

skills and introduction to discipline courses) that are common among Oregon's colleges and universities. Courses are selected from an approved list of 100 and 200 level general education requirements, determined by each Oregon community college, Oregon public university, or participating Oregon independent college or university. It is designed to improve student access to a college degree by enhancing opportunities for the transfer of credits earned at one community college or Oregon university campus to another public college or university.

Any student completing an OTM who conforms to the guidelines below will have met the requirements for the OTM at any Oregon community college or Oregon public university. Upon transfer, the receiving institution may specify additional coursework that is required for a major, for degree requirements, or to make up the difference between the OTM and the institution's total general education requirements.

The OTM includes coursework chosen from the courses approved for the categories below by the institution issuing the credit. In the case of community colleges, these are courses approved for the AA/OT degree; in the case of universities and four-year colleges, they are courses approved for the general education portion of a baccalaureate degree.

## GRADUATION REQUIREMENTS

Complete a minimum of 45 credit hours and all courses must be passed with a grade of 'C' or better. Students must have a minimum cumulative GPA of 2.0 at the time the OTM is awarded. One (1) course must be completed at Southwestern before the OTM degree is awarded.

Complete elective courses to reach a total of 45 credits. The courses must be numbered 100 or above. Complete the graduation application process one term prior to the term of completion (e.g., spring term graduates must apply during winter term).

## PROGRAM NOTES

1. Courses that are designed to prepare students for college-level work are not applicable to the transfer module.
2. When choosing courses in science and mathematics, students and advisors should check the specific requirements at receiving schools. Courses that include a laboratory component, or that deal with specific subjects, may be required for majors or degrees.
3. Computer Science courses used in the Math/Science/Computer Science area must meet Oregon Council of Computer Chairs criteria for a science course.
4. In Arts and Letters, the second year of a foreign language may be included, but not the first year. American Sign Language (ASL) is considered a foreign language.
5. All Oregon community colleges and OUS institutions will offer students the opportunity to complete an OTM and the OTM designation will be posted on the transcript by the issuing institution upon request. Regionally accredited private colleges and universities within the state are also welcome to offer and issue transfer modules, which will be accepted at any Oregon public college or university.
6. OTM credits may not match program requirements in the receiving school. The OTM supplements, but does not supplant existing articulation agreements and does not replace effective advising.
