fiscal resources to support our staff, students, and community.

## **Purpose of Institutional Effectiveness and Related Processes:**

- Facilitate student success and learning
- Serve as a catalyst for positive change
- Improve the quality of teaching and learning
- Improve the quality of student support services and operational services
- Ensure that students are receiving effective instruction and achieving the standards set by programs, disciplines and course offerings
- Improve programs, disciplines and course offerings, including assessment of needs related to staff, curriculum, equipment, facilities and other resources
- Inform administrative, board and other appropriate bodies' decisions with regard to the initiation, continuation, enhancement and/or elimination of programs, disciplines and course offerings
- Respond to external accountability demands, including accreditation
- Use data for decision making and allocation of resources
- Support the ongoing commitment to a culture of continuous improvement through appropriate planning and budgeting that are derived from the assessment processes

## **For Whom is this Handbook Intended?**

This handbook is a guide to the different processes of planning and assessment with reference to budgeting. The handbook is designed to help new staff become familiar with the processes and to guide all staff as they complete the assessment processes as part of their unit. It is intended that staff will be able to refer to this handbook for [common terms and definitions](#). Included in the handbook are the basic steps for end-users responsible for entering information into the [TracDat](#) system, software designed to meet the planning and assessment needs of Southwestern. TracDat electronically captures and stores all assessment-related processes and documents rather than having end-users create hardcopy documents or store supporting documentation on their own computers. The system provides uniform reporting across all departments and/or units. Each department and/or unit is responsible for entering and maintaining all information within the TracDat system (check with the associate dean/supervisor of the department/unit to confirm the end-user responsible for maintaining information in the system):

### ***Unit Level – Instructional Associate Dean/Faculty and Administrative Leaders***

- [Outcomes](#)
- [Means of Assessments](#)
- [Results](#)
- [Use of Results](#)
- Documentation as evidence of results
- [Program Review](#) Year Reports
- [Annual Plan Priorities](#)
- Annual Report of Accomplishments.

### ***Reporting Unit Level – Instructional Associate Dean and Administrative Leaders***

- [Goals](#) – Reporting Unit
- Results – Reporting Unit Overview
- Annual Reports – Reporting Unit Overview

### ***Strategic Plan Level - President, Vice President and Executive Leaders***

- [Annual Priorities](#)
- [Status Updates](#)

### ***Administrative Level – Assessment Team***

- [Vision](#)
- [Mission](#)
- Core Values
- [Core Themes](#)
- [Strategic Plan Goals](#)
- Yearly Plan Development
- Administrative Maintenance

## **What Topics are Covered?**

### ***Institutional Effectiveness and Demonstrating Achievement***

[Institutional effectiveness](#) is meant to illustrate whether the college is meeting its mission and core themes as well as achieving its goals as demonstrated by a comprehensive, integrated, participatory planning and assessment process that focuses on improvement in all aspects of college operations and educational outcomes.

*Standard Four: Effectiveness and Improvement* of the NWCCU standards outlines the expectations related to Institutional Effectiveness:

The institution collects data related to clearly-defined indicators of achievement, analyzes those data, and forms evidence-based judgments of achievements of core theme objectives. It regularly and systematically applies clearly-defined evaluation procedures to appraise the relationship of institutional planning, resources, capacity, and practices to the objectives of its core themes; and assesses the extent to which it accomplishes those objectives and achieves the goals or intended outcomes of its programs and services. It uses assessment results to effect improvement and disseminates its findings to its constituencies. (NWCCU, *Standard Four*, 2010).

## [Planning](#)

Management leads the institution from where it is now to where it would like to be in the future. The [planning process](#) is conducted in collaboration among management, faculty and classified staff to formulate a plan that is designed to achieve institutional goals with the available resources. The planning process (1) identifies the goals to be achieved at the institutional level based upon information gathered at the unit level; (2) identifies annual priorities to achieve the goals at the institutional and the unit level; (3) includes decisions on allocating resources to pursue the goals and priorities, including capital and people; and (4) implements, directs, and monitors all the steps in their proper sequence. ([Appendix B](#)).

## [Assessment](#)

[Assessment](#) is a continuous process of collecting, evaluating, and using information to determine if and how well performance matches learning or service outcomes. We gather evidence of student learning; discover the degree to which courses, programs, and administrative and educational support services accomplish intended outcomes; and probe the achievement of institutional goals, core themes and mission.

## [Budgeting](#)

We establish a budget document of the planned level of expenditures based on projected revenues. The [budgeting process](#) is conducted in collaboration among management, faculty, and classified staff to formulate a detailed budget for all funds at the unit level.

## *TracDat*

[TracDat](#) is a management software system designed to provide a repository for all assessment and planning documents as well as documenting the process. It is used to manage and document the following institutional effectiveness activities at Southwestern.

- Document [Student Learning Outcomes \(SLO\)](#) and results
- Document [Administrative and Educational Support Unit Outcomes \(AESO\)](#) and results
- Document [General Education Outcomes \(GEO\)](#) and results
- Document [Degree](#) and [Certificate](#) Outcomes and results
- Manage [department and/or unit](#) annual priorities and status updates
- Manage the institutional [strategic plan goals](#) and [annual priorities](#) including [status updates](#)
- Link [reporting unit goals](#) and SLO/AESO/GEO activities to the College goals
- Access reports
- Document [Program Review](#) and use of results for all *planned* improvements
- Provide departments and/or units an opportunity to request needed funds during the [budget process](#)

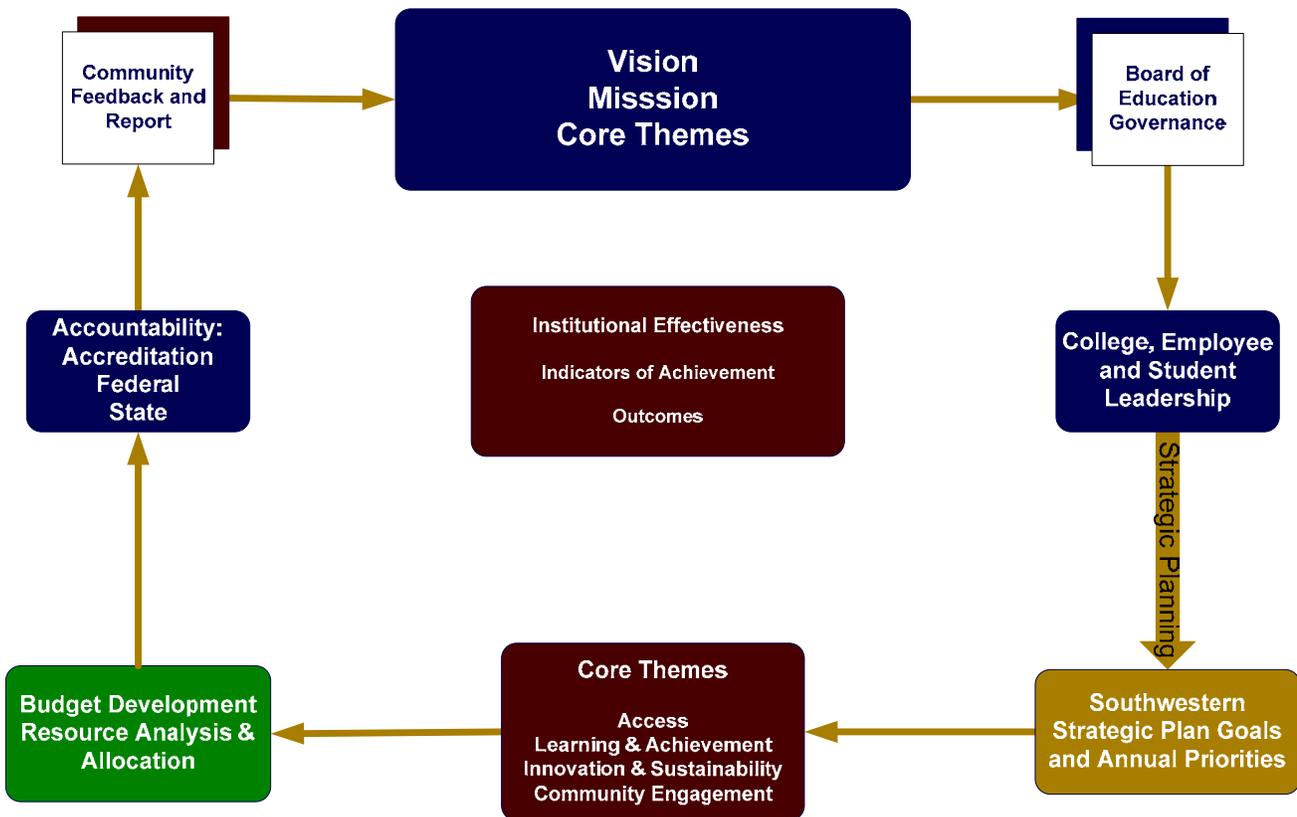

## Section II

### Institutional Effectiveness: Planning, Assessment, and Budgeting

As an accredited institution, Southwestern is committed to implementing a [planning](#), [assessment](#) and [effectiveness](#) process which uses available resources and produces clear evidence of student learning and excellent learner support. The institution will guide and support staff in the systematic documentation of student learning and learner support. Southwestern also disseminates such documentation to both the college community and the community at large. The following diagram is meant to illustrate the flow of work and interactions of information from the Board of Education, through the institution and out to and back from the community. A detailed integrated view of the model is illustrated in [Appendix C](#).

#### Institutional Effectiveness Model - Board and Community Diagram

##### *Southwestern Oregon Community College Institutional Effectiveness*

#### Characteristics of Institutional Effectiveness

- Collaborative (with participation and support from the board, administration, faculty, support staff, students and community)
- Ongoing (a dynamic process that is expected to evolve over time – continuous improvement)
- Impartial
- Efficient
- Data driven
- Meaningful (the value of the process is evident to the campus community)
- Accountable (those involved will hold each other accountable for following the process, making decisions and following through)
- Communicated (assessment results will be shared before any decisions, and outcomes will be communicated to stakeholders)

The College's institutional effectiveness process is an on-going, institution wide process of planning and assessment for the purpose of continuous improvement and to provide evidence that the College is effectively achieving its mission. The institutional effectiveness process at Southwestern Oregon Community College is an on-going planning—implementing—assessing cycle that is applied at every level of the College. It provides the basis for the administration to allocate resources, adapt to changes in the environment, and coordinate activities leading to fulfillment of the College mission.

Institutional Effectiveness is demonstrated through [mission fulfillment](#). Southwestern demonstrates achievement of mission fulfillment by successfully meeting the [objectives](#) of our core themes. [Objective](#) performance is measured by setting annual [target](#) levels for each core theme [indicator of achievement](#). Core themes are mapped to individual indicators of achievement and reviewed each year for applicability, annual target benchmarks, and consideration of new or deletion of indicators. [Indicators of Achievement](#) were developed to identify the individual success indicators and to set target benchmarks for which the institutional strives to annually achieve. ([Appendix D](#))

### **[Indicators of Achievement](#)**

Indicators identified by the institution to illustrate achievement of the mission at the institutional level and reported to the Board of Education. Southwestern is committed to a practice of evaluating and assessing the effectiveness of the College. Accreditation and State standards also require the College to have in place practices to evaluate and assess the effectiveness of all programs and the administrative operations. [Indicators of Achievement](#) are one way the College demonstrates to the Accreditation agency, the State, the Board, the students, the Community and the staff institutional effectiveness.

Southwestern reported internal and external indicators supporting the College Mission through Measures of Institutional Effectiveness during the years 1994 through 2006. From January 2007 to November 2008, Southwestern and the State of Oregon individually reviewed core indicators to measure effectiveness. As a result of the Measure What You Treasure report issued by the Oregon Community Colleges and Workforce Development Commissioner Cam Preus and the alignment of existing College measures with the new State indicators and accreditation requirements, a new set of measures was proposed for consideration by the Board of Education beginning April 2009. The measures have served the college and are once again undergoing revision to meet the new accreditation standards and will be labeled [Indicators of Achievement](#) ([Appendix D](#)).

### **TracDat Software Structure**

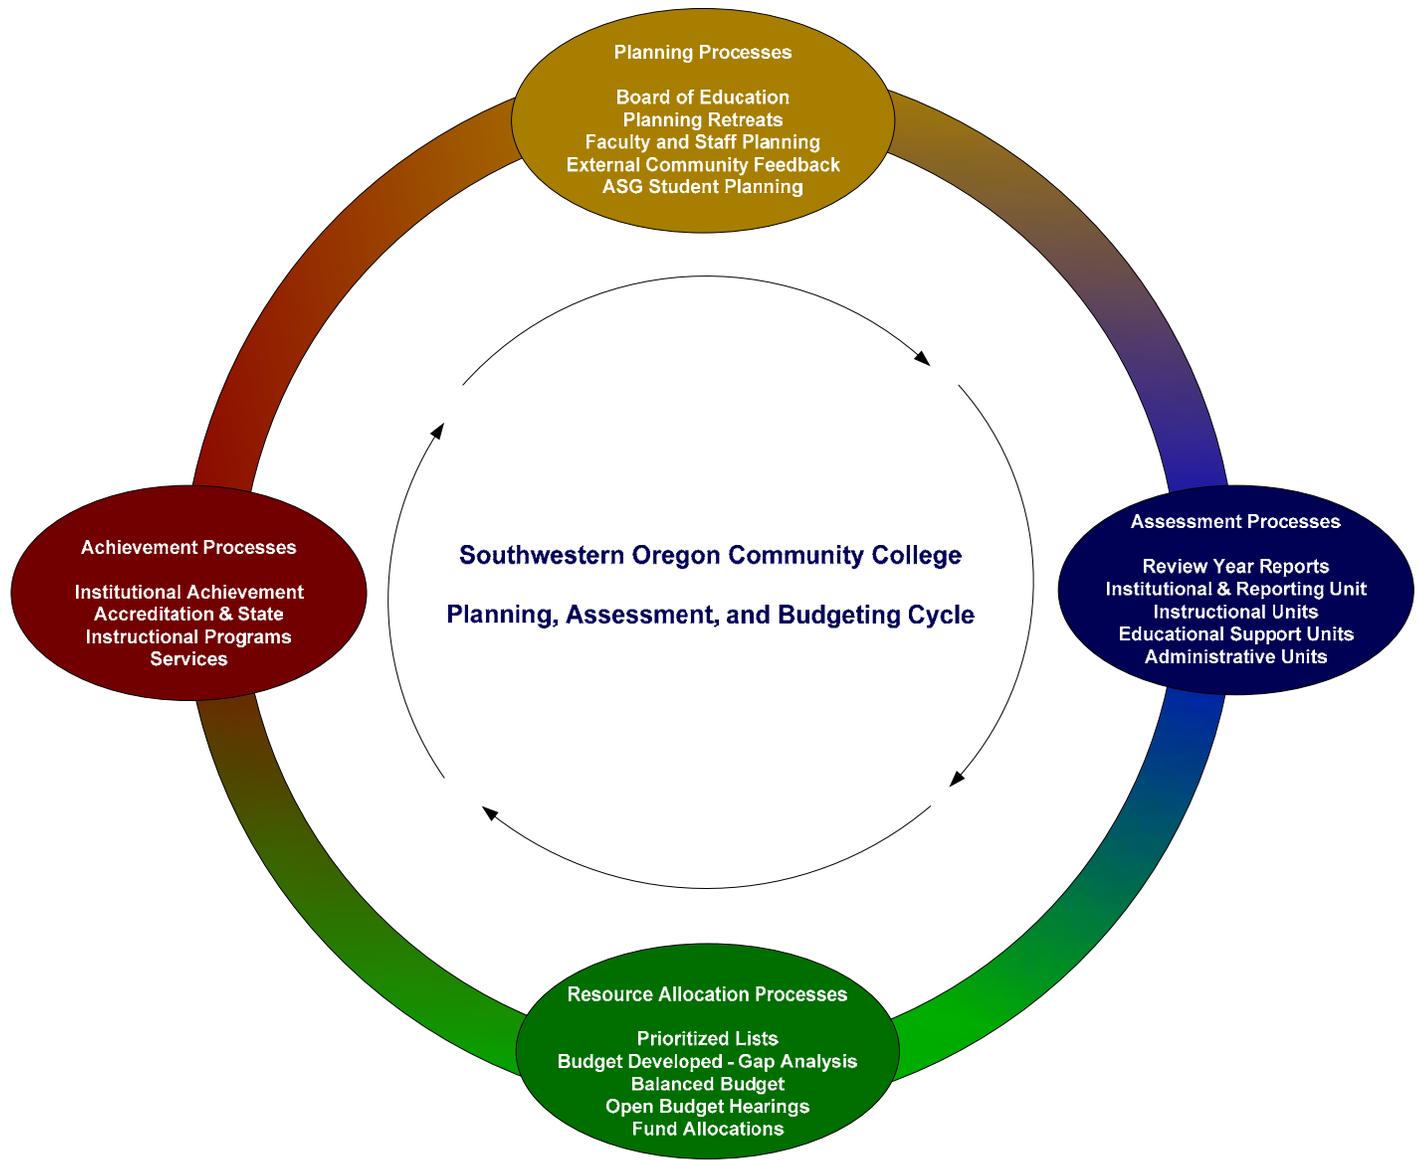

The Nichols model ([Appendix F](#)) was adopted and initial templates developed for use by faculty and staff to complete the development of outcomes, means of assessment and criteria for success by all instructional and administrative/educational support units and the information was then entered into the TracDat software providing ease of tracking, centralization of data, and templates for reporting results and use of results. All future entries will be made directly into the software system. These will be easily completed through assignments that allow staff to respond to an email link and directly add data to templates which automatically update the data system. TracDat quick-entry steps are included in each section of the handbook. Further instructions and templates are located in [Appendix E](#).

### **Planning, Assessment and Budgeting**

[Planning](#), [assessment](#) and [budgeting](#) are all processes that are interrelated and occur on a cyclical basis. [Planning processes](#) allow the college to create a roadmap to guide the staff to fulfill the mission and meet the strategic plan goals. The [assessment processes](#), including the reporting of achievements, allow the college to determine the effectiveness of the operations and student learning outcomes then communicate these to the

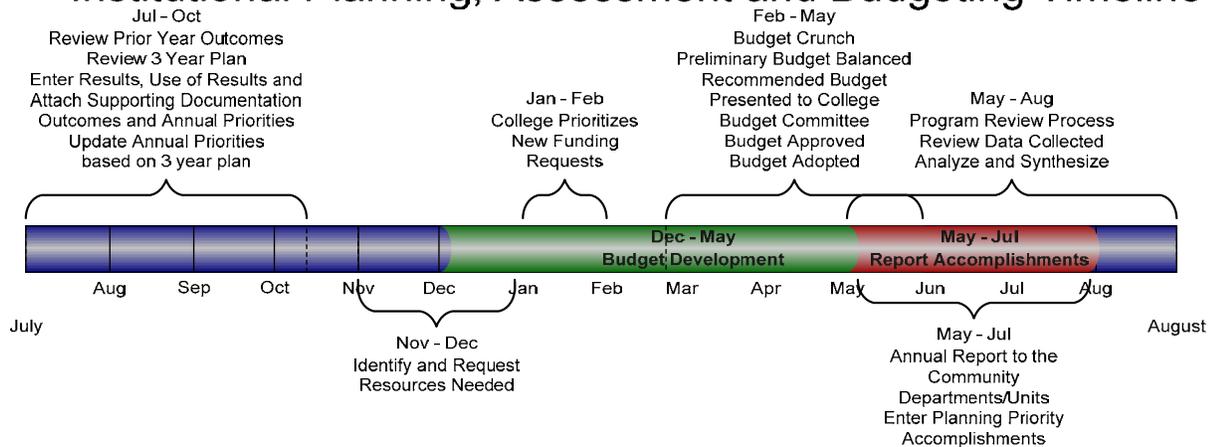

public. The assessment results are used to plan for the future and to request budget funds. All of the [budget processes](#) are designed to ensure that the appropriate level of projected expenditures and revenues are planned for the next academic year and that prioritized budget requests from the planning and assessment processes have been included.

# Planning, Assessment and Budgeting Processes Cycle

## Planning, Assessment and Budgeting Timeline

### Institutional Planning, Assessment and Budgeting Timeline

## Section III Planning Processes

### Planning

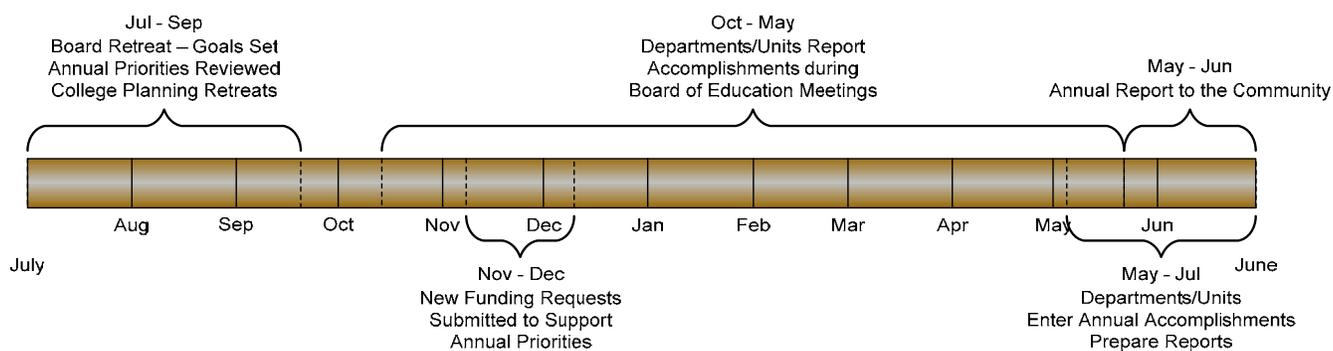

Planning is the collaborative process by which the college develops long-term [strategic plan goals](#) and [annual priorities](#). The strategic plan goals are designed to serve the college for at least a seven-year period which coincides with the accreditation review cycle.

Other planning processes include the Master Facility Plan, the Technology Plan, the Academic Plan, and the Emergency Preparedness plan. Each of the plans is developed through a similar process and is led by a campus representative appointed by the Executive Team.

### *Planning Steps and Timeline*

Planning begins with the annual Board of Education Retreat held in July of each year. The Board of Education meets to identify annual Board Goals and to review the Southwestern [Strategic Plan](#). The Board Goals and comments on the strategic plan are communicated to the campus during the September Board of Education meeting. Unit and/or department planning along with reporting unit planning occur during fall term for the next year. This process allows for the emergence of annual plan priorities from all units and/or departments as a result of the various meetings held during the term. Annual priorities are identified from annual planning meetings and from the [assessment process](#) (reporting of results and use of results). Requests for budget funds or reallocation of resources are tied to the annual priorities previously identified in the planning and assessment processes. The [budget process](#) directs the allocation of funds as prioritized in order to support and implement continuous improvement efforts and fulfill the mission of the College.

## Institutional Planning Timeline

- During the fall term, the institution reviews the Board of Education goals and holds meetings to identify both unit and department goals and to set annual priorities for the next year with a rolling three-year annual priority list.
- The compilation of all of the goals goes into a document that identifies the main goals of the current strategic plan (updated at least every 7 years).
- Each year, every department identifies its annual priorities to align with the strategic plan goals.

- Quarterly, or even more frequently, these priorities are entered into the TracDat system along with ongoing status updates.
- Each quarter, reporting units enter a status update for priorities derived from their unit reports. These reports are used by the Executive Team for quarterly Board of Education Updates to the Strategic Plan.
- Each unit and/or department submits an annual report to the reporting unit.
- Each reporting unit synthesizes all of its achievements and produces a reporting-unit annual-priorities status-update report.
- This report is then used to create the *Annual Report to the Community*.

<i>TracDat Quick Entry Steps – Units and Reporting Units</i>	
<b>1)</b>	<i>Unit tab - enter annual priorities by clicking on the yellow “add” tab at the bottom of the screen</i>
<b>2)</b>	<i>Outcomes &amp; Assessment tab – confirm that the annual strategic plan outcome is active</i>
<b>3)</b>	<i>Means of Assessment link – add new annual report each year; copy prior year then edit and change dates</i>
<b>4)</b>	<i>Results tab – enter ongoing results throughout the year and at least once a quarter Submit quarterly reports to reporting unit</i>
<b>5)</b>	<i>Reports tab – create an ongoing report of results using the Southwestern Strategic Plan - Update 2010-11; or create a quarterly report of results using the Southwestern Strategic Plan Quarterly Update Fall (choose appropriate quarterly report); save a copy of the report and upload into the document repository</i>
<b>6)</b>	<i>Reporting Units Only: Use Step 4 and 5</i>
<b>7)</b>	<i>Reporting Units Only: Submit report to Executive Team representative October 1, January 1, April 1, June 15</i>

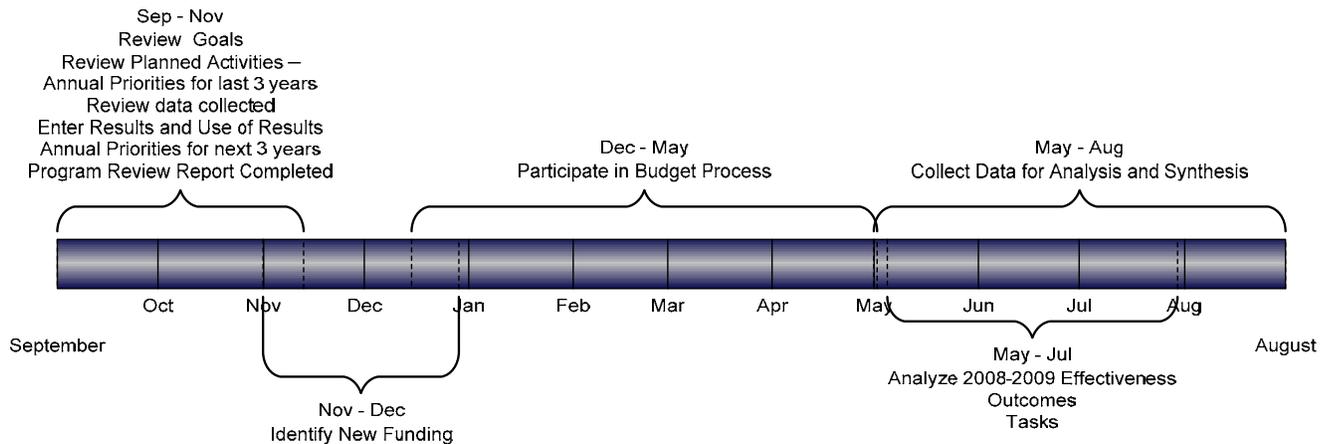

All TracDat quick steps are described in further detail including visual images of the software screens in [Appendix E](#).

## Section IV Assessment Processes

### *Assessment*

[Assessment](#) is a means of evaluation and analysis designed to demonstrate how well the College and units/departments have met the outcomes identified for student learning and administrative/educational support services. All units/departments are expected to conduct a comprehensive program review once every three years beginning with the academic year 2010-11. Unit/department reports are submitted to the reporting unit staff by November 15<sup>th</sup> following the review year. Example: 2010-11 Program Review Report is submitted by November 15, 2011.

### Institutional Assessment Process Timeline

For assessment to be truly effective, it must be meaningful, reflective, and self-regulated. The purpose of assessment is to use the results, positive or negative, to stimulate meaningful dialogue about how instruction and services can be modified to engage students in the learning process and to sustain institutional effectiveness. Institutional effectiveness reflects how well the college is meeting its mission and goals.

### Assessment Plan

An assessment plan is the combination of [outcomes](#), [means of assessment](#) and [criteria for success](#) that have been identified for every unit/department on campus.

### Assessment Plan Evaluation Requirements

Every unit/department is required to evaluate how well the outcomes have been met on an annual basis. [Results](#) are entered on an annual basis. A Program Review is conducted at least every three years and a comprehensive report of program/operational effectiveness is produced. Units/departments are expected to hold an annual meeting to discuss the active outcomes (the information to be discussed at the meeting is to be distributed for review by all members of the unit at least one week prior to the meeting in order to facilitate quality discussions at the meeting). It is desirable to have the outcomes be reviewed on an annual basis and any new outcomes be added to the TracDat system. At the same time, users should inactivate any outcomes in TracDat that are no longer applicable. Before deactivating any outcomes, the user must be sure results and [use of results](#) for those outcomes have been reported in a comprehensive review year report. In this way, the history of institutional decisions will be preserved.

### What is *Program Review*?

Program review has four parts:

- 1) A comprehensive review of the unit outcomes;
- 2) The synthesis and analysis of the results of each outcome;
- 3) Review of the internal and external trends that impact the unit; and
- 4) The use of results for each outcome.

The use of results is the planned improvements, changes, and any other modifications to programs and/or services. The comprehensive review includes quantitative and qualitative data as well as a review of operational policies and procedures. ([Eight Steps](#), [Appendix H](#) and [Appendix I](#))

Program review occurs every three years and the end product is a report compilation of three years' of data, which illustrates the level achieved by outcome and the effectiveness of the unit/department (program, degree, certificate, or administrative/educational support service provided to students) based on the synthesis and analysis of data showing internal and external trends.

### What are *Outcomes*?

They are culminating activities, products, or performances that can be measured.

### What are *Administrative or Educational Support Outcomes (AESO)*?

They are outcomes related to administrative or educational support services provided to students or potential students. ***Answers the question: "What will the students GAIN or EXPECT from the experience/service provided?"***

Administrative outcomes are a means of evaluating the services provided by administrative units. They are created and assessed by the staff and managers of the unit. They inform planning and lead to goals of improved support services. They are expressed as statements of what clients experience, receive or understand as a result of a given service. All outcomes should be tied to reporting unit goals.

Educational Support outcomes are a means of evaluating the services provided by educational support units. They are created and assessed by the staff and managers of the unit. They inform planning and lead to goals of improved support services. They are expressed as statements of what clients experience, receive or understand as a result of a given service. All outcomes should be tied to reporting unit goals.

### What are *Student Learning Outcomes (SLO)*?

Student learning outcomes are related to the instruction provided to students at the course or program level.

***Answers the question, "What will the student be able to DO with what is learned in a course and/or program?"***

Student learning outcomes are a means of evaluating student learning. They are created and assessed by the faculty, department, or academic program. They inform planning and lead to goals of improved learning. SLOs are expressed in statements of what students will be able to think, know, do, or feel because of a given educational experience. SLOs should be tied to reporting unit goals.

### What are *General Education Student Learning Outcomes (GESLO)*?

General education student learning outcomes are the knowledge, skill, attitudes and abilities every student should possess after graduating with a certificate or degree from Southwestern Oregon Community College.

Students will be able to demonstrate achievement of these outcomes as well as the specific curriculum outcomes for their academic or technical area of study. *Answers the question, “What will the student be able to DO with what is learned in a program?”*

What are Program Outcomes?

Program outcomes are all identified Student Learning Outcomes specific to the program, a culminating activity, product, or performance that can be measured. *Answers the question, “What will the student be able to DO with what is learned in the program?”*

How do I develop an outcome?

An outcome is a result of an action – use verbs. Examples: Refer to [Appendix F](#) and [Appendix G](#) (Nichols model examples and Bloom’s Taxonomy).

Getting started is the hardest part; remember that you have been doing a portion of this all along. The [Eight-Step Process](#) outlined below provides a clear and tangible way to articulate your efforts. The intention of the process is to provide a step-by-step layout of how to develop SLOs and AESOs, how to assess them, what to do with the data, and how to use the findings. It also explains how to document your efforts with the model that is used by the campus. By establishing and maintaining a documentation process, it is easier for you and your department/unit to see what work has been done, how it went, and what actions need to be taken to meet the goals and needs of your department.

Developing and assessing SLOs and AESOs is a process, and the following steps are intended to serve as a set of guidelines. It is imperative to look at the culture within your department/unit or program to determine how this process will best be implemented.

STEP	DESCRIPTION
1. Preliminary Discussion	Schedule a faculty/staff meeting to brainstorm ideas for outcomes.
2. SLO/AESO Statements – see <a href="#">Appendix H</a> General Education Outcomes - see <a href="#">Appendix I</a> Bloom’s Taxonomy – see <a href="#">Appendix G</a>	a) Develop a list of measurable SLO/AESO b) Enter into TracDat – Refer to <a href="#">Appendix E</a>
3. Assessment Plan – see <a href="#">Appendix E</a>	a) Develop an assessment plan for each SLO/AESO b) Enter means of assessment and criteria for success into TracDat – Refer to <a href="#">Appendix E</a>
4. Data Collection – see <a href="#">Appendix E</a> Sample Means of Assessment Listing	Assess student learning or client experiences using identified means of assessment and collecting the results of the assessments Refer to <a href="#">Appendix E</a>
5. Data Analysis and Summary – see <a href="#">Appendix J</a>	a) Aggregate and analyze the data. b) Enter the results into TracDat- Refer to <a href="#">Appendix E</a>
6. Closing the Loop – see <a href="#">Appendix J</a>	a) Determine ways to use the data and make applicable revisions to the curriculum, services, departmental processes, and the outcomes. b) Enter the Use of Results into TracDat - Refer to <a href="#">Appendix E</a> c) Print Program Review Report from TracDat – Refer to <a href="#">Appendix E</a>
7. Documentation – see <a href="#">Appendix J</a>	a) Attach data and other documentation to support the decisions and changes made.

	b) Attach supporting documentation to the results in TracDat - Refer to <a href="#">Appendix E</a>
8. Continuous Cycle – see <a href="#">Appendix J</a>	Repeat the process while continuing to incorporate your SLO/AESO process into your Electronic Planning for Institutional Effectiveness

How do I Assess Outcomes?

Once the assessment plan has been completed and data collected (Steps 1 – 4 listed above) it is time to start assessing the outcomes. By following the guidelines for Steps 5 through 8 listed below and in [Appendix J](#), the assessment process is completed and the continual improvement cycle begins. Program review and assessment is an ongoing process cycling through Steps 1 – 8 at least once every three years.

Step 5: Data Analysis - Aggregate and analyze the data.

After the assessment has been conducted, analyze and summarize the data. Refer to your assessment plan and examine the actual student performance or client behavior as you think about what you had expected to happen. How do they compare? Enter the results in TracDat—you may use the template located in [Appendix E](#) as a guide or to record initial information.

Step 6: Closing the Loop - Determine ways to use the data to make applicable revisions to the curriculum, departmental services and processes, and the outcomes. The planned activities are listed as the annual priorities for the unit for the associated years – the items that will be done or plan to do.

Schedule and conduct another meeting with your faculty/staff to discuss the assessment results and the data summary. This step is the most vital since this is the time when you and your team can examine the findings, see areas for growth or opportunity, and brainstorm ideas and methods to address those areas. The purpose of this meeting is to stimulate meaningful dialogue and initiate change.

Enter the information within TracDat—you may use the template located in [Appendix E](#) as a guide or to record initial information. Report specific use of results: what will be done next year or in the next three years as a result of the synthesis and analysis, what improvements will be made, what changes are expected to be implemented. Enter planned activities in TracDat as the annual priority for the associated year. Explain briefly how analysis of the data led to the changes.

Are new resources needed? If so, enter a request for budget funds within TracDat, identifying the account number and the amount needed. You may want to use the template located in [Appendix E](#) to list all resources needed. Resources requested by department/unit faculty and staff are the foundation of plan implementations, which lead toward the achievement of identified annual priorities and changes to the curriculum or services. Resources may include budget, facilities, staffing, research support, training, and marketing.

Step 7: Documentation – Always attach documentation within the TracDat system as evidence to support the analysis of the data. Attach meeting minutes, aggregate scores, and other examples that support the results and provide evidence. ([Appendix E](#))

Step 8: Continuous Cycle - Repeat the process continuously at least once every three years, *focusing on various* SLOs/AESOs. It is recommended Steps 5 – 8 be repeated on a yearly basis to capture data and enter yearly results.

The process of self-reflection and assessment must remain a continuous process in order to bring about meaningful change. Assessment enables each department to evaluate its current and future goals, its

current and future needs, and its current strategies to serve its students and clients. Continuous improvement builds on existing efforts to improve student performance and optimize student/client experiences. Thus, it is imperative to continue analytical discussions and to revise assessment efforts as necessary in order to ensure that student and client needs are being met.

## Section V Budgeting Processes

### *Budgeting*

Budgeting is the collaborative process by which the college establishes a planned level of projected revenues and expenditures at the unit level for all funds.

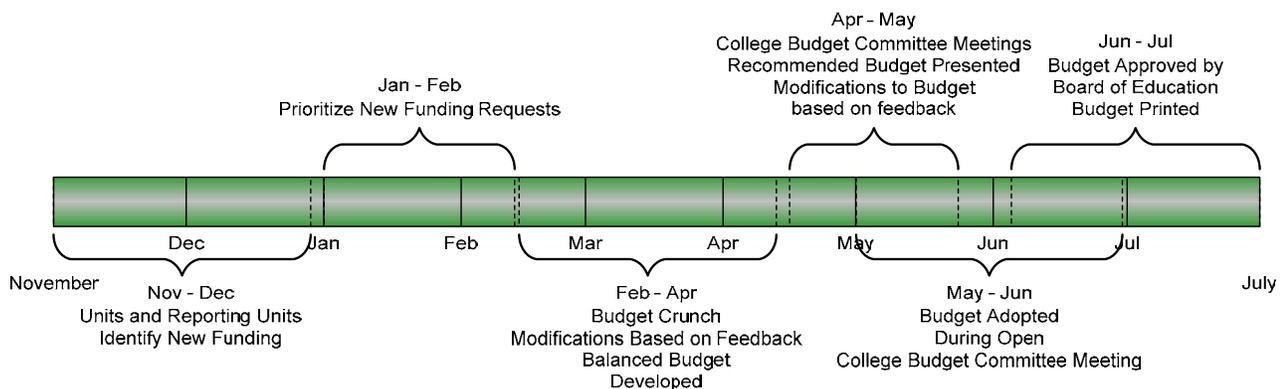

### *Budgeting Steps and Timeline*

The process for developing the college budget can be grouped into the following four areas: (a) prepare the recommended budget, (b) approve the budget, (c) citizen involvement and public exposure, and (d) adopt the budget. Staff members request funds to be included in the budget as a result of the assessment and planning processes conducted by all departments/unit. Each department and/or unit submits a prioritized list to the reporting unit staff responsible for budget preparation.

Budget preparation begins with revenue forecasting and determining known expenditures and obligations. The next step is to review the unit level requests for funds and then prioritize the lists by reporting unit level (Vice President, Executive Director, Director, Dean, Associate Dean). The lists are then submitted to the Executive Team for review and inclusion in the initial crunch (comparison of projected revenues to requested expenditures) of the budget. Campus meetings are held for input and to consider other requests not submitted on the prioritized lists.

The goal is to prepare the budget while adhering to the strategic plan under the constraint of the financial situation. The Faculty Senate Assessment, Planning, and Budgeting Committee participate in discussions held in the Internal Budget Advisory Committee (IBAC). The proposed budget crunching continues until the budget is balanced (revenues equal expenditures); this budget becomes the Recommended Budget to be submitted to the College Budget Committee (composed of seven college district citizens and seven Board members). The Recommended Budget is presented in a public meeting and undergoes a full review by the Committee with public comment available. Modifications may be made to the budget based on feedback received during the public meeting(s). It is at this time that the Board of Education adopts the approved budget during a Board of Education meeting and the Adopted Budget becomes the Approved Budget for the fiscal year.

## Institutional Budgeting Timeline

- During late fall term, based on the assessment and planning processes, the institution reviews all requests for funds that were entered in the TracDat system.
- Requests are prioritized by each department/unit and submitted to reporting unit staff.
- Reporting unit staff members hold meetings with all associated departments/units and finalize budget priorities. The budget priorities are submitted to the appropriate Executive Team member.
- Initial crunch of the budget occurs – projected revenues and expenditures are put in system for gap analysis.
- Meetings held on campus until the gap is closed; then the recommended budget book is assembled.
- The Recommended Budget is presented to the College Budget Committee for approval.
- The next step is to present the Approved Budget to the Board of Education for adoption.

<i>TracDat Quick Entry Steps – Requesting Funds for the Budget Cycle</i>	
<i>1)</i>	<i>Results tab – Enter request for funds after entering the results for an outcome and then clicking on the add use of results link; this request is for the next budget cycle</i> <ul style="list-style-type: none"> <li>• <i>Enter the account number</i></li> <li>• <i>Enter the dollar amount requested (no dollar sign and no decimals)</i></li> </ul>
<i>2)</i>	<i>Use of Results associated with the Results tab entry for annual priorities – request funds for next cycle</i>
<i>3)</i>	<i>Use of Results associated with the Results tab entry for review year reports – request funds for next cycle</i>
<i>4)</i>	<i>Print report for annual priorities: Budget funds request to prioritize budget requests within the unit and submit to reporting unit staff</i>
<i>5)</i>	<i>Print report for review year: Budget funds request to prioritize budget requests within the unit and submit to reporting unit staff</i>
<i>6)</i>	<i>Budget requests may occur at other times of the year and outside of the planning and assessment process; contact supervisor for the process to request funds</i>
<i>7)</i>	<i>Print and save all reports to the document repository as evidence of requests</i>

**Appendix A**  
**Core Themes and Strategic Plan Goals**  
**2009-10**

Core Themes	Strategic Plan Goals
<p style="text-align: center;"><b>Access</b></p> <p>Access is the pathway to learning opportunities for students and the community through support services and diverse delivery methods.</p>	<p><b>1</b></p> <p>Ensure access to diverse learning opportunities.</p>
	<p><b>2</b></p> <p>Provide access to support services for students, staff, and the community.</p>
<p><b>Learning and Achievement</b></p> <p>Student learning and student achievement are at the core of the College mission and given the highest priority by emphasizing quality teaching; quality learning; quality course and program design; retention; persistence; completion; graduation and/or transfer.</p>	<p><b>3</b></p> <p>Maintain and develop quality learning opportunities to encourage student success and achievement.</p>
	<p><b>4</b></p> <p>Support student goal attainment and lifelong learning.</p>
<p style="text-align: center;"><b>Innovation and Sustainability</b></p> <p>Innovation and sustainability are interwoven to both seize opportunities for resource development and maintain continuous improvement for a strong infrastructure of employees, technologies, and facilities.</p>	<p><b>5</b></p> <p>Create the vision and structure for long-term college sustainability and growth.</p>
	<p><b>6</b></p> <p>Support college growth through appropriate planning, budgeting, and assessment.</p>
	<p><b>7</b></p> <p>Allocate resources to support continuous improvement for a strong infrastructure of employees, technologies, and facilities.</p>
<p style="text-align: center;"><b>Community Engagement</b></p> <p>Community engagement is the means to build strong partnerships and provides opportunities for the community to participate in diverse activities and events.</p>	<p><b>8</b></p> <p>Sustain and build strong community, business, and agency partnerships.</p>
	<p><b>9</b></p> <p>Promote and provide opportunities for the community to engage in diverse activities and events.</p>

## Appendix E

### TracDat Software and Data Entry Steps Templates and Resources to Assist in Developing Outcomes and Means of Assessment

*TracDat Web Link – full documentation available within the system*

<http://tracdat.socc.edu:8081/tradat>

#### *TracDat Login and Password*

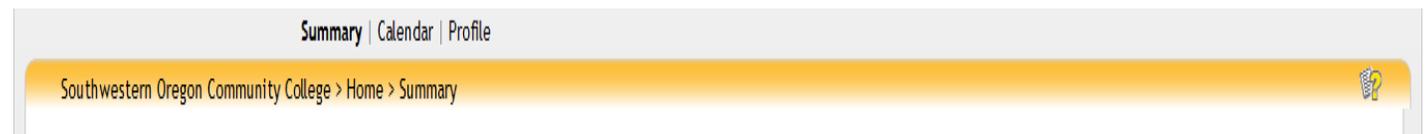

- The user name is assigned by the Institutional Research Office – ext. 7339.
- Username is generally the same as your Colleague username
- The password is initially set as the username plus the numeral “1”: username1

<i>TracDat Quick Entry Steps – TracDat Web Link and Login</i>	
<i>1)</i>	<i>Using a web browser, go to <a href="http://tracdat.socc.edu:8081/tracdat/">http://tracdat.socc.edu:8081/tracdat/</a></i>
<i>2)</i>	<i>Enter your username – generally the same as your Colleague username</i>
<i>3)</i>	<i>Enter your password – initially set as your username1</i>
<i>4)</i>	<i>Click Login</i>
<i>5)</i>	<i>To logout click on “Logout” located in the upper right-hand side of all screens</i>

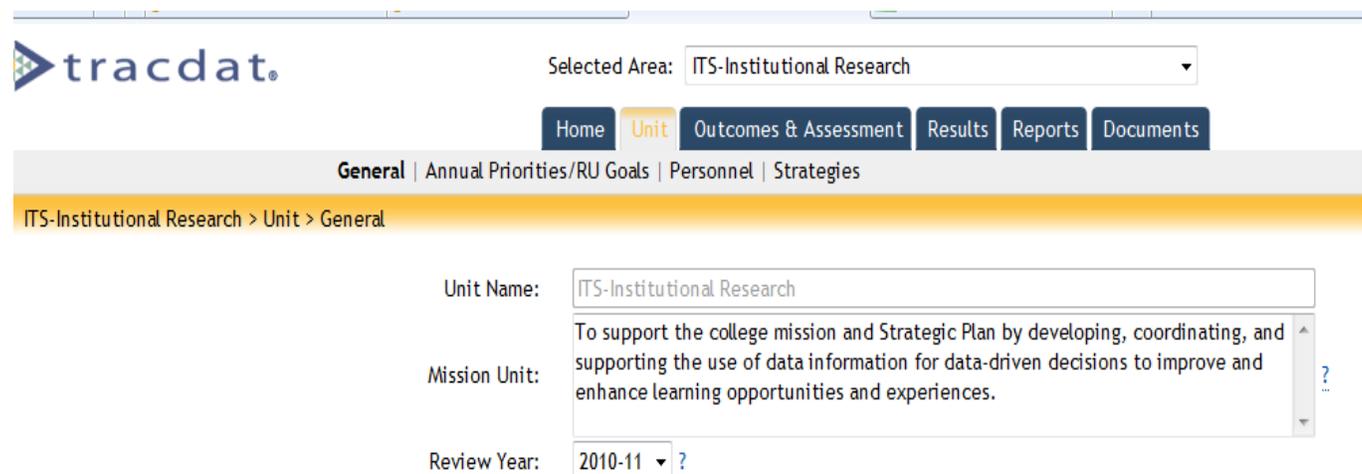

#### *TracDat Help Icons*

Help icons are located on each screen in the orange strip near the top on the right-hand side and are denoted

by a , providing help information for the screen. Click on the icon to activate the help screen.

Help icons are also located next to each textbox and are denoted by a  providing help information for the associated textbox. Click on the icon to activate the help screen.

tracdat. Selected Area: ITS-Institutional Research

Home Unit Outcomes & Assessment Results Reports Documents

General | Annual Priorities/RU Goals | Personnel | Strategies

ITS-Institutional Research > Unit > General

Unit Name: ITS-Institutional Research

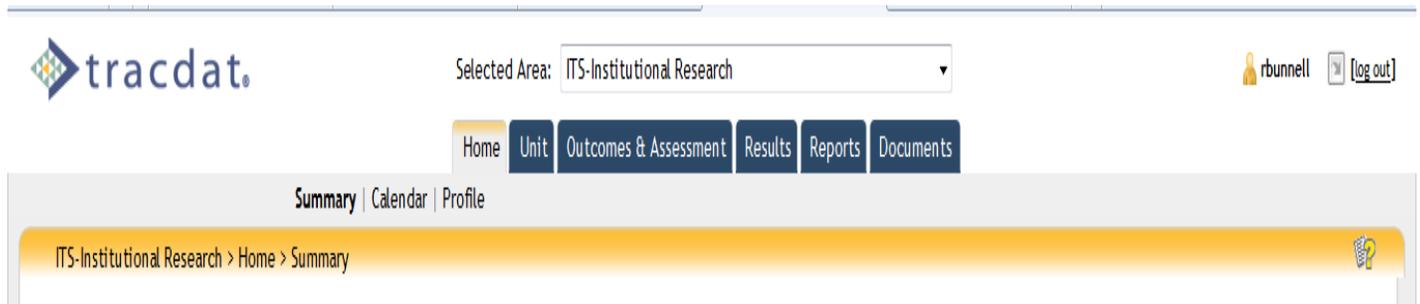

Mission Unit: To support the college mission and Strategic Plan by developing, coordinating, and supporting the use of data information for data-driven decisions to improve and enhance learning opportunities and experiences.

Review Year: 2010-11 ?

### Home Tab and Links

The Home tab is a dashboard view of a Unit. It shows a snapshot of the unit’s assessment plan, assessment information, priorities and assignments. Clicking on a number (often purple), will either take you to another area with more specific information or pop-up a descriptive window.

Be sure you have selected the unit from the drop down menu next to the “Selected Area”

- **Summary Link**- Displays an overview of the outcomes and results for a particular assessment unit.
- **Calendar Link**- Provides a calendar to enter data.
- **Profile Link** – Provides a summary of user account information as it is known in TracDat.
  - This is where the *password may be changed by the user*.
  - Follow instructions using the help icons

### Unit Tab and Links

- **General** – Displays the College Mission statement.
  - Displays the Unit Name
- **Mission** – Unit: This is where the mission of the unit is displayed on the screen
- **Review Year**: The next triennial review year for the unit is displayed on the screen
- **Annual Priorities/RU Goals**
  - All annual priorities for the unit/department are displayed on this screen
  - New priorities are added from this screen based on annual unit/department meetings
  - Each of these priorities can be tied back to a college goal and a Reporting Unit goal.
- **Personnel**
  - This screen lists the staff who have access to view and/or are able to edit a department/unit’s information
  - Administrator of the unit may add or delete staff

<i>TracDat Quick Entry Steps – Mission * Review Year * Annual Priorities</i>	
1)	<i>Add the Unit Mission in the textbox</i>
2)	<i>Select the review year (triennial cycle) that is scheduled for the unit; update after comprehensive review is completed and the review year report is produced and sent to the reporting unit staff</i>

3)	<i>Add annual plan priorities after planning meetings and based on assessment Click on the yellow tab at the bottom of the screen to “add new annual priorities/RU goals”</i>
4)	<i>Select the Goal Type in the dropdown box of “Annual Strategic Plan Summary Report”</i>
5)	<i>Add priority in the textbox: short one line item that is planned to be completed in the next academic year</i>
6)	<i>Select the year associated with the priority in the dropdown box for Annual Priority Year</i>
7)	<i>Click on the Save Changes yellow tab near the bottom of the screen</i>

Home	Unit	Outcomes & Assessment	Results	Reports	Documents
------	------	-----------------------	---------	---------	-----------

### ***Outcomes and Assessment Tab and Links***

Outcomes | Means of Assessment | Related Annual Priorities/RU Goals

The Outcomes and Assessment Tab is where General Student Learning Outcomes, Administrative and Educational Support Outcomes are entered. This is also where Degree and Certificate Outcomes are entered as well as outcomes for related instruction, discipline areas, and foundational instruction. The outcomes are identified by each unit/department through staff meetings - Step 1 of developing and assessing outcomes. Formalizing the outcome and entering into TracDat is Step 2 of developing and assessing outcomes. The assessment plan is the combination of outcomes, means of assessment, and criteria for success.

### ***Adding a New Outcome: Click on the link***

Use this screen to add a new outcome as well as annual plan reports and review year reports.

Designing SLOs for programs and AESO for units requires the participation of all departmental faculty and/or staff. Ideally, the design begins with a series of conversations, usually in small groups.

Faculty refers to the learning goals for students and identifies knowledge and performance values in the discipline as a way to begin the process. These conversations should consider both affective and cognitive learning domains.

### ***TracDat Quick Entry Steps – Adding a New Outcome (Step 2)***

6)	<i>Click on yellow tab at bottom of the screen</i>
7)	<i>Outcome Name: Type in an abbreviated name to identify the outcome</i>
8)	<i>Outcome: Type in the full outcome description</i>
9)	<i>Outcome Types: Select the type of outcome – learning for instructional / operational for other units</i>
10)	<i>Outcome Status: Select the status of the outcome – currently being assessed for all new outcomes</i>
11)	<i>Start Date: Type date outcome became effective</i>
12)	<i>End Date: Leave blank and only change once the outcome has been completed or becomes inactive</i>
13)	<i>Always click the yellow Save Changes button when done</i>

***Note: For annual priorities the outcome is the annual strategic plan summary. This has already been added to the list of outcomes for each unit.***

### ***Outcome Template***

<i>Outcomes</i>	<i>Means of Assessment Criteria for Success</i>	<i>Results Synthesis and Analysis</i>	<i>Use of Results</i>

**Adding a New Means of Assessment:** [Outcomes](#) | [Means of Assessment](#) | [Related Annual Priorities/RU Goals](#)  
**Click on the link**

Step 3 of developing and assessing outcomes: You may add as many different Assessment Methods as you wish.

The Means of Assessment is the method of determining whether the learning or performance outcome has been achieved. It is the systematic collection of data and information focused on student learning, and other unit outcomes. The assessment of student learning outcomes is integral to the SLO process. It is a department-controlled task. Step 4 of the process is to administer the identified assessments.

The Means of Assessment should meet the following criteria:

- identify specific means of assessment (survey, test, etc.) for the outcome
- indicate consideration of previous data, if available
- establish minimum score for success at achieving outcome
- give number (% , fraction, actual number) of students or clients who are expected to meet the minimum score
- establish the minimum sub-score in given area(s) of interest (optional)
- specify when actual assessment occurs and by whom it is administered
- identify evaluator(s)
- specify evaluation process

Criteria for Success guidelines:

- establishes minimum expected score for success at achieving outcome
- quantifies (% , fraction or actual) number of students who are expected to meet the minimum score
- indicates consideration of alternate data (previous SLO assessment effort(s), external reports), if available (optional)
- establish the minimum score for any subcategories within the outcome, if applicable

### *TracDat Quick Entry Steps – Adding a Means of Assessment (Step 3)*

1)	<i>Click on yellow tab at bottom of the screen to add a new assessment method</i>
2)	<i>Assessment Method Category: Select the assessment tool from the drop down menu (not used for the annual strategic plan)</i>
3)	<i>Assessment Method: Type in-detail the method of the assessment (standard wording used for the annual strategic plan)</i>
4)	<i>Criterion: Type in the criteria for success (not used for the annual strategic plan)</i>
5)	<i>Timeline: Indicate yearly or other timeframe to be used (not used for the annual strategic plan)</i>
6)	<i>Active: Make sure this box is checked for all active means of assessments</i>
7)	<i>Always click the yellow Save Changes button when done</i>

**Note:** For annual priorities the means of assessment is the yearly strategic plan. The first year has already been added to the list of outcomes for each unit. In future years, copy the means of assessment and change the year.

### Sample Means of Assessment and Criteria for Success

---

**How do we measure outcomes? Tools and/or instruments are used as a means of assessment (assessment methods vary) and criteria for success.** Several tools are available for measuring outcomes. The most common are provided in the list below, for more ideas please contact Institutional Research.

Student Learning – Direct Assessment Methods	Student Learning – Indirect Assessment Methods	Services – Assessment Methods
• Locally developed tests or standardized Tests	• Exit interviews of students	• Student self-evaluations
• Faculty-created rubrics	• Student, employer and alumni surveys	• Point-of-service surveys
• Essays	• Graduation and transfer rates	• Focus Groups
• Blind-scored projects	• Job placement data	• Graduation Surveys
• Professional exams	• Satisfaction surveys	• ACT or CCSSE
• Capstone experience or course	• Observing and recording students’ Behaviors	• Counting the volume/degree of service, direct method
• Juried review of projects, exhibitions and Performances	• Self-report measures assessing students’ perceptions of what they’ve learned	• Observations (number of participants, number of inquiries, reaction of participants, etc.)
• Portfolio assessment	• CCSSE or CAAP	• Satisfaction surveys – attitudinal Assessment
• Certification & placement exams.	• Research projects	• External Validation – Audits, Inspections, etc.

This list displays a sample of methods, instruments and tools available to faculty and staff and is meant to stimulate ideas for other methods

### Example Means of Assessment and Criteria for Success

**Customer Satisfaction:** Customer satisfaction is equal to or higher than the previous year.

- Quality:** Work is completed with a percentage of errors, numbers or dollars better than or equal to the previous year
- Quantity:** The percentage of requests fulfilled or numbers served is equal to or better than the previous year
- Efficiency:** Average time for a response
- Music:** 75% of students will perform all of the selected 6 (of the 12) major scales correctly in a maximum of two attempts. The scales will be evaluated by at least two full-time faculty using a checklist as a pass or fail. The performance will be assessed at the end of the spring and fall 2006 semesters in the normal performance evaluation process for the classes.
- ESL:** By the end of fall 2006, 60% of Level 5 ESL students reporting orally will receive a passing score of 12 or higher (out of 18) on an ESL department oral rubric for Level 5 as measured by their classroom instructors.
- Speech:** 70% of the students completing Speech 1A will have an average of 2 on a three-point scale rubric evaluating eye contact, organization, body control, and volume. The rubric will be used on speech delivery for a speech given in the last fourth of the semester in spring '07. The speech will be judged by designated faculty and the data will be evaluated by the dept. SLO committee.
- Fire Technology:** The Fire Technology Program will administer and evaluate the standardized State Fire Marshall Firefighter I certification during the 15<sup>th</sup> week of the spring and fall semesters. Evaluations will be based upon standards set by The Office of the State Fire Marshall and The California Fire Service Training and Education System.
- Information Technology:** System Availability and Uptime – the student information system will be available 99% of the time during normal business hours (7:30 – 4:30 Monday – Friday) as measured in academic year 2005-06 by the system administrators collecting system availability statistics. Evaluation will occur at the end of the academic year, June 30, 2006.
- Learning Assistance Center:** 75% of students will complete the entire survey on preferences for the Skills Lab environment. 70% of the student will mark 'a' on Question 1 to show the satisfaction with the current space. 40% will mark 'a' on Question 2 to show satisfaction with the conditions. The four question survey will be administered by the front counter personnel on the sixth week of spring 2007 semester as they check into lab. Skills Lab personnel will tabulate and average the responses.
- Increase enrollment of non-traditional and part-time students by 3%
- Increase Career Pathway enrollments by 3%
- Increase retention of students by 3%
- Adopt one new program
- Improve student ratings of instructors by 5%
- Improve student satisfaction of services by 10%
- Increase in-service activities for all employee groups
- Increase student academic achievement in "X" course by 5%

**Relating Annual Priorities and RU Goals:** [Outcomes](#) | [Means of Assessment](#) | [Related Annual Priorities/RU Goals](#)  
*Click on the link*

Use this screen to relate an SLO/AESO/Annual Plan Reports to those Goals and/or Annual Priorities which it supports. The Goals of all appropriate Units are shown. To select a Goal, click the box to the left of the Goal.

<i>TracDat Quick Entry Steps – Relating Annual Priorities and RU Goals</i>	
<b>1)</b>	<i>Notice the dropdown textbox at the top of the screen; this is the outcome that is currently being viewed</i>
<b>2)</b>	<i>Select all appropriate related annual priorities and/or reporting unit goals or other goals as displayed by checking the box next to the corresponding statement</i>
<b>3)</b>	<i>Use the scroll bar to move down the screen and see additional goals or priorities.</i>
<b>4)</b>	<i>Save changes</i>
<b>5)</b>	<i>Go back to the dropdown textbox and select the next outcome to be viewed</i>
<b>6)</b>	<i>Repeat steps 2 and 3 as necessary for all outcomes</i>

## Results Tab and Use of Results

After collecting the data from the assessments, Step 4 of the process, enter the results into the TracDat system using the Add a Result feature. This will display a screen that includes textboxes for synthesis and analysis of the data and fulfills Step 5 of assessing the outcomes.

Results = a succinct statement that states what criteria level was achieved; this is not a paragraph or even a few sentences as this is designed to illustrate the level achieved.

Example: Criteria = 95% of students will achieve an average score of 70% on XYZ  
Results = 100% of student achieved an average score of 80% on XYZ

Synthesis and Analysis is the area to enter the details associated with the results.

**Relate Documents** - Departments and units should support the conditions above with quantifiable data, conduct appropriate analyses, and make supportable conclusions. Data may be available from IR, check to confirm common data set information that is available for your department. You may also report on your own internally-generated data like the results from previous assessment efforts, budget reports, or advisory council minutes.

<i>TracDat Quick Entry Steps – Results Tab (Step 5)</i>	
<b>1)</b>	<i>Select the area for unit results (or the annual strategic plan year for status updates) (or select the courses to enter for course results located under the selection area tab)</i>
<b>2)</b>	<i>Click on Add a Result yellow tab near the bottom of the screen</i>
<b>3)</b>	<i>When the new screen appears, click on <b>select</b> for which SLO/AUO/SA the Summary of Data applies to.</i>
<b>4)</b>	<i>Select the Assessment Method that appears in the internal screen</i>
<b>5)</b>	<i>Summary of Data: Type in the summary of data from the assessment</i>
<b>6)</b>	<i>Summary of Data Date: Type in the date the summary was entered.</i>
<b>7)</b>	<i>Summary of Data Type: If the data met or exceeded the criterion select <b>Criterion Met</b>; if the <b>data did not meet the criterion select Criterion Not Met.</b></i>
<b>8)</b>	<i>Summary of Data Status: If this summary of data is complete select <b>Closed</b>; if it is not complete select <b>Open</b> from the drop down menu.</i>
<b>9)</b>	<i>Summary of Data Status Update Date: If an update is done this date will automatically default.</i>
<b>10)</b>	<i>Notes: Type in any anecdotal information or leave blank.</i>
<b>11)</b>	<i>Attach supporting documentation – this is the evidence of the assessments and supports the analysis</i>
<b>12)</b>	<i>Always click the Save Changes button when you are done.</i>

If there are documents related to an AESO/SLO/Annual Priority(i.e. test examples, Excel files with data results, meeting minutes)—they can be uploaded to TracDat and associated with a particular outcome via the results and use of results screens. Documents may also be uploaded directly to the system using the Documents tab and then selected from the results and use of results screen.

Relating a document on the results or use of results screen:

Adding documents directly to the repository:

## Documents Tab

Use this screen to create document folders to store department/unit documents that are used in the assessment and planning processes. Reports provided by IT to support programs internal conditions are in the “Reports for <current year> folder.

<i>TracDat Quick Entry Steps – Documents Tab</i>	
1)	Click on the Add Documents link
2)	Browse – adds a new document not already in document repository;
3)	Name the document in a way that identifies the information and links to the outcome
4)	Always click the Save Changes button when you are done.

## Results, Synthesis and Analysis (including internal and external trends) Template

<i>Outcomes</i>	<i>Means of Assessment Criteria for Success</i>	<i>Results Synthesis and Analysis</i>	<i>Use of Results</i>

---

### Use of Results Link within the Results Entry Screen

---

The Use of Results is the process of closing the loop, Step 7. Determine ways to use the data and make applicable revisions to the curriculum, departmental processes and the outcomes. Departments and units should support their efforts with quantifiable data, conduct appropriate analyses, and make supportable conclusions. You may report on your own internally-generated data or request data from the Institutional Researcher ext. 7339.

Enter the information within TracDat – you may use the template located below as a guide or to record initial information. Report specific use of results, what will be done next year or in the next three years as a result of the synthesis and analysis. What improvements will be made? What changes are expected to be implemented? Explain how analysis of the data led to the changes.

NOTE: The Use of Results link will only appear after the Results have been saved by clicking the yellow Save Changes button.

<i>TracDat Quick Entry Steps – Use of Results Link (Step 7)</i>	
5)	<i>After saving the results information the link for the Use of Results will be accessible; mini-tab on bottom left-hand side of the screen with the link located on the right-hand side of the screen</i>
6)	<i>Be sure the Use of Results mini-tab has been selected (the other option is for documentation)</i>
7)	<i>Click on the Add Use of Results link</i>
8)	<i>Type in the Use of Results.</i>
9)	<i>Request Budget Funds if needed – enter the account number</i>
10)	<i>Enter the amount of budget funds requested – no dollar sign, no commas or decimals</i>
11)	<i>Review Year Report requires the entry of internal and external trends over the last three years</i>
12)	<i>Annual Plan report requires the accomplishments to be listed</i>
13)	<i>Attach supporting documentation – any other documentation not previously related to results</i>
14)	<i>Always click the Save Changes button when you are done.</i>

**Use of Results Template**

<i>Outcomes</i>	<i>Means of Assessment Criteria for Success</i>	<i>Results Synthesis and Analysis</i>	<i>Use of Results</i>

**Use of Results Screen – Resources Needed**

---

To facilitate completion of the “Use of Results – Resources Needed” section within TracDat, you may want to use the template to list all resources needed. Resources requested by department/unit faculty and staff are the

foundation of plan implementation toward the achievement of identified goals. Resources may include budget, facilities, staffing, research support, training, and marketing.

Outcome	Resources Needed Y or N	List Resources Needed – Include budgetary item amounts as well as other resource types

**Reports Tab**

This screen displays a list of all the available reports defined for the department/unit. Program level reports are displayed on the Assessment Unit screen. Note the two different screen choices:

- a. **Unit** – runs reports at the Assessment Unit level –data entered on the Outcomes and Assessment tab.
- b. **Course** – runs reports at the Course level –data entered on the Course Assessment Plan tab.

<i>TracDat Quick Entry Steps – Use of Results Link (Step 7)</i>	
1)	<i>Click run to begin generating a report</i>
2)	<i>Select the parameters to filter data for the report – this narrows down the type of information returned in the report</i>
3)	<i>Click the Execute Report button to generate the report (if no parameters are defined within the report the report will run automatically).</i>
4)	<i>The report opens in a new window.</i>
5)	<i>Once the report has been viewed and the data confirmed, always generate a report and save the document repository. The report is easily retrievable for the future and includes the information within the system corresponding to the date of the report.</i>

## Appendix F

### Nichols Model

1. Addressing the Mission and Reporting Unit Goals
2. Determining Outcomes
3. Identifying Means of Assessment and Criteria for Success
4. Summarizing of Data Collected
5. Using Results

1	2	3	4	5
<i>Mission and Reporting Unit Goals</i>	<i>Outcomes</i>	<i>Means of Assessment Criteria for Success</i>	<i>Results Synthesis and Analysis</i>	<i>Use of Results</i>
The mission and applicable reporting unit goal(s) of the program, department or administrative unit.	What will the student think, feel, know or be able to do as a result of a given educational experience or from the use of services?	<p>What tools will be used to establish and measure success?</p> <p>What are the criteria for success?</p>	<p>Summarize the findings.</p> <p>How close were the results to the criteria for success?</p>	<p>What does the data tell us about our process?</p> <p>What, if anything, do we need to do to our course, program or department to improve?</p> <p>What resources are necessary?</p>

**Domains**

## **Bloom's Cognitive Domain**

The following verbs are useful in discussing the six levels of Bloom's Cognitive Domain.

### ***KNOWLEDGE***

discuss  
define  
memorize  
repeat  
record  
list  
recall  
name  
relate

### ***ANALYSIS***

distinguish  
analyze  
differentiate  
appraise  
calculate  
experiment  
test  
compare  
contrast  
criticize

### ***EVALUATION***

judge  
appraise  
evaluate  
rate  
compare  
value  
revise  
score  
select  
choose

### ***COMPREHENSION***

discuss  
restate  
describe  
recognize  
explain  
express  
identify  
locate  
report  
review  
tell

### ***DIAGRAM***

inspect  
debate  
inventory  
question  
relate  
solve  
examine

### ***ASSESS***

estimate  
measure  
inspect

### ***APPLICATION***

translate  
interpret  
apply  
employ  
use  
demonstrate  
dramatize  
practice  
illustrate  
operate  
schedule  
show  
sketch

### ***SYNTHESIS***

compose  
plan  
design  
formulate  
arrange  
assemble  
collect  
construct  
create  
set up  
organize  
manage  
prepare  
propose

## Appendix H

### Developing and Assessing Outcomes

The following are some guiding questions to help in the development of SLOs and AESOs:

Think about a course completer or program graduate. What kind of course/program experience would allow for the greatest student success?

As a result of this course/program:

- What should this student know or understand?
- What will this student be able to do?
- What kind of skills or values will this student possess?

Think about a student or potential student who will receive a certain service. What kind of service experience would allow for the greatest satisfaction?

As a result of this service:

- How should this student act?
- What kind of attitude should this student possess?
- What will the student gain?

When considering the questions above, think about how you will know whether or not your students or clients have performed as you had intended for them to perform. What will the students or clients do to provide evidence that they have successfully met your expectations?

Once the outcomes have been developed, create the assessment plan (means of assessment and criteria for success) and include the following:

- What means of assessment will you employ?
  - Choices include course-embedded assessments, portfolios, surveys, and tests
- How do you expect your students/clients to fare?
  - Establish a minimum score for success and indicate the number (% , fraction, actual number) of students/clients whom you expect to meet the minimum score
- Whom will you assess?
  - Consider the course(s), class section, activity, workshop, term
- How will you collect your evidence?
- When will you collect your evidence?
- Who will be responsible for the administration of the assessment?
- Who will be responsible for the evaluation of the data collected?
- If you have conducted this assessment in the past, do you have any previous data to use as a marker for comparison?
- How would you plan to use the results?

Remember that you don't have to measure everything about every student during every course in every term or about every client for every service! Be selective and measure only those areas in which you are most interested and/or those areas that are most relevant to meeting current or future student/client needs.

## Appendix I

### Identification of Institutional General Student Learning Outcomes

#### General Student Learning Outcomes:

The purpose of the entire general education assessment is to evaluate how our institution and its curriculum are equipping our students with the basic general education skills – and then, as a result of the evaluation, to adjust the curriculum, if necessary, to assure that these outcomes are being adequately addressed. So, the assessment is formative rather than summative.

Several principles underlie the process. First, the general education learning outcomes are the responsibility of the faculty as a whole, not merely the responsibility of isolated departments. Next, the process was designed to be minimally intrusive for faculty. Also, it is important to note that neither names of students nor names of faculty are attached to any of the work when it is evaluated, and as a result, no names are attached to the data as it is analyzed and reported.

GENERAL EDUCATION STUDENT LEARNING OUTCOMES are the knowledge, skill, attitudes, and abilities every student should possess after graduating with a certificate or degree from Southwestern Oregon Community College. Students will be able to demonstrate achievement of these outcomes as well as the specific curriculum outcomes for their academic or technical area of study.

- **Communication:** Students completing a degree will be able to demonstrate effective knowledge, skills and attitudes in reading, writing, speaking, and listening, and presentation of self and information.
- **Computation:** Students completing a degree will be able to demonstrate effective knowledge, skills and attitudes in technology skills, computer proficiency, math proficiency, decision analysis (synthesis & evaluation), understanding of and ability to apply mathematical concepts and reasoning, analyzing and using numerical data.
- **Creative, Critical & Analytical Thinking:** Students completing a degree will be able to demonstrate effective knowledge, skills and attitudes using curiosity, learning strategies, information gathering, analysis, synthesis, evaluation, creativity, research, and problem solving.
- **Community/Global Consciousness & Responsibility:** Students completing a degree will be able to demonstrate effective knowledge, skills and attitudes involving respect, citizenship, cultural awareness, interpersonal skills, ethics, lifelong learning, community service, self-esteem, integrity and empathy.
- **Discipline Content:** Students completing a degree will be able to demonstrate effective skills and attitudes that are specific to a discipline or career.

Approved by SOCC Faculty Senate – January 28, 2005

Modified from the League for Innovation, [www.league.org](http://www.league.org)

Academic leaders, in concert with Faculty Senate and Student Services Leaders, determined, in 2007 that the Collegiate Assessment of Academic Proficiency test (CAAP) would become the global assessment tool for the general education student learning outcomes. The assessment is administered every three years (previously done annually through 2009), data is collected from the results of the assessments and the data is compiled in preparation for analysis, synthesis and use of results to improve teaching and learning.

## Appendix J

### Assessment Steps 5 to 8: Evaluation of Assessments and Outcomes

#### Step 5: Data Analysis - Aggregate and analyze the data.

After the assessment has been conducted, analyze and summarize the data. Refer to your assessment plan and examine the actual student performance or client behavior with what you had expected. How do they compare?

##### *Some questions to consider when studying the data:*

- What skills (or portions of skills) did students universally understand?
- What were the most common errors that students made?
- What did the students not grasp at all?
- For which parts of the service did clients express the greatest satisfaction?
- What were some of their recommendations?
- Are there other findings that you did not expect?
- What are you most surprised by?
- Were there any trends, patterns or themes that emerged from the data?

##### *Some guidelines to keep in mind after documenting the data:*

- Does your summary of the data clearly address the means of assessment and criteria for success stated in the assessment plan?
- Have you reported the actual results for the expected level of success (include %, fraction, actual number, etc.)?
- Have you highlighted any key findings?
- When you have prepared your summary of data, did you enter it into TracDat. ([Appendix E](#))
- Did you attach any relevant documents such as spreadsheets or findings. ([Appendix E](#))

#### Examples: Data Analysis and Summary

**Welding:** From fall 2006 and spring 2007:

These following scores reflect the percentage of students passing each subcategory of the practical exam:

Welder Selection	100%
Welder Set up	90%
Metal Preparation	100%
Rod Selection	82%
Speed of Travel	50%
Rod Angle	50%

Conclusion: Students require additional instruction in learning rod selection, and the manipulative skills of rod angle and speed of travel to meet the department's outcomes.

#### Step 6: Closing the Loop

**Determine ways to use the data and make applicable revisions to the curriculum, departmental processes, and the outcomes.**

Schedule and conduct another meeting with your faculty/staff to discuss the assessment results and the data summary. This step is the most vital since this is the time when you and your team can examine the findings,

see areas for growth or opportunity, and brainstorm ideas and methods to address those areas. The purpose of this meeting is to stimulate meaningful discussion and initiate change.

***Guiding questions could include the following:***

- Were you satisfied with the student performance or client response?
- Are changes or improvements necessary?
- Based on the data analysis and summary, how would you modify the teaching/service to better address the student/client needs?
- SLOs: What should be done to improve student learning?
- What elements of the teaching and learning process should be added, deleted or modified to increase student success?
- AESOs: What do you need in order to improve student/client experiences?

***Evaluate the assessment plan.***

- What did you think of this SLO/AESO?
- Does it need to be revised?
- Does the criteria for success need to be changed?
- Should this outcome be assessed again?

***Once adequate discussion has taken place, determine the plan of action and make necessary revisions or changes.***

**Examples: Closing the Loop**

**Welding:** As a result of the low scores in the two subcategories involving manipulative skills, the Welding department began a peer tutoring program to assist welders with their manipulative skills. As a result of the low scores in subcategory 4, direct instruction on welding rod selection has increased by 3 hours in both WELD 40 and WELD 51.

**Step 7: Documentation –**

***When documenting your use of results, consider the following:***

- Does your plan for change align with the findings from the assessment effort?
- What improvements, enhancements, changes does your unit/office/department plan to make as a result of the findings?
- Who will be responsible for making the change?
- When will the change take place?

**Step 8: Continuous Cycle - Repeat the process continuously focusing on various SLOs/AUOs.**

The process of self-reflection and assessment must remain a continuous process in order to bring about meaningful change. Assessment enables each department to evaluate its current and future goals and then plan strategies to serve its students and clients. Continuous improvement builds on existing efforts to improve student performance and optimize student/client experiences. Thus, it is imperative to continue campus-wide and unit level discussions and revise assessment efforts as necessary to ensure that student and client needs are being met.

## Appendix K

### Institutional Effectiveness Glossary of Terms and Definitions

The following **terms** and **definitions** are used within the Southwestern Institutional Effectiveness Planning and Assessment Handbook:

**Accreditation:** The process by which a private, non-governmental body evaluates an educational institution or program of study and formally recognizes it as having met certain predetermined criteria or standards. The process involves initial and periodic self-study and evaluation by peers. Accreditation implies stimulation toward quality improvement beyond the minimum standards specified by the accrediting body. The essential purpose of the accreditation process is to provide a professional judgment as to the quality of the educational institution or program offered and to encourage continual improvement thereof. ([www.nwccu.org](http://www.nwccu.org))

Southwestern is regionally accredited by Northwest Commission on Colleges and Universities (NWCCU). Program and special accreditation agencies also exist (Culinary, Early Childhood Education, EMT to name a few).

#### **Analysis of Results:**

**Annual Priority:** The priorities identified by all of the college faculty and staff through the planning process. The things we plan to do; what faculty and staff expect to implement, complete, or achieve in a given year.

**Assessment:** The process for gathering evidence of student learning, discovering the degree to which courses, programs and administrative and educational support services accomplish intended outcomes, and probing the achievement of institutional goals and mission.

**Assessment Method:** Essentially two types of assessment – 1) **Direct methods** of assessment require students to produce work so that reviewers can assess how well students meet expectations and 2)

**Indirect methods** of assessment provide opportunities for students to reflect on their learning experiences and inform the reviewers their perceptions of their learning experience (Palomba & Banta, 1999).

**Embedded Assessment:** Refers to assessment that is included as part of the regular instruction or service. For example, specific questions can be embedded in numerous classes via quizzes, tests, and homework to provide summative and formative evaluation of departmental, program, or institutional outcomes. Embedded assessment is more easily obtained as it uses current assignments/tests for the assessment purposes and does not require much additional or extra work from the instructor.

**Formative Assessment:** Observations which allow one to determine the degree to which students know or are able to do a given learning task, and which identifies the part of the task that the student does not know or is unable to do. Outcomes suggest future steps for teaching and learning. This type of assessment is descriptive, focusing on the process.

**Performance based Assessment:** Applies with items or tasks that require students to apply knowledge, skills, and abilities in real world situations. Similar to direct assessment, performance based assessment illustrates skills of students through direct measurements of their behaviors on an instrument or assignment. Performance based assessment might be a part of a formative assessment process, as an instructor might elect to grade a student's performance to determine a student's improvement in a skill (the purpose of formative assessment). An instructor might also use a performance based assessment as one aspect of the student's skill set in a cumulative assessment of grades, performance, etc. (summative assessment). Performance based assessment is an example of authentic assessment because instead of using a standardized test to measure a skill, the student is required to illustrate his/her knowledge. Finally, performance based assessment is contrasted to indirect assessment because indirect assessments ask students to reflect upon the learning process rather than to demonstrate).

**Summative Assessment:** Evaluation at the conclusion of a unit of instruction, used to determine or judge student skills and knowledge or the effectiveness of a plan or activity. Outcomes are the culmination of a teaching/learning process for a unit, subject, or year's study

**Assessment Plan:** An assessment plan is the combination of *outcomes, means of assessment* and *criteria for success* that have been identified for every unit/department on campus.

**Budgeting:** The process of developing a planned level of projected revenues and expenditures

**CAAP:** Collegiate Assessment of Academic Performance (CAAP). A nationally normed, standardized, academic test designed to measure general-education foundational skills that are typically attained in the first two years of college. The CAAP test scores provide one way to estimate the level of educational development.

**CCSSE:** Community College Survey of Student Engagement – a national survey administered every three years

**Certificates:** one-year certificates approved by the State

**Cohort:** A group whose progress is measured at different points in time. Refers to a specialized group of students who share a common element or characteristic. Examples include first-time freshman, student who begin the same program of study at the same time. Cohorts are often tracked over long periods of time (e.g., via longitudinal studies).

**Completers:** Students completing a course, credential, certificate or graduate from the college

**Completion Rate:** The proportion of students (cohort) who enrolled in and subsequently completed a course, degree, certificate, or a short-term program.

**Core Theme:** Collectively, the core themes represent the institution's interpretation of its mission and translation of that interpretation into practice. *As defined by NWCCU, a core theme is a manifestation of a fundamental aspect of institutional mission with overarching objectives that guide planning for contributing programs and services, development of capacity, application of resources to accomplish those objectives, and assessment of achievements of those objectives.*

**Core Values:** The values we hold which form the foundation on which we perform work and conduct ourselves. Core values are not descriptions of the work we do or the strategies we employ to accomplish our mission. The values underlie our work, how interact with each other, and which strategies we employ to fulfill our mission. The core values are the basic elements of how we go about our work. They are the practices we use every day in everything we do.

**Course Completion Rate:** The percentage of students earning passing grades of A, B, C, D, S, and R issued to students that were enrolled within a course at the end of the refund period.

**Credential:** an educational goal below the level of the one-year certificate level (short-term certificate)

**Criteria for Success:** Criterion established to act as evidence of whether an outcome is achieved. *Answers the question: "What is the target expectation level?"*

**Degree Program:** two-year degree programs approved by the State

*Transfer Degree Programs:* AAOT, AS and ASOT two-year degrees

Associate of Arts (A.A.), Associate of Science (A.S.), Applied Associate of Science (A.A.S.). A lower division undergraduate degree normally representing about two years (60 semester or 90 quarter units) of college study or its equivalent in depth and quality of learning experience. The A.A. degree implies more liberal education orientation, the A.S. degree implies an applied education orientation, and the A.A.S. implies even more emphasis on an applied educational orientation.

**Discipline:** a branch of learning or scholarly instruction. (Oxford English Dictionary) i.e. geology, biology, chemistry, physics and etc.

**Division:** Specialized unit within the College. i.e. Allied Health, Math, Science, Health and Physical Education, or Student Support Services

**Fill-Rate:** Percentage of students enrolled (course, program, etc) at the end of the refund period

**Formative Assessment:** See [Assessment](#)

**Foundational Requirements:** An essential collegiate-level component of associate and baccalaureate degree programs designed to foster effective independent lifelong learning by introducing students to the content and methodology of the major domains of knowledge. (NWCCU) Required for completion of the Associate of Arts Oregon Transfer Degree.

**FTE:** Full-time equivalent – the enrollment of a student based on 510 clock hours equals 1 FTE;

***Reimbursable FTE*** – courses approved for state funding reimbursement and students who qualify for state funding reimbursement (instate students and border state students, second term out of state students).

***Non-reimbursable FTE***- course is not approved for state funding reimbursement or the student clock hours do not qualify for state funding reimbursement (foreign students, students outside of the state other than border states in their first term of enrollment).

**Goal:** A result that the College is attempting to achieve. A desired organizational end-point, achieved through some sort of development. ***Answers the question: “Where do we want to go?”***

***Reporting Unit Goal:*** A reporting unit goal that has been developed in collaboration with members of the reporting unit and which also aligns with one or more of the institutional strategic goals. Approved by the Reporting Unit Administrator/Supervisor.

***Strategic Plan Goal:*** A goal that is developed by members of the College and the community then used for Strategic Planning

**Graduation Rate:** The proportion of students who enrolled in and subsequently completed a degree or certificate program compared to the original number of students (cohort) that enrolled at the end of the refund period.

**Headcount:** Numerical number of students enrolled in courses at Southwestern

***Duplicated Headcount or Student Enrollment:*** The total number of students enrolled in all courses at Southwestern wherein the count is duplicated for students enrolled in more than one course.

***Unduplicated Headcount or Unduplicated Enrollment:*** The total number of students enrolled in a single course or who have attended Southwestern having been counted only one time in the total figure.

**HelpBox:** Online system used to request Integrated Technology Services (ITS) support; requires a login and is available on the intranet. All ITS requests for assistance need to be logged

**Indicator:** The particular characteristic, dimension, or element you will be measuring to monitor in outcomes attainment. An indicator is a regularly produced measure that described a specified condition or result that the college can gather information on, examine and report on, and use regularly and systematically as a tool for planning, assessment and decision making.

***Indicator of Achievement:*** The indicators identified by the institution to illustrate achievement of the mission.

**Institutional Effectiveness:** The process of articulating the mission of the college, setting goals, defining how the college and community will know when these goals are being met and using the data from assessment in an on-going cycle of planning and evaluation. (National Alliance of Community and Technical Colleges). It is the ability of the College to match its performance to the purposes established in its mission and vision statements (see Ewell, 1992) and to the needs and expectations of its stakeholders (see Alfred, 2005)

**Licensure and Certification Pass Rates:** Proportion of students who obtain licensure or certification in a career or technical program offering such option as compared to the original enrolled students (cohort) at the end of the refund period.

**Means of Assessment or Measure:** Method (direct or indirect – a tool) used to measure whether a desired outcome has been achieved.

**Method:** See [Assessment – Assessment Method](#)

**Mission:** Southwestern Oregon Community College serves the educational and cultural needs of our students and communities by providing access to quality education in a professional and engaging environment which supports innovation, sustainability and lifelong enrichment. Learning experiences are characterized by excellent teaching, support for student achievement and the enhancement of social and economic opportunities.

**Mission Fulfillment:** Southwestern demonstrates achievement of mission fulfillment by successfully meeting the objectives of our core themes. *Objective* performance is measured by setting annual target *benchmarks* for each core theme *indicator of success*. Core themes are mapped to individual indicators of success and reviewed each year for applicability, annual target benchmarks, and consideration of new or deletion of a measure.

**NWCCU:** Northwest Commission on Colleges and Universities

**Objective:** Describes the accomplishment of the indicator of achievement or planned priorities. Ex: Produce 4 quarterly reports and 2 annual reports.

**Outcome:**

***Expected Learning Outcomes:*** “Learning Outcomes are statements of the knowledge, skills, and abilities the individual student possesses and can demonstrate upon completion of a learning experience or sequence of learning experiences (e.g., course, program, degree).” (League for

Innovation, 2001 at: [http://www.league.org/league/projects/lcp/lcp3/Learning\\_Outcomes.htm](http://www.league.org/league/projects/lcp/lcp3/Learning_Outcomes.htm)) based on the work of Barr, McCabe, and Sifferlen

***Administrative or Educational Unit Outcome:*** A culminating activity, product, or performance that can be measured. The results or evidence of students' experiences associated with the services provided by an administrative or educational unit. ***Answers the question: "What will the students GAIN or EXPECT from the experience/service provided?"***

***Program Outcomes:*** All identified Student Learning Outcomes specific to the program, a culminating activity, product, or performance that can be measured. ***Answers the question, "What will the student be able to DO with what is learned in the program?"***

***Student Learning Outcome:*** A culminating activity, product, or performance that can be measured. The results or evidence of students' learning experiences ***Answers the question, "What will the student be able to DO with what is learned in a course and/or program?"***

**Performance after Transfer:** The cumulative GPA achieved by students who originally enrolled at Southwestern during a specified year (cohort) who then transfer to an Oregon public four-year university compared to other students at the same university.

**Persistence:** a measure of the students who enroll for the first time at the beginning of one academic year and who are still enrolled at the beginning of the following year in at least one credit, but who have not yet graduated or completed a degree or certificate.

**Placement Rates:** The proportion of entering students who then obtain employment in a field directly related to that skill within one year of last attendance compared to the original number of enrolled students (cohort) at the end of the refund period.

**Planning:** The process by which the mission and goals of an institution are determined and the means to achieve them are specified. Institutional planning incorporates the institution's statement of purpose and comprehensive self-study with plans that take into account the possible need for modification of goals, clientele served, programs offered, educational methods employed, and modes of support utilized

**Program:** Instructional programs encompass all educational offerings including credentials, certificates (pathways, short-term and one-year) and two-year degrees with a breakdown by course of study and/or discipline. A systemic, usually sequential, grouping of courses forming a considerable part, or all, of the requirements for a degree or a credential. May refer to the total educational offering of an institution.

**Program Review:** Program review occurs every three years and the end product is a report compilation of three years' of data, which illustrates the level achieved by outcome and the effectiveness of the unit/department (program, degree, certificate, or administrative/educational support service provided to students) based on the synthesis and analysis of data showing internal and external trends.

Program review consists of four parts:

- 1) A comprehensive review of the unit outcomes;
- 2) The synthesis and analysis of the results of each outcome;
- 3) Review of the internal and external trends that impact the unit; and
- 4) The use of results for each outcome.

**Related Instruction:** A recognizable body of instruction in program-related areas of communication, computation, and human relations for applied or specialized associate degree or certificate programs of 30 semester credits or 45 quarter credits in length.

**Reporting Unit:** Management level reporting areas such as the President, Office of Instruction, Administrative Services, and the like.

**Reporting Unit Goal:** *See Goal*

**Results:** The culminating information related to a measure associated with an outcome or for yearly reporting. i.e. Data derived from measuring an outcome or objective.

**Retention** – Student cohort enrollment measured one year later

**SENSE:** Survey of Entering Student Engagement, a national survey

**Statistic of Interest:** Results in a statistical figure based on the defined criteria. *Example: The proportion of students who enrolled in and subsequently completed a degree or certificate program.*

**Strategic Plan:** The plans of the college associated with the strategic goals, including the annual priorities.

**Strategic Plan Goal:** *See Goal*

**Status Updates:** The update of accomplishment associated with the annual priorities to reflect what has been implemented, completed, or achieved during a given year.

**Student Goal Attainment:** A measure of students whose initial goals upon entering the college were met upon exit from the college.

**Student Learning Outcome:** *See Outcome*

**Student Satisfaction Rate:** The proportion of graduates whose college experience met or exceeded the expectations they held upon initial enrollment.

**Summative Assessment:** *See Assessment.*

**Target:** Target level identified for achievement/success - percentages and figures established for identified performance indicators. Includes: student performance standards - the level(s) of student competence in a content area; an actual measurement of group performance against an established standard at defined points along the path toward reaching the standard. Subsequent measurements of group performance use the target levels to measure progress toward achievement.

**Transfer Degree Programs:** *See Degree Program*

**Transfer Rates:** Proportion of an entering degree-enrolled, student cohort that enrolls in another college *within one year of leaving the college.*

***Transfer-out-Rate:*** percentage of students previously enrolled at Southwestern who transfer to another college who were pursuing a credential, certificate or degree program

***Transfer-out-Transfer Degree Rate:*** percentage of students **previously** enrolled at Southwestern **in transfer degree programs** who transfer to another college (AAOT, AS and ASOT)

**Unit:** generally defined as an academic, administrative or educational support area that has a budget unit associated with the area and that reports to a mid-management or upper-management level.

**Use of Results:** The planned improvements, enhancements or new items identified from the results, synthesis and analysis of the assessment process.

**Vision:** Southwestern's vision statement: Southwestern Leads and Inspires Lifelong Learning

## Institutional Effectiveness at Southwestern

Southwestern is committed to a practice of evaluating and assessing the effectiveness of the College. The College's Institutional Effectiveness process is an ongoing, institution wide process of planning and assessment for the purpose of continuous improvement and to provide evidence that the College is effectively achieving its [Mission](#). The planning and assessment processes support institutional effectiveness through the development of a [Strategic Plan](#) and associated goals. The Strategic Plan goals are derived from the program reviews conducted across campus and from the planning process that occurs at the unit, reporting unit, functional areas, and institutional levels of the College. Planning and goal setting provide the basis for the administration to allocate resources, adapt to changes in the environment, and coordinate activities leading to fulfillment of the College Mission.

Southwestern demonstrates achievement of Mission Fulfillment by successfully meeting the Objectives of our Core Themes. To ensure itself and the public that Southwestern is meeting its goals and fulfilling its Mission, the College monitors the [Institutional Level Success Indicators](#) for each of the Core Theme Objectives. Core Themes are mapped to individual Institutional Level Success Indicators and reviewed each year for applicability, annual target levels, and with consideration of new or the deletion of an indicator or measure. All success indicators are assessable and meaningful to the College whether at an institutional level, reporting unit level, or unit level. The Institutional Effectiveness All College Success Indicators were used to identify the Institutional Level Success Indicators used to demonstrate Mission Fulfillment and the effectiveness of the College. Each Core Theme Objective is measured against a baseline figure established in the 2009-10 academic year and then annual targets were set for each success indicator.

[Southwestern Launches Dashboard of Institutional Effectiveness](#)

A few common questions are often asked, "How are we doing in terms of student outcomes?" "How is the fiscal environment?" The new dashboard is one means to visually display information related to outcomes: Student Learning Outcomes, Fiscal Outcomes and Community Outcomes. [more..](#)

## Membership List and Representation Descriptions

Name	Title	Representing	Department
Christina Alexander	Associate Professor, Anthropology/Sociology	Faculty Senate	Social Sciences
Phillip Anderson	Vice President of Instruction	President's Executive Team	Office of Instruction
Smita Avasthi	Electronic Resources Librarian	Faculty Senate	Library Services
Kris Crusoe	Associate Dean of Learning	Instructional Administration	Allied Health/PE/Athletic Training/Emergency Services/Nursing/Math/Science/Engineering
Tim Dailey	Student Support Services /ADA Coordinator	Instructional Administration	Student Support Services
Elsie Floyd	Associate Student Government President	Students	Student Government
Kat Flores	Executive Director of Integrated Technology Services	President's Executive Team	Integrated Technology Services
Shawn Hanlin	Executive Director of Oregon Coast Culinary Institute	Instructional Administration	Business and Technology
Karen Helland	Director of Community & Workforce Development	Instructional Administration	Community Education/Workforce Development
Nathan Helland	High School Relations Coordinator	Management/Administration	Professional Technical Education/Preparation Coordination
Margallee James	Career Pathways & Perkins Coordinator	Management/Administration	Career Pathways/Perkins
Shawn Liggett	Supervisor of Student First Stop	Management/Administration	Enrollment Management
Karen Matson	Instructional Designer/Student Support	Instructional Administration	E-Learning
Bonnie Maxwell	Director Corrections Education	Management/Administration	Transitional Education
Sharon Miller	Professor, Developmental Education	Faculty Senate	Transitional Education
Thomas Nicholls	Executive Director Enrollment Management	President's Executive Team	Enrollment Management
Pat Parker	Transitional Education Director	Instructional Administration	Transitional Education
Laurie Potts	Childhood Education Director	Instructional Administration	Family Center
Janet Pretti	Dean of Curry County	President's Executive Team	Curry Campus
Paul Reynolds	Director Fire Science Program	Instructional Administration	Allied Health/HPE
Diana Schab	Associate Dean of Learning	Instructional Administration	Business/Technology/Humanities/Social Science/CTE
Patty Scott	President	President's Office/Executive Team	Board of Education
Beverly Segner	Professor, Counselor	Faculty Senate	Student Support Services
Billie Shannon	Visiting Associate Professor, Mathematics	Faculty Senate	Science/Math/Engineering
Avena Singh	Director of Financial Aid	Management/Administration	Enrollment Management
Arlene Soto	Small Business Development Center Director	Management/Administration	Small Business Development Center
Lori Teribery	Curriculum Technician	Instructional Support	Office of Instruction
Mike Turner	Professor, Music	Faculty Senate	Humanities
Susan Walker	Director of Nursing	Instructional Administration	Nursing
Bill Yates	Professor, Computer Information Systems	Faculty Senate	Business and Technology

## **Southwestern Oregon Community College Integrated Technology Governance Charter**

**Purpose:** Integrated Technology Governance Council will develop, prioritize, review, and evaluate the college technology plan in accordance with the vision, mission, core themes, goals, and strategic plan of the college.

**Activities:** The committee may pursue its purposes by undertaking appropriate activities chosen by the membership of the committee. Activities specifically included are to:

1. Develop a college technology plan.
  - Synthesize technology needs of the college into a comprehensive technology plan that promotes the effective and efficient use of computer technology in instruction and in administrative services.
  - Collaborate with appropriate councils and departments to develop the overall college technology plan including student services, instruction, operations, and telecommunications as components of the plan.
  - Ensure consideration of the human and work design impact of computer technology systems in technology planning. Include the impact on students, classified staff, faculty, and managers.
2. Set priorities in accordance with the college strategic plan.
3. Incorporate technology goals into college strategic plan.

# Integrated Technology Services

## Instructional Computing Labs:

1. 4<sup>th</sup> floor open lab T-409
2. Welding and Machine Shop lab
3. Student housing lab
4. Chemistry lab
5. Biology lab
6. Culinary Arts lab
7. ASG computer lab
8. Beacon lab
9. Brookings Testing lab
10. Writing lab
11. Learning Resource Center (Tutoring) lab
12. Stensland lab
13. Student Support Services (TRIO) lab
14. Stensland - testing lab
15. Brookings lab (11 pc)
16. Gold Beach lab (12 pc)
17. HP Tablet cart lab
18. TLC lab
19. Newmark lab
20. University Center lab (4 pc)
21. R-1 Lab
22. Sumner Nursing lab
23. Kiosk computers
24. Brookings Laptop cart labs total (30 pc)
25. Brookings Kiosk computers
26. Brookings Nursing Lab
27. Brookings Tutor lab
28. Brookings Rm. 206 lab
29. R-9 Lab
30. Newmark Lab 207

## Instructional Computing Classrooms:

1. Tioga 401,403, 405, 407, 408, and 410
2. Community Ed. B-2
3. University Center (7 pc)
4. Newmark 204, 206, 215
5. Brookings (16 pc)
6. Gold Beach (5 pc)
7. Sunset music Rm.1 (3 pc)

## **Instructional IPV**

1. Tioga 105
2. Tioga 505
3. Sumner 11
4. BDC
5. Dellwood 21
6. Gold Beach
7. Brookings 109, 105A, 231

## **Multi-media Classrooms:**

1. Sitkum 1, 3 - 13
2. Coaledo 3, 6,7,10
3. Eden 1
4. Sunset 2
5. Sumner 10,11,12
6. Fairview 2
7. Lakeview A
8. Rec. Center 103,105
9. Stensland 201, 202, 203, 204, 205, 206
10. Tioga 401,403,405,408,410
11. OCCI 131,133,135
12. Bay City Ambulance
13. Brookings 137A,137B,138A,109,118,112, 208, 206, 234, 233
14. Gold Beach

## **Total Counts**

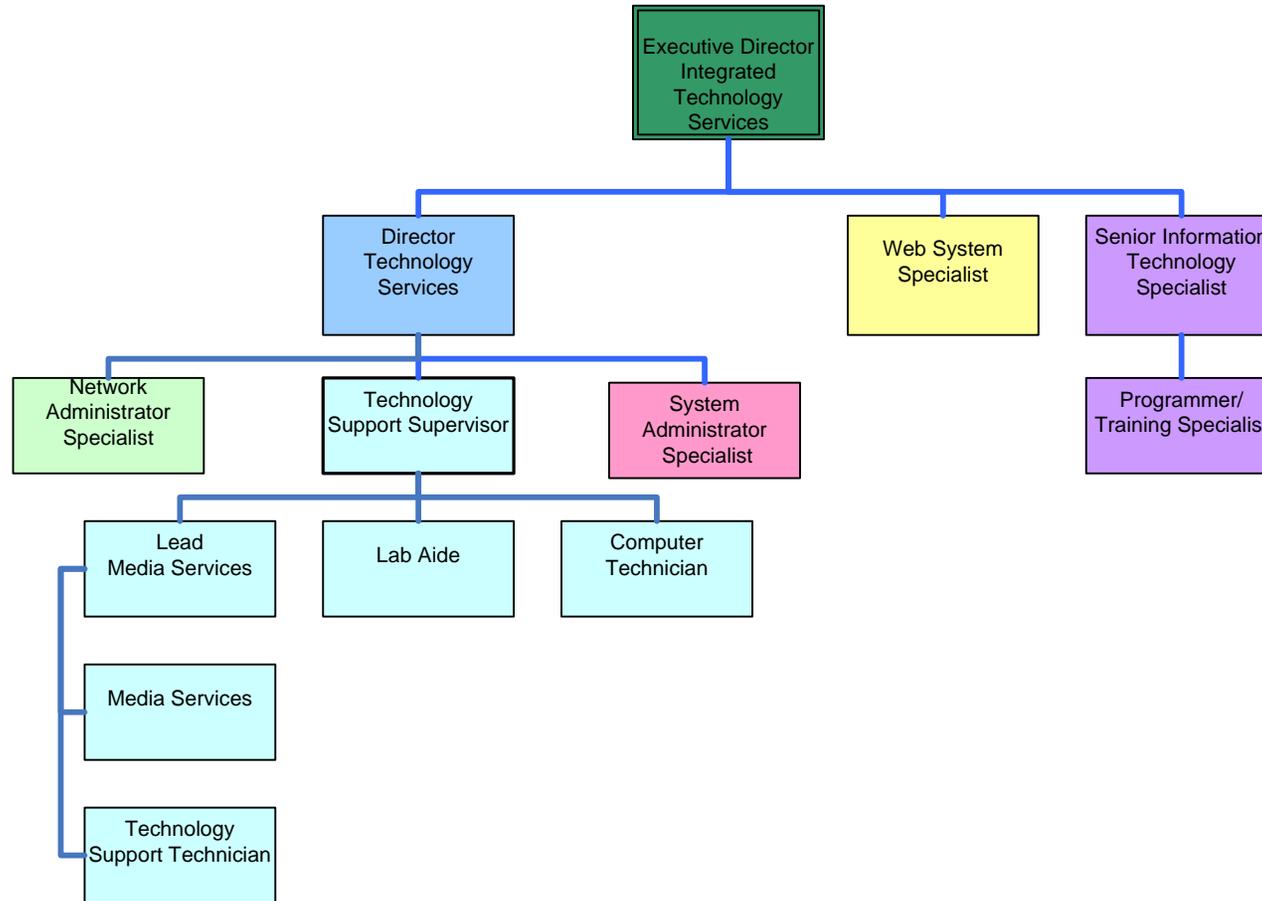

Lab count = 30

Instructional Computer classrooms count = 14

IPV count = 9

Multi Media Classrooms count = 51

Southwestern Oregon Community College  
Integrated Technology Services  
Organizational Chart 2012

10/31/2011

## Integrated Technologies Services Strategic Plan

### *Southwestern Oregon Community College Mission*

Southwestern Oregon Community College serves the educational and cultural needs of our students and communities by providing access to quality education in a professional and engaging environment that supports innovation, sustainability and lifelong enrichment. Learning experiences are characterized by excellent teaching, support for student achievement and the enhancement of social and economic opportunities.

### *Southwestern Oregon Community College Core Themes*

Access  
Student Learning and Achievement  
Innovation and Sustainability  
Community Engagement

Year	Core Theme	Plan	Strategy	Rationale	Cost	Funding Sources	Status
2010	Learning and Achievement	Goal 3	Sound Room for recording online content	A quality recording environment is needed to support the increased use of hybrid and distance learning for audio and video content.	\$ 10,000	General Fund or Title III	Complete
2010	Access	Goal 2	Accreditation Software Nuventive TracDat	Manages the entire assessment process, across the system, institution and also at the department and individual level. Process application for managing continuous improvement throughout the college using SQL to drill down from institution level all the way to course or unit level.	\$ 32,200	Title III	Complete
2010	Access	Goal 2	Atomic Learning	Implement customer Atomic Learning modules	\$ 4,000	purchased	Complete
2010	Access	Goal 2	Implement LabTrac	Part of the One Card system benefit is to implement card swipe student lab entry.	\$ 3,000	Title III	Complete
2010	Access	Goal 2	10M bandwidth to Brookings	VOIP and IPV must have at least a 10M pipe to function.	\$ 7,000	General Fund	Completed
2010	Access	Goal 2	16/2M bandwidth to Gold Beach	DSL no longer able to support the GB classrooms and IPV.	\$ 1,200	General Fund	Completed
2010	Community Engagement		Student newspaper online	Install and configure linux server running WordPress	\$ -		Completed
2010	Innovation and Sustainability	Goal 7	Implement Pcounter for printing in student labs	This is part of the One Card system to control costs and help reduce printed documents.	\$ 4,200	Title III	Completed
2010	Innovation and Sustainability	Goal 7	Voicemail Server Upgrade	Current voicemail system is failing. A new system must be installed before the old one fails completely.	\$ 40,000	General Fund	Complete
2010	Innovation and Sustainability	Goal 7	Fire Suppression System	There is no fire suppression system in the server room or the switch room. There isn't a smoke detector in either room. A fire in either location could disrupt operations for an extended length of time. We must protect the resources we have.	\$ 34,000	General Fund	Complete
2010	Innovation and Sustainability	Goal 7	Implement Print Server	Print processes are uncontrolled for network printers. Establishing a print server would allow publishing printer availability, allow auditing usage and control access.	\$ -		Complete

**SOCC  
Strategic**

Year	Core Theme	Plan	Strategy	Rationale	Cost	Funding Sources	Status
2010	Innovation and Sustainability	Goal 7	Selection new ERP	Our current ERP, Colleague is too complex and too expensive to maintain. The plan is to write and RFP to find out if purchasing and implementing a new system is feasible.	\$ -		Complete
2010	Innovation and Sustainability	Goal 7	Upgrade electrical and cooling capacity of the server and switch rooms	We have added many new services for students, faculty and staff since the original design of the server and switch rooms. We no longer have the electrical and cooling capacity to add additional equipment. Our current 25Kw generator and ups will not run the HVAC system for these rooms.	\$ 50,000	General Fund	Complete
2011	Access	Goal 2	One Card System	For student needs and to improve accountability, acquire and implement a one card system.	\$ 65,000	Title III year five	Complete
2011	Access	Goal 2	Mobile Apps	Implement mobile apps	\$ -		In Process
2011	Access	Goal 2	Custom online Training	Write custom training to upload to Atomic Learning for staff and students	\$ -		On-going
2011	Access	Goal 2	eCatalog software	An on-line e-Catalog system will better support students, advisors, and staff because of the accuracy, accessibility, and process simplification.	\$ 33,000	General Fund	Hold
2011	Innovation and Sustainability	Goal 7	Implement E911	E-911 system will alert Public Safety to the callers location whenever a 911 call is made from campus.	\$ 30,000	General Fund	Completed
2011	Innovation and Sustainability	Goal 7	Systems Center Configuration Manager	allows system administrator to manage software deployment, version updates, recall	\$ 6,000	General Fund	In Process
2011	Innovation and Sustainability	Goal 7	Brookings Campus and unified communications	Implement VoIP, switches, wireless, security, and safety technology in new Curry Campus	\$ 350,000	Curry Fund	In Process

**SOCC  
Strategic**

Year	Core Theme	Plan	Strategy	Rationale	Cost	Funding Sources	Status
2011	Innovation and Sustainability	Goal 7	Server Replacement Plan	The server and switch replacement plan allows for the fiscal management of the server and switch lifecycle. The plan assures the college software and network work at optimum functionality and are replaced before failure or EOL maintenance agreements.	\$ 40,000	Working with virtual opportunities to add this to the ITS replacement budget.	On-going
2011	Innovation and Sustainability	Goal 7	Purchase Jenzabar Servers	The server needed to support Jenzabar will be used for SQL and IIS, the database and the web servers for the portals and LMS.	\$ 56,000	General Fund	Complete
2011	Innovation and Sustainability	Goal 7	Campus wide document imaging System	A document imaging and management system can file, route, track, archive and manage all of your incoming and outgoing documents.	\$ 96,000	Title III Grant	Complete
2011	Innovation and Sustainability	Goal 7	Replace HVAC in server room with green solution and Energy Trust	Server room HVAC is no longer adequate for the modern High density rack servers. Directed air handling must be done to protect the college server infrastructure. The current system is over ten years old. A failure would shut down the college.	\$ 7,000	General Fund and Energy Trust	In Process
2011	Innovation and Sustainability	Goal 7	Email Archive appliance	Compliance appliance for email archiving and retrieval.	\$ 12,500	General Fund	Completed
2011	Learning and Achievement	Goal 3	Bring Brookings campus infrastructure online	Plan the move of the phone and data lines from the old location to the new building.	\$	General Fund	In-process
2011	Learning and Achievement	Goal 3	Office 2010 rollout	A college must offer the most up to date technology available. Equip Student Labs, Faculty and Staff with the latest operating system and office suite.	\$ -	General Fund	In Process
2011	Learning and Achievement	Goal 3	Promote student use of SkyDrive	Student email accounts include a personal storage space of 15Gig. This is at no cost to the college and should be promoted to the students.	\$ -		In Process
2012	Access	Goal 2	Exchange 2010	Upgrade the current email platform to Exchange 2010.	\$ 12,000	General Fund	Planning
2012	Access	Goal 2	Implement Jenzabar ERP	Jenzabar was chosen as the College's new Administrative ERP system. The 'go live' date is the end of August 2012	\$ 1,000,000	General Fund	In Process

<b>Year</b>	<b>Core Theme</b>	<b>Plan</b>	<b>Strategy</b>	<b>Rationale</b>	<b>Cost</b>	<b>Funding Sources</b>	<b>Status</b>
2013	Innovation and Sustainability	Goal 7	Hot Standby server	Dell Microsoft servers host all the college academic and business data. This is a very robust serve with built in redundancy; it is also a single point of failure. If this server fails for any reason, we would be unable to access any Jenzabar, JICS, payroll, or student records. Having a hot standby server in a different location would allow the college's business to continue uninterrupted in the event the primary server fails.	\$ 40,000	General Fund	not funded
2013	Innovation and Sustainability	Goal 7	Replace Core switch and Upgrade Wireless Network to 802.11N	The new speed and range increase will allow improved access to resources for the Southwestern community. New students will be arriving with laptops equipped to use the new 802.11n wireless devices.	\$ 110,000	General Fund	Partial with Curry campus completion
2013	Innovation and Sustainability	Goal 7	Upgrade network to 10G	Upgrading the College network from 1G to 10G would enhance students and staff working environment.			not funded
2013	Learning and Achievement	Goal 3	ePortfolio System	Students can create and customize portfolios for academic, career, or personal uses; maintain their plan of study; and share their work, goals, and achievements with advisors, career counselors, and employers. Faculty, departments, and institutions can create portfolio assignments linked to scoring rubrics. Assessment committees can randomly select portfolios, score them with rubrics, and generate assessment reports.	\$ 25,000	General Fund	on hold
2013	Learning and Achievement	Goal 3	Mobile 30-laptop cart	The chemistry department requests 30 laptops for use in chemistry labs	\$ 40,000	General Fund	not funded
2014	Access	Goal 2	4 IPV systems	Demand for IPV instruction has increased. Four more mobile IPV systems need to be purchased for outreach and Curry.	\$ 62,000	Grant	not funded
2014	Access	Goal 2	Micro cell transmitters	Install micro cell transmitters to improve cellular coverage.			not funded

**SOCC  
Strategic**

<b>Year</b>	<b>Core Theme</b>	<b>SOCC Strategic Plan</b>	<b>Strategy</b>	<b>Rationale</b>	<b>Cost</b>	<b>Funding Sources</b>	<b>Status</b>
2014	Learning and Achievement	Goal 3	Install a MAC Lab	The best software for both music and art is available only on Apple computers. To give the students the best tools and opportunity to learn, we should provide this option.	\$ 50,000	Grant	not funded
2015	Innovation and Sustainability	Goal 7	Smart Classroom Controller	100% of the college classrooms have multi-media devices. Many are 'smart classrooms'. A controller will make it possible for the technician to support the classrooms from one location.	\$ 50,000	Grant	not funded
2015	Innovation and Sustainability	Goal 7	Video Security system	The college needs a centralized, standardized video security system for the safety and security of the staff and students.	\$ 100,000	Grant	not funded
2015	Innovation and Sustainability	Goal 7	Display Screens	To enhance our emergency systems, install display screens in every building for campus notification.	\$ 35,000	Grant	not funded

## Integrated Technology Services

### *Integrated Technology Services Mission*

To support the college mission and strategic plan for Integrated Technology Services by developing, coordinating, and supporting the use of technology to enhance learning and working opportunities.

#### Integrated Technology Services Goals

- Develop and implement ways to use technology in order to build a clean and sustainable environment.
- Maintain the College's technology infrastructure and services to meet the needs of students, staff and outside agency expectations and requirements.
- Provide staff professional development opportunities.

#### Announcements:

ITS now has a new Training & Documentation page. [Check it out!](#)

#### Integrated Technology Charts:

**Policy # 8.008**

### **MINIMUM INSTRUCTOR STANDARDS**

It is the Administrative policy of the Southwestern Oregon Community College District that minimum requirements for teaching occupational, other reimbursable, and nonreimbursable courses shall be adequate teaching skills and demonstrated competency.

Guidelines for minimum training and/or significant experience for vocational-technical instructors are:

1. Three years of meaningful successful experience in the vocational-technical subject are to be taught, preceded by an acceptable period of extensive skill development;  
OR

2. A Bachelor's degree in the vocational-technical subject area to be taught and three years of meaningful successful experience in the vocational subject area.

Guidelines for minimum teaching and/or significant experience for instructors of other reimbursable and nonreimbursable course are:

1. Adequate teaching skills; AND

2. Demonstrated competency in the subject matter to be taught.

Adopted by Board of Education:

Policy #9.014 September 19, 1977

Changed to Administrative Policy January 22, 1996

May 2, 2011

Enter Student Name  
High School

Dear Students Name,

Congratulations, you have been selected to attend Kick Start Your Education. As you begin the process of registering and getting ready for your new adventure, we at SWOCC would like to provide you with an opportunity this summer to come on campus and learn more about campus and get help completing any Financial Aid or registration paperwork. During this session you will have the opportunity to discuss your financial aid, the process, and the remaining steps with a Financial Aid Specialist.

You will also learn more about resources SWOCC has to offer, such as the tutoring lab, clubs and student organizations, student involvement, and college life. You will also be able to meet with an advisor and ask any questions you might still have about college. If you have already registered for fall classes, you can fine tune your schedule. Or if you have yet to register, this is a great time to meet with an advisor and sign up for fall classes. If you have not had the opportunity to take your placement tests you will also be able to complete these or retest if you were not satisfied with the results. We will also have a Math, and Writing Skill building workshop for you to brush up on those skills before you take your placement tests.

This exclusive opportunity is scheduled for June 15, 2011. There are three sessions available for you to participate.

June 15, 2011  
9am-12pm  
1pm-4pm  
5:30pm-8:30pm

Please R.S.V.P to Karina Smith by June 1, 2011 to lock in your spot [Ksmith@socc.edu](mailto:Ksmith@socc.edu) or 541-888-7316.

Sincerely,

Karina Smith  
Coordinator of Student Life

Reporting Cycle: Oregon Fiscal Year (July 1 - June 30) Employers who have received training for their employees from the Business and Industry Training System complete a training satisfaction survey. They rate their satisfaction using a 1 - 5 scale with 1 being not satisfied and 5 being very satisfied. The number of employers with a 4 or 5 satisfaction rating for employee training is divided by the total number responding to the survey. The result is the percent of employers rating training as 4 or 5 meaning, "good" or "better".												

---

## ***Core Theme: Learning and Achievement – Planning Exhibit***

---

**Learning and Achievement planning** is focused on student learning outcomes, student success, and student satisfaction with the learning experience. The current structure of academic leadership provides for a central-lateral decision-making process, with input from program directors, coordinators, and faculty to Associate Deans or directly to the Vice President of Instruction. The academic leadership team meets regularly with the Vice President to process information and to plan. The Vice President and academic leadership team attend Instructional Council meetings to engage in a broad conversation around excellence in instruction, quality outcomes, planning, and change.

Quality learning opportunities that encourage student success and achievement are developed through an interdisciplinary and collaborative process that includes content experts, advising specialists, financial aid and student resource specialists, community and statewide partners, and industry stakeholders. In the absence of a formalized academic master plan, the current process to plan for academic programs and services has provided the College with several new learning opportunities and enhanced services for students. In the future, once the academic master plan is finalized, a formalized process of planning for programs and services will occur.

The core theme for ***Learning and Achievement*** is evident in every aspect of the College, from our program and degree opportunities, coursework, faculty, to student support services. The description statement for this core theme is:

*Student learning and student achievement are at the core of the College Mission by emphasizing quality teaching; quality learning; quality course and program design; retention; persistence; completion; graduation and/or transfer.*

This core theme has three objectives:

- LA1. Students achieve their academic goals.*
- LA2. Curriculum for academic courses and programs is relevant and current.*
- LA3. Students achieve course, program, and institutional learning outcomes.*

This core theme has two associated strategic plan goals:

- Goal 3: Maintain and develop quality learning opportunities to encourage student success and achievement.*
- Goal 4: Support student lifelong learning and attainment of goals.*

This core theme has four annual priorities (APs) established by the Board in July 2011 for the academic years 2011-12 and 2012-13:

- 3.1: Facilitate programs and services to support student achievement and success.*
- 3.2: Provide academic offerings which meet accreditation, national, state, and local standards including educational technology quality standards and industry quality standards.*
- 4.1: Promote and strengthen learning opportunities for students and staff through physical and social activities to foster lifelong learning and wellness.*
- 4.2: Identify opportunities and develop programming to meet local, regional, state, and global stakeholders' needs.*

This core theme currently has eight planned accomplishments (PAs). These are established each year by the individual units and the reporting units and are aligned with the APs and the strategic plan goals. For academic year 2011-12, these are:

- 3.1A: Improve student achievement through new or enhancing programs or classes.*
- 3.1B: Survey staffing needs and prioritize the hiring of faculty and staff to meet student needs.*
- 3.1C: Assess testing and advising in order to facilitate the success of students.*
- 3.2A: Submit program accreditation and self-study Reports.*
- 3.2B: Improve quality control of academic offerings through effective course and program evaluation and faculty evaluation.*
- 4.1A: Enhance student activities for all students.*
- 4.1B: Enhance staff and faculty activities and interaction with each other.*
- 4.2A: Develop additional learning opportunities to meet needs.*

The following is a narrative of the Learning and Achievement Core Theme broken out by standards 3.B.1 and 3.B.2 of how we plan, deliver, and monitor our degrees, programs, courses, services, and delivery systems to address the core theme and objectives in order to meet our annual priorities and strategic plan goals. Each section illustrates the alignment of core themes and objectives with strategic plan goals and the associated 2011-12 annual priorities and planned accomplishments. Within each section, specific planning initiatives are discussed to illustrate how planning is consistent with the comprehensive planning process and is aligned with core themes and objectives in conjunction with the strategic plan, annual priorities, and planned accomplishments.

Each planning initiative is directly followed by a table that maps the initiative to the core theme objectives and the success indicators along with program and services outcomes at the institutional, reporting unit, and unit levels as appropriate. The initiative is also mapped to the associated strategic plan goal, annual priority, and planned accomplishments for 2011-12. **Prior year annual priorities and prior year planned accomplishments** are also identified when appropriate. The following table is an example of a mapped initiative for the core theme access as illustrated in the exhibit for standard 3.B.1 (contribute to objectives):

<b>Core Theme Objectives: LA1 and LA2</b>	<b>Strategic Plan Goals: 3 and 4</b>
Support for students - CCSSE (SI6) Relevant programs - Labor Trends (SI 7) Student Achievement (SI 8)	Annual Priorities: 3.2, 3.3, and 4.1 Planned Accomplishments: 3.2A, 3.3B, and 4.1A Prior Year Planned Accomplishments: 3.3A – increase enrollments

The following table is an example of a mapped initiative for the core theme access as illustrated in the exhibit for standard 3.B.2 and illustrated in standard 4.B.1 (aligned with and contributes to program outcomes and services outcomes):

<b>Core Theme Objectives: LA1 and LA2</b>	<b>Strategic Plan Goals: 3 and 4</b>
<b>Reporting Unit Goals:</b> <i>CTE:</i> Increase learning opportunities <i>Enrollment Management:</i> Increase access to learning opportunities; quality student services <i>Instructional Administration:</i> Provide diverse learning activities <b>Unit Outcomes:</b> <i>CTE programs:</i> Support program completion and	Annual Priorities: 3.2 and 4.2 Planned Accomplishments: 3.2A, 3.2B, and 4.2A  Prior Year Annual Priorities: Increase FTE by 3% Prior Year Planned Accomplishments: Increase high school student college course enrollments

student success <i>Admissions:</i> Increase access to learning opportunities <i>Student First Stop Center:</i> Provide online enrollment services	
---	--

### 3.B.1

*Planning for each Core Theme is consistent with the institution’s comprehensive plan and guides the selection of programs and services to ensure they are aligned with and contribute to accomplishment of the core theme’s objectives.*

## Academic Planning

The Natural Resources Program development and implementation is one example of how the planning of programs and services are aligned with core theme planning and with the strategic plan. In early Fall Term 2010, the instructional leadership team participated in a college-wide Entrepreneurial Planning Session facilitated by a consultant: Several key initiatives emerged from this visioning and brainstorming event. One of the initiatives focused on the identified need to re-design and implement a natural resources program (NRP). A team was formed consisting of members from diverse units throughout the college and of stakeholders from the community who had previously indicated an interest in a NRP, along with representatives from Oregon State University. A draft four-year plan for student achievement was developed with the students’ first two years to be accomplished at Southwestern (AS Natural Resources) and the final two years to be accomplished by completing the existing OSU Natural Resources major either through distance education provided by OSU here in the community or by the student physically transferring to OSU.

In addition, there was interest from one major stakeholder, the Coquille Indian Tribe, in an AAS degree for a technician level position; that interest resulted in the planning of a draft AAS degree. Subsequent research by the Associate Dean plus information provided by the advisory committee, uncovered that requirements for persons entering the natural resources field typically require a bachelor’s degree—which led to the AAS being dropped from consideration. Although that stakeholder’s initiation did not result in the exact ends they had intended, they continue to participate as active and productive members of the advisory committee. Collaborative efforts to develop new programs support and contribute to:

<b>Core Theme Objectives: LA2 and LA3</b>	<b>Strategic Plan Goals: 3 and 4</b>
Labor Trends (SI 7) Employer Perceptions (SI 8) Structured Work Experience (SI 14)	Annual Priorities: 3.1 and 4.2 Planned Accomplishments: 3.1.A and 4.2A

Planning for the **Green Technician Program** is another strong example of collaborating with rural partners to bring a unique and sought after program to our community. A statewide needs assessment identified a need to offer a general skills technicians certificate to the eight rural community colleges in Oregon. The new collaborative program was designed to meet this need by introducing students to knowledge and skills that will be transferable to a wide range of industries and employment opportunities particular to rural communities. **Planning for this program** occurred on a very fast track and was developed as a mutually beneficial program for all participants. Statewide efforts to provide current programs align with as well as support and contribute to:

<b>Core Theme Objectives: LA 2 and LA 3</b>	<b>Strategic Plan Goals: 3 and 4</b>
CCSSE (SI 5) SENSE (SI 6) Labor Trends (SI 7)	Annual Priorities: 3.1 and 4.2 Planned Accomplishments: 3.1.A and 4.2A

The **Business Management/Entrepreneurial Program** was updated in collaboration with our business community. A focus group was formed that included members from the community, the SBDC, business faculty, and the Associate Dean over these programs. That focus group reviewed the National Standards for Business/Entrepreneurial Profession and identified core competencies that were appropriate for our program and region. The program was then designed to meet these competencies. The members of the focus group are continuing to serve in an advisory capacity as the program evolves. Current and relative program planning supports and contributes to:

<b>Core Theme Objectives: LA 1, LA 2 and LA 3</b>	<b>Strategic Plan Goals: 3 and 4</b>
CCSSE (SI 5) SENSE (SI 6) Labor Trends (SI 7) Structured Work Experience (SI 14)	Annual Priorities: 3.1, 3.2, and 4.2 Planned Accomplishments: 3.1A, 4.1B, and 4.2A

### **Administrative Planning**

Another example of core theme planning is found in our work with the Center for Community College Engagement through the administration of the Community College Survey of Student Engagement (CCSSE) and the Survey of Entering Student Engagement (SENSE). The CCSSE has been administered since 2004 and the SENSE was first administered in 2009. The SENSE findings indicated that we could benefit by strengthening our performance in three benchmark areas: High Expectations and Aspirations, Effective Track to College Readiness, and Academic and Social Network. Faculty reviewed best practices in these areas and selected three practices to implement in a personal innovation: integrating study skills into classes, implementing programs that foster student relationships with faculty and peers, and giving developmental support for academics embedded within courses. MASSC and Classified employee groups also selected best practices. The next SENSE survey administration is scheduled for 2012-2013. The CCSSE was last administered in early 2011. The CCSSE 2011 results indicated mixed results and in response Southwestern is reviewing the data in greater detail and continuing to implement strategies in three targeted benchmark areas: Student Effort, Faculty Student Interaction, and Support for Learners. The CCSSE will be administered again in 2013-2014. The identified personal innovations are aligned with as well as support and contribute to:

<b>Core Theme Objectives: LA 1 and LA 3</b>	<b>Strategic Plan Goal: 3</b>
CCSSE (SI 5) SENSE (SI 6) Completion (SI 11) Student Achievement (SI 12)	Annual Priorities: 3.1 and 3.2 Planned Accomplishments: 3.1.A and 3.2B

One example of planning for services is our change in the late registration policy and practice. Faculty had identified that late registration created challenges for both students and faculty due to students missing important content during the first days or week of the class. In addition, late registration was negatively impacting student engagement. This was particularly problematic in developmental education classes where the first week is especially important for the student to become comfortable in the classroom setting and with the faculty. The Faculty Senate and the Instructional Council, along with leadership support, determined a positive approach to this problem that accommodated all stakeholders

who were impacted by this issue, including students, faculty, and student support services. This provides a strong example of how the campus works collaboratively to find a solution to a systemic problem in support of the core theme regarding learning and achievement. This collaborative problem solving supports and contributes to:

<b>Core Theme Objective: LA 1</b>	<b>Strategic Plan Goal: 3</b>
Completion (SI 11) Student Achievement (SI 12) Persistence (SI 25 – State SSI5 and SSI6)	Annual Priority: 3.1 Planned Accomplishment: 3.1.A

In order to better support students in Career and Technical Education Programs, the 2011-2012 Perkins Plan includes implementing a program of supplemental instruction to offer class support for students in CTE classes. Additionally, reading, writing, and mathematics faculty have been identified and trained to assist CTE faculty to reinforce academic instruction embedded in CTE courses. These activities were selected as a result of reviewing best practices in national CTE programs and through the yearly review of data associated with the programs and services. Providing assistance for students to academically succeed supports and contributes to:

<b>Core Theme Objectives: LA 1, LA 2 and LA 3</b>	<b>Strategic Plan Goals: 3 and 4</b>
SENSE (SI 6) Completion (SI 11) Student Achievement (SI 12) Student Outcomes (SI 13)	Annual Priorities: 3.1. and 4.2 Planned Accomplishments: 3.1.A, 4.1A, 4.1B, and 4.2A

### Facilities Planning

The planning of the **Curry Campus facility** supported learning and achievement with the addition of seven classrooms with SMART and IPV connectivity along with an allied health suite designed to support expanded offerings in nursing, basic nursing assistant, medical assistant, and EMT training. Support areas include dedicated areas for tutoring, quiet study, testing, and a resource area for students to link with online resources, as well as including a faculty teaching and learning center. A two-story commons and with small over-looking balcony to serve as a student lounge provides access for students, faculty, and the community to gather, and a student government/club office provides space to support an active and engaged student body. The facility is also designed as a community hub for short-term training and conferences, workforce development, and business retention, and recruitment. Also included is a catering and demonstration kitchen designed to enhance/provide instructional opportunities in Culinary Arts and Baking and Pastry. The planning of the new building took into account the need to provide a supportive learning atmosphere. Such considered planning supports and contributes to:

<b>Core Theme Objectives: LA 1, LA 2, and LA 3</b>	<b>Strategic Plan Goals: 3 and 4</b>
Labor Trends (SI 7) CCSSE (SI 5) SENSE (SI 6) Supporting Indicators: FTE (SI 3) – capacity Enrollment (SI 2) - capacity	Annual Priorities: 3.1, 4.1, and 4.2 Planned Accomplishments: 3.1.A, 3.1B, 4.1A, and 4.2A

3.B.2

***Planning for Core Theme programs and services guides the selection of contributing components of those programs and services to ensure they are aligned with and contribute to achievement of the goals or intended outcomes of the respective programs and services.***

All faculty and staff are committed to creating a student-centered learning environment where students are supported to achieve their academic goals. Learning opportunities are aligned with student and community needs, and are focused on preparing students to make positive contributions as citizens and members of their community. Southwestern’s diverse learning environments optimize student learning and contribute to successful goal attainment. Learning outcomes ensure that students transition successfully with the necessary knowledge and skills to be successful in whatever future endeavors they seek. The focus of the overall curriculum is on developing the ability to think critically, reason analytically, communicate clearly and cogently, as well as being able to work together in collaborative environments and contribute in a meaningful way to the quality of life within their communities.

**Academic Planning**

The process to plan the developmental math redesign provides an example of how planning for learning and achievement guides the selection of contributing components to ensure they are aligned with achievement goals and intended outcomes of the program. The success rate for our students completing their developmental math courses was 60%—an unacceptable rate. The math faculty leadership team researched current evidence and best practices to support student completion and success in the developmental course work that prepared them for college level math. A very energetic and collaborative process included members from throughout the College leadership team, members from student support services, transitional education, and workforce/community education. An initial pilot project, initiated Fall Term 2011, will focus on two re-designed developmental math courses, Math 20 and Math. The redesign of programs to better serve students and reduce time to completion supports and contributes to:

<b>Core Theme Objective: LA1, LA2, and LA3</b>	<b>Strategic Plan Goal: 3 and 4</b>
<p><b>Reporting Unit Goal:</b> <i>CTE and LDT:</i> Ensure students have adequate resources and support to be successful in program; Provide learning environments to challenge students to meet high expectations <i>Instructional Administration:</i> Provide diverse learning activities <i>Integrated Technology Services:</i> Maintain technology to meet the needs of students, staff and community.</p> <p><b>Unit Outcomes:</b> <i>Admissions:</i> Increase access to learning opportunities <i>Enrollment Management:</i> Increase access to learning opportunities <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population <i>Math Discipline:</i> Increase student success in development math</p>	<p>Annual Priority: 3.1 and 3.2 Planned Accomplishments: 3.1A, and 4.2A</p>

The planning of the Natural Resources Program (NRP) components was a result of meetings held to discuss what would be needed to bring this program to our community. We were greatly benefitted by having the University Center on campus and strong partnership agreements with Oregon State University and by having an Oregon State University (OSU) graduate student as a member of our team. Following the planning team meeting, an advisory committee was formed, consisting of representatives from the timber industry, local and federal agencies, tribal affiliations, and private business, and the first meeting was held spring of 2011. The advisory committee emphasized the need for a baccalaureate degree as entry level for a career in NR. The Interim Associate Dean who had been the primary contact for the development of the NRP had been in contact with the program director and registrar at OSU and had been assured that OSU would work closely with SWOCC on ensuring transferability of our courses to the Natural Resources Programs at OSU. Advising guides are being developed to direct students to the optimal course selection for successful transfer to the OSU Natural Resources Program.

Through the efforts of this team, we were able to pilot our first course in fall 2011, NR 199, Introduction to Natural Resources, only shortly after identifying this as a strategic initiative. This introductory course includes an experiential component and involves coordination with the cooperative work experience coordinator. This initiative also represents the importance of our community engagement core theme as this demonstrates collaboration and mutual support in efforts to accomplish student goals and meet community needs. While we have much more work to do on this project, it was the initial strategic planning activity that brought us to identify a NRP as a priority for Southwestern, and it was the collaboration among the College’s internal stakeholders, and the community members and external stakeholders that created this opportunity. New and updated programs support and contribute to:

Core Theme Objective: LA1, LA2, and LA3	Strategic Plan Goal: 3 and 4
<p><b>Reporting Unit Goals:</b>  <i>CTE and LDT:</i> Ensure students have adequate resources and support to be successful in program; Provide learning environments to challenge students to meet high expectations; broaden educational opportunities; increase access to 4-year learning opportunities  <i>Enrollment Management:</i> Increase access to learning opportunities; quality student services  <i>Instructional Administration:</i> Provide diverse learning activities  <b>Unit Outcomes:</b>  <i>Admissions:</i> Increase access to learning opportunities  <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population  <i>Science Discipline:</i> Increase applied science offerings</p>	<p>Annual Priority: 3.1, 3.2, 4.2  Planned Accomplishments: 3.1A, and 4.2A</p>

An example of how planning related to learning and achievement is aligned with program outcomes is evident in the **Nursing Program**. A review of the annual data in 2010 revealed nursing student **NCLEX** results were below the acceptable level for a successful program. The **Oregon State Board of Nursing** reviewed the program and testing results, and identified medical surgical nursing and pathophysiology as the two key areas in our curriculum that needed improvement. The nursing faculty engaged in a strategic planning process **SOAR**, to identify positive strategies that would improve students’ performance in these areas. A plan was developed to effectively engage in the identified strategies. All full-time and many part-

time faculty contributed to the solutions; faculty also sought and received feedback from students related to ways to improve teaching and learning strategies for NCLEX success. One of the strategic goals set by the nursing faculty was to have students take the **Kaplan NCLEX Preparatory Class**. The director of nursing actively researched this program, reviewed the courses, invited representatives to come to campus to teach faculty about the program, acquired grant funding for students to be able to take the NCLEX prep class prior to graduation, and received training in order to teach the courses to students while still in program. We are waiting to see how NCLEX scores are this year to evaluate the effectiveness of this intervention.

One other very positive initiative within the nursing program involved the director and a full-time faculty in a part-time faculty mentorship program focused on improving clinical teaching skills. In addition, one full-time faculty, who is completing her master's program, collaborated with the director to establish a skill-building summer bridge course so that students can enhance their learning between 1<sup>st</sup> and 2<sup>nd</sup> year. These three planned activities to support learning and achievement grew out of the strategic planning process and ongoing faculty collaboration. This strategic planning and collaboration supports and contributes to:

Core Theme Objective: LA1, LA2, and LA3	Strategic Plan Goal: 3 and 4
<p><b>Reporting Unit Goals:</b>  <i>CTE and LDT:</i> Ensure students have adequate resources and support to be successful in program; Provide learning environments to challenge students to meet high expectation  <i>Enrollment Management:</i> Increase access to learning opportunities; quality student services  <i>Instructional Administration:</i> Provide diverse learning activities  <b>Unit Outcomes:</b>  <i>Admissions:</i> Increase access to learning opportunities  <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population  <i>Nursing Discipline:</i> Increase success on NCLEX and student completions</p>	<p>Annual Priority: 3.1, 3.2, 4.2  Planned Accomplishments: 3.1A, and 4.2A</p>

Introductory skills are essential for student success in programs and college-level courses. The process that we followed when we started the **Phlebotomy Program**, which was based on feedback from the advisory committee, is one example of cross-discipline planning. The advisory committee indicated that the students needed chemistry, as well as computer skills, customer service and team skills, and basic professional behavior skills. We are planning on making changes to the program requirements beginning in fall 2013 to build in these competencies. The development of a **Psychology 100** level class that was designed as an introductory survey class for the higher level psychology courses is another example of planning for student success. This class will be ideal to extend to our high schools as well as for our entering community college students, as it prepares them for the more rigorous college-level psychology courses. Since this is a survey course, the student learning outcomes focus on introductions to a broad spectrum of psychology topics. Such cross-discipline planning supports and contributes to:

Core Theme Objective: LA1, LA2, and LA3	Strategic Plan Goal: 3 and 4
<p><b>Reporting Unit Goals:</b>  <i>CTE and LDT:</i> Ensure students have adequate resources and support to be successful in program; Provide learning environments to challenge students to meet high expectation  <i>Enrollment Management:</i> Increase access to learning opportunities; quality student services  <i>Instructional Administration:</i> Provide diverse learning activities</p> <p><b>Unit Outcomes:</b>  <i>Admissions:</i> Increase access to learning opportunities  <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population  <i>Phlebotomy Program:</i> Alignment of program student learning outcomes with industry recommendations</p>	<p>Annual Priority: 3.1, 3.2  Planned Accomplishments: 3.1A, and 4.2A</p>

The writing department provides an excellent example of faculty working together to improve student learning outcomes related to the statewide standards for **information literacy** as adopted by **JBAC**. Library faculty collaborated with the writing department to develop online information literacy modules to integrate into writing classes. Another example of interdepartmental collaboration can be seen in the close relationship that the anatomy and physiology (A&P) instructor and the nursing program director maintain to provide continuity between the students pre-nursing coursework and their in-program nursing courses. The instructor and the director meet at the end of the term to assess student learning and achievement of the core learning outcomes for **A&P**. Based on the feedback, we have made some changes, such as changes to the student handbook, number of assignments, guest speakers, making microbiology a prerequisite in the nursing program. Enhanced and improved student services supports and contributes to:

Core Theme Objective: LA1, LA2, and LA3	Strategic Plan Goal: 3 and 4
<p><b>Reporting Unit Goals:</b>  <i>CTE and LDT:</i> Ensure students have adequate resources and support to be successful in program; Provide learning environments to challenge students to meet high expectations  <i>Enrollment Management:</i> Increase access to learning opportunities; quality student services  <i>Instructional Administration:</i> Provide diverse learning activities</p> <p><b>Unit Outcomes:</b>  <i>Admissions:</i> Increase access to learning opportunities  <i>Instructional Services:</i> Encourage delivery systems that meet the needs of a diverse student population  <i>Multiple Disciplines:</i> Enhance embedded academic instruction; alignment of shared curriculum</p>	<p>Annual Priority: 3.1, 3.2  Planned Accomplishments: 3.1A, and 4.2A</p>

## Learning Outcomes Comparison Chart

May 1, 2007

Several tools are available to assess student learning outcomes. The general education outcomes assessment tools provided by the main test providers include:

- **CAAP** - The **Collegiate Assessment of Academic Proficiency (CAAP)** is the standardized, nationally normed assessment program from ACT that enables postsecondary institutions to *assess*, *evaluate*, and *enhance* the outcomes of their general education programs.

- **CLA – Collegiate Learning Assessment**

### About the CLA Measures

The CLA focuses on a set of common areas that comprise what is central to most notions of collegiate education. These areas are:

- **critical thinking**
- **analytic reasoning**
- **written communication**

- **MAPP - Measure of Academic Proficiency and Progress**

The Measure of Academic Proficiency and Progress (MAPP) test is a measure of college-level reading, mathematics, writing, and critical thinking in the context of the humanities, social sciences, and natural sciences.

## Information Literacy: A Guide for Faculty

### Information Literacy: The Basics

Information literacy refers to a set of skills used to find, evaluate, select and use information. An information literate student is familiar with the various kinds of resources, can select appropriate resources when faced with questions, understands how to search those resources effectively, and can document the information that s/he found. Information literate students display competency when it comes to finding and using information, and they have an understanding of the fundamental principles of research.

### Information Literacy Proficiencies

The Association of College and Research Libraries (ACRL) articulated [information literacy proficiencies](#), and the Information Literacy Advisory Group of Oregon (ILAGO) adapted these proficiencies for lower-division academic work. [Eight \(8\) proficiencies](#) [PDF] articulated by ILAGO reflect statewide standards for basic and intermediate levels of information competence.

### Information Literacy Learning Outcomes at SOCC

To prepare students at SOCC, librarians have developed a set of learning outcomes to measure whether students have the skills needed to conduct independent research. The following learning outcomes represent a basic level of competence that students should have upon graduating from SOCC and moving to upper-division coursework. A lower-division information literate student should be able to perform the following:

- Choose appropriate information resources to search for relevant information
- Implement a variety of search strategies to find information effectively and efficiently
- Evaluate information resources
- Document research by using an appropriate bibliographic style

[Home](#) | [About](#) | [Academics](#) | [Admissions](#) | [Athletics](#) | [Campus Services](#) | [Distance Learning](#)

Faculty are encouraged to incorporate these learning outcomes into their syllabi to ensure that students have information competence. Because research is a key component of academic work, it is appropriate for information literacy assignments to be integral in a wide range of disciplines in the arts and sciences. Recent decisions to include information literacy as a [requirement for the AAOT degree](#) should also encourage faculty to include assignments that call upon students to develop information competence. Students who have met the four learning outcomes articulated above should be prepared for upper-division coursework where they are often called upon to perform independent research.

### Information Literacy Assignments

Because lower-division classes generally do not call for in-depth research and because the 10 week term makes it difficult for students to embark on long projects, faculty and librarians at SOCC have developed ideas for assignments that include information literacy components. These ideas for assignments were developed by faculty on the Learning Resources Committee. Faculty are encouraged to draw upon these ideas, adapt the assignments to fit their courses, and contribute any assignments they feel could further information competence.

## Library Instruction

The library staff is committed to helping users gain knowledge about library services and library research systems while developing information literacy and critical thinking skills. We accomplish this by providing individual assistance, group orientations, and a self-paced course, LIB127 Introduction to the Library.

- Group orientations are conducted each term at the request of individual faculty and may be customized to emphasize library resources for a specific subject area. Please schedule orientations at least one week in advance by contacting a librarian:

Smita Avasthi, [savasthi@socc.edu](mailto:savasthi@socc.edu), x7448 (Hours: M-Th, 11-7, F 8-4)

- LIB 127 Introduction to the Library is a 1 credit (transferable) course. This class, beneficial for academic research and personal enrichment, covers a wide range of library resources including its catalogs, periodical indexes, and electronic resources. There are no prerequisites. For more information about the course, see [LIB127 Introduction to the Library](#) or call (541) 888-7448.
- Library assignments are created by faculty to develop the ability of students to use information resources and technologies independently and effectively. Faculty is encouraged to collaborate with a librarian to modify, update, or design library assignments to insure an effective learning experience. To enable the library staff to better assist students in completing the library assignments, please e-mail a copy of each assignment to [Smita Avasthi](mailto:Smita Avasthi).

### [SPIRITUAL LITERACY MONTH](#)

December has been designated Spiritual Literacy Month. Some of you may be wondering exactly what spiritual literacy is. Toward explaining this term, Frederic and Mary Ann Brussat wrote a bestselling book called *Spiritual Literacy: Reading the Sacred in Everyday Life*, which is a remarkable collection of extracts from teachers of most, if not all, different spiritual traditions. They also claim they are “reading the book of the world” for spiritual meaning. [more...](#)

## Appendix B

### A Recent History of Oregon Property Taxation

To understand the current structure of Oregon's property tax system, it is helpful to view the system in a historical context. Although governments in Oregon began taxing property before statehood, the structure of the tax changed very little until the 1990s, when two statewide ballot measures dramatically altered the system.

Measure 5, which introduced tax rate limits, was passed in 1990 and became effective starting in the 1991–92 tax year. When fully implemented in 1995–96, Measure 5 cut tax rates an average of 51 percent from their 1990–91 levels. Measure 50, passed in 1997, cut taxes, introduced assessed value growth limits, and replaced most tax levies with permanent tax rates. It transformed the system from one primarily based on levies to one primarily based on rates. When implemented in 1997–98, Measure 50 cut effective tax rates an average of 11 percent from their 1996–97 levels.

This appendix consists of four sections designed to provide a history of Oregon's property tax system within the context of the changes of the 1990s. The first section, *Overview*, consists of a broad look at how the two ballot measures have affected the property tax system. The second section, *Property Tax Administration*, reviews how property assessment, tax calculation, and tax collection have been transformed. The third section, *Urban Renewal Agency Revenue*, describes the changes urban renewal agencies have undergone. The fourth and last section, *Tax Relief*, discusses programs to reduce tax burdens that have existed during the past twenty years.

#### Overview

One useful way to understand the recent history of the property tax system is to divide the discussion into three distinct periods: Pre-Measure 5, Measure 5, and Measure 50.

#### Pre-Measure 5

Oregon had a pure levy-based property tax system until 1991–92. Each taxing district calculated its own tax levy based on its budget needs. County assessors estimated the real market values of all property in the state. Generally speaking, the full market value of property was taxable; there was no separate definition of assessed value. The levy for each taxing district was then divided by the total real market value in the district to arrive at a district tax rate. The taxes imposed by each district equaled its tax rate multiplied by its real market value. Consequently, there was no difference between taxes imposed and tax levies under this system. Most levies were constitutionally limited to an annual growth rate of 6 percent, and levies that would increase by more than 6 percent required voter approval.

Under this system, the tax rate for an individual property depended on the combination of taxing districts from which it received services. Taxes for each property were calculated by first summing the tax rates for the relevant taxing districts to arrive at a consolidated tax rate. That tax rate was multiplied by the assessed value of the property to determine the tax imposed on that property. The annual growth in taxes on an individual property depended on a number of factors, including new or larger levies and the amount of new con-

struction within the district. For example, if new construction did not occur, and property values did not change, then any growth in levies meant taxes increased for individual properties. On the other hand, new construction within the district meant that the levies were distributed across greater value. The tax rate would fall when the value of the district increased. This growth could result in lower taxes for some individual properties.

## **Measure 5**

Measure 5 introduced limits, starting in 1991–92, on the taxes paid by individual properties. The limits of \$5 per \$1,000 real market value for school taxes and \$10 per \$1,000 real market value for general government taxes apply only to operating taxes, not bonds.<sup>2</sup> If either the school or general government taxes exceeded its limit, then each corresponding taxing district had its tax rate reduced proportionately until the tax limit was reached. This reduction in taxes to the limits is called “compression.”

Measure 5 resulted in a system that was a hybrid of levy-based and rate-based systems. For properties where the school and general government taxes were below the limits, the process resembled a levy-based system; taxes imposed depended on levies. For properties where the calculated taxes exceeded the limits, and hence the tax rates were fixed at the limits, the process more closely resembled a rate-based system; taxes imposed depended on assessed values.

## **Measure 50**

The 1997 Legislature drafted Measure 50 in response to the passage of citizens’ initiative Measure 47 in November 1996. Measure 47 would have rolled back property taxes (not assessed values) to 90 percent of the 1995–96 level for each property in the state. Measure 47 was repealed by Measure 50. This legislatively referred measure was drafted to correct a number of technical problems with Measure 47 while replicating its tax cuts.

The objective of Measure 50 was to reduce property taxes in 1997–98 and to control their future growth. It achieved these goals by cutting the 1997–98 district tax levies and by making three changes: switching to permanent rates, reducing assessed values, and limiting annual growth of assessed value.

While Measure 5 simply limited the tax rates used to calculate taxes imposed, Measure 50 changed the concepts of both assessed values and tax rates. Assessed value is no longer equal to real market value. For 1997–98, the assessed value of every property was reduced to 90 percent of its 1995–96 assessed value.<sup>3</sup> Because growth in value has not been uniform throughout the state, this change had varying impacts. Properties that had experienced the greatest value growth between 1995–96 and 1997–98 received the greatest cuts in assessed value, and consequently in taxes. For new property that did not exist in 1995–96, such as business personal property or improvements, the assessed value was calculated as a percentage of its market value.

For existing property, Measure 50 limited the annual growth in assessed value to 3 percent. This limitation made predicting future assessed values much simpler. For new property (e.g., newly constructed homes), assessed value is calculated by multiplying the new property’s real market value by the ratio of assessed value to real market value of similar property. This approach to assigning values to a new property assures that it is taxed con-

---

<sup>2</sup> The limit for school taxes was \$15 per \$1,000 assessed value in 1991–92. It was reduced by \$2.50 each year until it reached a rate of \$5 per \$1,000 assessed value in 1995–96.

<sup>3</sup> In 1995–96, assessed and real market value were equal.

sistently with similar existing properties. Measure 50 also stipulates that assessed value may not exceed real market value. As a result, if the real market value of a property falls below its assessed value, the taxable value will be set at the real market value.

Prior to Measure 50, levies were set by local governments and voters, and tax rates were the result of dividing levies by assessed value. Under Measure 50 most levies were replaced by permanent tax rates, making the permanent rates central to the property tax system. There are three types of property taxes that taxing districts may impose: taxes from the permanent rates, local option levies, and bond levies.<sup>4</sup> Only the permanent rates are fixed; they do not change from year to year. Bond levies typically are approved in terms of dollars, and the rates are calculated as the total levy divided by the assessed value in the district. Local option levies may be approved either in rate or dollar terms. If the local option levy is in dollar terms, then rates are calculated the same way as for bond levy rates.

Taxes from the permanent rates, typically referred to as operating taxes, are used to fund the general operating budgets of the taxing districts. They account for the single largest component of property taxes. Strictly speaking, the permanent rates are rate limits, so districts may use any rate up to their permanent rate.

Local option taxes represent the only way taxing districts can raise operating revenue beyond the permanent rate amount. Even so, these taxes are the first to be reduced if the Measure 5 limitations are exceeded. Because voters at the local level must approve these levies, they represent one aspect of local control over the level of property taxes. All districts, except educational service districts (ESDs), are authorized to levy local option taxes. However, community colleges cannot seek local option levies that are greater than the amount of reduction caused by Measure 50 in fiscal year 1997–98. Fiscal year 2000–01 was the first year that school districts were able to use local option levies. Measure 50 requires that local option levies, in elections other than general elections, be approved by a majority of voters with at least 50 percent of all registered voters actually voting.

Bond levies have remained largely unchanged. They are used to pay principal and interest for bonded debt. Under the provisions of Measure 50, new bond levies, like new local option levies, are subject to a 50 percent voter participation requirement if the election is not a general election.

Some taxing districts receive timber tax revenue. This revenue, known as an offset, actually reduces the amount of revenue that districts may raise from their permanent rates. Only county government districts reduce their permanent tax rates when they receive offset payments. When schools receive timber tax payments, it is in addition to what they raise through property taxes.

## **School District Replacement Revenue**

Under Measures 5 and 50, the state was required to compensate schools for losses in tax revenue due to changes in each ballot measure. In both cases, the effects of the requirements were negligible since the Legislature appropriated more than the required amount each biennium. Under Measure 5, losses from tax compression were required to be replaced through 1996, but the state was not required to continue the level of Basic School Support that it had provided to school districts prior to Measure 5. The replacement revenue requirement ended up being partially offset by reductions in other Basic School Sup-

---

<sup>4</sup> Currently, there also are gap bonds and a pension levy. Gap bonds represent debt obligations that have been funded with the operating taxes of districts. The pension levy represents an ongoing obligation the City of Portland has to its fire and police forces. Both of these eventually will become part of the permanent rate for their respective districts.

port funds that were no longer mandated. Measure 50 also contained a constitutional requirement that the Legislature replace school district revenue lost due to the Measure 5 rate limits. This requirement likewise has had a minimal effect on actual state school funding because the school revenue compression losses under Measure 50's lower tax environment have been smaller than the amount of Basic School Support provided by the Legislature.

## Property Tax Administration

The changes to the property tax system brought about by Measures 5 and 50 required significant changes in the way county governments and the state administer the tax. This section describes how property tax administration was changed by Measures 5 and 50.

### Property Assessment

The process of identifying and assigning a value to taxable property is called assessment. Most property assessment is administered by the county assessor. The Oregon Department of Revenue assesses some property, including public utilities and large industrial properties. Utility property is placed on a separate assessment roll, then transferred to the county assessment roll prior to preparation of tax bills. The Department of Revenue appraises large industrial plants, but those properties appear only on the county assessment roll.

Property subject to taxation includes all privately owned real property (land, buildings, and improvements) and business personal property (machinery, office furniture, and equipment). There is no property tax on household furnishings (exempted in 1913), personal belongings, or automobiles (exempted in 1920). These, as well as other property tax exemptions, are detailed in the State of Oregon *Tax Expenditure Report*, a companion document to the Governor's Budget.

Prior to the passage of Measure 5 in 1990, each county assessor annually prepared an assessment roll listing all taxable property as of January 1. For example, the assessed value of a property for the 1989–90 fiscal year was determined as of January 1, 1989. Through 1980, assessed value was set to market value for all classes of property. From 1980 to 1983, taxable property was divided into two categories: homestead and all other. Homestead property consisted of owner-occupied single-family residences. Property was appraised at market value but assessments were limited to 5 percent growth statewide per year for each category. Beginning in 1984–85, the distinctions of homestead and all other property were eliminated, and in 1985 the Legislature repealed the 5 percent limit on assessed value increases. Beginning with the 1985–86 tax year, all property again was assessed at 100 percent of full market value.

The legislation to implement Measure 5 made two primary changes in the assessment process. First, it changed the assessment date from January 1 to July 1, effective beginning with the 1991–92 fiscal year. Second, the new legislation set assessed value equal to "real market value," where real market value was defined as the **minimum** value the property would sell for during the year.

With Measure 50, property assessment changed dramatically. For 1997–98, the assessed value of a property was set at 90 percent of the property's 1995–96 assessed value. From 1998–99 onward, assessed value growth is limited to 3 percent per year. For new properties, assessed value is calculated by multiplying the ratio of assessed to real market value for similar property in the county by that property's real market value. For example, if the ratio of assessed to real market value for residential property in a given county is 0.8, then the

assessed value for a new house would be 80 percent of its real market value. Measure 50 also redefined real market value as the value the property would sell for in the market on the assessment date (January 1), thus abandoning the concept of minimum value during the year that was adopted under Measure 5.

### *Equalization*

The process of maintaining uniformity of values among property owners and among various classes of property is called equalization. Prior to Measure 5 taking effect, county boards of equalization heard taxpayer appeals and could adjust assessed values up or down to maintain uniformity. Boards of equalization also could adjust values for entire classes of property at the request of the county assessor, again to maintain uniformity in assessments. Measure 5 substantially reduced the authority of the county boards of equalization, and when Measure 50 took effect, the equalization process became unnecessary.

Measure 5 removed the power of the county boards of equalization to equalize values. Their sole responsibility was changed to hearing petitions for reduction of value from individual taxpayers. At the county level, it was up to assessors to maintain uniformity in values by assessing each property at its real market value. At the state level, the director of the Department of Revenue used information on sale prices and assessed values to adjust county assessment rolls, if needed, to maintain uniformity among property owners and property classes.

Under Measure 50, the mandated calculation of assessed value from a base year value with the 3 percent annual growth limit meant that equalization became unnecessary.

### *Assessment Appeals*

Appeals to reduce real market value and assessed value and to request a waiver of late filing penalties are heard by the county Boards of Property Tax Appeals (BOPTA) after tax statements are issued.

Prior to Measure 5, property was assessed as of January 1 of each year. Property owners received their assessment notices in the spring, and appeals were settled prior to computing tax rates and mailing tax bills in October.

Two features of Measure 5 required changing the appeal process. First, the assessment date was changed from January 1 to July 1. This meant that as a practical matter there was not enough time to complete the appeal process prior to mailing tax bills. The Legislature remedied this problem by combining the assessment notice and the tax bill and by providing for appeals **after** tax bills were mailed. Property owners could file appeals between October 25 to December 31 with the County Board of Equalization (BOE). Taxpayers received tax refunds if their appeals were successful.

The second Measure 5 change to the appeal process was the definition of assessed value. The assessed value was set to “real market value,” defined as the **minimum** value the property would sell for during the year. This meant that for some properties, the assessed value was not the value on the assessment date (July 1), but on some later date. To allow for adjustments to the assessed value of properties whose value declined after the assessment date, the Legislature provided for a second appeals period. Between July 15 and July 31 following the end of the tax year, property owners who thought the market value of their property declined during the tax year could appeal to the County Board of Ratio Review (BORR). If successful, taxpayers received refunds.

Measure 50 eliminated the BOE and BORR and replaced them with county Boards of Property Tax Appeals (BOPTA). The limitation placed on increases in assessed value has resulted in a large decline in the number of appeals filed at this level. With the assessment date reset to January 1, the second appeals period no longer exists and appeals must be filed between the date when tax statements are issued and December 31.

## **Tax Calculation**

Just as the assessment process changed under Measure 5 and Measure 50, so did the calculation of taxes. Measure 5 imposed tax rate limits, and Measure 50 established permanent tax rates to replace most tax levies that existed under the pre-Measure 5 and Measure 5 systems. This section describes how taxes and tax rates were calculated under the three different systems.

### *Tax Levies*

Prior to the passage of Measure 50 in 1997, tax levies played a key role in determining the amount of property taxes raised by local governments. Measure 50 required that most of the tax levies that existed previously be assigned permanent tax rates. Below we discuss the old levy system and describe how it changed under Measure 50.

Under both the pre-Measure 5 and the Measure 5 systems, tax levies played a key role in determining the amount of property tax revenue local governments received and the amount of tax imposed on each property. The process of calculating and declaring the amount of taxes to be raised from taxpayers was termed “making the levy.” Authority to levy property taxes was vested with the governing body of each local government. Each governing body determined the levy for its taxing district annually before July 15 as part of the budget process. Annual budgets for taxing districts are based on a fiscal year that begins July 1 and ends the following June 30.

Constitutional and statutory limits on the amount that a taxing district may levy were:

1. **Levy inside the 6 percent limitation (tax base levy).** A local government tax base, approved by a majority of its voters at a state general or primary election, represented a permanent authority to levy a specific dollar amount each year. That dollar amount could not exceed the highest amount levied in the three prior years in which a levy was made, **plus** 6 percent of that amount. Tax base levies could be increased in proportionate amounts for annexed territory. A taxing district was permitted to have only one tax base levy. Proceeds from the tax base levy could be expended for any purpose allowed by law for the district except general obligation bonds. Tax base levies were subject to the Measure 5 tax rate limits.
2. **Levy outside the 6 percent limitation (one-year, serial, safety net, or continuing levies).** One-year and serial levies, approved by a majority of voters at a special election, were **temporary** taxing authorities permitting the levy of a specific dollar amount for one year or for two or more years (serial levies). Safety net levies were available only to school districts and qualifying ESDs and did not require voter approval. The safety net levy was the amount needed to bring the current year’s total tax base and other levies for operating purposes up to the amount of the prior year’s total levy for operating purposes.<sup>5</sup> Continuing levies were those approved by voters prior to 1953. They were permanent and were limited in amount by the product of the voted tax rate and the assessed value of the taxing district (as opposed to a limit on the levy amount). Starting in 1978, serial levies also could be established using a specified voter ap-

---

<sup>5</sup> Levies for operating purposes did not include levies for payment of bonded debt, capital construction, or serial levies approved for more than three years (ORS 328.715).

proved tax rate, but the term could not exceed three years. These were sometimes referred to as “rate levies.” The 1989 Legislature (Oregon Laws Chapter 658) increased the limit on fixed-dollar serial levies from three to five years for operating purposes and 10 years for any other purposes. All one-year, serial, safety net, and continuing levies were subject to the Measure 5 tax rate limits.

3. **Levy for bonded indebtedness (bond and interest levy).** Taxing districts could levy an amount sufficient to pay principal and interest for bonded debt each year. Bond measures to be paid from future tax levies first had to be approved by a majority of those voting, unless otherwise provided by law. Proceeds from a bond levy could not be diverted to another purpose. Bond levies used for capital construction were not subject to the Measure 5 tax rate limits.

Measure 50 converted most of the levies imposed under the pre-Measure 5 and Measure 5 systems to a permanent tax rate. Tax base levies, one-year levies, serial levies, safety net levies, and continuing levies all became part of the permanent rate created by Measure 50. In addition, Measure 50 created a new type of levy known as a local option levy. Local option levies are operating levies that can be passed by local governments to raise revenue beyond the permanent rate amounts. The original Measure 50 language did not allow school districts or ESDs to use local option levies. However, legislation passed in 1999 enabled school districts to use local option levies starting in 2000–01. Levies for bonded indebtedness remain in essentially the same form as prior to Measure 50. Taxes from permanent rates and from local option levies are subject to the Measure 5 rate limits, but taxes from bond levies remain exempt from limits.

### *Tax Rates*

Measure 50 replaced most tax levies with permanent tax rates. Therefore, the exercise of setting tax rates remains only for local option levies, bond levies, and urban renewal special levies. Under Measure 50, the county assessor computes tax rates for local option levies, bond levies, and urban renewal special levies, then adds those rates to the permanent rates to compute the total rate to be extended to a property. The tax extended to a property is the total tax rate times the assessed value of the property.

Under the pre-Measure 5 and Measure 5 systems, the county assessor extended authorized levies and computed district tax rates for each taxing district. District tax rates were expressed as a dollar amount per \$1,000 of assessed value and were computed by dividing total taxes levied by the total assessed value inside the taxing district boundaries. The total tax extended to a property was the sum of the district tax rates times the assessed value of the property. Under Measure 5, if the tax extended to the property exceeded the Measure 5 limits, the tax going to each local government was reduced proportionally until the limit was reached.

When Measure 50 first took effect in the 1997–98 tax year, permanent tax rates were calculated based on a complicated formula that took into account several factors. These included: a) the amount of taxes that would have been raised in 1997–98 under Measure 47, b) the levies that existed under the Measure 5 system, c) the tax cut required by Measure 50, and d) a variety of special provisions that exempted certain types of levies from the Measure 50 cuts and reduced the amount of the tax cuts for districts with rapid assessed value growth due to new construction.

### *Property Tax Compression*

Compression is the process used to reduce property taxes to the Measure 5 limits. Prior to Measure 5, compression did not exist. Reductions in taxes due to compression are the dif-

ference between what taxing districts wish to raise through property taxes (tax extended) and the amount they actually raise (tax imposed).

Measure 5 introduced limits, phased in between 1991–92 and 1995–96, on the taxes paid by individual properties. The limits are \$5 per \$1,000 real market value for school taxes and \$10 per \$1,000 real market value for general government taxes. These limits are applied only to operating taxes, not bonds. For each property, the assessor compares education taxes with the education limit and other governmental taxes with the general government limit. If property taxes exceed the Measure 5 limits, then taxes are compressed in a specific order. First, local option taxes are reduced, possibly to zero. If there are no local option taxes or they have been reduced to zero, the tax rates from the permanent tax rates for each taxing district are reduced proportionately.<sup>6</sup>

It is important to note that while property tax rates under Measure 50 are applied to a property's **assessed value**, the Measure 5 rate limits apply to **real market value**. Prior to Measure 50, this distinction was unnecessary because assessed value equaled real market value. While the Measure 5 limits still apply under Measure 50, the effect of the Measure 5 limits is minimal for most properties because Measure 50 substantially reduced property taxes.

## Tax Collection

Once the tax rates and Measure 5 tax rate limits are applied to each property, the assessor certifies the assessment roll and turns it over to the tax collector. The tax collector bills and collects all taxes and makes periodic remittances of collections to taxing districts. Tax statements mailed to property owners list the assessed value of property and the taxes extended by each taxing district. They also indicate how much is inside and how much is outside the Measure 5 property tax limits and the amount of taxes actually due after the limits have been applied.

Taxes are levied and become a lien on property on July 1. Tax payments are due November 15 of the same calendar year. Under the partial payment schedule, the first one-third of taxes are due November 15, the second one-third on February 15, and the remaining one-third on May 15. A discount of 3 percent is allowed if full payment is made by November 15; a 2 percent discount is allowed for a two-thirds payment made by November 15. For late payments, interest accrues at a rate of 1.33 percent per month. If taxes remain unpaid after three years from the tax-due date, counties initiate property foreclosure proceedings.

## Urban Renewal Agency Revenue

In Oregon, urban renewal agencies receive the bulk of their revenues through a tax increment financing mechanism. When an urban renewal plan is created, the value of the property within its boundaries is locked in time, or frozen, at the amount calculated from the last certified tax roll prior to the plan's approval. The agency then raises revenue in subsequent years from any value growth above the frozen amount; this value growth is referred to as the increment. The tax rate used to calculate taxes imposed for the urban renewal plan is the consolidated tax rate for the taxing districts within the geographic boundaries of the plan. These urban renewal taxes, referred to as "tax off the increment," are calculated as the consolidated tax rate times the value of the increment.

---

<sup>6</sup> Gap bonds and pension levies are reduced also, if present.

## **Pre-Measure 5**

Prior to Measure 5, urban renewal agencies received taxes that would have been imposed by each taxing district on the excess value of property within each urban renewal plan area (an agency can have more than one plan area). Technically, only the properties within the urban renewal plan area paid taxes to the urban renewal agency. However, in effect all taxpayers in taxing districts overlapping the plan area paid urban renewal taxes because the removal of urban renewal excess value from the tax rate calculation caused tax rates to be slightly higher for everyone in the taxing district.

## **Measure 5**

The legislation passed to implement Measure 5 made a number of changes to tax increment financing in urban renewal areas to avoid potential inequities among taxpayers. If the Measure 5 tax limits had been imposed under the old urban renewal system where only properties inside the plan areas paid urban renewal taxes, those properties could have paid taxes that were dramatically different from surrounding properties' taxes. If an agency used its revenue to finance bonds outside the limits, the properties in the plan area could pay far higher taxes than similar properties outside the plan area. Likewise, if the agency used the revenue for non-bond purposes, then properties inside the plan area would have relatively more of their taxes subject to the Measure 5 rate limits and could pay far lower taxes than similar properties outside the plan area.

The Legislature attempted to remedy this problem by spreading urban renewal taxes over all properties inside the urban renewal agency's boundary for taxing districts overlapping urban renewal plan areas. Urban renewal taxes appeared separately on tax statements, just like those of each taxing district.

In 1992, tax increment financing in urban renewal areas was changed again. The Oregon Supreme Court ruled that all revenue collected by an urban renewal agency to pay for bonds is inside Measure 5 rate limits and hence subject to the general government limit. This has had a substantial effect on urban renewal agencies, because a large percentage of their revenues are used to pay for bonds.

## **Measure 50: 1997–98 to 2001–02**

Measure 50 returned the structure of urban renewal financing to much the same form it had prior to Measure 5, with one exception. Urban renewal agencies do not have permanent rates and continued to raise revenue primarily through tax increment financing, but under certain circumstances, urban renewal agencies were allowed to raise additional revenue, beyond what they raised off their increment, via special levies. Starting in 1997–98, if an existing urban renewal plan received less revenue off its increment under Measure 50 than what it would have received under the pre-Measure 50 tax system, the agency could impose a special levy to make up the difference. The special levy is imposed on all properties within the boundaries of the urban renewal **agency** (either a city or a county), not just on properties in the **plan area**. New plan areas (established after 1996) receive tax increment financing revenue only; the agency may not impose a special levy for new plan areas.

## **Measure 50: After 2001-02**

Two substantial changes took effect in 2002–03. One was a result of new legislation in the 2001 session (HB 3215). This established that certain plan areas could not divide taxes from local option or bond levies that were passed by voters after October 6, 2001. These plan areas are either option 1 or option 2 plans (see Glossary), or are new plans that were

adopted after October 6, 2001. All other plan areas adopted before October 6, 2001, divide taxes from local option and bond levies like in the past, without regard to when the levies are approved by voters.

The second change that is new beginning with the 2002–03 year is that a court case (Shilo Inn vs. Multnomah County) clarified that all urban renewal revenues must be considered in the general government category for the purpose of meeting the constitutional tax limitations, regardless of what type of district was the source of the division of tax revenue. Previously, the tax reduction to meet the constitutional limitations was calculated based on the type of district the division of tax came from. If a school district had faced division of tax, the amount of tax divided for urban renewal was reduced with the other education category taxes at the \$5 per thousand limit. The court case changed this so that now the division of tax from the school district would be grouped with all other general government revenue for testing against the \$10 per thousand general government limit.

In order to accommodate both the legislative change and the court decision, the division of tax calculation reverted to some extent back to the method used under Measure 5 before 1997–98, where division of tax was spread across the urban renewal agency. The excess value within each plan area in the district and the district billing rate determines the amount of urban renewal revenue from division of tax. This amount is divided by the value of property that is both within the agency and within the district (shared value) to determine the division of tax rate. The district billing rate is reduced by the division of tax rate for taxpayers in the area of shared value. All revenues from the division of tax rate are considered general government revenues for the purpose of meeting the constitutional tax limitations.

The net effect of these changes will vary by taxpayer, but education districts in urban renewal agency areas will tend to have less revenue lost to the constitutional limitations than before, and general government districts in those areas will tend to see more revenue lost to the constitutional limitations than before.

## **Tax Relief**

During the past 20 years the Legislature has created six property tax relief programs. Currently, only two of these programs exist: the Elderly Rental Assistance (ERA) and Homestead Deferral programs. The Homestead Deferral programs include three components: property tax deferral programs for seniors (62 years and older) and disabled homeowners, and a special assessment deferral program for seniors.

In 1973 the Legislature enacted the Homeowner and Renter Refund program (HARRP) to provide tax relief to low- and middle-income Oregonians. The program was modified in 1989 and phased out in 1991. While it existed, the program provided property tax refunds to households based on income levels and property taxes paid (for renters, 17 percent of rent was considered to be property tax), up to specified maximum refund amounts. The refunds were initially available to households with incomes less than \$17,500. Starting in 1989, the Legislature restricted HARRP refunds to households with non-housing assets less than \$25,000. The maximum refund amounts increased as income declined. For homeowners, the maximum refund for the lowest income category was \$750, declining to \$0 as income exceeded \$17,500. The maximum refund amounts for renters were one-half of those for homeowners. The 1991 Legislature phased out HARRP, making the 1990 tax year the last year for refunds. For 1990, the household income limit was reduced to \$10,000; the maximum refund was reduced to \$500 for homeowners, \$250 for renters.

The Elderly Rental Assistance program (ERA) was a companion to HARRP that continued after HARRP was eliminated. It provides tax relief to elderly renters whose rent, fuel, and

utility expenses are large in relation to their income. Starting in 1975, ERA refunds were available to persons at least 58 years of age with incomes less than \$5,000. If rent, fuel, and utility expenses exceeded 40 percent of household income, renters would receive an ERA refund instead of a HARRP refund if the ERA amount was higher. In 1990, with the phase-out of HARRP, the income threshold for ERA was raised to \$10,000, and the rent, fuel, and utility expense threshold was reduced to 20 percent of income.

Homeowners 62 years of age or older who meet certain income requirements are able to defer all property taxes. Under the Senior Citizen's Deferral program, the state pays the property taxes of participants and charges the homeowner 6 percent interest on the deferred amount. Homeowners are not required to pay the taxes or interest to the state until they die or sell their homes. Income eligibility requirements have changed multiple times over the course of the program. For the 2002–03 tax year, the program was open to seniors with household incomes of less than \$32,000 (an increase from \$27,500 in 2001–02). Once approved, senior citizens are eligible for the deferral in years when their federal adjusted gross income for the prior year does not exceed an amount that is adjusted for inflation each year (\$32,000 in 2002–03).

A similar program, the Senior Citizen's Special Assessment Deferral program, allows qualifying seniors to defer their special assessment charges for public improvements (e.g. sewer or sidewalk improvement charges). This program also had an increase in the qualifying income limit take effect for 2002–03. The limit increased from \$17,500 to \$32,000, and the limit will adjust for inflation in future years.

The third Homestead Deferral program, the Disabled Citizen's Property Tax Deferral program, began in 2001 for fiscal year 2001–02, and is similar to the Senior Citizen's Deferral program in that the same income limits apply and property taxes are deferred at 6 percent interest. However, this program is for disabled homeowners who are eligible for or receive Social Security disability benefits and are younger than 62.

Direct tax relief was granted to homestead property owners in maximum amounts of \$800 in 1980–81, \$425 in 1981–82, \$192 in 1982–83, \$170 in 1983–84 and 1984–85, and \$100 in 1985–86. (The maximum amount granted to renters was 50 percent of the homeowner maximum.) This property tax relief program (PTR) was repealed by the 1985 Legislature (1985 Oregon Laws Chapter 784, Section 10).

The 1983 Legislature enacted a tax rate freeze effective 1984 through 1986. The law specified the maximum tax rate that could be imposed by a taxing district. The maximum rate was the highest of one of four factors: 1) the net rate in 1981, 1982, or 1983; 2) the rate necessary to raise the tax base for the first levy made by the taxing district; 3) a temporary rate limit approved by the voters for not more than three years; or 4) a levy adjusted for an assessed value growth below 5 percent or a major decrease in non-ad valorem tax revenue.

The 1989 Legislature passed legislation to reduce the property taxes of high-rate, low-spending school districts. The program, commonly referred to as targeted tax relief, provided relief in two ways. First, it set a target tax rate, then provided offsets sufficient to bring each qualifying school district's tax rate down to the target rate. Second, it gave outright grants to school districts with high rates and low spending. These grants did not offset property taxes, so they represented added revenue for school districts. The 1991 Legislature eliminated the targeted tax relief program.

## Southwestern Oregon Community College

### Mission Fulfillment 2010-11

Southwestern's Mission was adopted by the Board on January 25, 2010:

Southwestern Oregon Community College serves the educational and cultural needs of our students and communities by providing access to quality education in a professional and engaging environment which supports innovation, sustainability and lifelong enrichment. Learning experiences are characterized by excellent teaching, support for student achievement and the enhancement of social and economic opportunities.

The institutional level success indicators measured in 2010-11 and subsequent data were used for the first time to determine mission fulfillment based on the new accreditation standards of and our core theme objectives. Southwestern has defined mission fulfillment based on an established threshold:

*The College will meet established targets for 70% of Institutional Level Success Indicators*

We achieved Mission Fulfillment with 71% (7.76 out of 11) of Success Indicator targets met or exceeded.

Core Theme	Indicators Measured 2010-11	Indicators Achieved 2010-11	Percentage Achieved
Access (SI 1, 2, 3, and 5)	4	.84	21%
Learning and Achievement (SI 5, 7, and 12)	3 (1 duplicate)	1.92	64%
Innovation and Sustainability (SI 15, 16, 17, and 23)	4	4	100%
Community Engagement (SI 3 and 22A)	2 (1 duplicate)	1.14 (.14 duplicate)	57%
<b>Mission Fulfillment Achievement</b>	<b>11</b>	<b>7.76</b>	<b>71%</b>

In 2010-11 there were 11 success indicators that were scheduled for measurement and included in the calculation of mission fulfillment (SI: 1, 2, 3, 5, 7, 15, 16, 17, 20, 22A, and 23). Success Indicator 3 is used as a measure in the Access and the Community Engagement core themes while SI 5 is used as a measure in the Access and the Learning and Achievement core themes. The mission fulfillment achievement calculation includes achievement of SI 3 *once* in the percentage achieved rate. Only a portion of the Learning and Achievement measure for SI 5 was achieved and therefore not duplicated in the mission fulfillment achievement rate. There were eight success indicators that were scheduled to have baseline data gathered and targets set for future years or were not scheduled for measurement given the cycle of administration of the indicator (SI: 4, 6, 8, 9, 14, 13, 18, 19), therefore, these indicators were not included in the calculation of mission fulfillment. The same holds true for SI 22 as baseline data was

collected and targets set in 2010-11. Success Indicator 26 was not included in the calculation of mission fulfillment as no survey responses were received from which to determine achievement of the indicator.

The Core Theme Objectives for Innovation and Sustainability were achieved at a rate of 100%. It is evident that the focus on fiscal stability led to achievement of the financial-related success indicators. The prudent approach to fiscal management and the commitment of faculty and staff to operate within the financial constraints the college has faced over the last five years has led to an ending fund balance that exceeded the target for 2010-11.

The Learning and Achievement core theme achieved a 64% rate (1.92 out of 3) based on the three indicators that were measured. For the first objective, *students achieve their academic goals* (LA1), one indicator had an achievement rate of 20% (.2 out of 1). The second objective, *curriculum for academic courses and programs is relevant and current* (LA2), had an achievement rate of 100% (1 out of 1). The third objective, *students achieve course, program, and institutional learning outcomes* (LA3), had an achievement rate of 72% (.72 out of 1). The CCSSE and SENSE indicators used to measure the first objective must be revisited to determine an appropriate method to define achievement of each of the indicators. As noted previously within Chapters One and Four, it is critical that instructional leaders and faculty develop appropriate indicators to measure achievement of the Learning and Achievement Core Theme.

Within the Community Engagement core theme there were two indicators measured resulting in a 57% (1.14 out of 2) achievement rate. Both indicators support the Core Theme Objective of *community engagement in diverse activities and events* (CE2). The other objective (CE1) included measures that yielded no results or had baseline figures determined in 2010-11. The Community Engagement Core Theme achievement fell below the expected Mission Fulfillment threshold although the achievement rate was affected by the exclusion of data from SI 26. The normal rate of return on data collected for SI 26 in the past has shown a 100% satisfaction rating demonstrating that this indicator is normally achieved. Based on the trend data from SI 26, had the indicator been included in the calculation of mission fulfillment, the Core Theme achievement rate would have been 71% (2.14 out of 3) and the Mission Fulfillment achievement rate would have been 73% (8.76 out of 12). Further development of relevant and meaningful indicators associated with this core theme will take place over the next year.

The Access core theme had an achievement rate of 21% (.84 out of 4). The first objective is *access to multiple learning opportunities* (A1) with an achievement rate of 28% (.84 out of 3). The second objective, *support services for students and community* (A2), was not achieved. The CCSSE and SENSE indicators used to measure the second core theme objective must be revisited to determine an appropriate method to define achievement of each of the indicators. This core theme achieved the lowest rate as the data collected to measure three of the four indicators relies on enrollment and FTE figures. Over time, the trend has been for the College to achieve steady growth of enrollments of 3% to 5% per year that also generally leads to steady growth of FTE. These indicators will be revisited with the intent to develop one comprehensive indicator that yields meaningful data.

SI #	Success Indicator	Core Theme	Strategic Plan Goal	2010 Target	2010 Achievement	Achievement Status
1	<b>FTE Credit and Non-Credit Report</b> Percentage increase over prior year by demographic status Total FTE Reimbursable FTE Full Time FTE Part Time FTE Program Area FTE	Access	Goal 1	3% 3427 3352 2031 788 3%	1.6% 3390 3330 1926 <b>820</b> NC	<i>Partially Achieved</i> <b>Only the part-time FTE target was met</b> <b>(.20 met – 1 of 5)</b>

## Mission Fulfillment

The Institutional Effectiveness All College Success Indicators are maintained by the Institutional Researcher and is inclusive of the Institutional Level Success Indicators used to demonstrate Mission Fulfillment. Assessment of the indicators is documented in academic and administrative unit reviews, enrollment plans, campus master plans, Board of Education presentations and posted on the College website. The President, Vice President of Administrative Services, and Executive Director of Integrated Technical Services reviewed the Institutional Level Success Indicators and proposed to the Planning Council an acceptable threshold of Mission Fulfillment, which was approved on January 26, 2011:

### Mission Fulfillment Threshold

*The College will meet established targets for 70% of Institutional Level Success Indicators.*

Southwestern demonstrates achievement of Mission Fulfillment by successfully meeting the Objectives of our Core Themes. To ensure itself and the public that Southwestern is meeting its goals and fulfilling its Mission, the College monitors the Institutional Level Success Indicators for each of the Core Theme Objectives. Core Themes are mapped to individual Institutional Level Success Indicators and reviewed each year for applicability, annual target levels, and with consideration of new or the deletion of an indicator or measure. All success indicators are assessable and meaningful to the College whether at an institutional level, reporting unit level, or unit level. The Institutional Effectiveness All College Success Indicators were used to identify the Institutional Level Success Indicators used to demonstrate Mission Fulfillment and the effectiveness of the College. Each Core Theme Objective is measured against a baseline figure established in the 2009-10 academic year and then annual targets were set for each success indicator.

### Accreditation Requirement:

1.A.2 *The institution defines mission fulfillment in the context of its purpose, characteristics, and expectations. Guided by that definition, it articulates institutional accomplishments or outcomes that represent an acceptable threshold or extent of mission fulfillment.*
