ADMINISTRATIVE PROCEDURE

Southwestern Oregon Community College

AP 6045 TUITION AND FEES

It is the Administrative policy of the Southwestern Oregon Community College District that tuition shall be assessed for each credit hour of enrollment in credit courses. It is also the Administrative procedure that fees will be assessed for programs and services provided by the College. The tuition and fees are included in the schedule that follows.

Tuition and fees shall be adjusted annually for inflation by the Higher Education Price Index (HEPI) or the U.S. Department of Labor Consumer Price Index (CPI) rounded to the nearest dollar. The administration will review the actual cost of programs, courses, services, and supplies during the annual budget planning cycle to determine if the automatic inflation adjustment will be sufficient to cover the actual costs or if additional adjustments will be necessary.

If necessary, fees may also be adjusted at any time to reflect the actual cost of supplies and parts used by the student to produce or repair a project which the student owns or will have possession of when the course is completed, or for classes, activities or services for which a fee is charged by the College.

A copy of the revised tuition and fee schedule will be forwarded to the Board of Education for review during the regularly scheduled Board of Education meeting. The College administration will notify the Board of Education of any adjustments to tuition and fees above the annual inflationary index. An inflation adjustment to tuition and fees does not prevent the Board of Education from considering and approving other changes to tuition and the fee schedule.
