FEES

It is the Administrative procedure of the Southwestern Oregon Community College District that fees will be assessed according to the schedule that follows. Fees will be automatically adjusted by inflation using the July-to-July change in the consumer price index (Portland CPI-U), rounded to the nearest dollar. Fees may be adjusted at any time to reflect the actual cost of supplies and parts used by the student to produce or repair a project which the student owns or will have possession of when the course is completed, or for classes, activities or services for which a fee is charged the College.

The administration will review the actual cost of supplies and parts prior to the January Board of Education meeting to determine if the automatic inflation adjustment will be sufficient to cover the actual cost of supplies and/or parts. A copy of the revised fee schedule will be forwarded to the Board of Education for review during the January Board of Education meeting. The College administration will notify the Board of Education of any fee or fees adjusted above the annual inflationary adjustment.
